

INSTALLATION INSTRUCTIONS

Read and save these instructions

Important

The product must be installed by a qualified electrician.

Caution

Before starting the installation, disconnect the power by turning off the circuit breaker or by removing the fuse at the fuse box. Turning off the power with the On/Off light switch is not enough to prevent electrical shock.

Assembly and Installation

1. Unscrew the front panel of the luminaire and install the bulb. (Not included)..
2. Connect the house circuit wires to the luminaire wires using the block connector (included) attached to the power cord.

Neutral (Blue)

Earth (yellow-green wire)

Live (Brown)

3. Mount the luminaire screen in the selected place by using the 2 provided screws.
4. Install the front panel to the luminaire screen with the screws.
5. Restore the electric power and your luminaire will be ready to work.
