

Building the Best Buffet Ever...

RISE TO THE OCCASION!

Wood embossed stainless steel risers that hide wear and tear, and nest inside each other for optimal storage options. Our risers combine beautifully with wood, metals, and of course any porcelain serving dish. Having three heights lets you create an architectural appeal to complete your buffet set-up.

Stately elevation pieces that are undersized versions of some of our most beautiful side tables. Sturdy, solid and perfect to mix and match with wood and ceramics for a fascinating rustic look.
