

ASSEMBLY INSTRUCTION

TYPE A

TYPE B

Disclaimer

To Valued Customers:

Thank you for purchasing furniture products from our store. To ensure your safety and the best user experience, please read and understand all the contents of this notice carefully before installation and use. Once you start installing or using this product, it is deemed that you have accepted all the following terms.

I. Regarding Installation

● **Professional Installation Recommendation:** For large, modular, or wall-mounted furniture, we strongly recommend that you hire qualified professionals for installation. Self-installation may involve risks.

● **Self-Installation Liability:** If you choose to install the product yourself, it means that you confirm you have the corresponding installation capability and voluntarily assume all risks and responsibilities arising from improper installation, including personal injury and property damage. Improper installation includes, but is not limited to, damage to product components due to ignoring installation instructions during the installation process, loose, missing, or wrong installation of connectors, and obvious instability such as tilting and shaking due to improper placement after installation.

● **Follow Official Instructions:** Installation must strictly follow the steps in the Installation Manual and diagrams provided with the product. Do not rely on any installation guidance from unofficial channels. Our company shall not be responsible for any problems caused by failure to follow official instructions.

● **Safe Installation Environment:** Please carry out the installation in a spacious, bright, and well-ventilated environment and use appropriate tools. During installation, please keep children and pets away from the work area to prevent accidental ingestion of small parts or accidental injuries.

II. Regarding Usage

● **Weight Capacity Limit:** Please strictly comply with the maximum weight capacity limit indicated on the product. Overloading may cause structural damage, deformation, or overturning of the furniture, leading to serious accidents. Our company shall not be responsible for any consequences arising therefrom.

●**Wall Mounting (Mandatory Requirement):** To prevent furniture overturning accidents, especially when there are children at home, you must use the anti-tip devices provided in the product package to permanently connect and fix the furniture to a solid wall. If the fixing devices are damaged or substandard, please contact us immediately through the purchasing platform to obtain replacement parts.

Special Warning: The fixing method must fully comply with the requirements in the manual. Failure to fix as required may cause the furniture to overturn, resulting in serious injury or death. Our company shall not be responsible for any furniture overturning and all consequences caused by failure to perform wall mounting or improper fixing.

●**Regular Inspection and Maintenance:** It is recommended that you regularly (especially in the early stage of installation and after moving) inspect and tighten all connectors (screws, bolts, etc.) to ensure the structural stability of the furniture (see the maintenance method in the manual for details). Problems caused by neglect of inspection and maintenance are not covered by the warranty.

●**Proper Use and Placement:**

Place the furniture on a flat and solid floor.

Do not use the furniture for purposes other than its designed use (for example, standing on drawers or shelves, using a chair as a ladder, etc.).

Do not place heavy objects such as televisions or items that attract children on the upper part of the furniture.

Avoid placing the furniture in humid, sun-exposed, or extreme temperature environments to avoid affecting the product's service life or structural stability.

III. Liability Limitation

Our company provides warranty services for product quality in compliance with platform policies and relevant regulations. However, our company shall not be legally responsible for any direct or indirect personal injury, property damage, and other incidental losses caused by the following reasons:

Failure to comply with the requirements of this notice, the official Installation Manual , or product labels;

Misuse, abuse, negligence, or unauthorized repair or modification without our company's authorization;

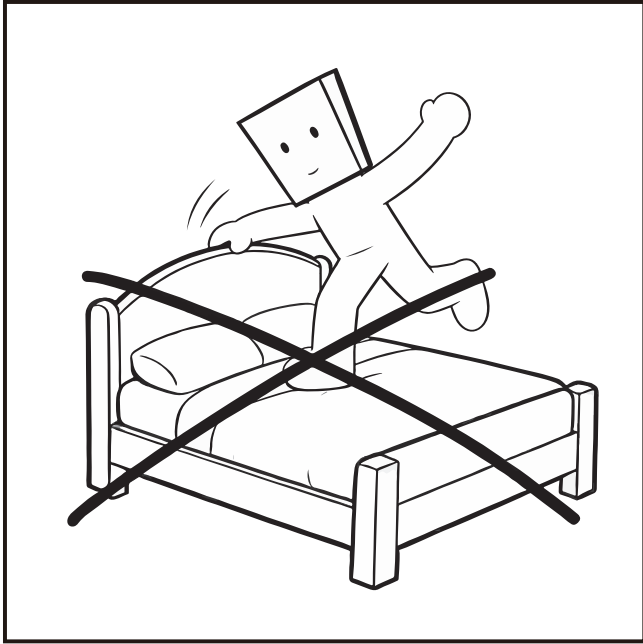

Improper installation (whether carried out by the user or a third party not designated by our company);

Force majeure events.

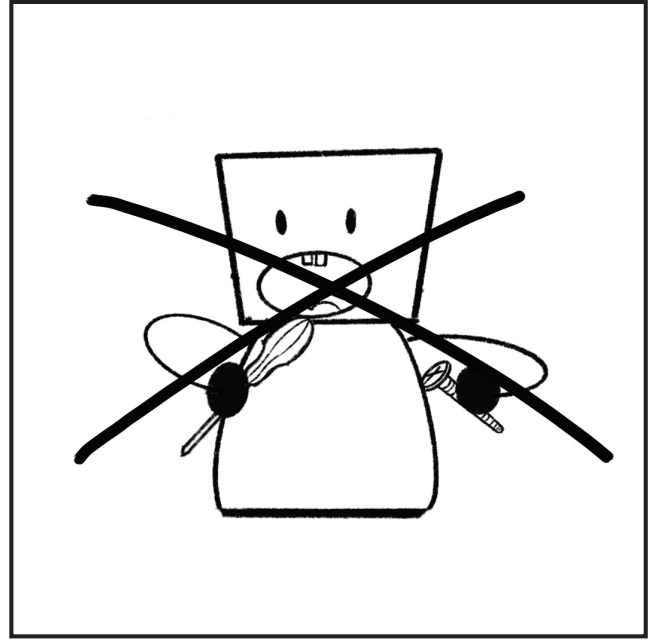

Safety first, prevention is better than cure. We wish you a pleasant use!

Children should use this product only with adult supervision.

DO NOT CLIMB OR HANG

DO NOT PLAY WITH OR SWALLOW SMALL PARTS

Weight Capacity:

–**Do not** place items exceeding the maximum weight capacity of the product. (For the product's weight capacity, please refer to the product link.)

Usage Scenarios and Maintenance Methods

- **Do not** place the product in a humid environment.
- Avoid direct exposure to high temperatures and keep it away from heat sources.
- Clean and maintain the product regularly.
- Place it on a flat surface. When moving is required, ensure that at least two people lift it together.
- Check the condition of screws regularly. If any screws are loose or fall off, reinforce them promptly.

Electrical Safety Precautions

- **Do not** use damaged power plugs or loose power sockets.
- **Do not** move the product by pulling the power cord.
- **Do not** forcibly bend the power cord or place it under heavy objects.
- If the power socket is wet, carefully unplug the product's power plug.
- **Do not** touch the power plug with wet hands.
- Unplug the product's power plug before maintenance.
- For electrical products not in use for an extended period, ensure the power supply is disconnected.

Steel–wood products

Preparation before Installation

–Please read the assembly instructions carefully before installation and keep this manual for future reference. Check that all components are complete, including panels, hardware fittings, screws, plastic parts and other small components.

Ensure that **only adults** perform the installation, and keep children away from the installation area.

Instructions for Use

(1) Install in accordance with the instruction manual or professional guidance to ensure that screws, connectors, and other components are securely fastened. Make sure the support points are evenly in contact with the ground; if not, adjust the adjustable feet to level the product.

(2) Place items stably. Heavier items should be placed at the bottom (layer) to avoid instability and tipping due to an unbalanced center of gravity.

(3) Avoid prolonged exposure to direct sunlight or humid environments to prevent aging or mildew.

(4) **Do not** place heavy objects exceeding the product's load – bearing capacity, so as to avoid deformation and sagging of the wooden boards, which may affect the service life of the product.

(5) Regularly clean dust and stains on the surface to maintain hygiene.

(6) Suitable anti – collision corners can be installed to prevent children from being injured by sharp parts. This product is not a children's furniture. When children use this product, they should be accompanied and supervised by adults to ensure safe use. Adults and children are prohibited from climbing on it. It is forbidden to use the product as a support or stand on it for high – altitude operations.

Notes

- Steel–wood furniture is prone to moisture and rust, so it should avoid long–term contact with water or exposure to light and humid environments.
- Keep away from corrosive substances and avoid contact with corrosive chemicals such as acids and alkalis to prevent damage to the surface coating.
- High–temperature or frozen items should be placed on the furniture after being padded with heat–resistant mats; heavy or hard items should be placed on the tabletop after being padded with soft decorative tablecloths or felt pads for protection.
- Keep away from high temperatures and fire sources: It should be kept away from high temperatures, open flames or heat sources to prevent fires.
- Pay attention to the load–bearing range of the product and avoid over–loading.
- Secondary drilling on metal parts is not recommended, as it will damage the internal structural strength.
- It is recommended to replace the product under the following circumstances: large–area rust or deformation of the base material, loose connection parts after multiple repairs, and significant decline in load–bearing capacity.
- Strictly use anti–tipping components in accordance with the instructions.
- It is strictly forbidden to violently open or close the doors and drawers of the furniture. When in use, appropriate force should be applied to avoid loose connections.
- When moving the furniture, items in the cabinet and drawers should be taken out, and movable parts such as doors and drawers should be fixed to prevent the furniture from tilting and parts from sliding off and causing injury. Do not drag or push hard during moving to avoid loose connectors and broken parts. The product needs to be lifted off the ground by multiple people at the same time, and attention should be paid to safety during moving.

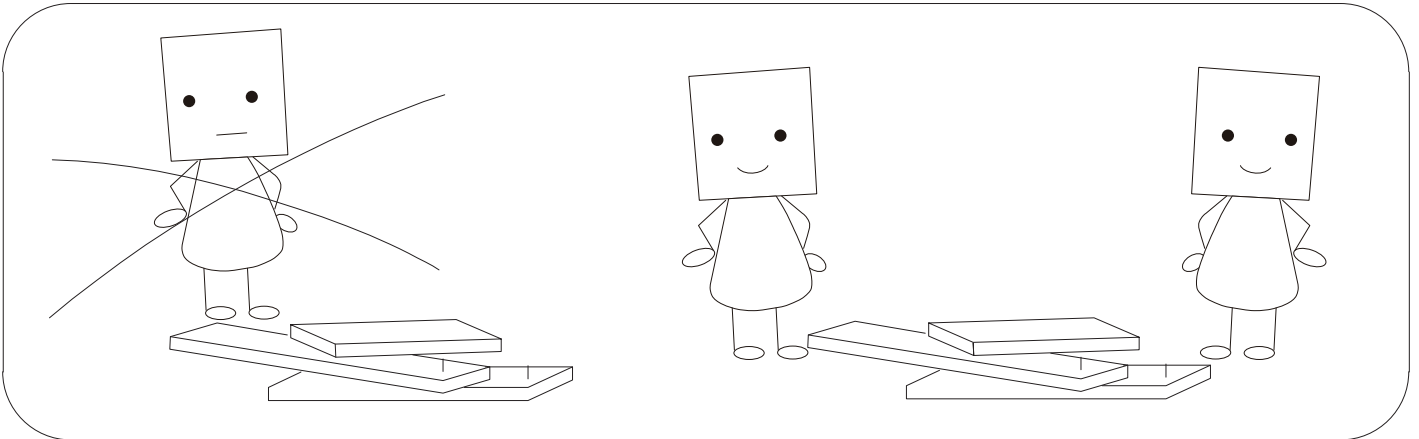

Maintenance Methods

- (1) Local cleaning: In case of stains, immediately pat and gently rub with a clean damp cloth, wiping from the edge to the center to prevent the stain from spreading.
- (2) Deep cleaning: Perform deep cleaning once every six months or a year. You can use professional cleaning services or special cleaners.
- (3) Use protective covers: Consider using protective covers for easy cleaning and replacement, which helps extend the product's service life.
- (4) Keep away from heat sources: Maintain a distance of at least 1 meter from heat sources such as radiators, heaters, and fireplaces, as high temperatures can damage the fibers of the textile.
- (5) Air-dry in a cool place; avoid direct sunlight to prevent hardening.
- (6) Ensure the product is completely dry before storage, and moisture absorbers can be placed (with it).
- (7) Do not store under compression for a long time, as this may damage the elasticity of the fibers.

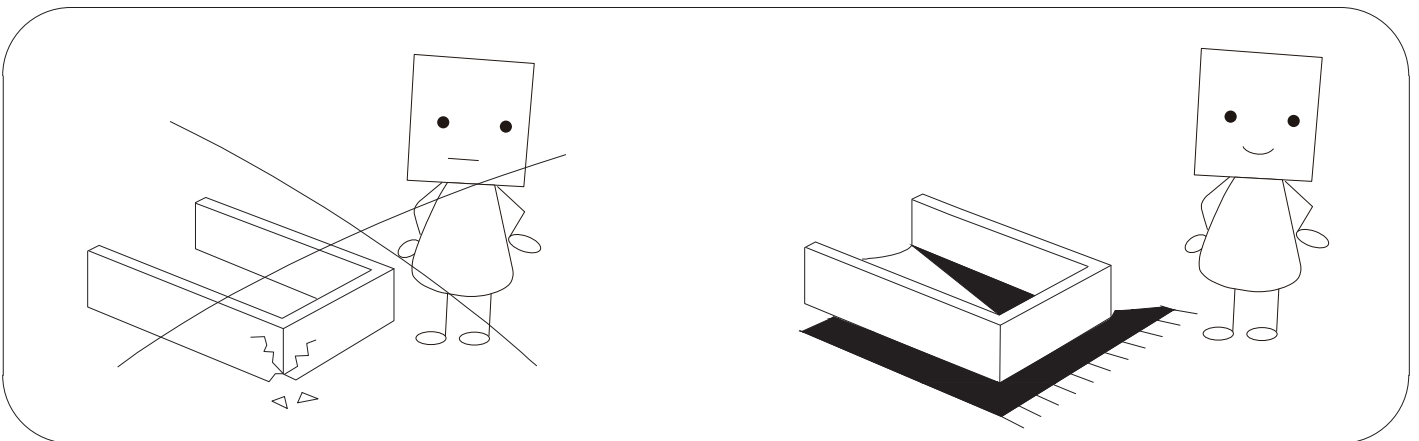

WARNING

Need Two Or More People To Complete

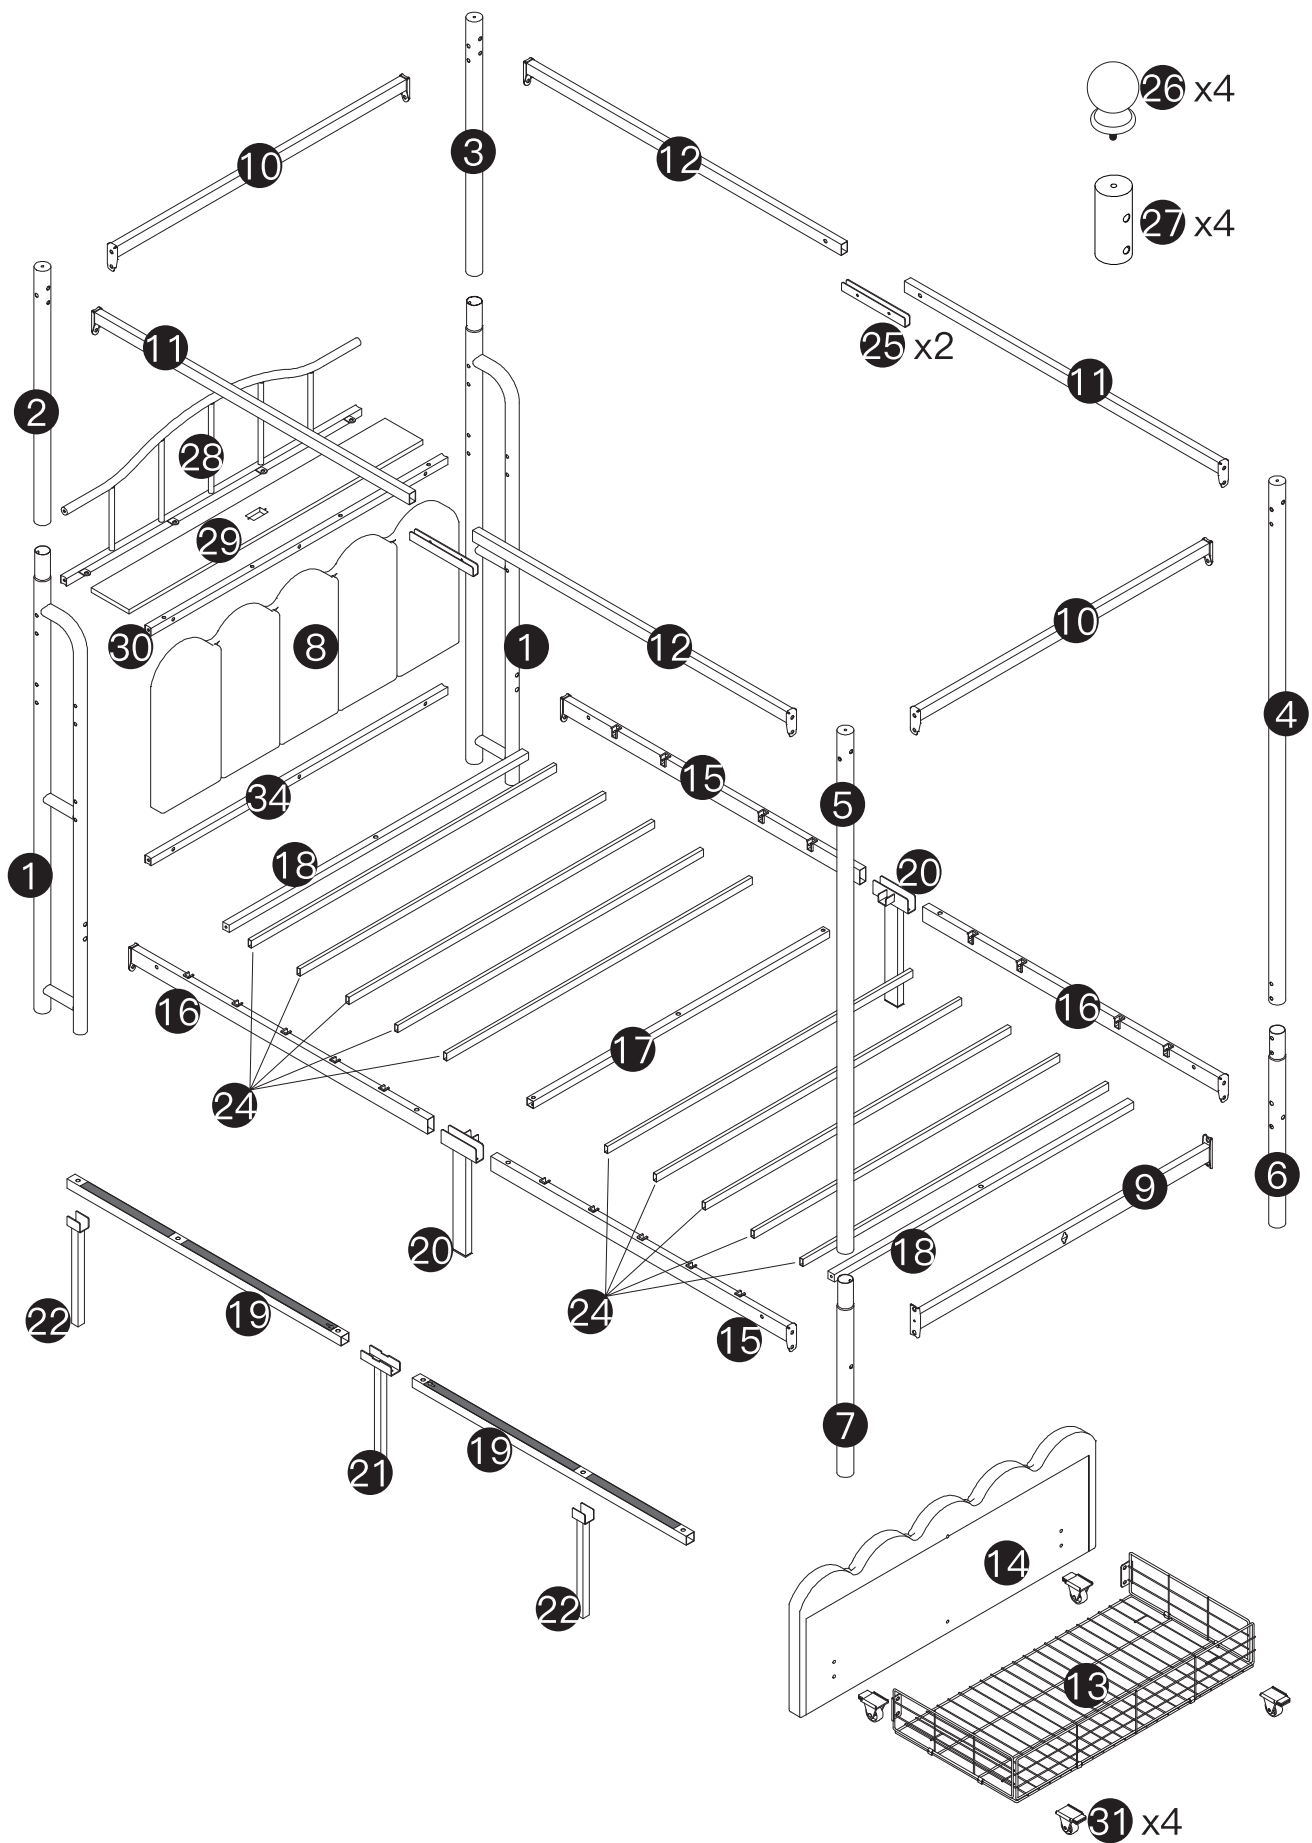

Assemble Item On a Clean Flat Surface

- Please check you have all hardware before assembling.
- Please ensure you have the name of the item and hardware part required and quantity.
- If you have any questions, please contact us by original purchase platform.
we will reply you ASAP.

