

H2Wise®+ | K-33604

Smart water leak detection system

Features

- Automatic shut-off with internal valve in event of catastrophic leak. Can also be controlled remotely through KOHLER H2Wise® app or manually using a local switch or screwdriver
- Installs on your main water line by recommended professional
- 24/7 leak detection continuously tracks water flow across plumbing lines in your home to help identify leaks and uncover opportunities for water conservation
- Advanced leak detection with high-definition pressure sensors analyzes water pressure 240 times/second, enabling rapid detection of leaks, bursts, and irregular usage patterns to prevent costly damage
- Freeze detection and prevention technology sends early freeze warnings to protect your pipes from freezing temperatures
- Provides real-time alerts via KOHLER H2Wise® app using instant email, text, and in-app notifications
- In-app support for multiple units will manage up to six devices under a single account for streamlined control and monitoring
- Box includes: KOHLER H2Wise®+ device, 12' (3657 mm) power cord
- Google, Google Home, and Google Play are trademarks of Google LLC
