

Acrylic Wine Holder

For best results when cleaning acrylic surfaces, we recommend that you use a lint-free soft cloth and acrylic cleaner. Avoid using paper towels. Do not use window cleaner or any other alcohol or ammonia-based products, as they may cloud the surface of your wine holder.

INSTALLATION:

1. Mount the wine holder to a wall using the provided screws. Screws should pass through a wall stud for maximum stability. If mounting to a hollow wall, be sure to use anchors appropriate to the weight you plan to support (approx. 25-30 pounds for holder and 8 full wine bottles).