EXPLODED DRAWING:

Please check all parts and accessories according to the parts list before assembling, make sure all contents are sufficient and in good condition.

If there is any parts missing or defective, please contact us with purchase platform message immediately to get replacement parts.

Please keep all parts in a safe place in case they will be needed when assembling or disassembling the canopy.

NOTICE:

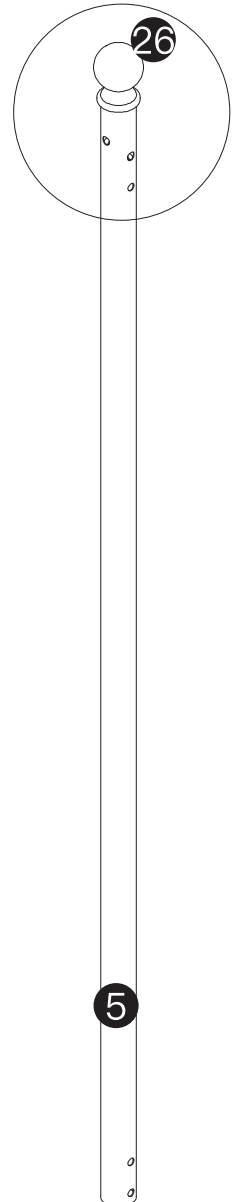

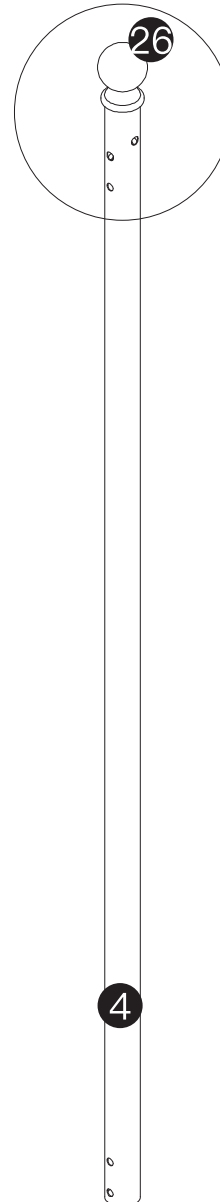

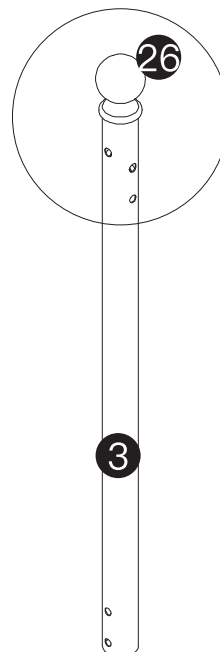

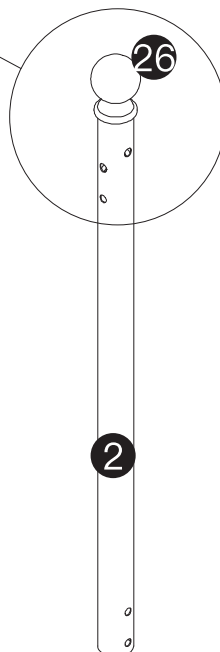

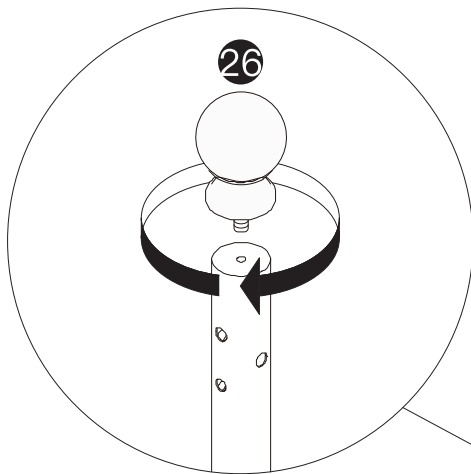

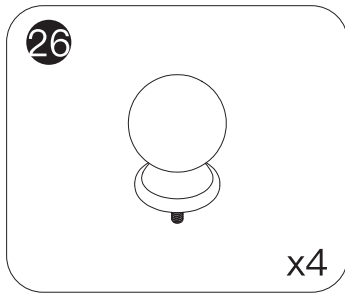

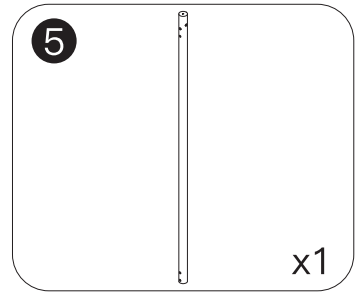

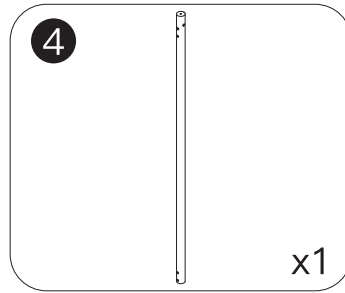

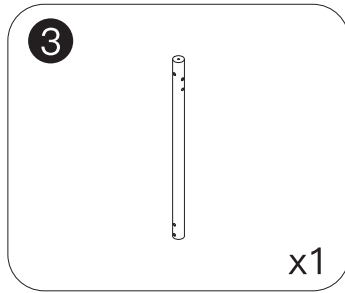

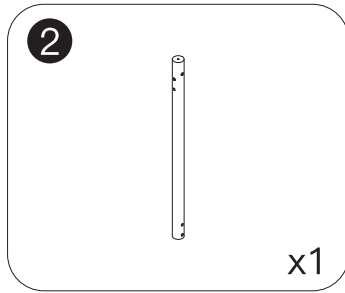

Please fix nut with wrench and tighten it with hex screwdriver.

TYPE-A INSTALLATION

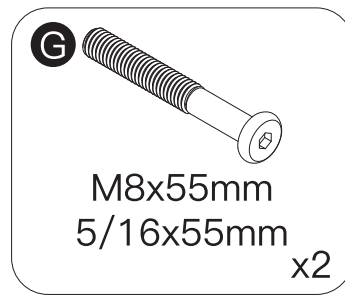

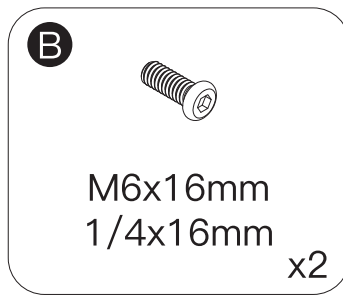

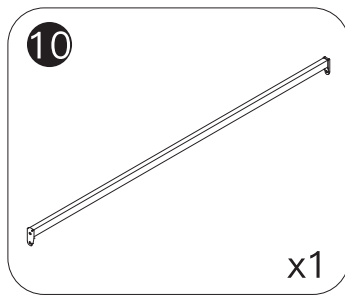

HOW TO INSTALL

STEP 1

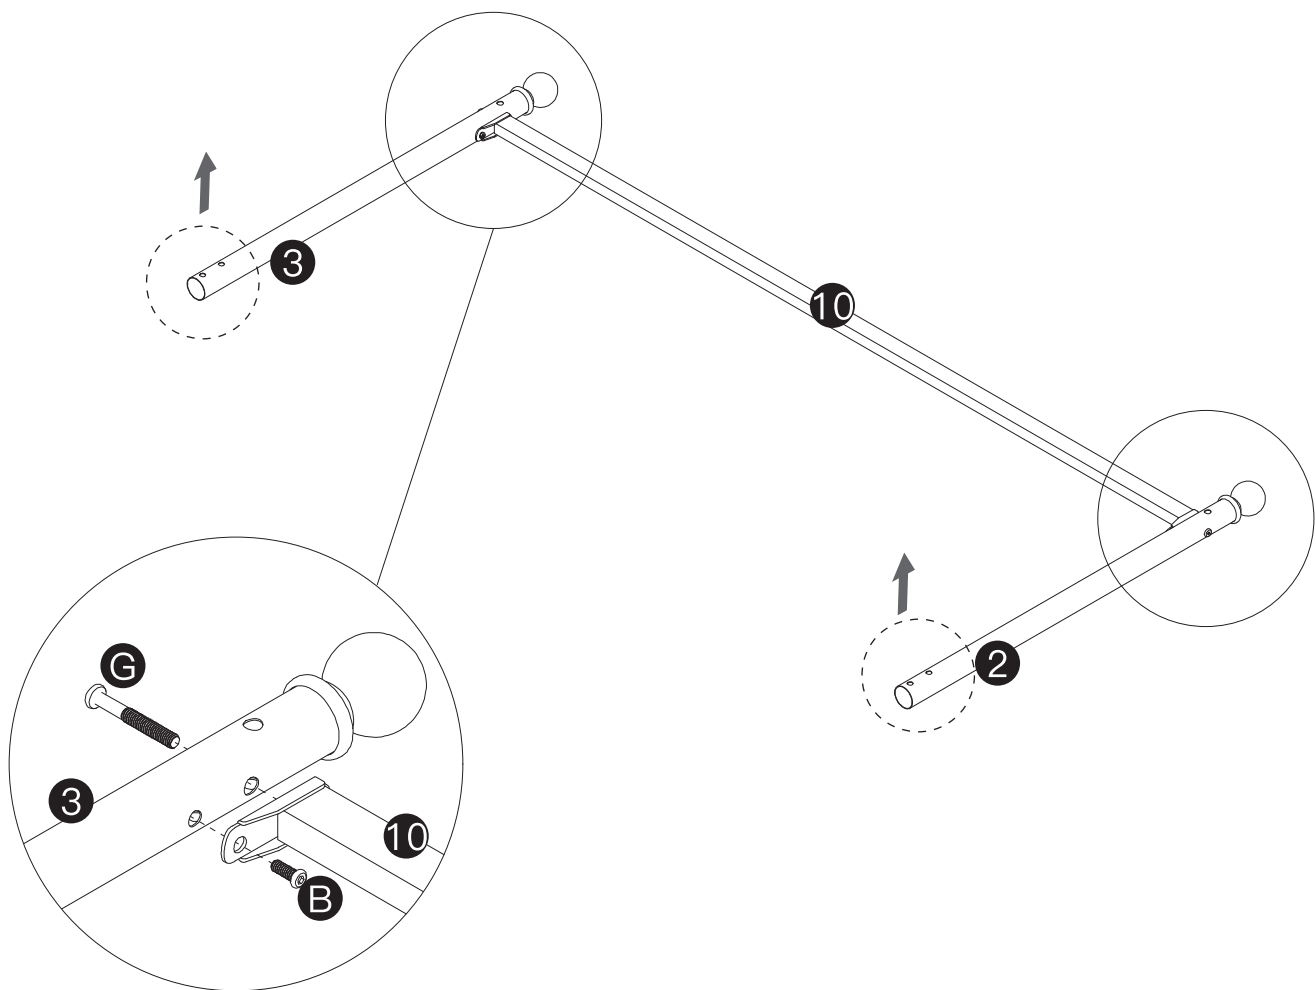

STEP 2

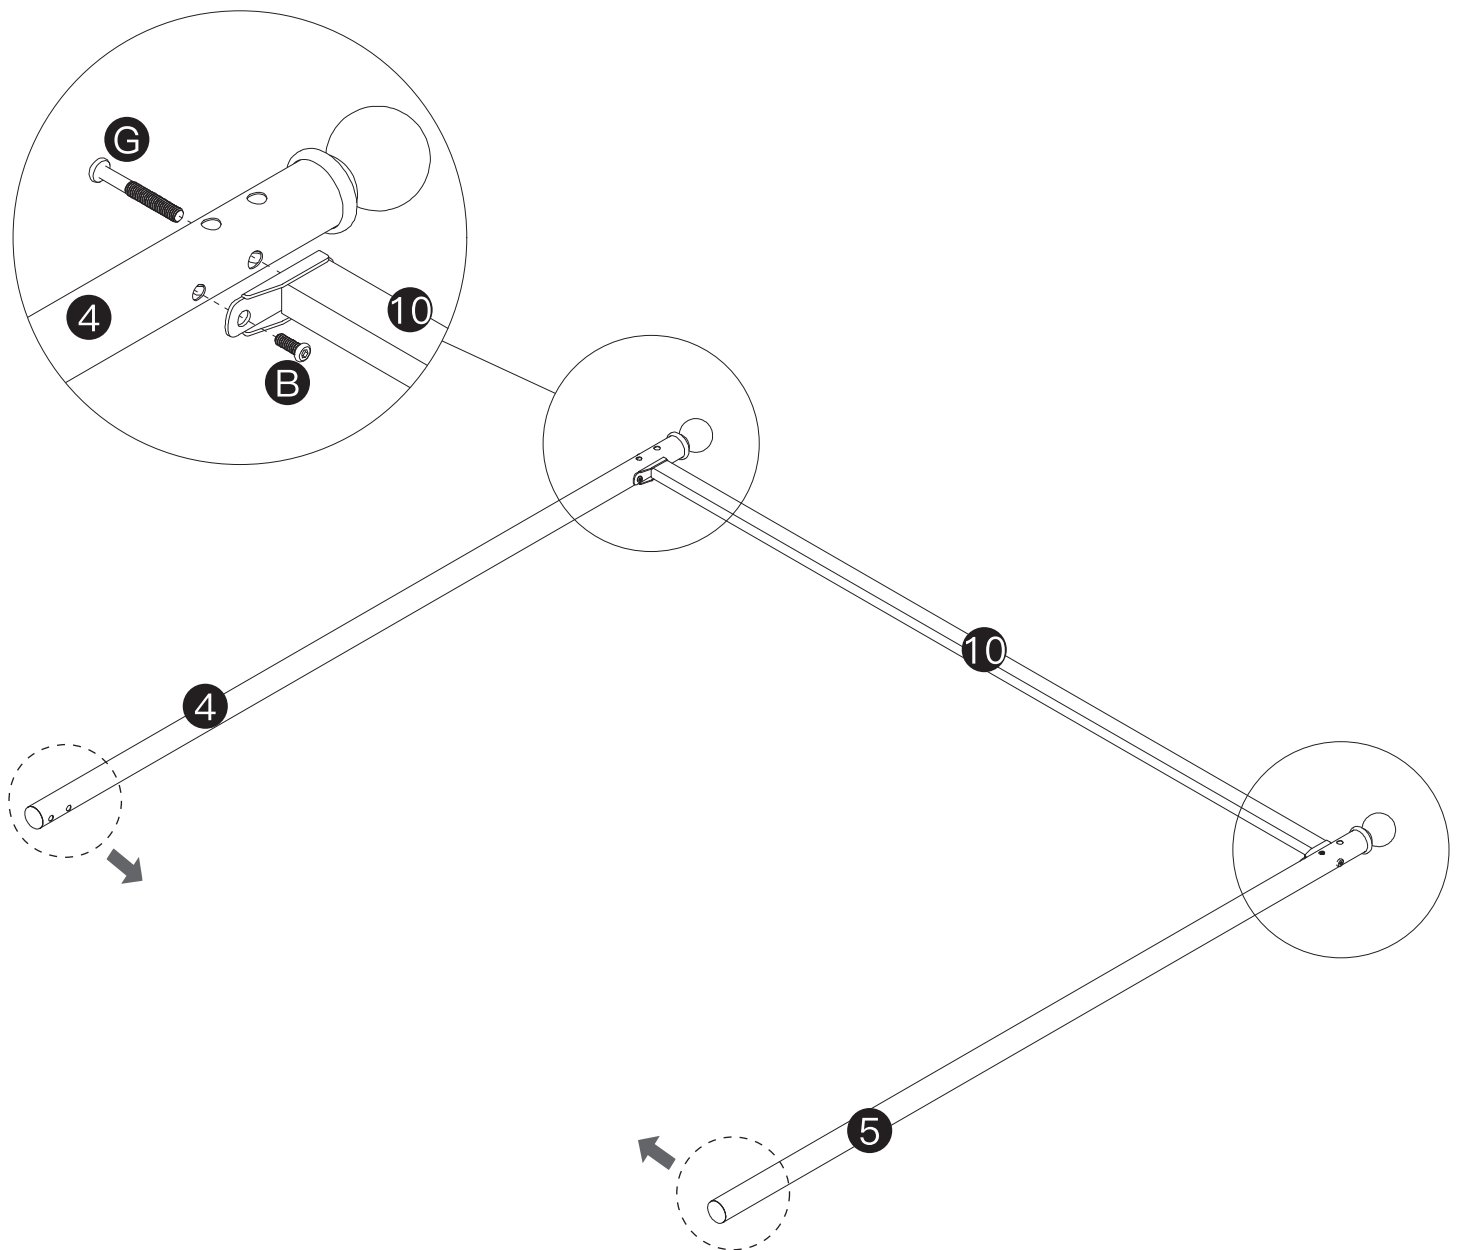

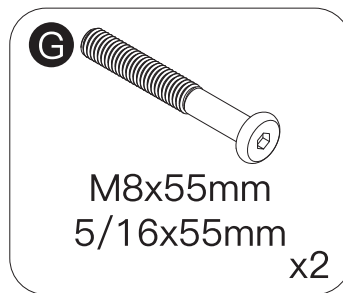

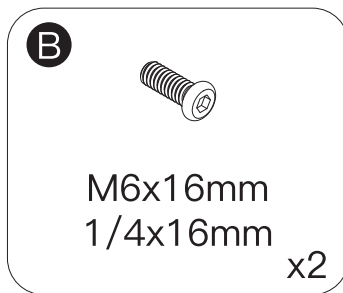

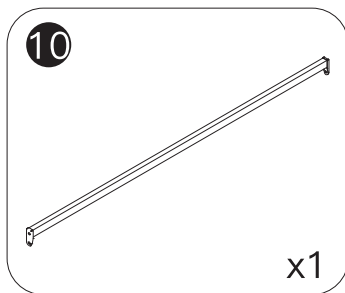

NOTICE:

Please note the orientation of parts 2 and 3.

