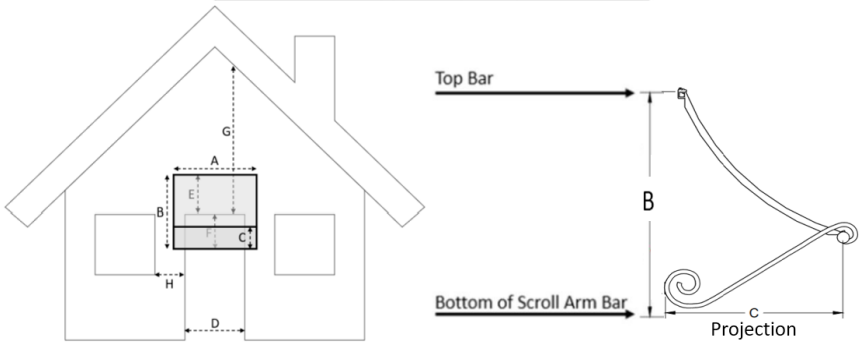
Charleston

Please see the measuring guide below. Note the measurements from bracket to bracket will be 1 inch larger than the top bar and fabric width. This awning can ONLY have a custom width.

** The height includes 6", 7" or 8" valance depending on the style and size.

Total Awning Height X Projections (IN)	Frame Height (IN)	Valance Height (IN)
18x12	12	6
18x36	18	7
24x24	24	7
24x36	24	7
44x24	36	8
44x36	36	8
56x36	48	8



MEASURING GUIDE

Example in Diagram Above: NEW YORKER

LABEL	LABEL DESCRIPTION	CONSIDERATIONS
A	Awning Width	Every awning is 4.5" wider than the window/door size it is representing. This is for mounting purposes. Example: a 3' New Yorker is actually 40.5" wide.
B	Awning Total Height	Height measurements include valance in the measurements for all awnings.
C	Awning Height: Valance Only	
D	Door Width	
E	Required Mounting Space	4" minimum mounting space required above window or in-swinging door
F	Awning Drop	0" minimum drop over out-swinging door (for awnings less than 3' projection).
		Except for entries with out-swinging doors, the drop is a personal preference. The greater the drop, the more energy savings, but less interior light.
G	Overhead Clearance	Overhead clearance is restricted by the roof line.
H	Obstruction Distance	Width can be restricted by the proximity of obstructions, such as windows, lights, sconces, etc.
