# Assembly Instruction for Outdoor Storage Shed

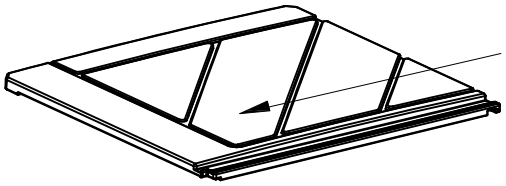

# TOOLS FOR ASSEMBLY

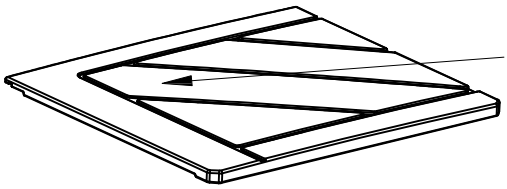

| | | | | | |
|---|---|---|---|---|---|
| Safety Gloves |  | Step Ladder |  | Torpedo Level |  |
| Cordless Drill (Recommended) NOTE: Do not overtighten the screws. This may strip the plastic. |  | Driver Bit |  | Phillips Screwdriver |  |

Using proper flatwork technique, be sure the base foundation is level in two directions.

Tighten screws with Wrench.

STEP12

Be careful when picking up and assembling the modular backboard; make sure to lift and support it properly to avoid it breaking in the middle.