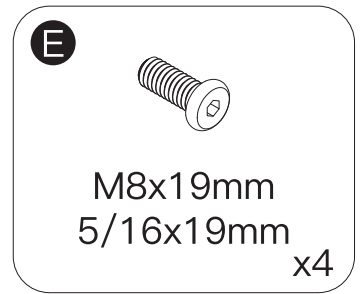

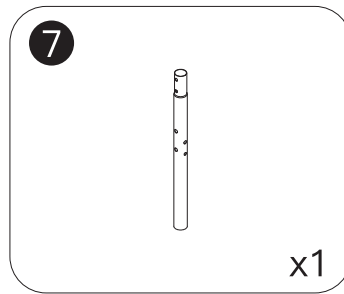

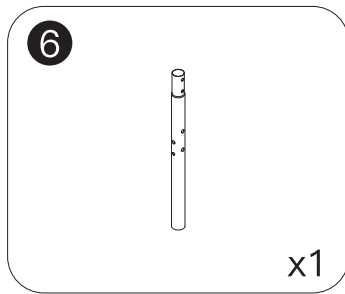

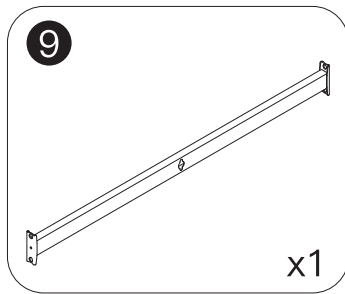

STEP 3

NOTICE:

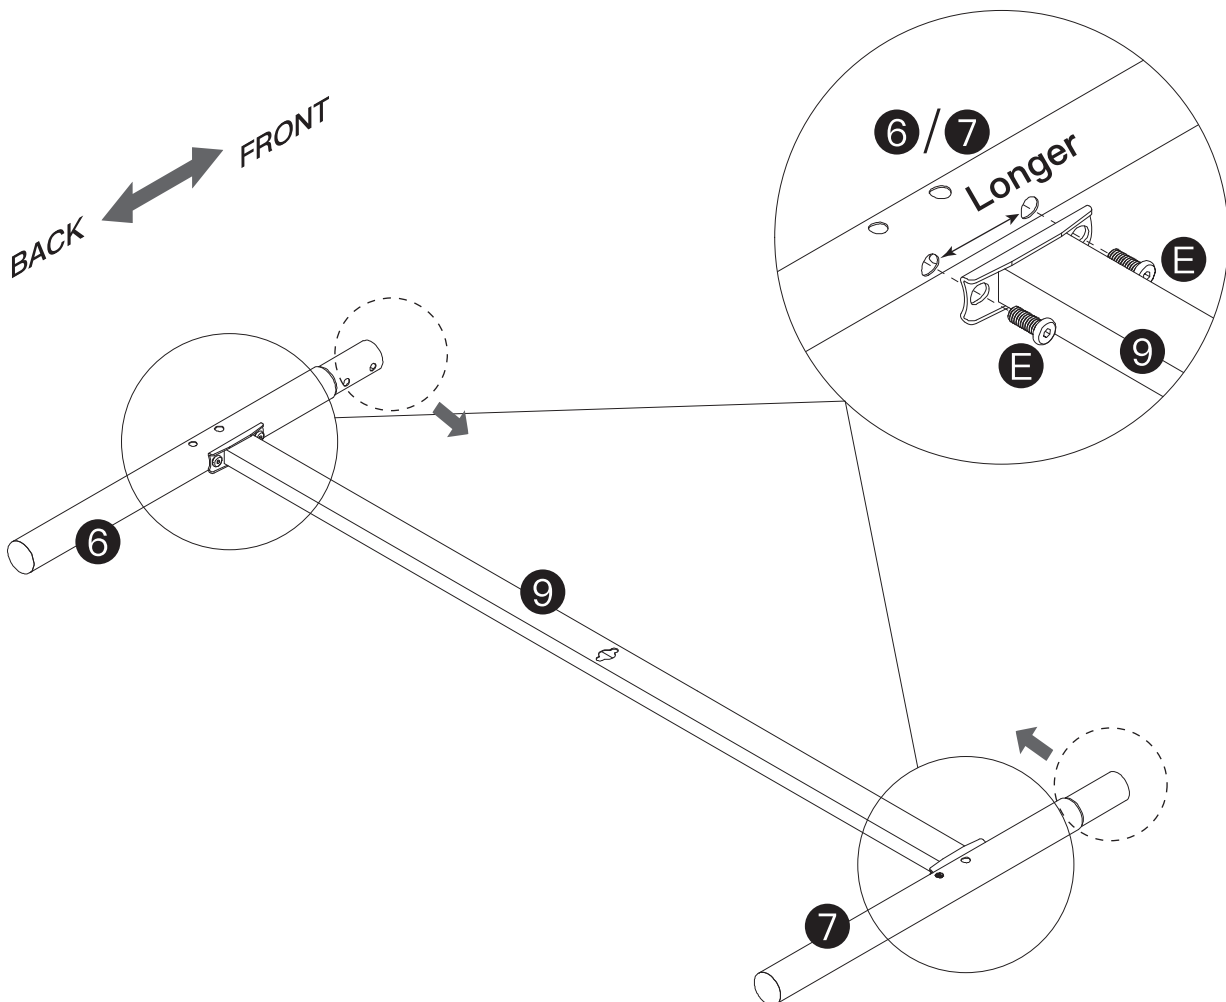

Please note the orientation of parts 4 and 5.

STEP 4

NOTICE:

Please note the orientation of parts 6 and 7.

STEP 5

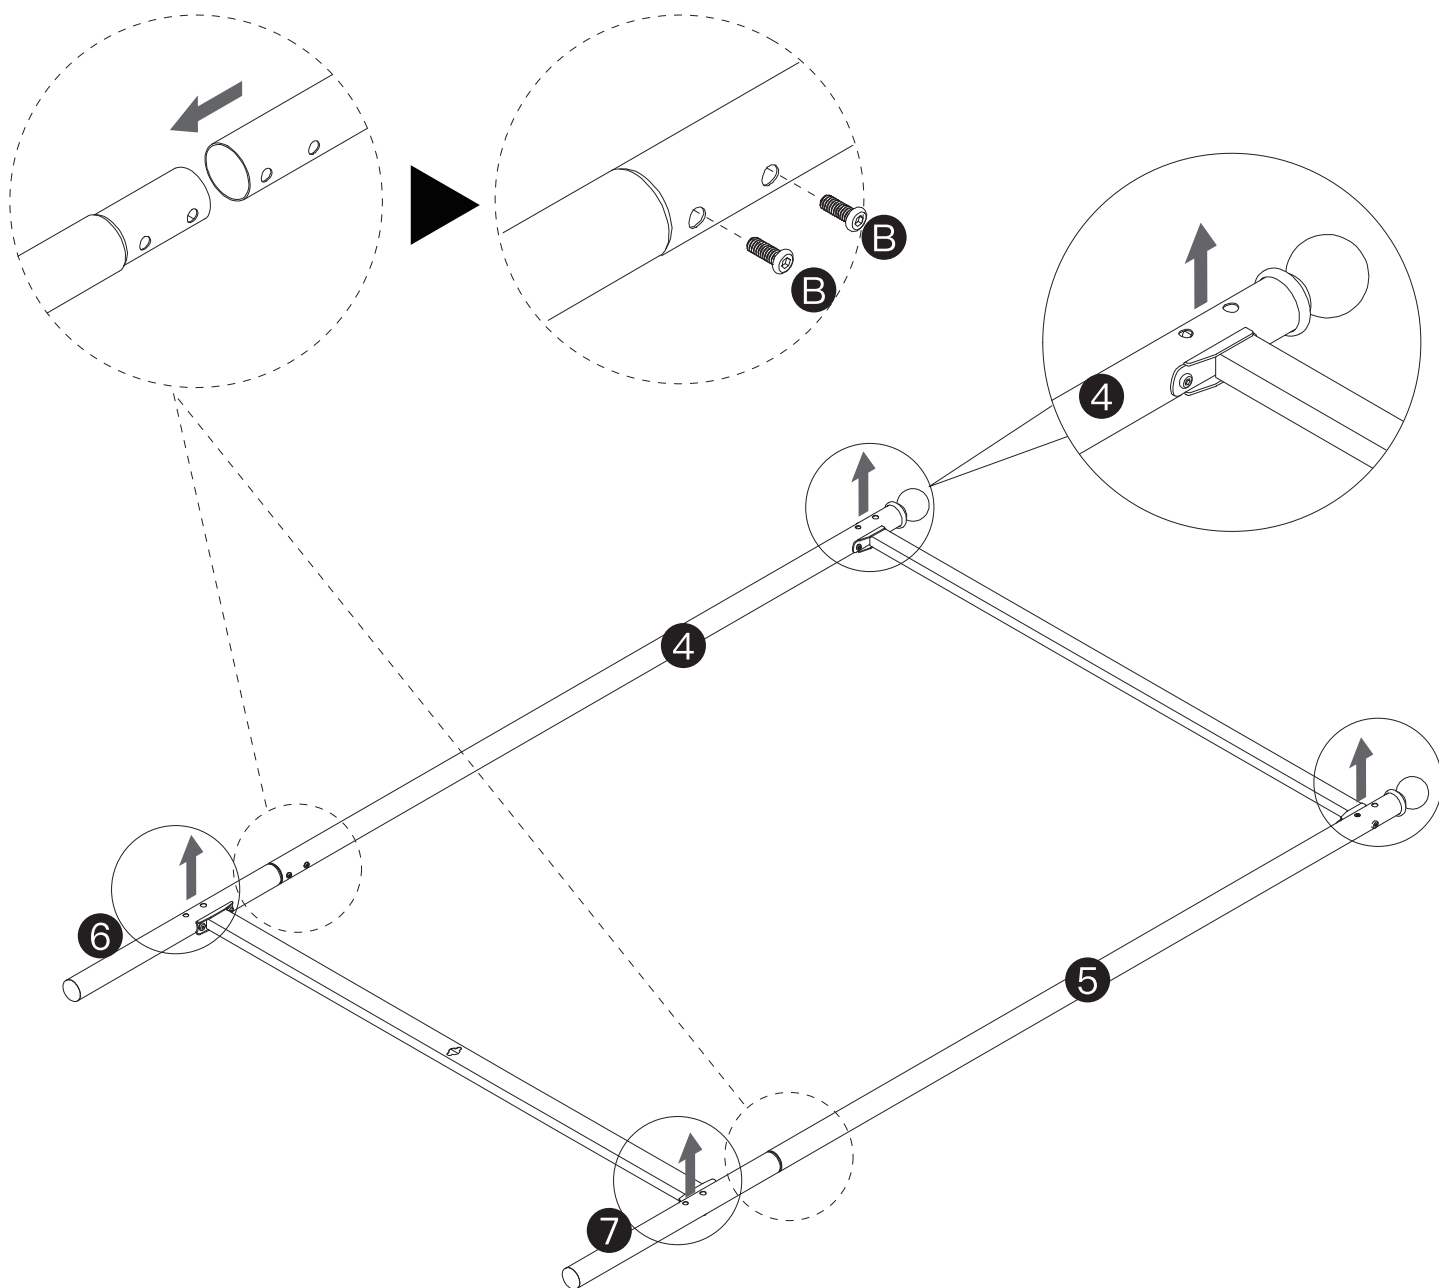

B

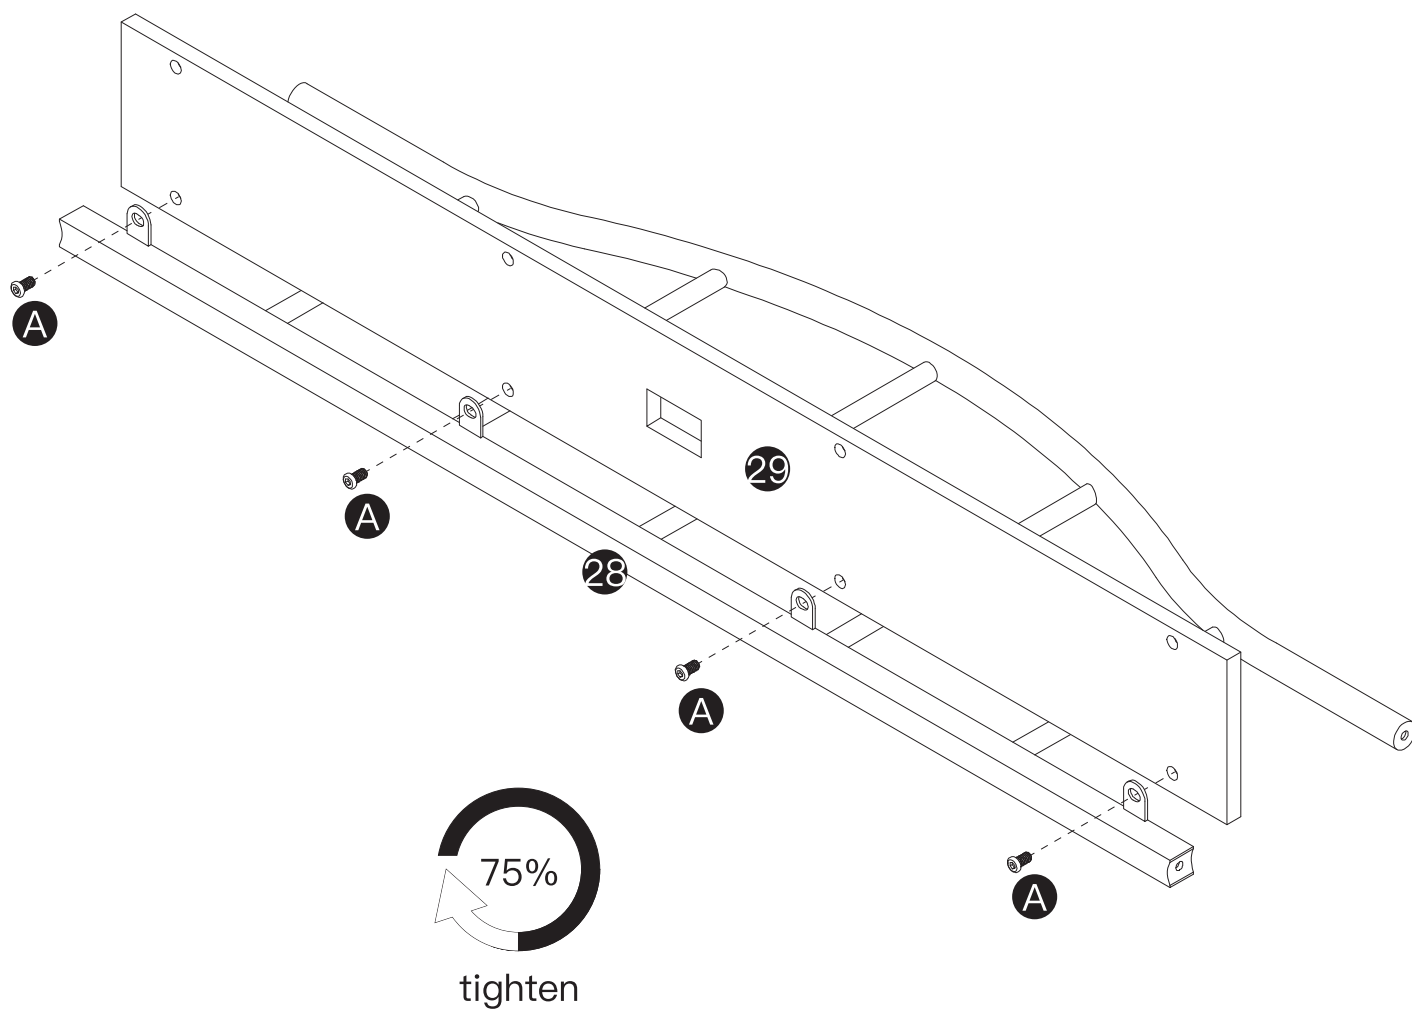

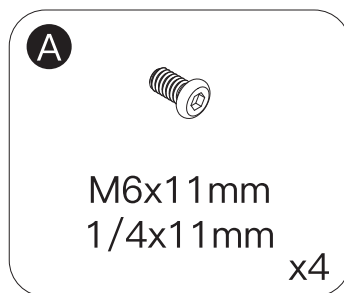

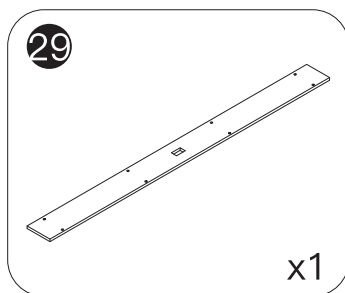

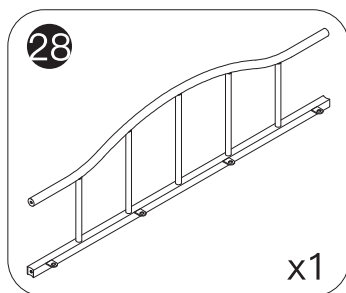

M6x16mm
1/4x16mm
x4

NOTICE:

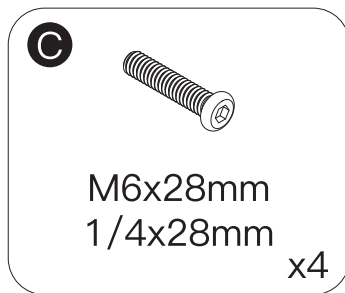

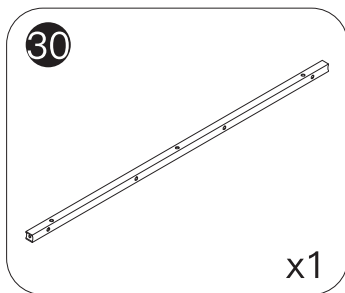

Align the holes first, then tighten the screws.

