RESET Setting	Method 1: Press and hold “^” and “V” buttons on the handset at the same time for 4 seconds, it shows “000”, until you hear the beep release the buttons. The desk will go down slowly automatically (it will have a rebound and rise about 5cm) until it shows “69” and you hear the beep, the reset is successful.
Height Adjustment	Up: Press Up “^” . Down: Press Down “V” .
Switch Display	Press 2 times “V” when the desk at the lowest position to switch cm to inch.
Memory Height	Press and hold any of memory buttons (1, 2, 3 or 4) until you hear a beep. Release the button, and this position height will be stored in memory. When the working height of memory needs to be used, press the memory position button and the desk will automatically adjust to the memory height. Note: This standing desk has 4 different height memories. The memory positions stored are still valid after power off. You can use the up and down buttons to adjust the standing desk to the height you need to work.

Trouble shooting Guide:

If your standing desk does not work properly, you may need to reset it.

If any error codes appear, you need to reset it.

If it still does not work after the reset, please contact us for more help.

Maintenance and Consideration:

1. During daily maintenance, use a clean soft cloth to remove surface dust. Do not use a wet cloth or hard material to wipe the surface of the table.
2. Avoid contacting the surface with acid-based chemicals.
3. For slight scratches, gently wipe with a soft cloth, you can smooth out scratches. Avoid attaching tape directly to the outer surface of the metal feet to prevent paint from peeling.
