## Auburn Small Fire Pit Glass

Without doubt, one of the most beautiful times of the year is autumn! And one of the things that makes autumn so lovely is the brilliant reds, yellows and auburns of the leaves. There is nothing like walking through the park on a cool fall morning, enjoying the beautiful auburn trees and feeling the crunch of the leaves under your shoes. But why do those feelings have to be confined only to the fall season? With our brilliant auburn fire pit glass, your customers can recreate those autumn feelings in their own backyard to enjoy every day of the year!

Made from recycled glass, these exquisite small auburn fire pit glass pieces are 1/4 to 1/2 inch in size and when bunched together, they really are reminiscent of the leaves of the fall season. Exclusively designed for outdoor fire pits, when the fire feature is lit the glass gleams and reflects the fire while the flames appear to dance above, creating a mesmerizing display and delighting all onlookers.

### **Not Just for Beautifying Fire Pits!**

Even if your customers don't own a fire pit, they can still use this lovely fire pit glass to beautify their outdoor environment. It can be used in gardens for landscaping, near water features, or even in aquariums! Your customers can even mix the auburn fire pit glass with other shades in order to create their own unique display!

### **Practical, Safe & Long Lasting!**

Our auburn fire pit glass is not just pretty to look at, but also very practical! It does a great job of covering the entire bottom surface of a fire feature, hiding those unseemly pipes and tubes that are often visible in gas fire pits. This makes it a very desirable alternative to the usual ceramic logs and fire stones.

All of our fire pit glass is designed to withstand extreme temperatures without any damage or

discoloration. Used correctly, this amazing product could last your customers a lifetime!

Another big advantage of fire pit glass is that it does not emit any smoke, soot, or harmful chemicals, thus it is very easy to maintain!

If your customers enjoy the fall season, they are sure to love our auburn small fire pit glass!