STEP 6

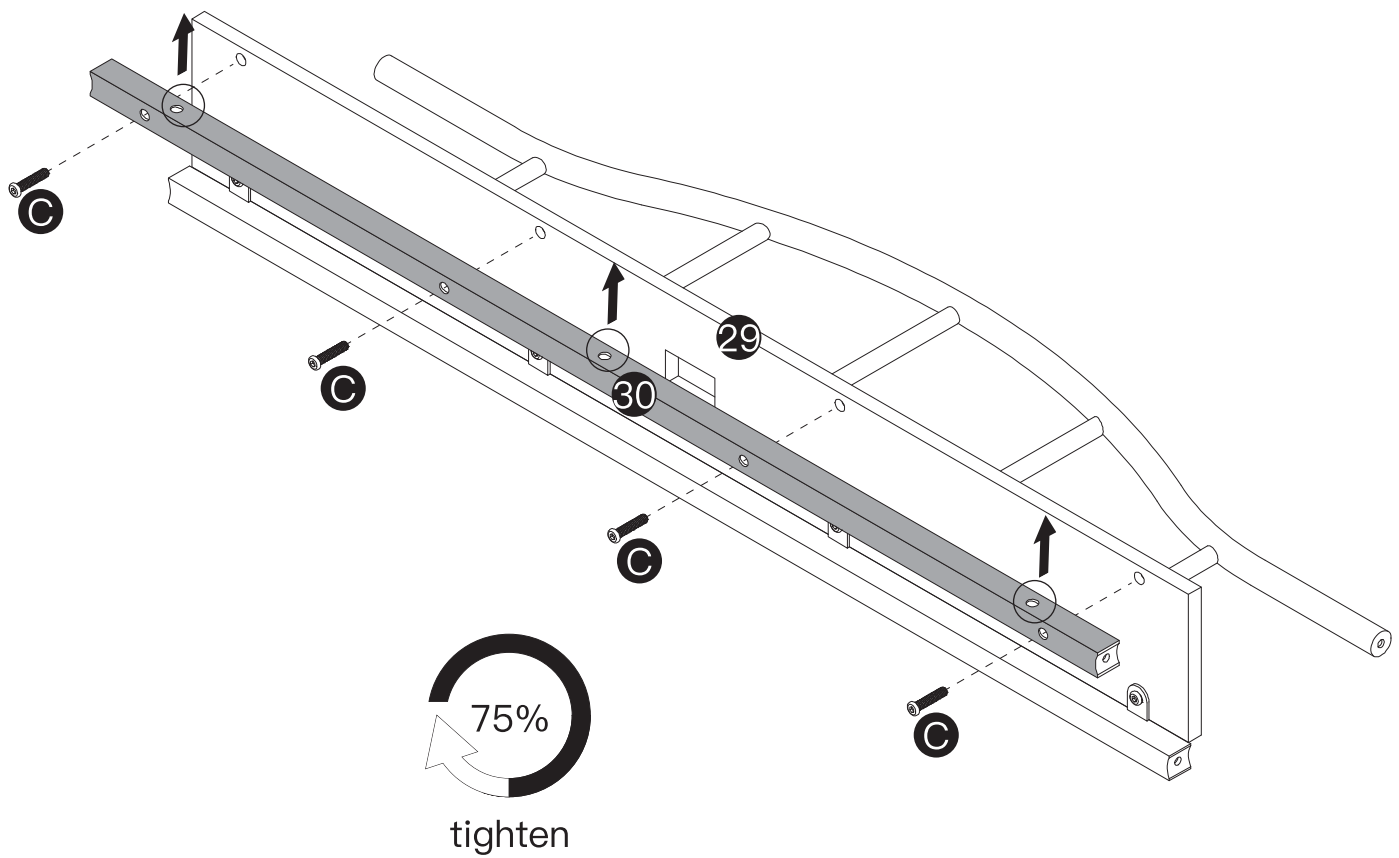

STEP 7

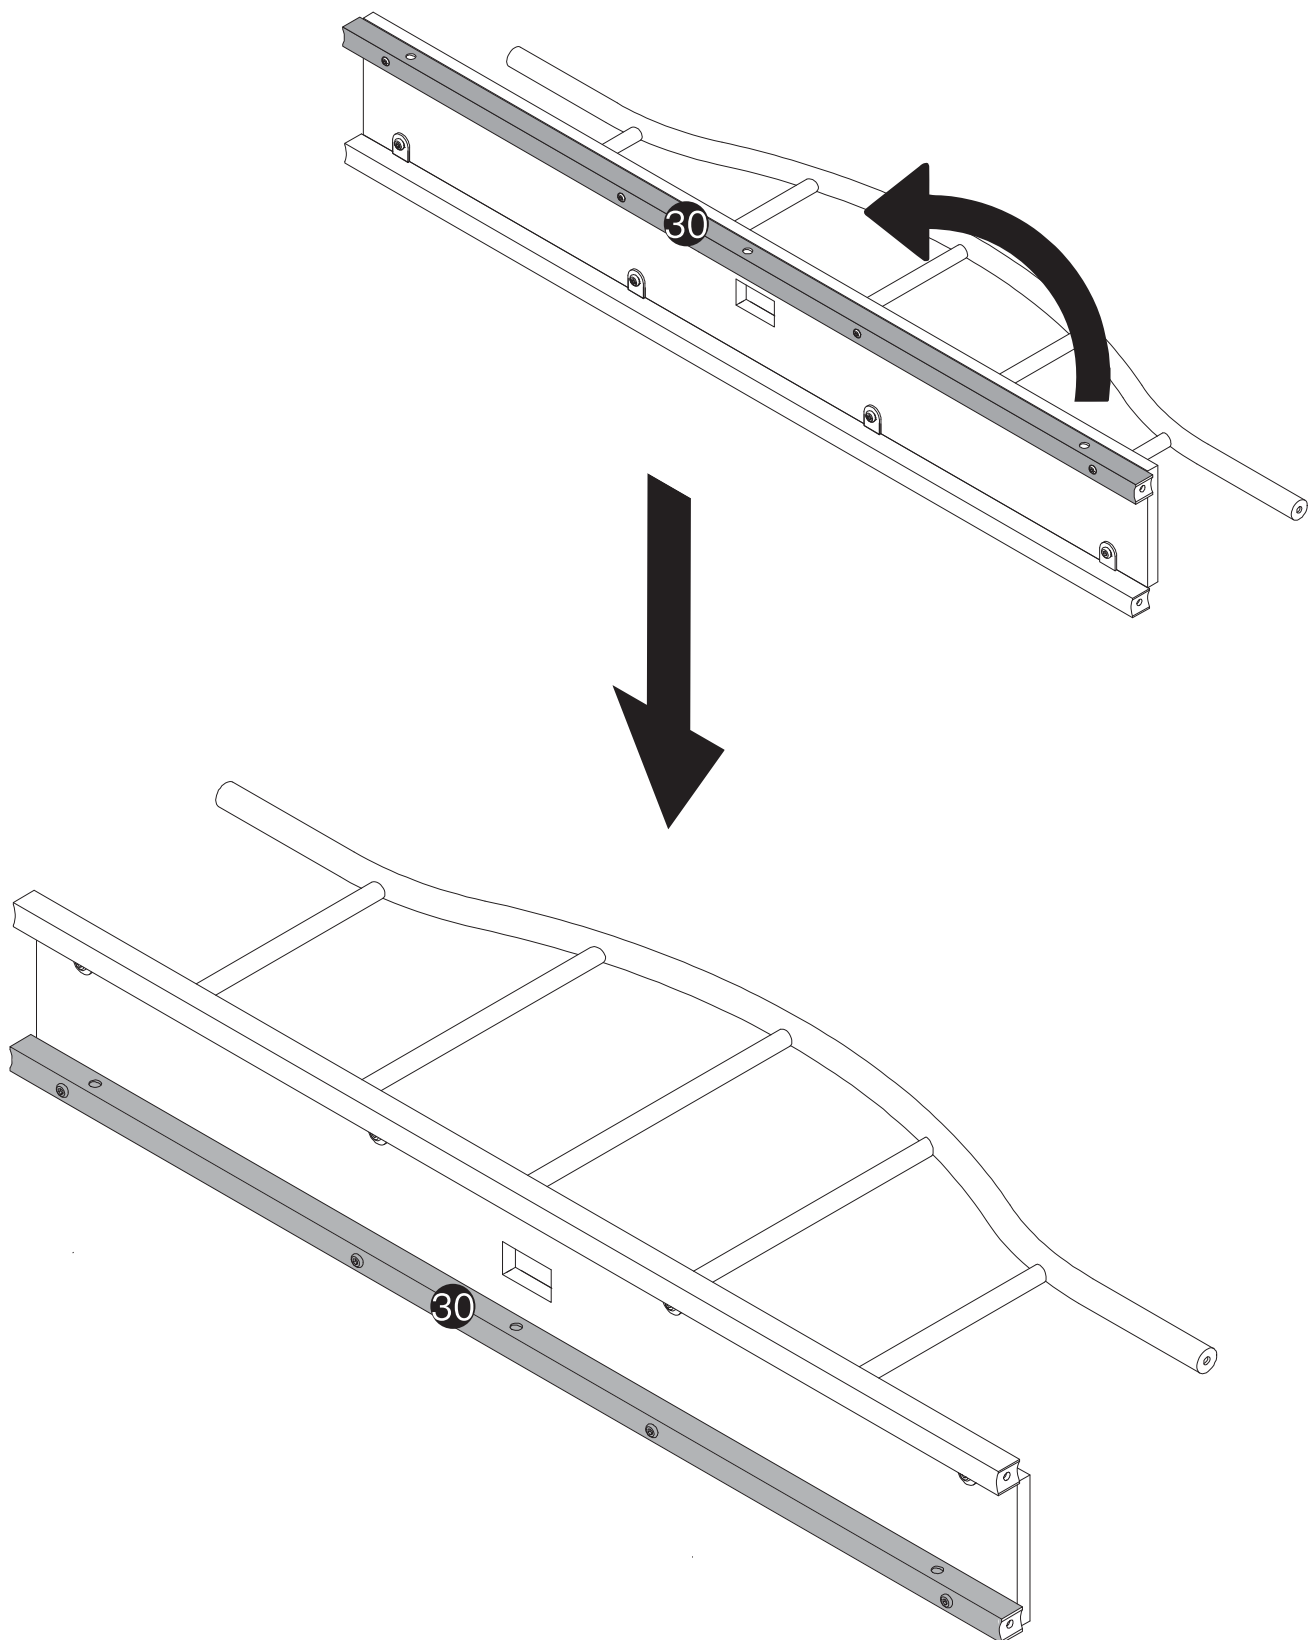

NOTICE:

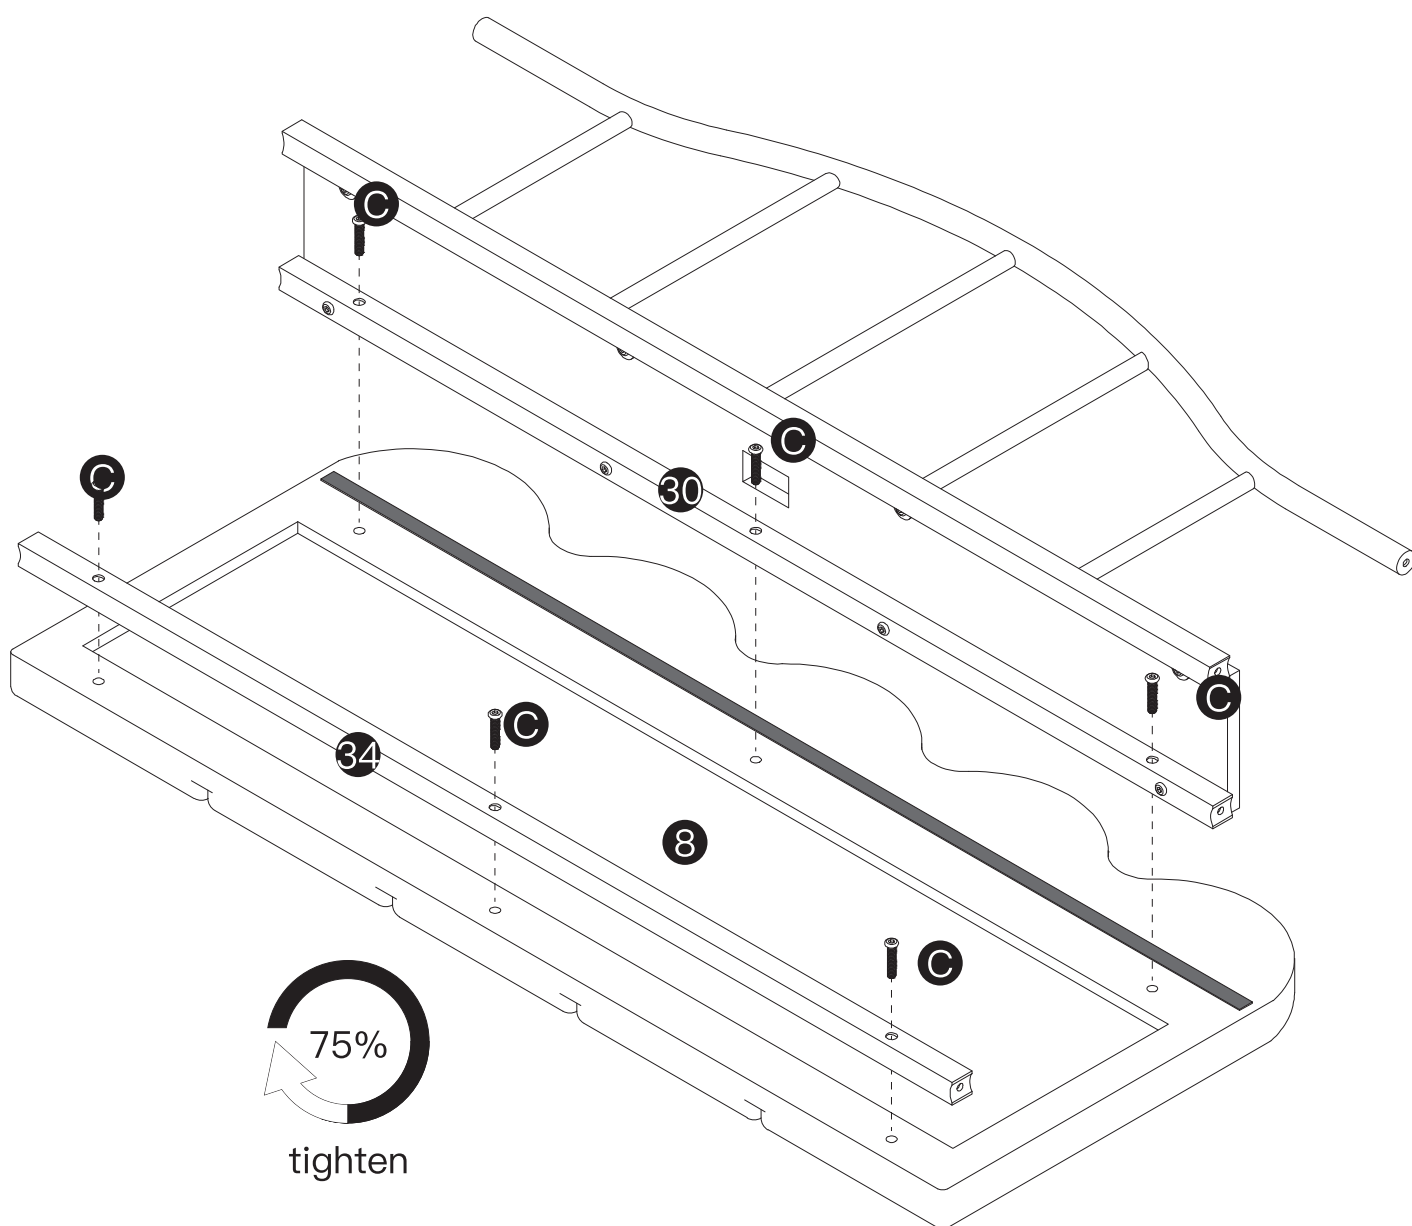

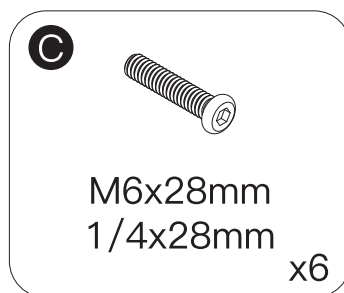

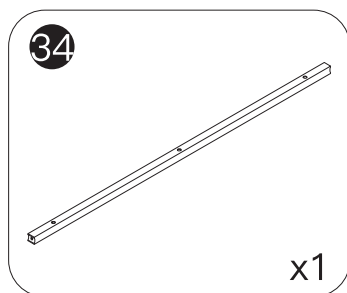

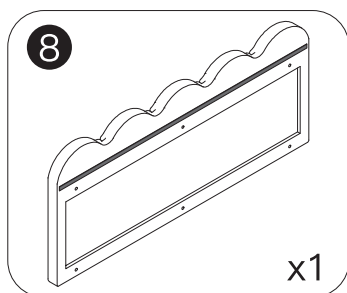

Please ensure that the side of part 30 with 3 holes is facing upward.

