General Guidelines

- Please read the following instructions carefully and use the product accordingly.
- Please keep this manual and hand it over when you transfer the product.
- This summary may not include every detail of all variations and considered steps. Please contact us when further information and help are needed.

Notes

- The product is intended for indoor use only. The product must be assembled and used in accordance with the provisions of the manual. Personal injury and / or damage to the product may occur if products are used outside of their intended purposes and/or if products have been changed/modified from their original design.
- The seller does not assume any responsibility or liability with respect to any injury/damage caused by incorrect assembly or improper use.
- Avoid long-term exposure to humid environments to prevent mildew.
- Keep the product away from fire sources and high temperatures. Do not expose the product to direct sunlight.
- Do not place any hot objects on the surface of the product.
- If there are any defective or missing parts after unpacking, please cease assembly immediately and contact us.
- Please assemble the item on a spacious surface and do not place the unwrapped product directly on the ground to avoid product damage.
- Please do not stand or sit on the wooden boards.
- Please wear gloves during the assembly and/or disassembly process to avoid scratches from any sharp edges.
- Please match the corresponding part and fitting based on the part number in the manual.
- If the part does not match with the fitting, please check the piece as specified in this manual.
- During assembly, first loosely align all screws with the corresponding pre-drilled holes and then tighten the screws one by one.
- Periodically inspect screw tightness while the product is in use. If necessary, retighten to ensure structural integrity.
- If you accidentally spill water or another liquid on the surface, immediately wipe clean with a dry towel.
- Please keep the product away from sharp, pointed objects and corrosive substances to prevent product damage.
- Please place this item on level, solid ground during use.

Warnings

- During assembly, keep all small parts out of the reach of children. It may be fatal if swallowed or inhaled.
- Children should not climb or play on the product in order to avoid tipping over the furniture and causing serious injury.
- To avoid the potential dangers of suffocation, please keep all parts and packaging (film, plastic bags, foam, etc.) away from babies and children.
- Keep sharp objects and corrosive items away from the product to avoid any damage or injury.
- Do not shake or move violently during use to avoid tipping over the product.

1

Note the front and back sides of tubes 7 and 8, with the iron plates pointing upwards.

2

3

Note the steps for tubes 4 and 5 are the same.

Make sure the top surfaces of tubes 9 and 10 are aligned with tubes 4 and 5.

4

Please tighten the screws to 80% first, and tighten all screws 100% after all parts are assembled.

5

Note the foam side of tube 11 is facing upwards.

6

7

All screws are tightened 100%

8

Pay attention to the hole position of the enlarged position to determine the left and right direction of the plate.

This diagram shows an exploded view of a mechanical assembly. A circular dashed line encloses a vertical plate (callout 2) and a diagonal plate (callout 3). To the left of this circle are two screws (callout E) and a rectangular plate (callout G). Dashed lines indicate the assembly alignment: the screws E are positioned to pass through the rectangular plate G and then through the vertical plate 2. The rectangular plate G is also aligned with the diagonal plate 3.

【Attention】

After completing all installation steps, ensure each screw is fully tightened.
If any screw is loose, tighten it completely.
