网片有2种类型，1种是带4个圆锥筒的，一种是带2个圆锥筒的
建议把这俩算成2种配件，区分开，以防止客户误会
可以按照A1, A2命名，后面相应位置需要修改配件编码

配侧挂钩啊
配一个倒是也行

Warning:

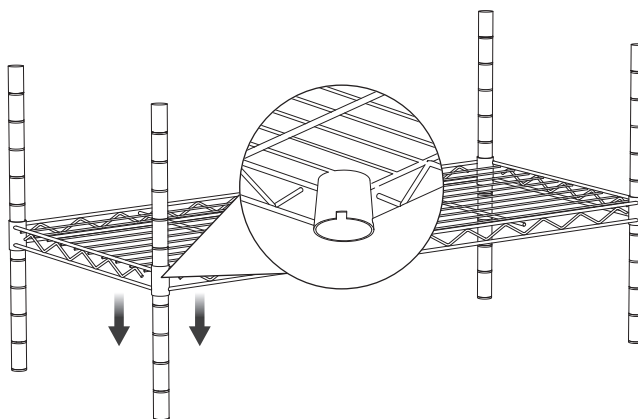

1. When installed, there will be a small part of the clip left outside, which will not completely coincide with the shelf hole. After placing a heavy object, it will become tighter and tighter.