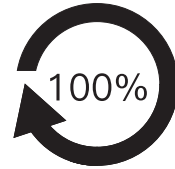

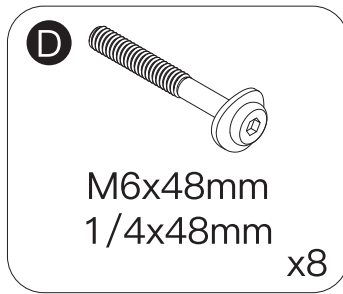

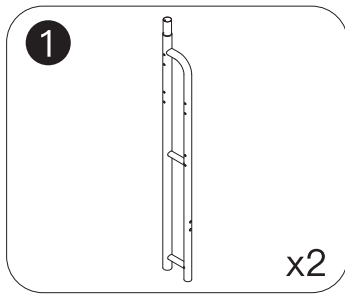

STEP 8

STEP 9

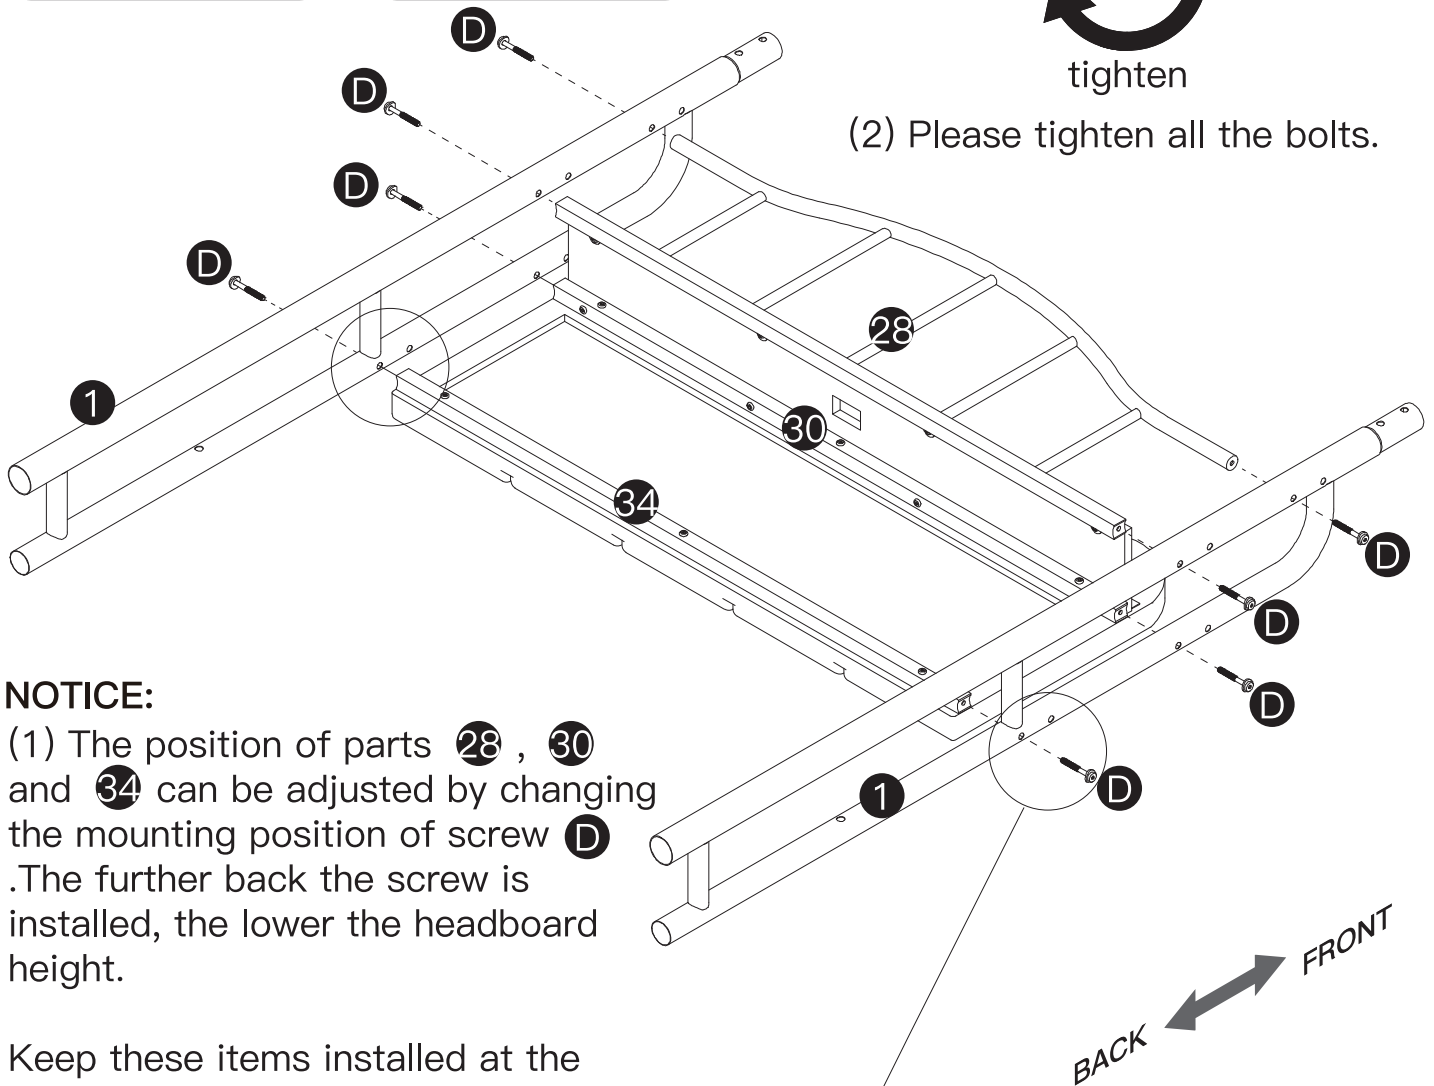

STEP 10

tighten

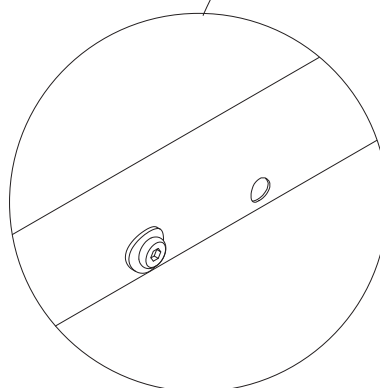

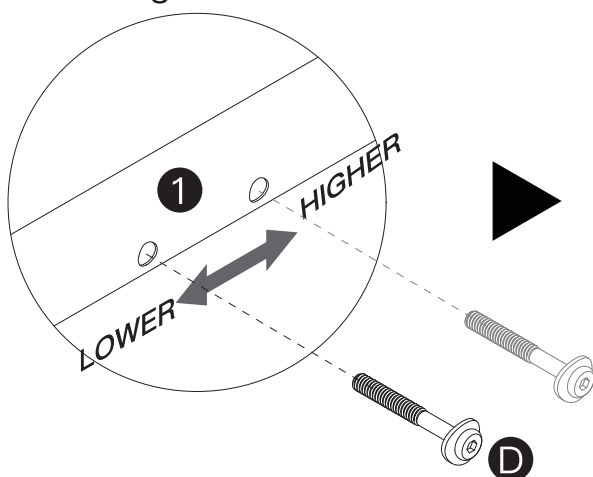

(2) Please tighten all the bolts.

NOTICE:

(1) The position of parts 28, 30 and 34 can be adjusted by changing the mounting position of screw D. The further back the screw is installed, the lower the headboard height.

Keep these items installed at the same height.

Fit the washer of Screw D tightly against the round tube.

STEP 11

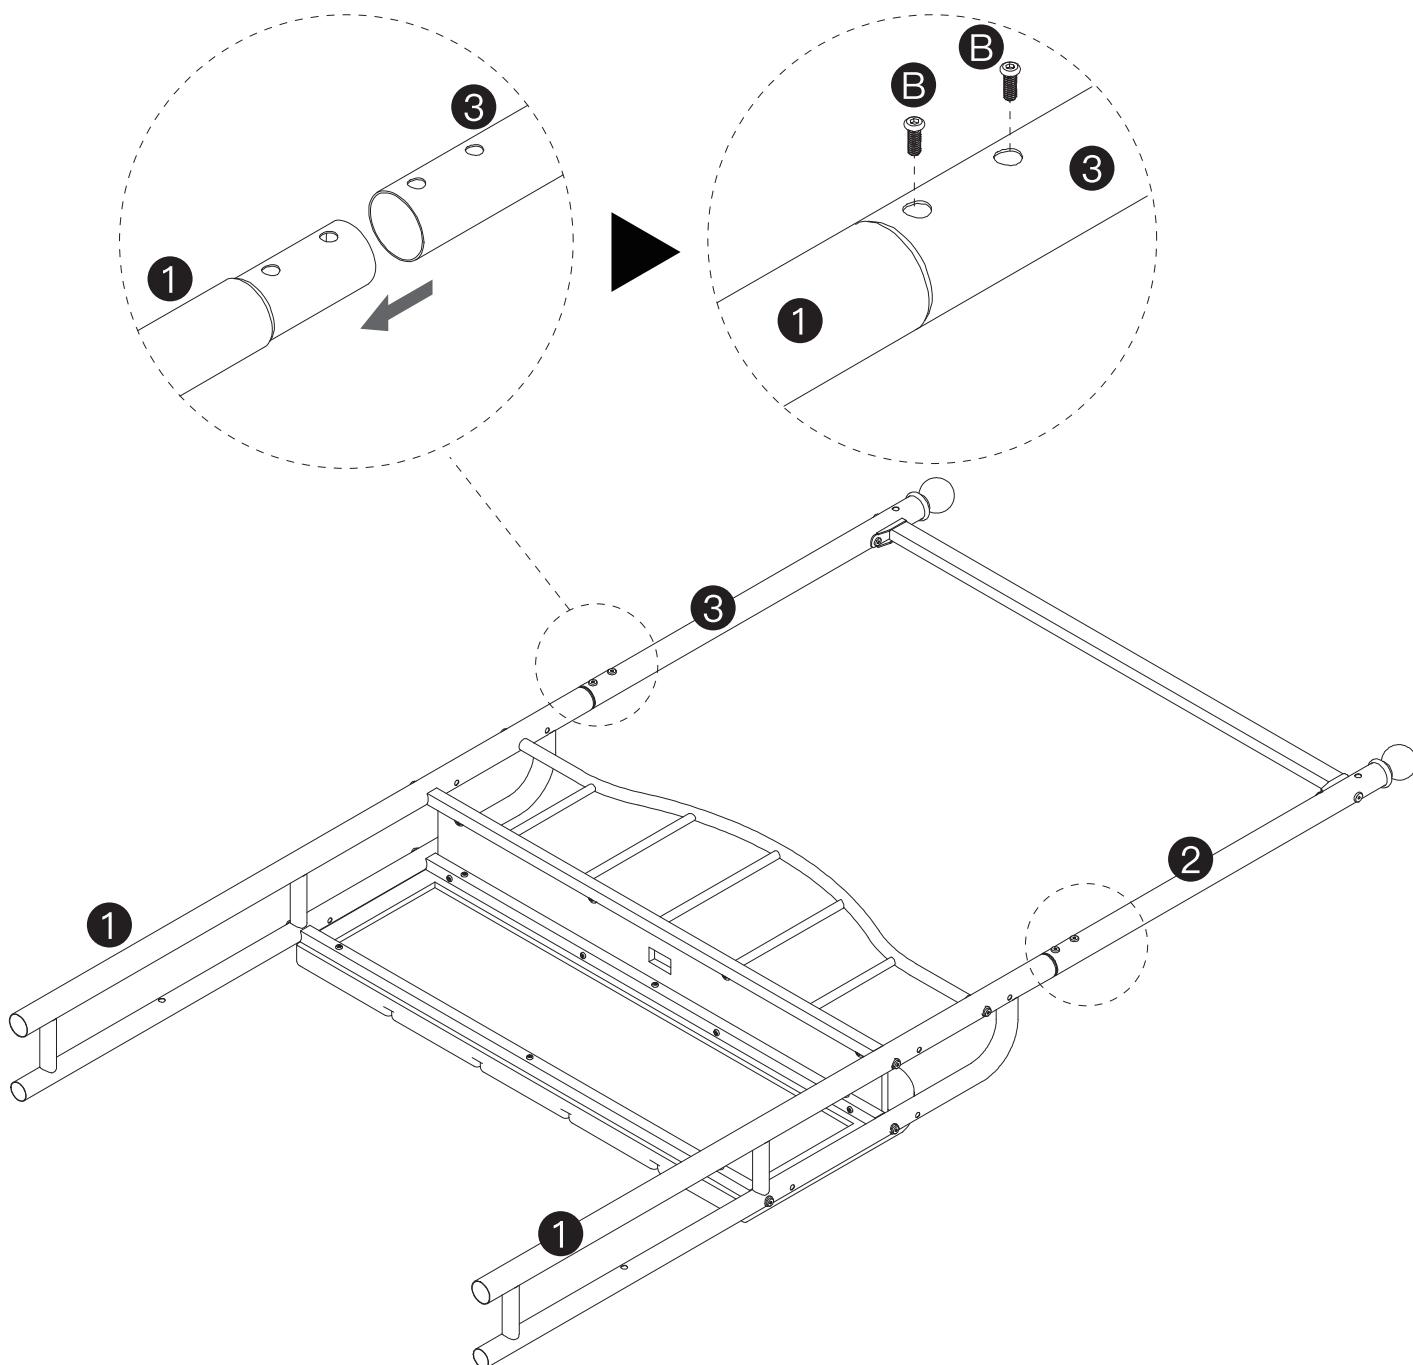

B

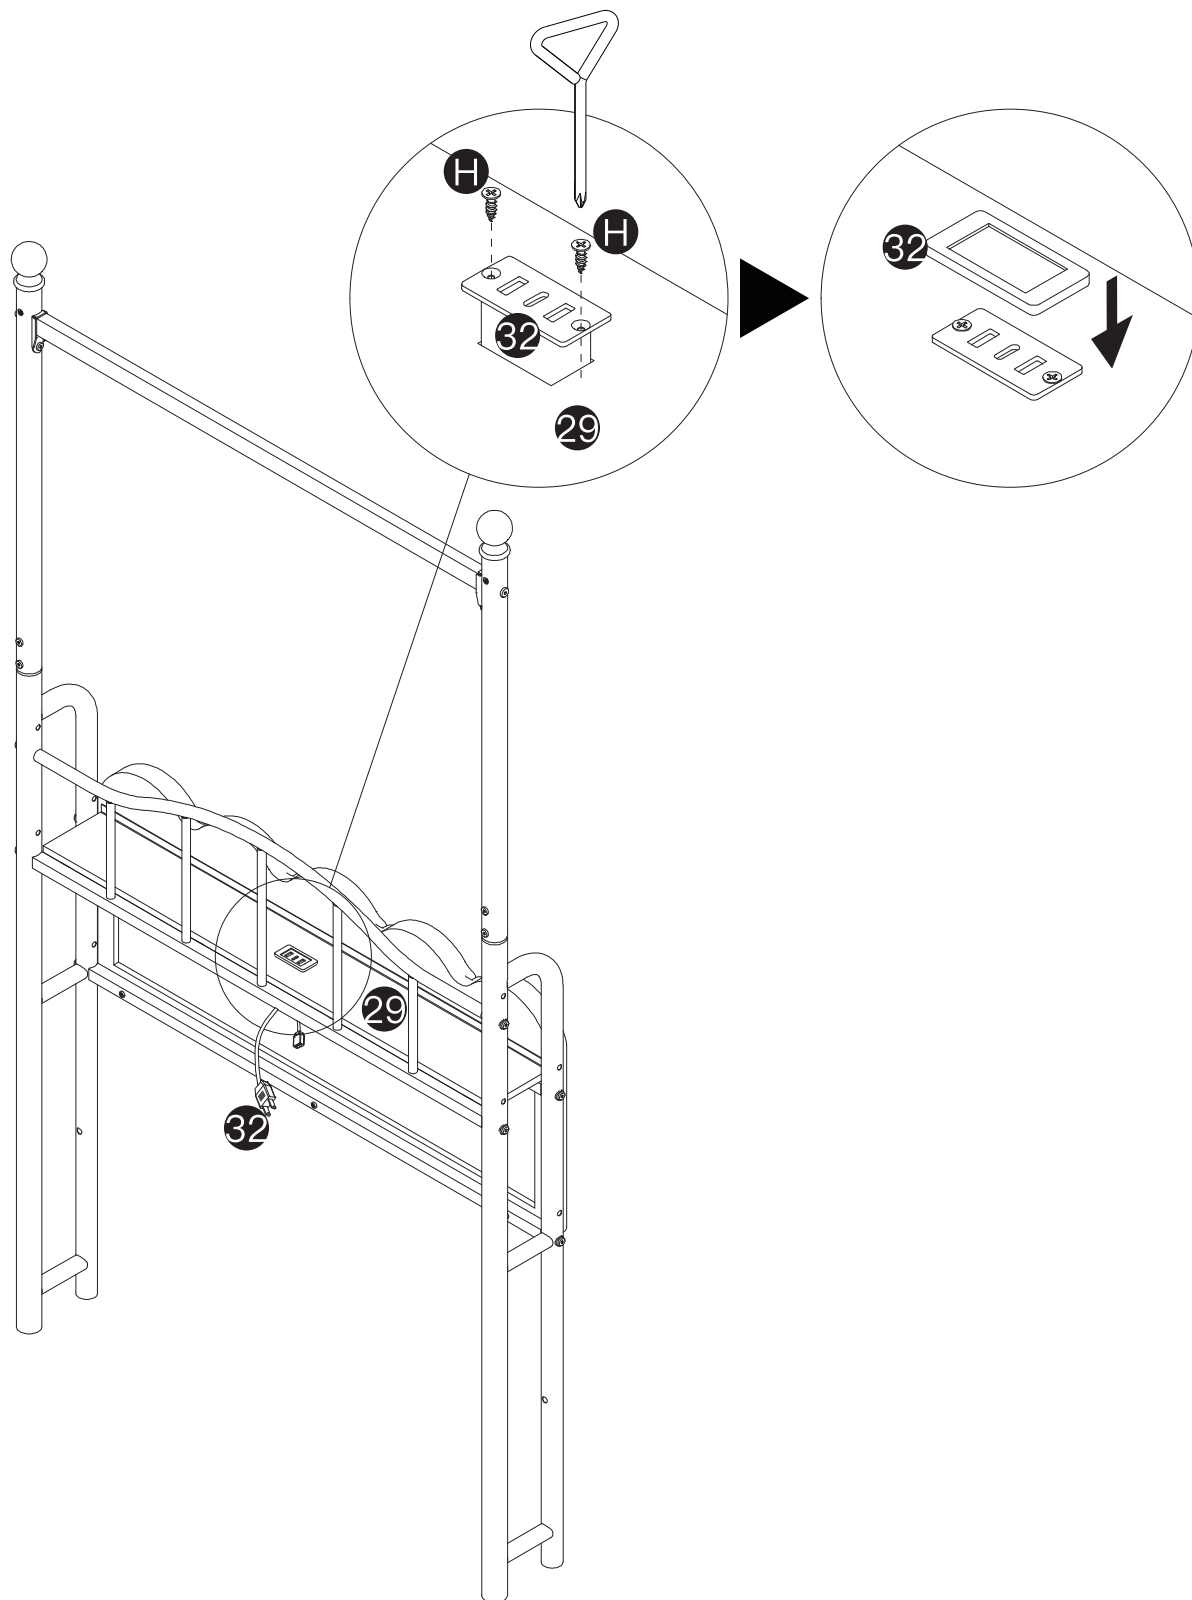

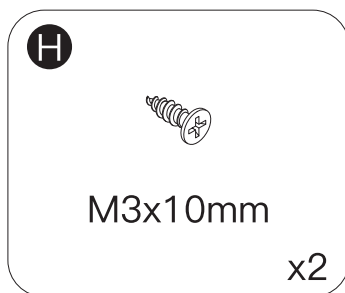

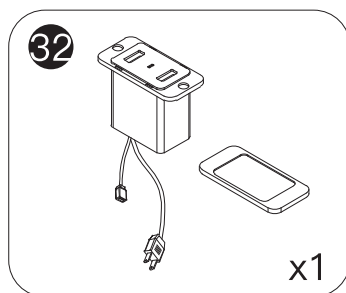

M6x16mm
1/4x16mm
x4

NOTICE:

