1

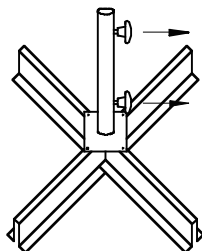

1. Place the upper cross leg (D) over the lower cross leg (C) to form a “+”.

2

2. Attach the holder pole(B) to the “+” base tightened with the screws and washers (E).

3

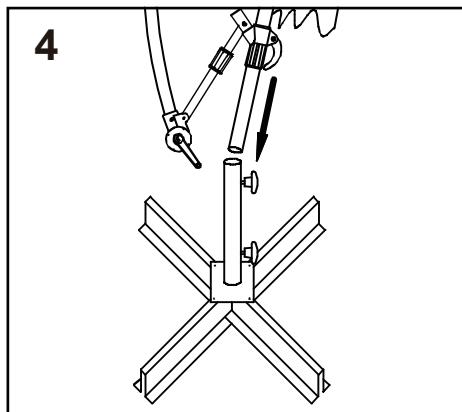

3. Unscrew the two thumbscrews on the holder pole (B).

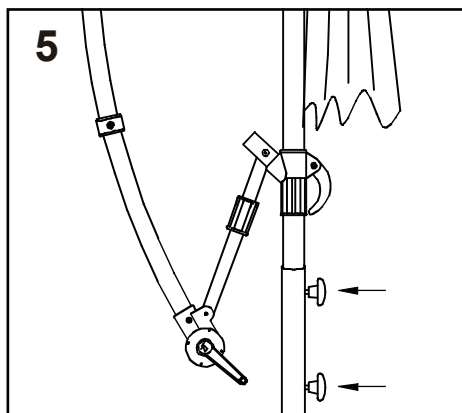

Reminder: Please place patio stones on all four sides of the base cross legs to make the base secure and solid. (Patio stones are not included in this package) The recommended size and weight for each stone.

Square : 18.7 x 18.7 inches, 66lbs

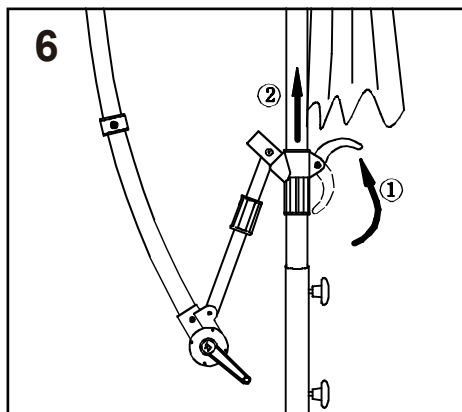

Triangle: 18.7 x 18.7 x 26.5 inches, 33lbs

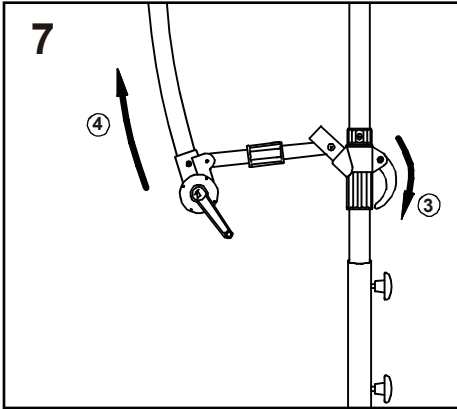

4. Insert the pole of umbrella frame (A) into the assembled base with holder pole.

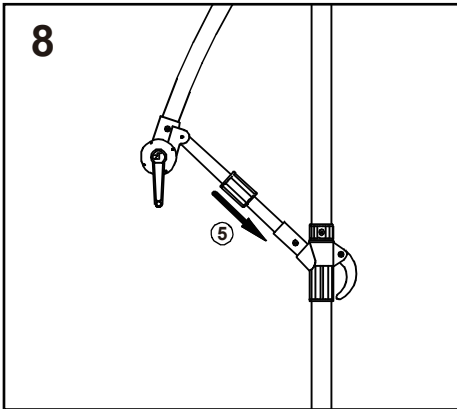

5. Tighten the two thumbscrews.

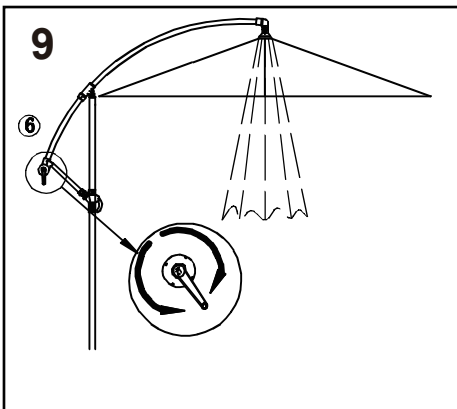

6. Pull out and raise the lever clamp and then push the pole in an upwards position.

7. Push down the lever clamp and lift the side arm.

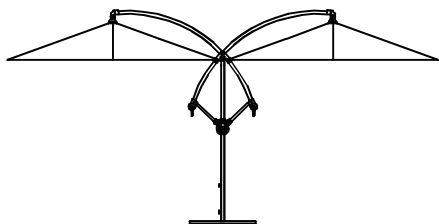

8. Move down the slide bushing to fix the support arm. Make sure the slide bushing is locked in the secure position to support and stabilize the side arm.

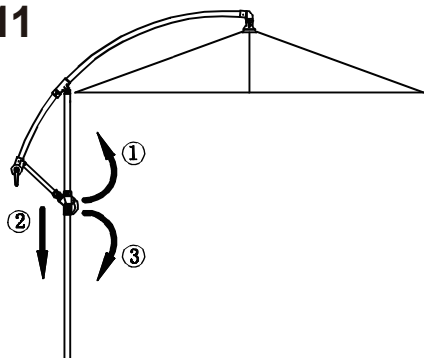

9. Turn the crank handle clockwise in the up direction to open the canopy fully. When cranking, if you feel resistance and the umbrella is not opening, do not force the crank. Spread the umbrella ribs with your hands then continue to crank.

10

10. Unscrew the two thumbscrews to turn the pole for the umbrella's 360-degree rotation adjustment.

11

11. To storage the umbrella, please close the canopy first, and then pull out the lever clamp, release the slide bushing , pull down the support arm and push down the lever clamp.
