

Wooden bathtub Maintenance and limited warranty instructions

INSTALLATION INSTRUCTIONS:

No installation instructions are required for wood bathtubs! This wooden bathtub is easy to move, and installation could not be simpler. Simply place it in your desired location and connect the drain.

Regular use:

Wooden bathtubs are designed for regular use. We recommend using them 2-3 times per week. Frequent use ensures the bathtub maintains proper moisture levels, preventing the wood from cracking or splitting due to drying.

Note: If you plan to not use your bathtub for more than one month, fill it completely with water and let it soak for at least 48 hours before your next use to restore the wood's moisture content.

DRAINING INSTRUCTIONS:

After each use, fully open the bathtub drain valve to empty all water.

CLEANING:

This tub does not require special cleaning products.

Do NOT use harsh chemicals.

Do: Wipe gently with a soft towel or rinse with water.

Always clean after use to preserve the finish.

Troubleshooting:

If leaks occur or the steel hoops loosen after initial use or prolonged storage:

Close the drain valve.

Fill the bathtub completely with fresh water.

Soak for 48-72+ hours to allow the wood to rehydrate and self-seal. For indoor use only. Keep out of direct sunlight and safely away from any fireplaces.

USAGE WARNINGS:

For indoor use only.

Avoid direct sunlight and heat sources (e.g., fireplaces).

LIMITED WARRANTY:

This product is covered by a 1-year limited warranty.