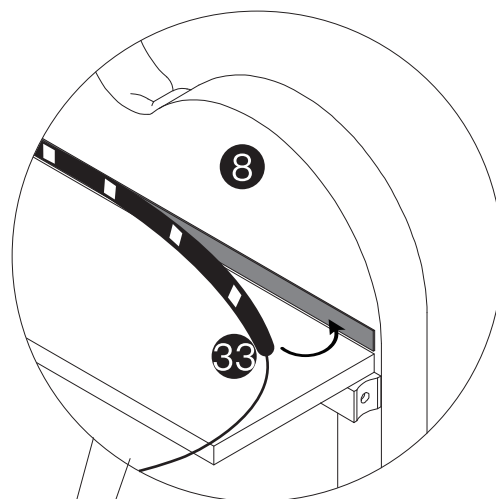

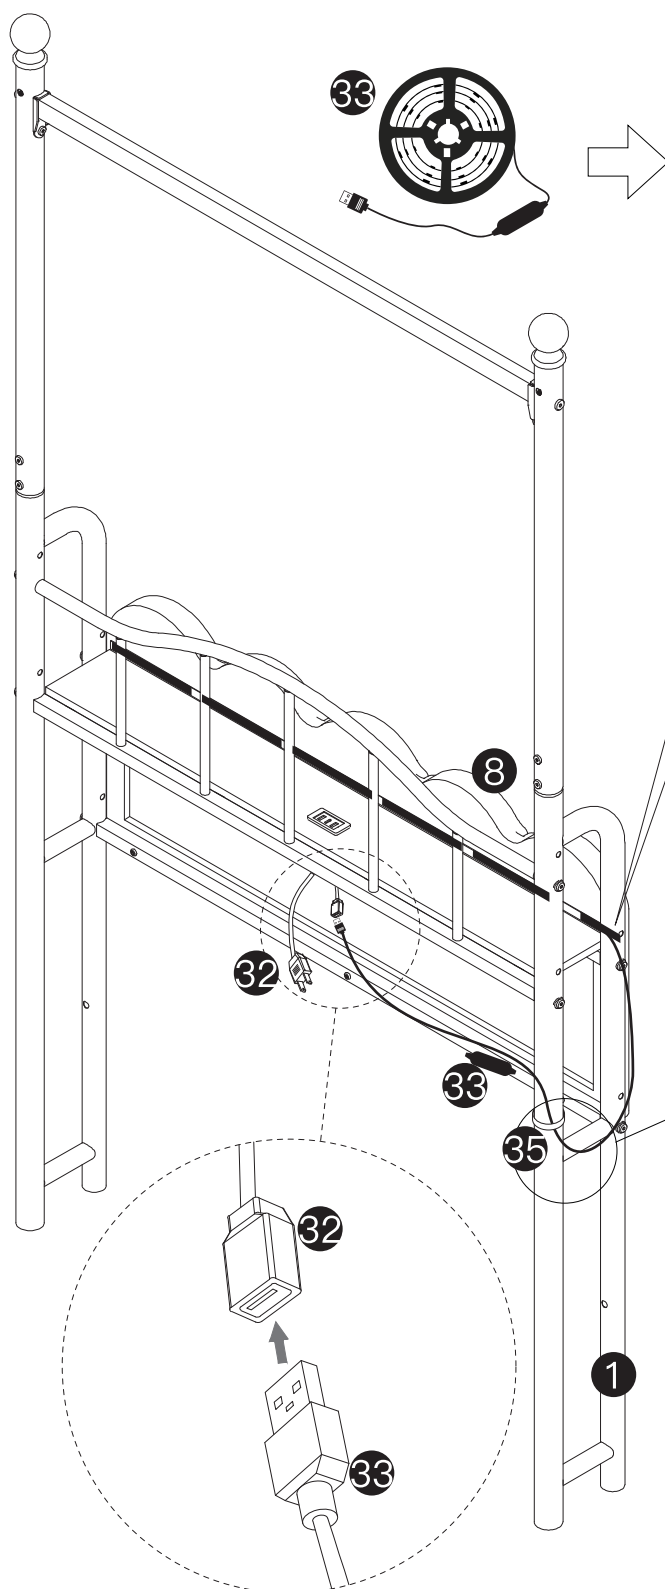

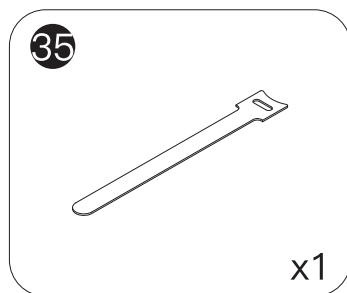

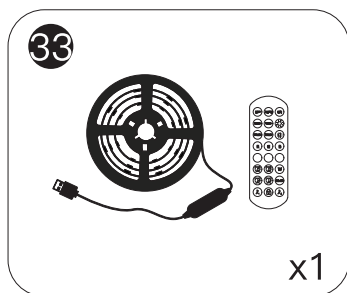

Align the holes first, then tighten the screws.

STEP 12

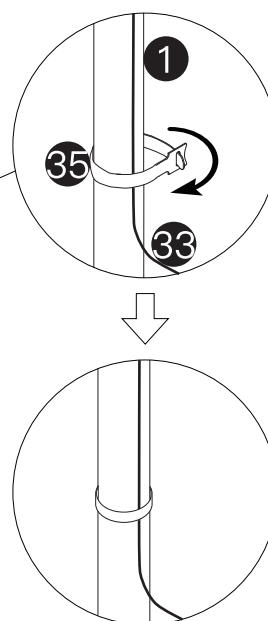

STEP 13

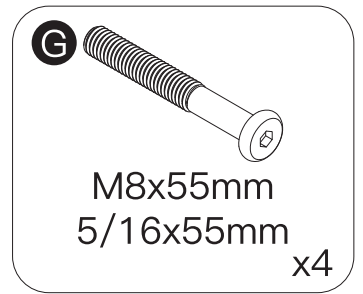

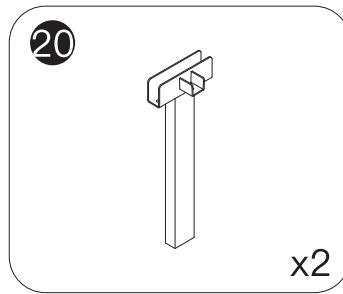

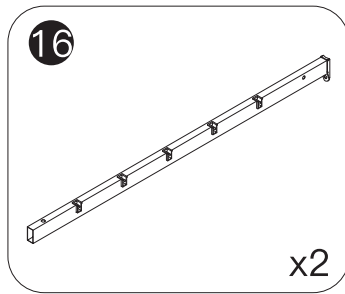

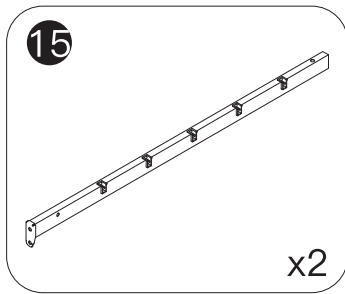

NOTICE:

You can use straps to secure the excessively long lamp to the bed frame.

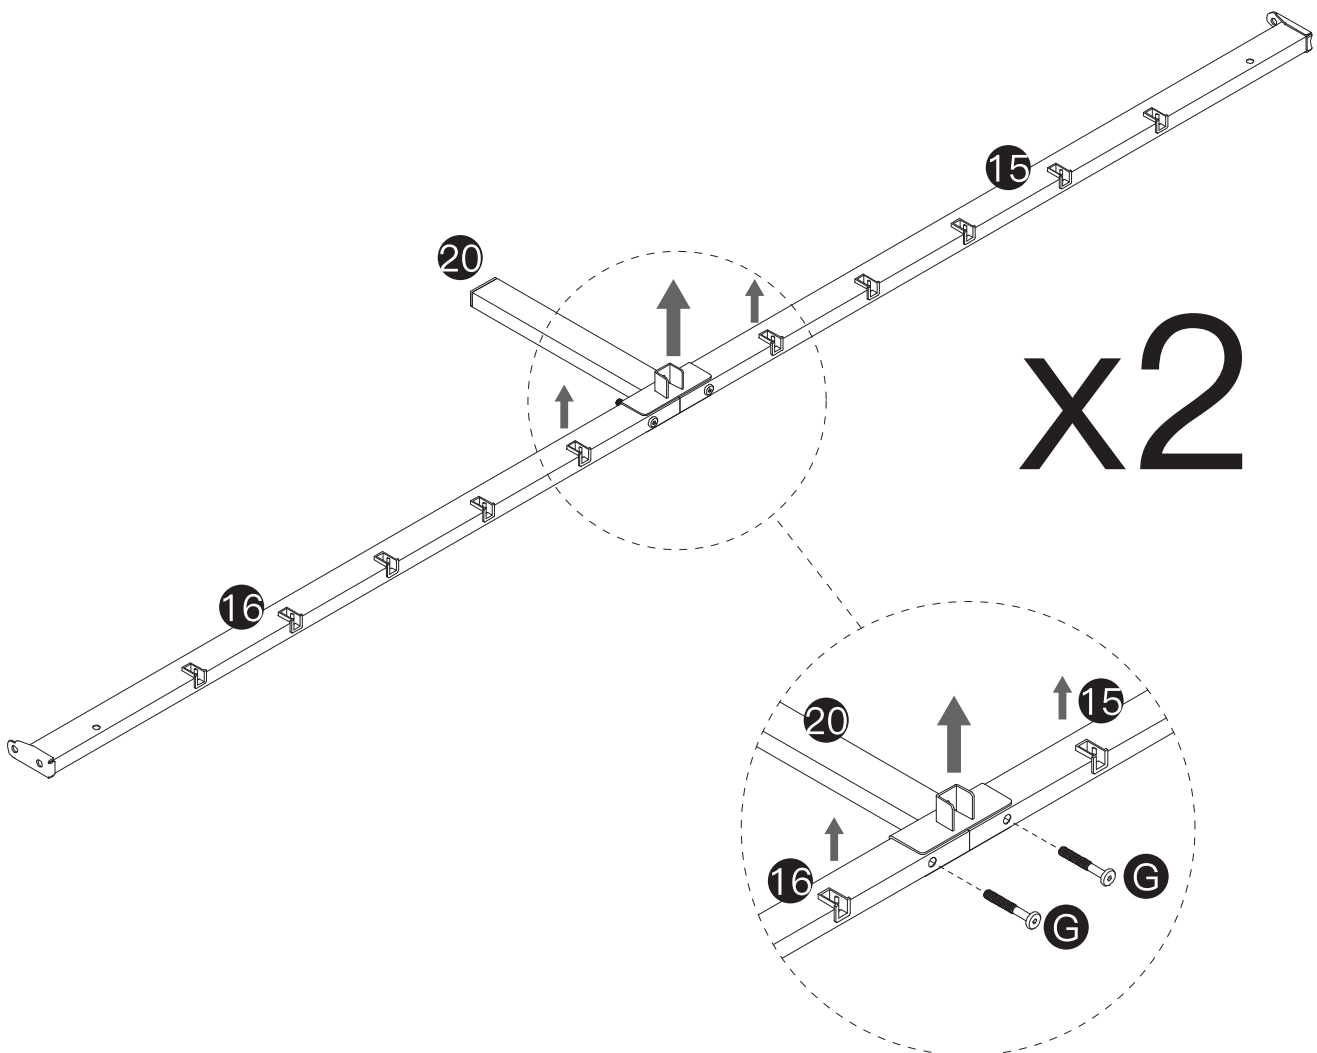

STEP 14

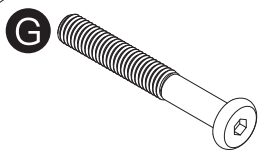

NOTICE:

Please ensure that the grooves of 15, 16 and 20 face the same direction.

STEP 15

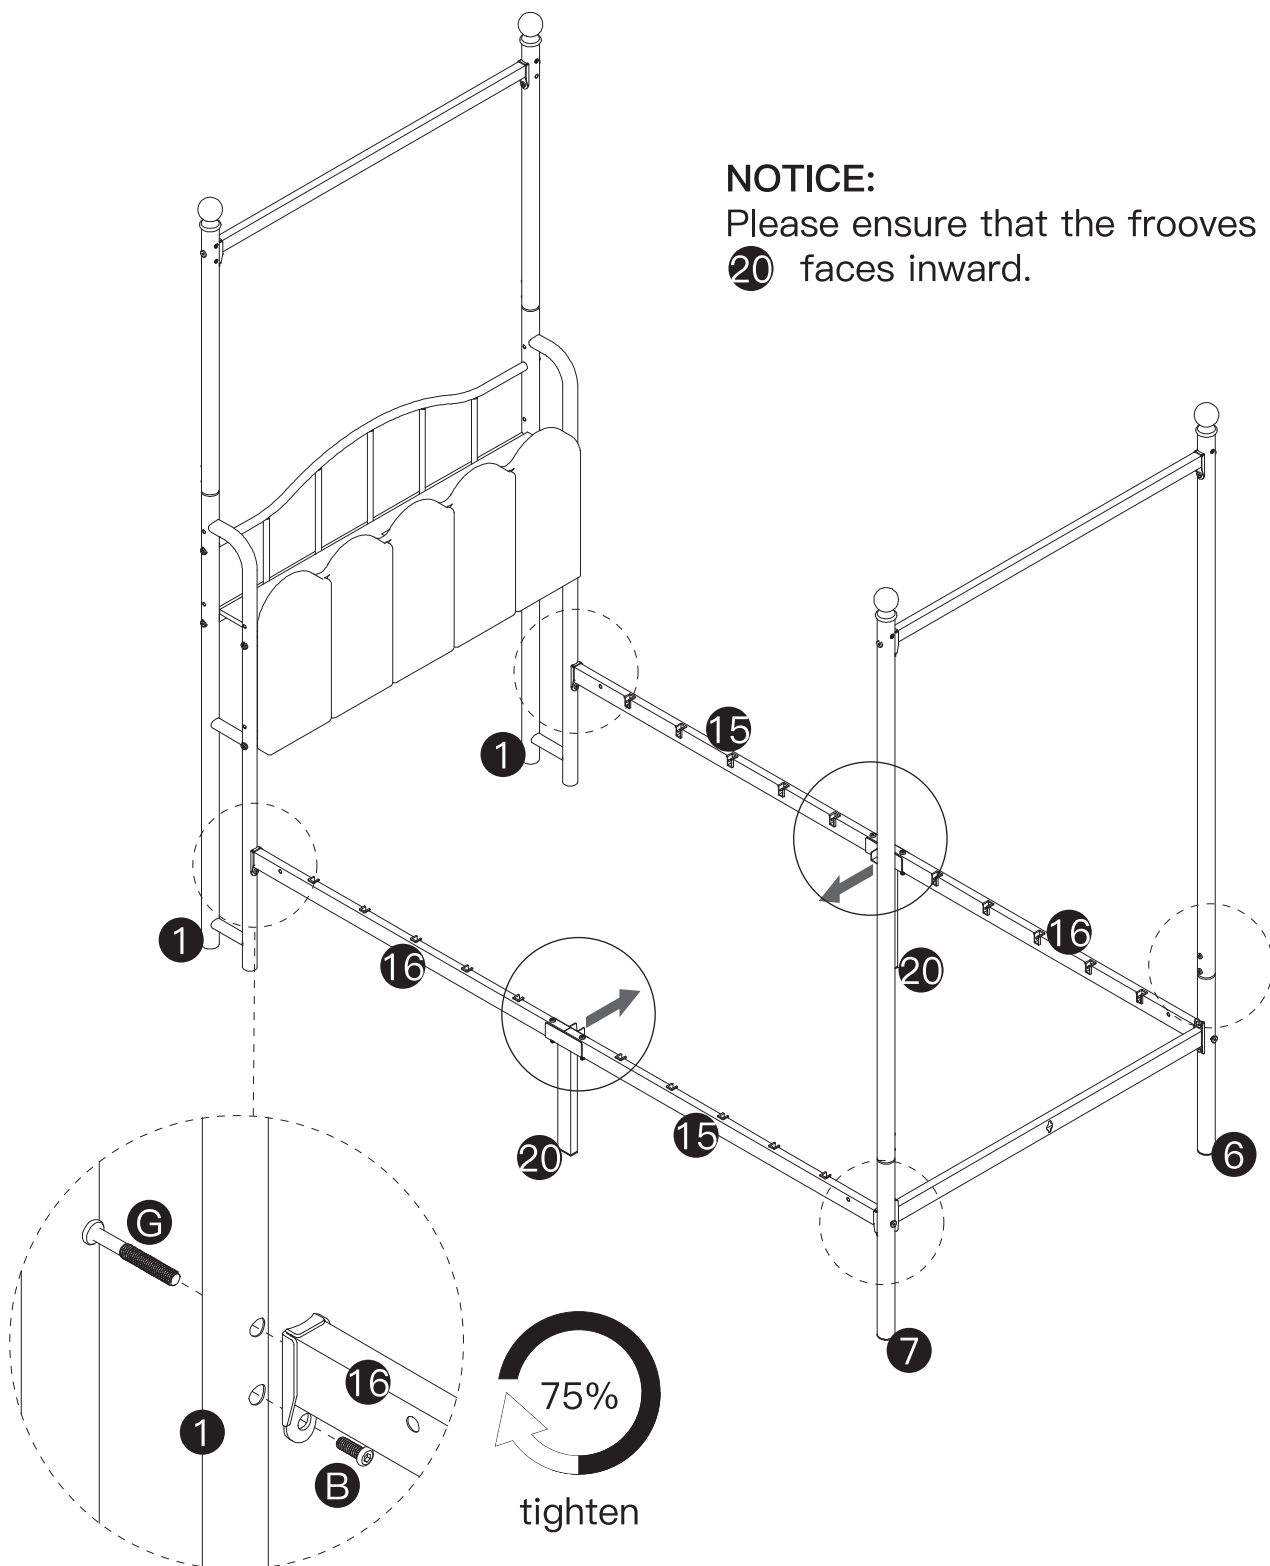

M8x55mm
5/16x55mm
x4

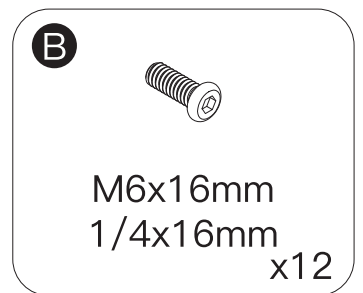

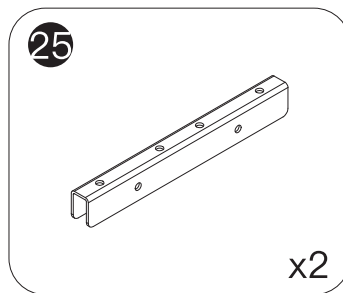

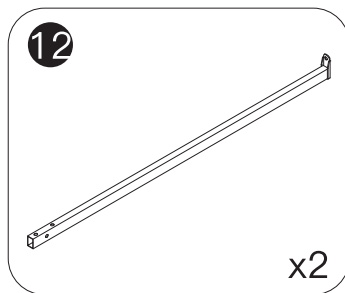

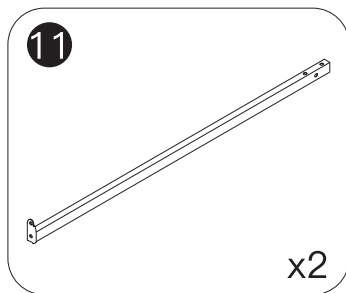

M6x16mm
1/4x16mm
x4

NOTICE:

Please ensure that the grooves of **20** faces inward.