2. Gaps between plastic clips: structural design rather than a quality flaw, which makes the shelf anchored firmly.

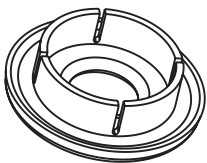

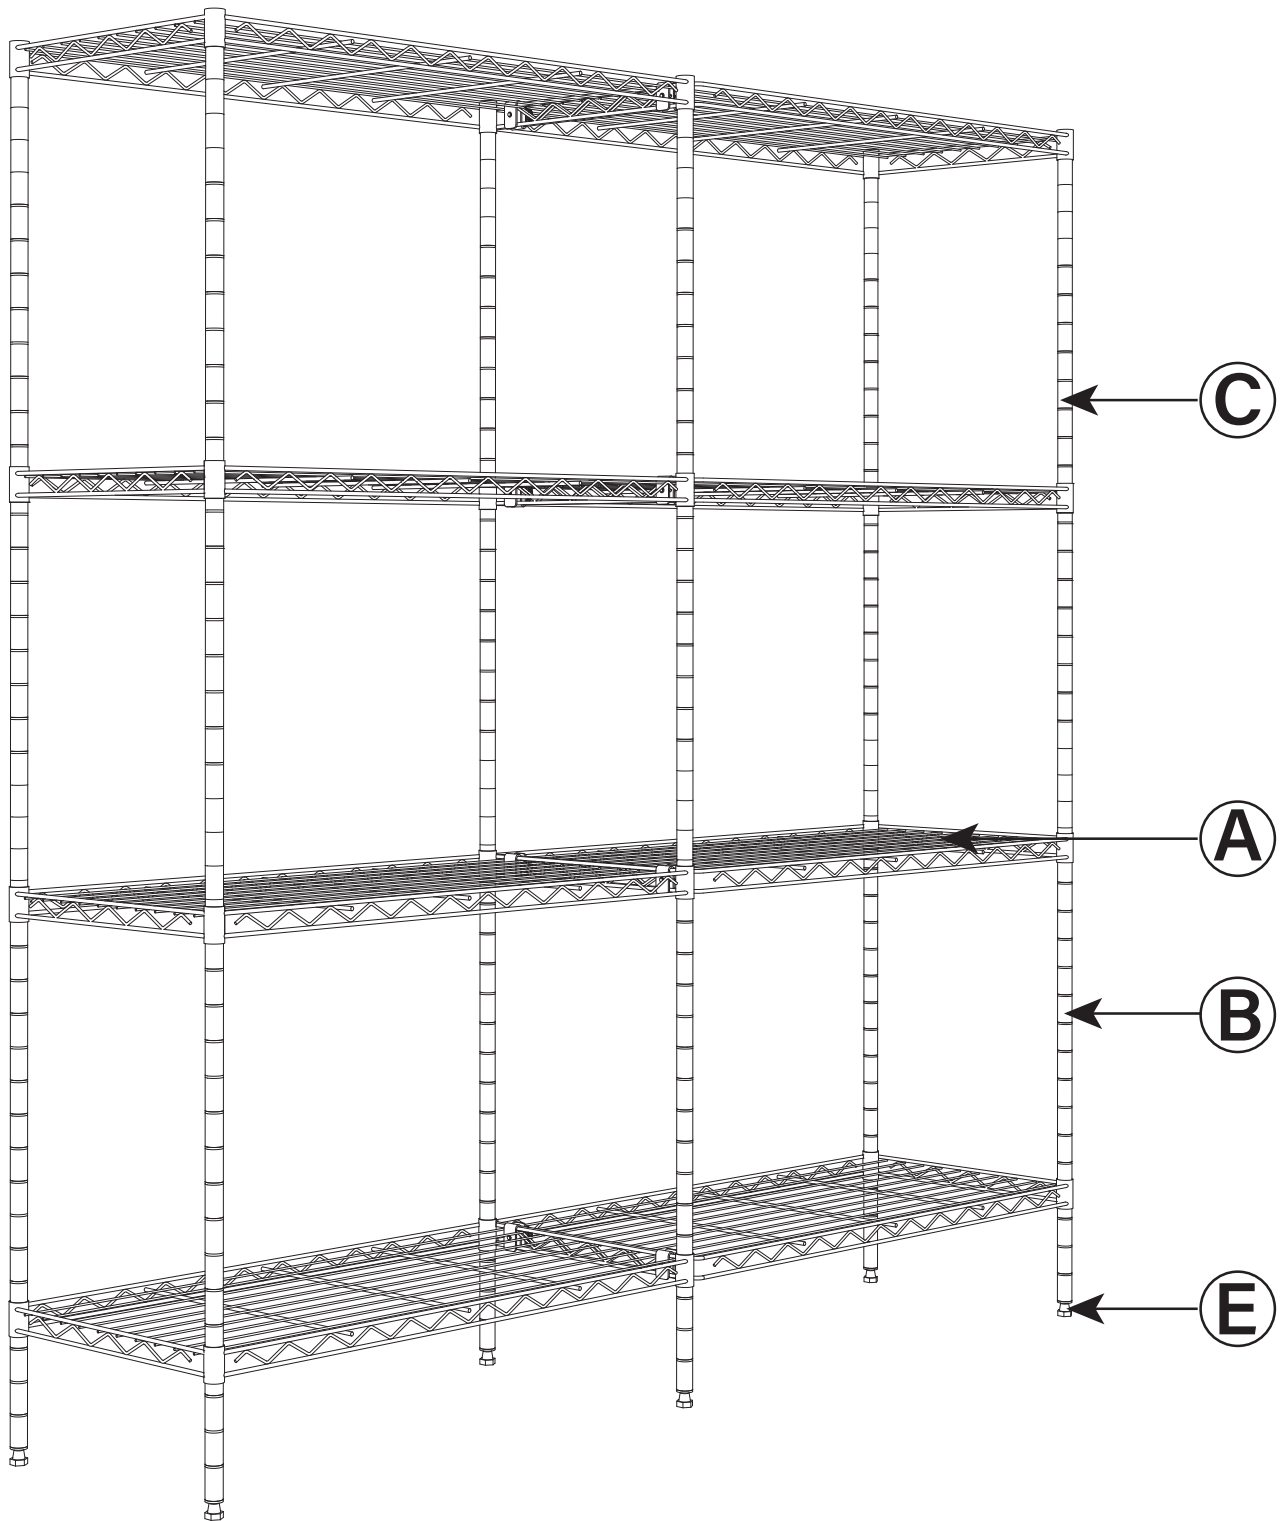

3. The end with a notch is downward, which is designed to help determine the direction of the wire shelf. At the same time, according to the text and indication signs on the shelf and clips, you can confirm the correct installation steps.
