### How to Install Your Wall Decals

To install your decal, first take the product out of the package. Then carefully peel each decal from the sheet. Position and smooth onto surface. To remove or reposition, slowly peel off the surface and reapply to the new desired position.

For best results, apply onto smooth and clean surfaces. DO NOT apply onto freshly painted or papered walls and let paint or wallpaper dry for at least three weeks. May not work on heavily textured surfaces. Test in an inconspicuous area before applying to wallpaper or other delicate surfaces. Keep decorations away from cribs and out of reach of young children to prevent choking hazard.