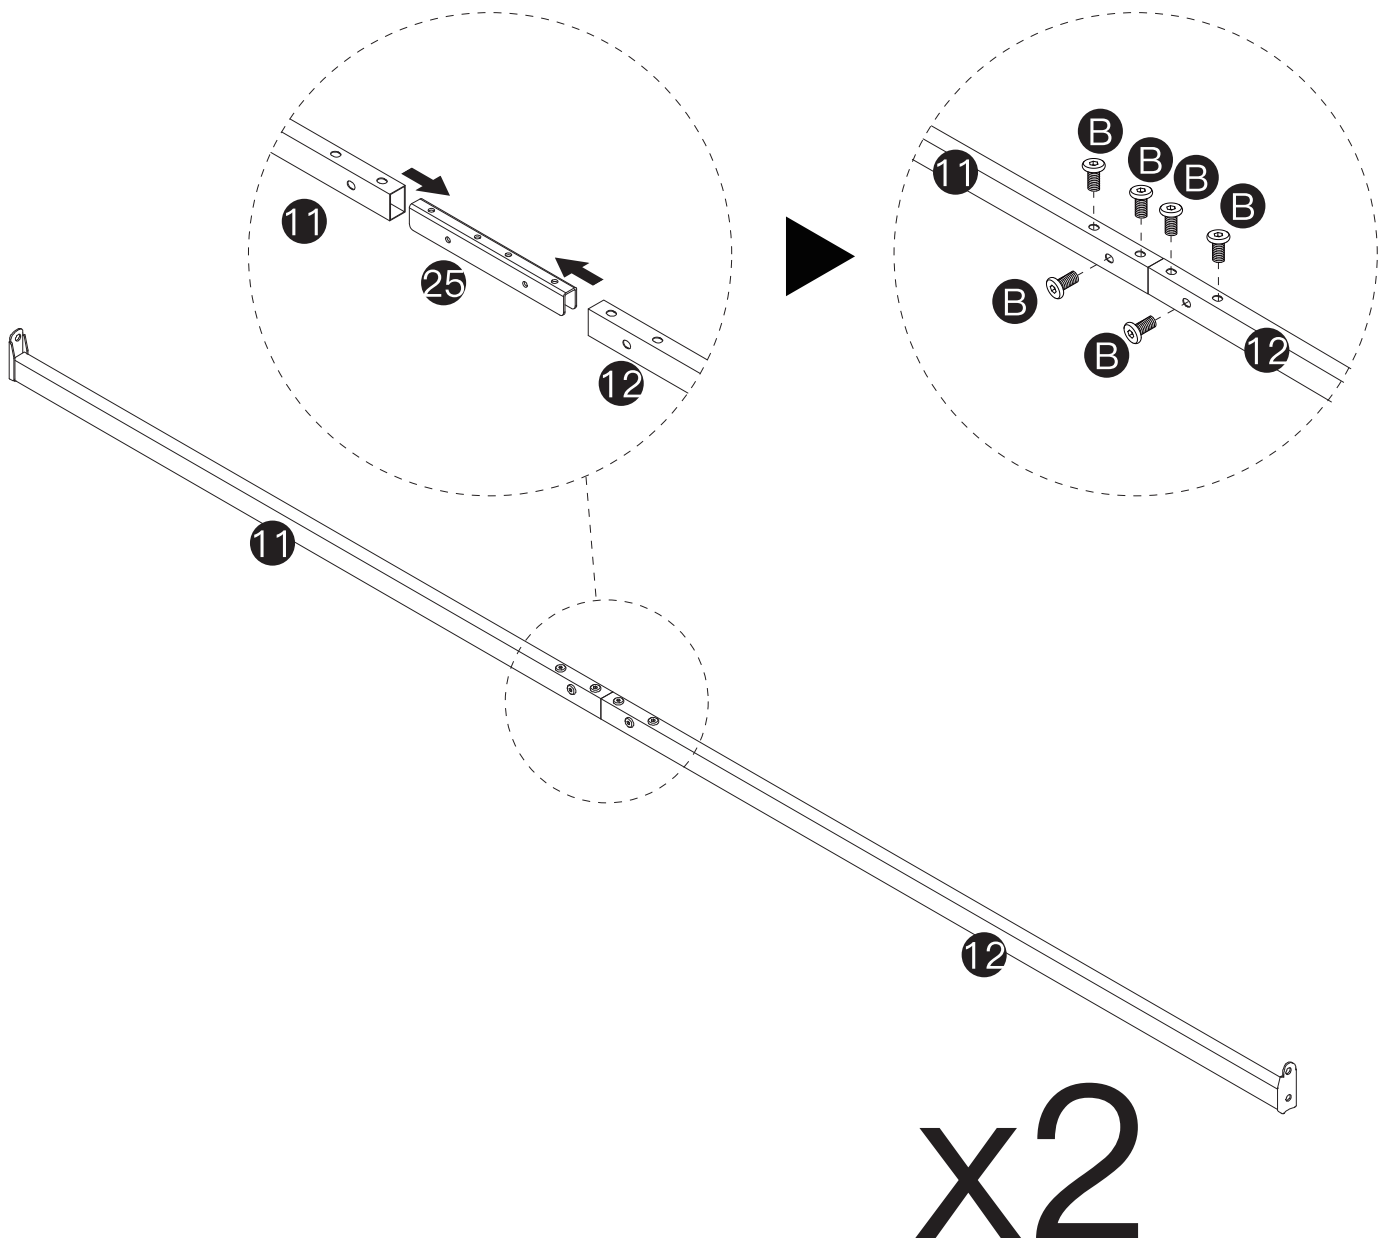

STEP 16

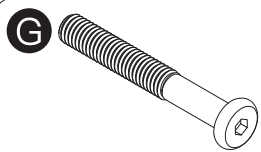

NOTICE:

Align the holes first, then tighten the screws.

STEP 17

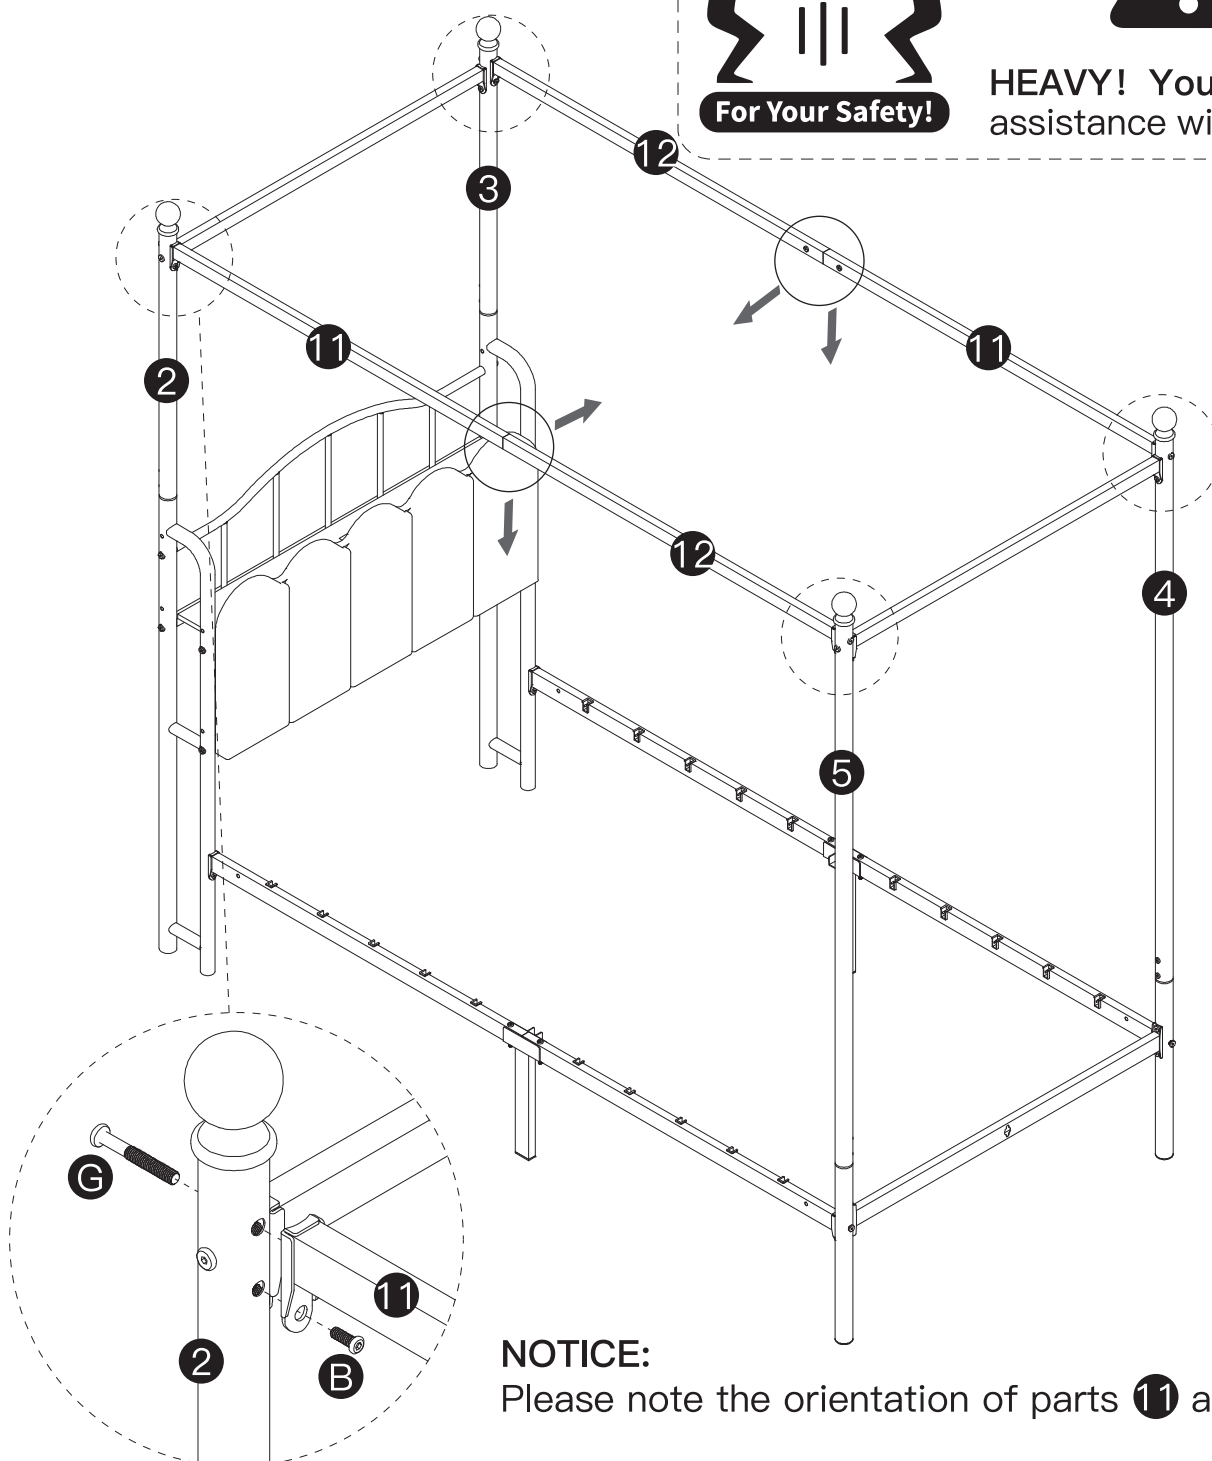

M8x55mm
5/16x55mm
x4

M6x16mm
1/4x16mm
x4

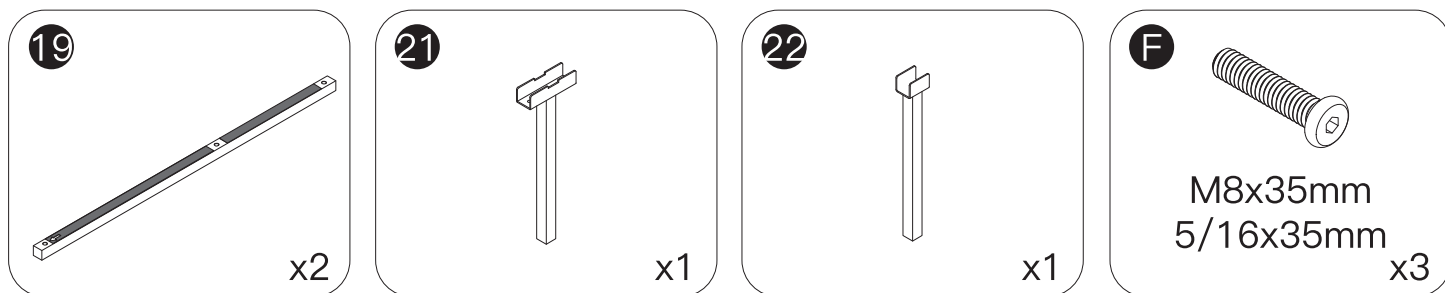

HEAVY! You may need assistance with this step.

NOTICE:

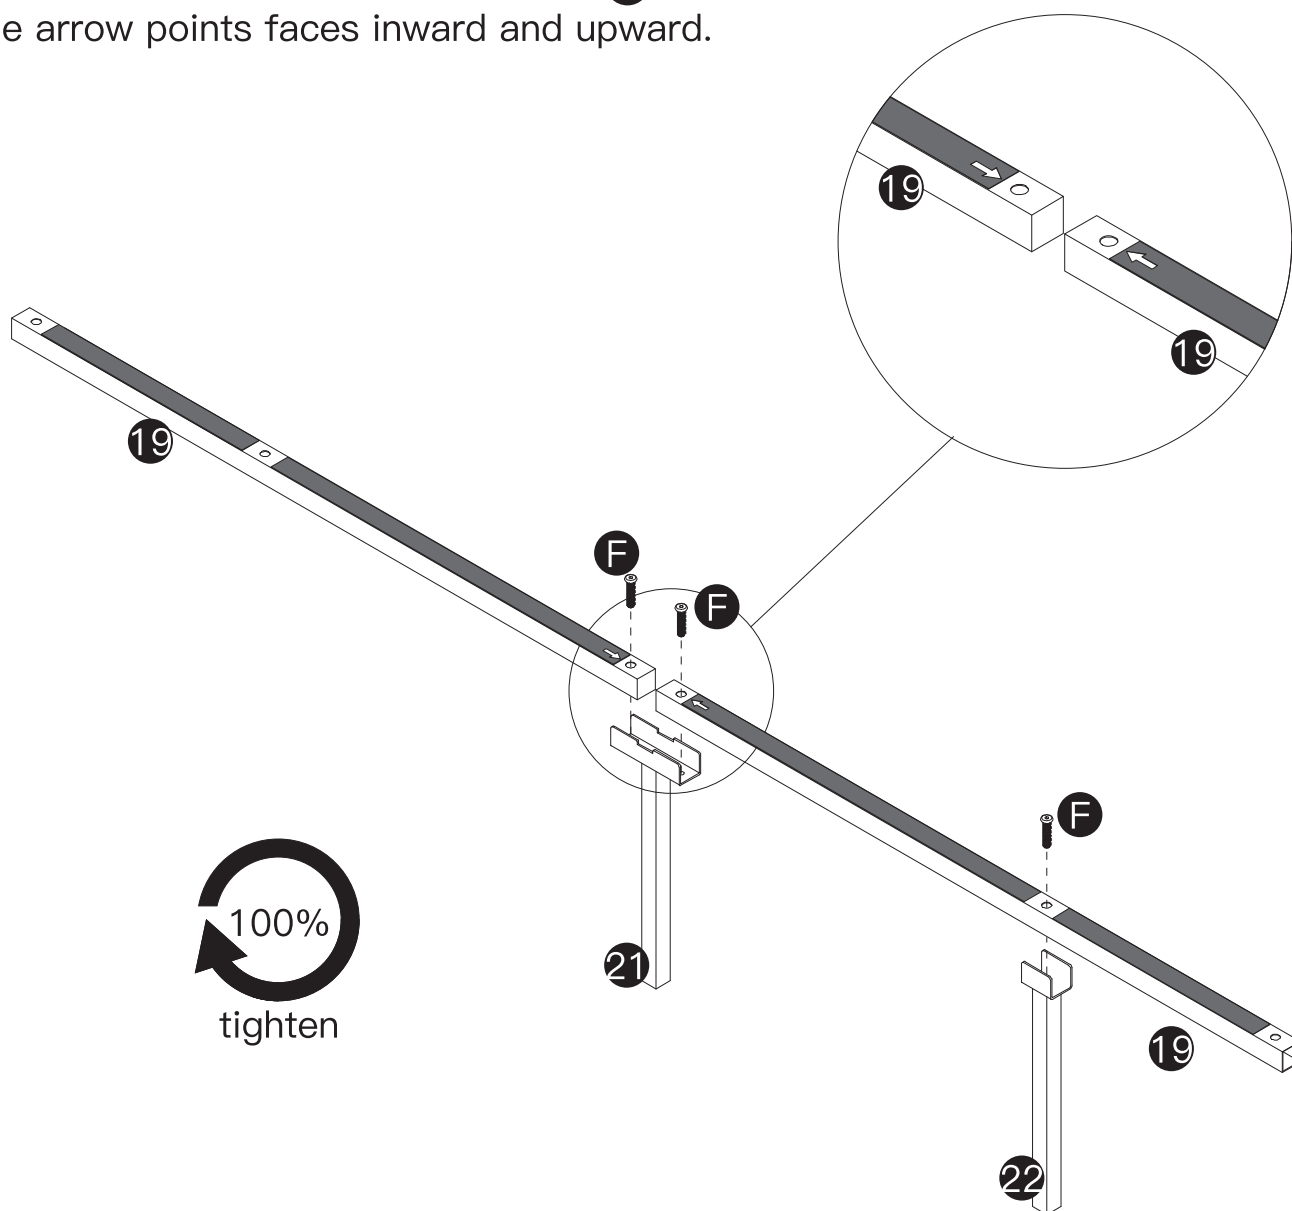

Please note the orientation of parts 11 and 12.

STEP 18

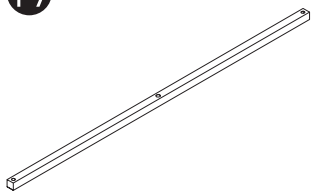

NOTICE:

Please ensure that the side of Parts 19 with the arrow points faces inward and upward.

