ASSEMBLY INSTRUCTION FOR SHELF

1. Matters needing attention

Be sure to use the proper screws to avoid damaging the parts

Wrong screws can cause the plank to crack

The right screw is the right size

2. Matters needing attention

perfect

state 1

Flawed

state 2

If you encounter "state 2" during the installation process, please loosen the corresponding screws of each part in time, adjust slowly, and then slowly tighten all the screws after the adjustment is completed.

ASSEMBLY INSTRUCTION FOR SHELF

Matters needing attention

- (1) When installing the screws in the installation step, the screws do not need to be tightened.
After this installation step is confirmed and the holes are aligned, then tighten all the screws.
- (2) If the screws are tightened during the installation process, it will cause problems such as misalignment of the screw holes and misalignment of the board in subsequent installations.

example

Note that if you find that there are no plastic granules on the wooden block, the table cannot be assembled, please don't worry, please use the spare plastic granules in the screw bag
