Care and Maintenance Advice.

- Use a soft, dry cloth to gently dust the lamp's metal (aluminium) and PVC surfaces regularly. This prevents the accumulation of dirt and maintains its appearance.
- More stubborn marks can be removed using a damp (not wet). Wipe the item dry using a lint free cloth.
- After wiping down the dirt, dust and any residue left behind check for damage, broken or missing pieces.
- DO NOT use detergents, abrasive cleaning products or cleaning products that contain ammonia, solvents, or silicone as these may damage the surface of the item.
- Keep the lamp away from areas with excessive humidity or moisture to prevent potential damage to the electrical components.
- Dispose of all packaging carefully and responsibly at your local recycling plant.
- If you plan to store the table lamp for an extended period, consider placing a protective cover to prevent dust buildup and potential damage.

SPECIFICATIONS

Material:	Metal, Aluminium, PVC
Finish Type:	Painted Matt Black
Colour:	Black
Light Source:	LED Integrated (SMD)
Wattage:	12 Watts (equivalent to 60W incandescent bulb)
Brightness / Beam Angle:	1150 Lumens / 110°
Colour Temperature:	3000K (Warm white)
Colour Rendering Index (CRI):	> 80
LED Lifespan:	25,000 Hours
Energy Efficiency Rating:	E
Power Source:	LED Driver: BS plug-in Input: AC 220V – 240V ~ 50 / 60 Hz Output: DC 24V / 0.5A
Switch Type:	One - Touch button (On / Off) Fade in / Fade out functionality (Dimmable)
Dimming Function:	Stepless dimming from 10%-100% brightness with a long press on the switch
Protection Class:	Class III (operated with a low voltage - full protection against electric shock)
Waterproof Grade (IP Rating):	IP20 (Protected against solid objects over 12mm, e.g., fingers – Not protected from liquids)
Dimensions:	Height: 32.5 cm Diameter (base): 12 cm

Product Description

This Loop Integrated LED Table Lamp is a harmonious blend of artistry, trendiness, and minimalist design that will elevate your space with both illumination and aesthetic appeal. Powered by advanced LED Integrated (SMD) technology, this lamp offers optimal energy efficiency while emitting a remarkable 12 Watts of power, equivalent to a traditional 60W incandescent bulb. Its brightness of 1,400 Lumens, coupled with a broad 110° beam angle, ensures ample coverage, illuminating your space effectively.

Featuring a Colour Rendering Index (CRI) exceeding 80, it accurately represents colors, enhancing your visual experience. The One-Touch button switch provides easy operation for turning the lamp On and Off. The lamp's innovative Fade in / Fade out functionality and stepless dimming from 10% to 100% brightness are accessed via a long press on the switch, adding a unique touch to its functionality. With dimensions of 32.5 cm in height and a base diameter of 12 cm, it effortlessly fits into various spaces, making it a versatile lighting solution for your environment.
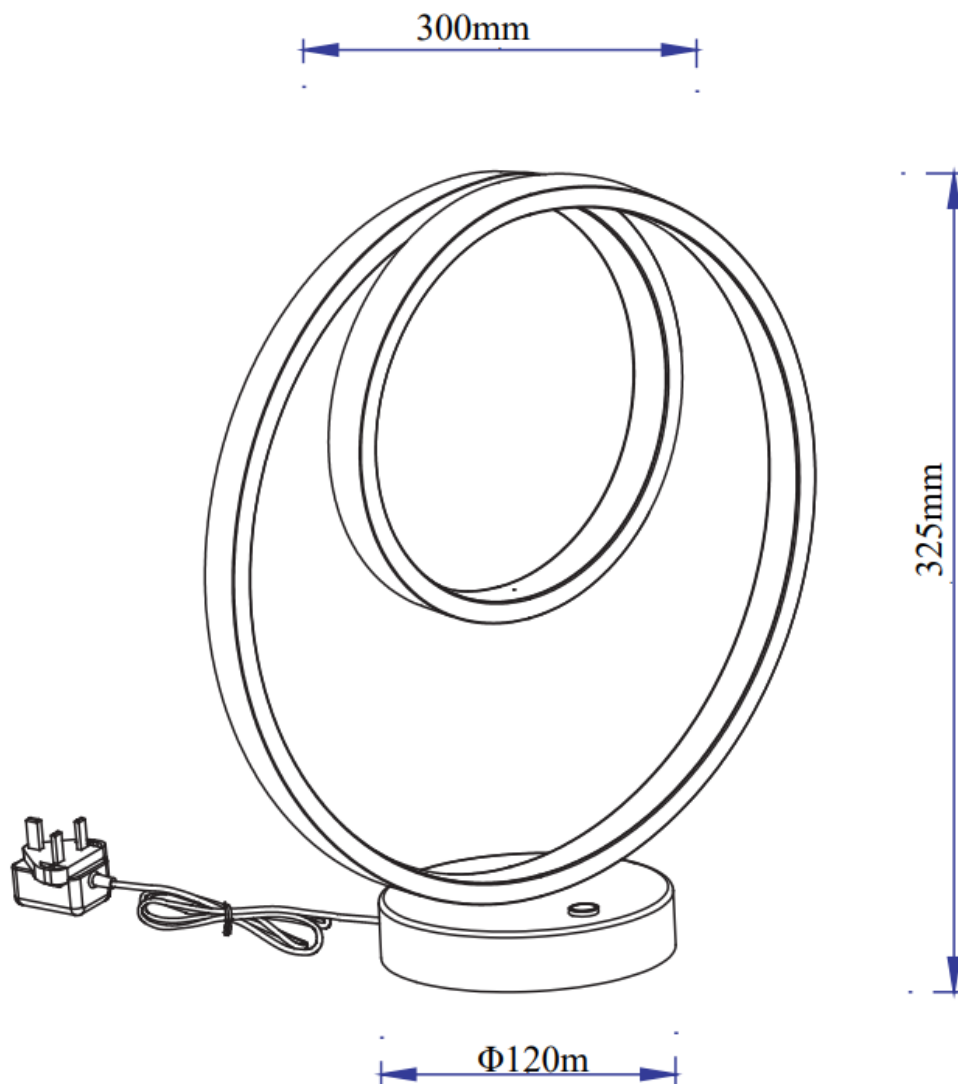

SET UP:
Unpack all components onto a flat surface that will not damage them or allow them to become dirty. Check that all components are correct and present. Familiarize yourself with the product, its component parts and how it is assembled. Plug the power supply (LED Driver - transformer) into an electrical socket. Activate the Table Lamp by touching the On / Off switch located on the base. For convenient nighttime visibility, the switch incorporates a built-in blue indicator light. Touch the switch (long press) to cycle through light dim settings. Keep all packaging until after a successful installation and retain the instructions for future reference.

SAFETY AND POSITION:
- Do not modify or alter the product before or after installation. This will invalidate your warranty and may render the product unsafe.
- This is a Class III product. It operates at a low-voltage level - no risk of electrical shock to the user.
- Switch off when not in use.
- The LEDs (SMD) are not replaceable.
- Check the plug (transformer) and cable for any signs of wear, fraying, or damage. If you notice any issues, discontinue use and replace these components promptly to ensure safety.
- Ensure the plug (transformer) is securely connected to a compatible power source. Avoid overloading electrical outlets and use surge protectors if necessary.
- Place the lamp on a stable and level surface to prevent accidental tipping. Keep it away from flammable materials and areas where it could be knocked over.
- If you encounter any technical issues or concerns about the lamp's performance, consult a professional technician or the manufacturer for guidance.
- **Indoor use only**.
