Solar Lantern Light User Manual

Note

1: Please make sure you turn on the light before charging.
2: Charge the solar lantern light under direct sunshine at least 8 hours before using it for the first time.
3: In cloudy weather or winter, charging time may be longer and working time may be shorter, which is normal for solar lamps and should not be considered as quality problem.
4: If there is water inside of the lamp shade after raining, please don't worry, it is a normal phenomenon. Simply place it in direct sunlight, then it will disappear.
