STEP 3: After the support legs are securely fastened, place a side rail, face down, on a clean surface, then carefully place a drawer unit, face down, in the opening of the side rail, aligning the attachment holes. Using the small bolts and allen wrench, attach the drawer unit to the side rail. Do this for both units.

STEP 4: After both side rails have been attached to the drawer units, place each drawer unit upright (standing on the support legs), attach the footboard and backboard to the side rails using the hook attachments (please note: the attachment bolts on either end of the footboard and backboard can be loosened and tightened with the allen wrench FIG.1).
