# Assembly Instructions

### Important Safety Instructions & Warnings

Please read all instructions carefully before starting installation

We strongly recommend installation by a licensed electrician.

Make sure the electricity to the wires you are working with is shut off. The fuse is removed or circuit breaker is turned off. Simply turning the power off to the light switch is not sufficient to prevent electrical shock.

OFF

Before discarding the carton double check the packaging to make sure all parts has been found.

This fixture was designed to be mounted to an octagon outlet box. The box must be securely mounted to the structure of the building.

For your safety and convenience assembly by two people is recommended.

( INDOOR INSTALLATION ONLY )

**STEP 1** Feed wire through central pole, jute rope circle, chain, loop ring, canopy, and mounting plate, fasten central pole on wiring box and jute rope circle.

**STEP 2** Secure the jute circle with top circle of wood bead together by screws.

**STEP 3** Attach the mounting plate to the outlet box.

**STEP 4** Connect fixture ground wire to outlet box ground wire (usually green or copper color) by using wire nut or connect both ground wires to green screw on the mounting plate and secure them together.

**STEP 5** Connect the fixture neutral wire(white) to outlet box neutral wire(usually white). Fasten both wires together with a wire nut and tightly wrap the wire nut with electrical tape.

**STEP 6** Repeat the previous step with the hot wire(black). Make sure there are no exposed wires or strands that could cause a dangerous short circuit.

**STEP 7** Slide the canopy and loop ring up and secure the canopy to the ceiling.

**STEP 8** Screw the short central pole under the wiring box, then secure it with bottom plate of wood bead by ball nut.

**STEP 9** Install the bulb(not included), adjust the bulbs upward.

**STEP 10** Restore power to the circuit at breaker or fuse-box.
