Enclosed you will find everything needed for the assembly and use of your utensil bar. Two people make assembly and installation easier. The parts and hardware included are:

### Hardware included:

- 2 - 1 3/8" Hex head Wood Screws
- 1 – Hex key
- 1 – Toggle Kit

### Components included:

- 1 - Utensil Bar
- 6 – Straight Pot Hooks

## INSTALLATION INSTRUCTIONS

- 1) Locate the mounting holes on the back tabs of the bar. Hold the bar against the wall in its desired location, mark the holes. Make sure you locate your wall studs if you want to mount into solid wood. You may not be able to mount both ends to a wall stud as they are typically spaced at 16". You may want to make sure that the rack is level.
- 2) We recommend that you anchor your rack into the wall studs. Carefully measure the area where the rack is to be hung and install the wood screws directly into the wall studs. If it is not convenient to hang your rack directly into wall studs you may use the included DRYWALL anchors enclosed with your rack. See Toggler® brand manufacturer recommendations for weight limits included in the instructions in the Toggler kit.

**WARNING:** It is important that your utensil bar is assembled correctly. If the unit is assembled or used incorrectly, it could become unstable and collapse, possibly causing injury.