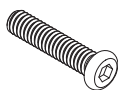

STEP 19

17

x1

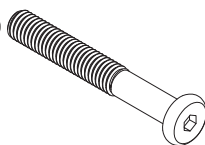

C

M6x28mm
1/4x28mm

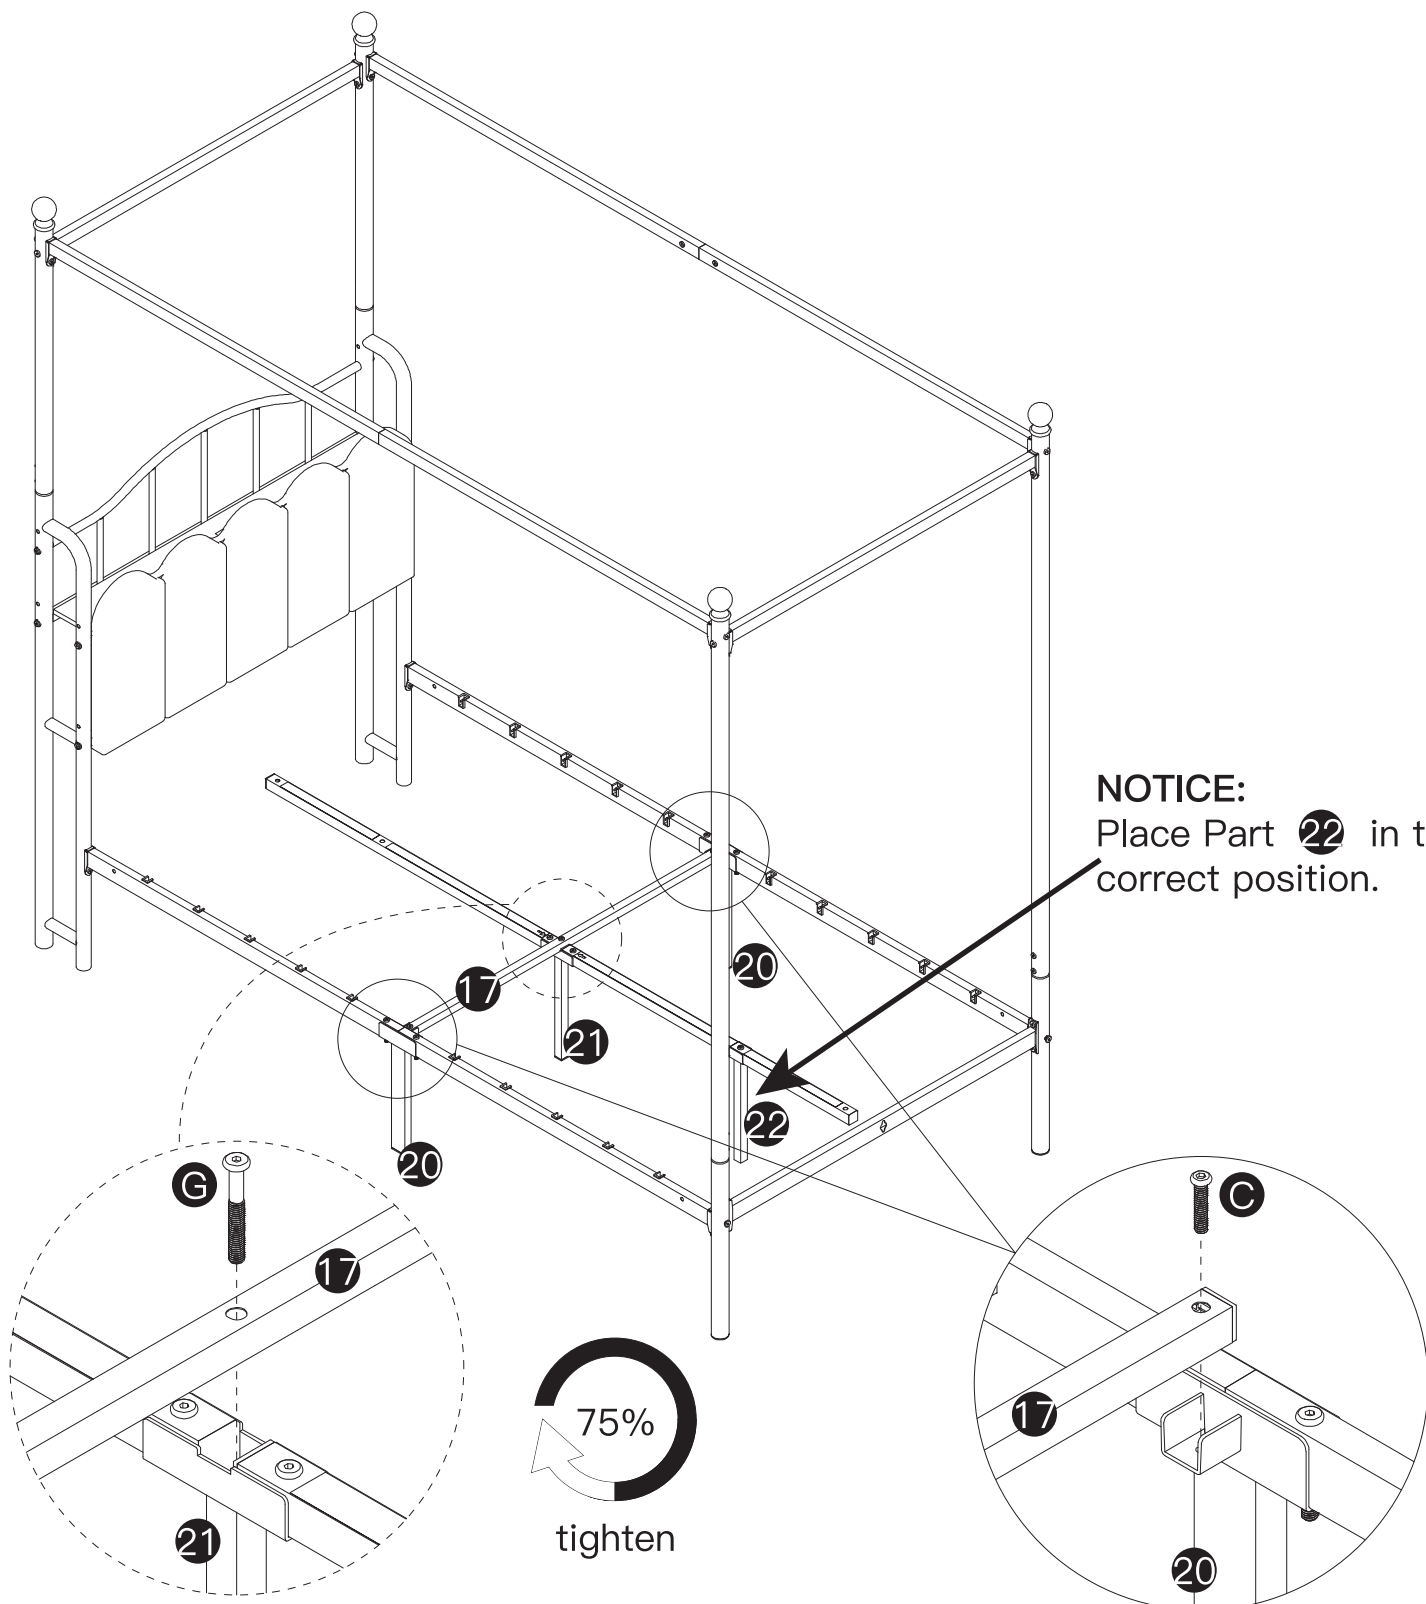

x2

G

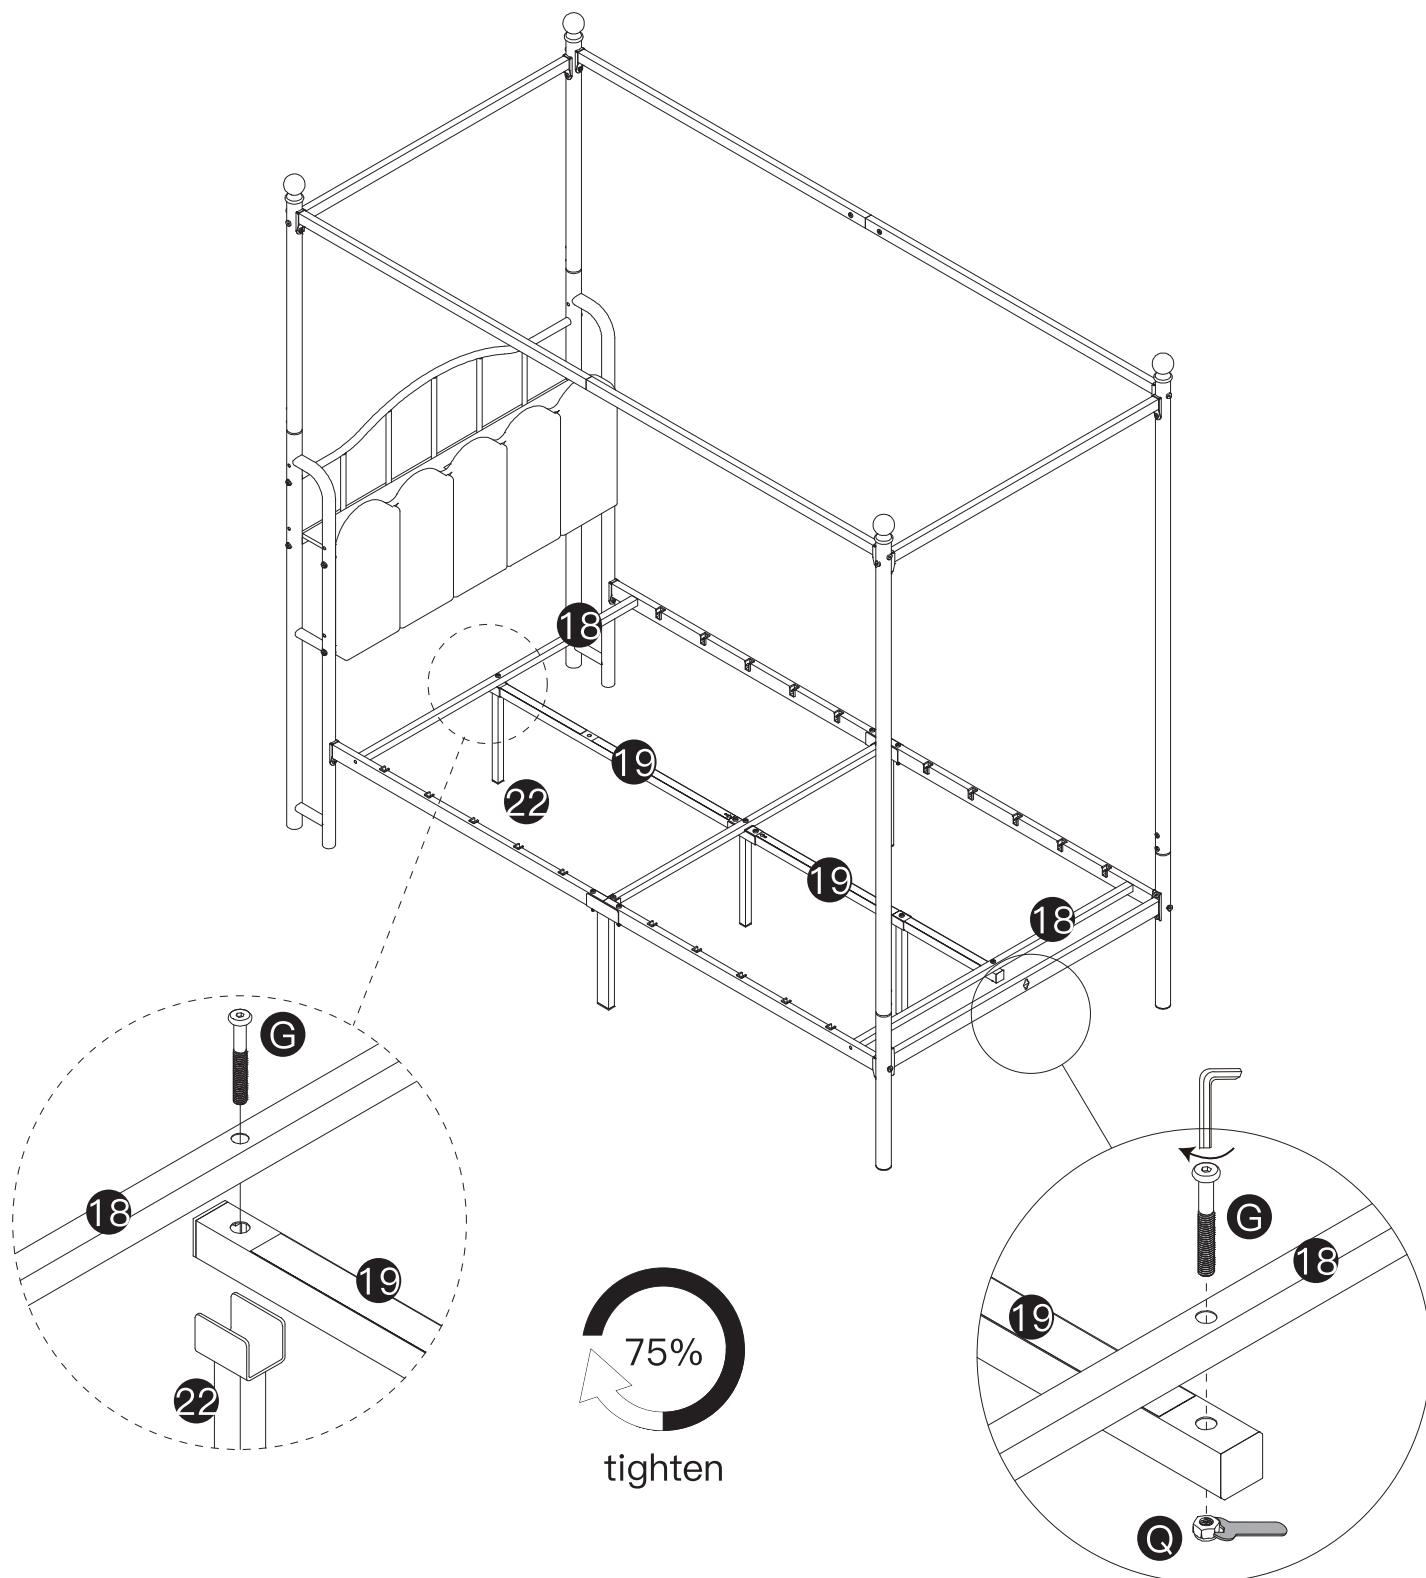

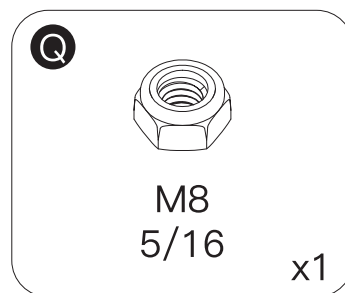

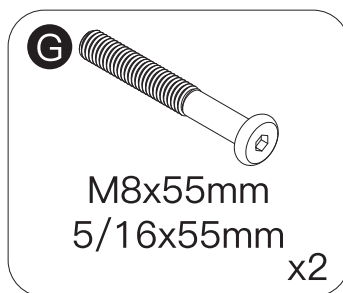

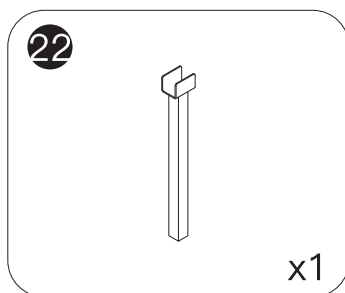

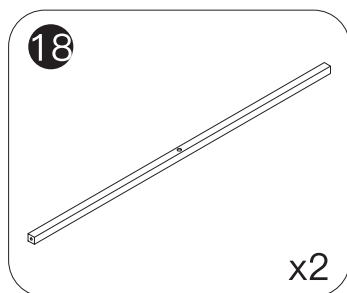

M8x55mm
5/16x55mm

x1

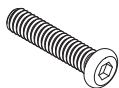

STEP 20

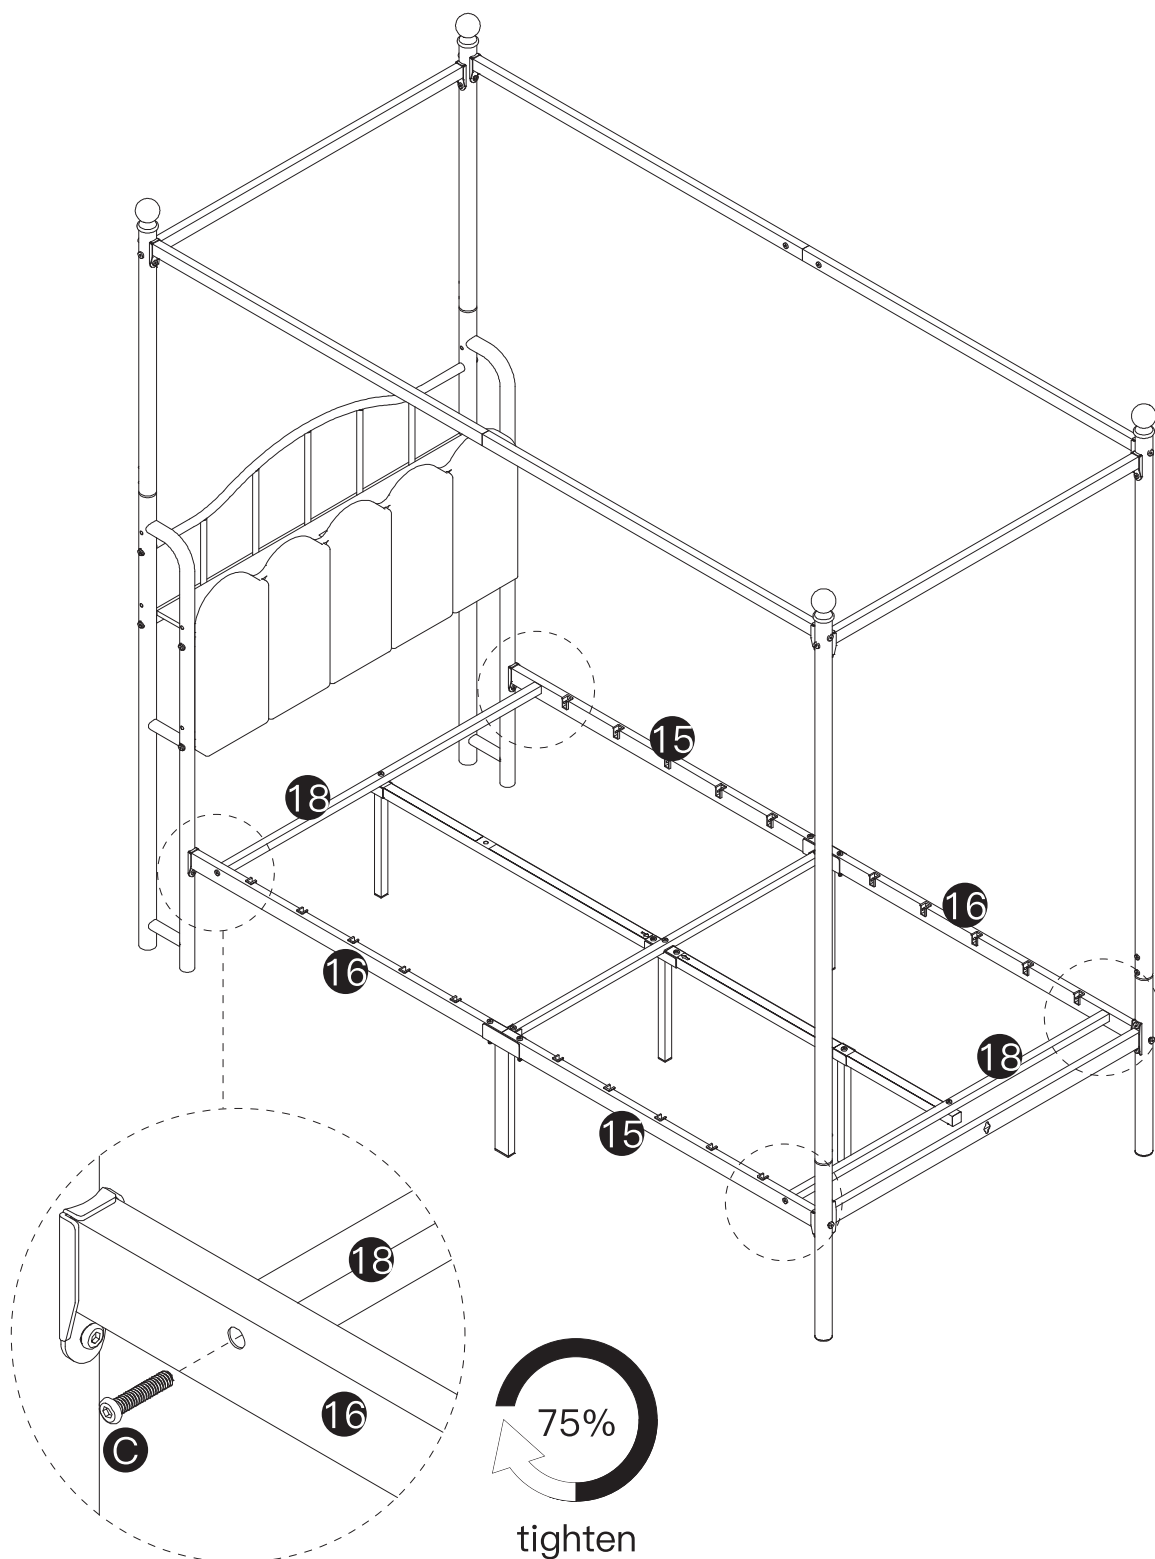

STEP 21

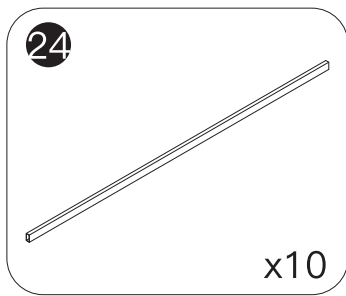

C

M6x28mm
1/4x28mm
x4

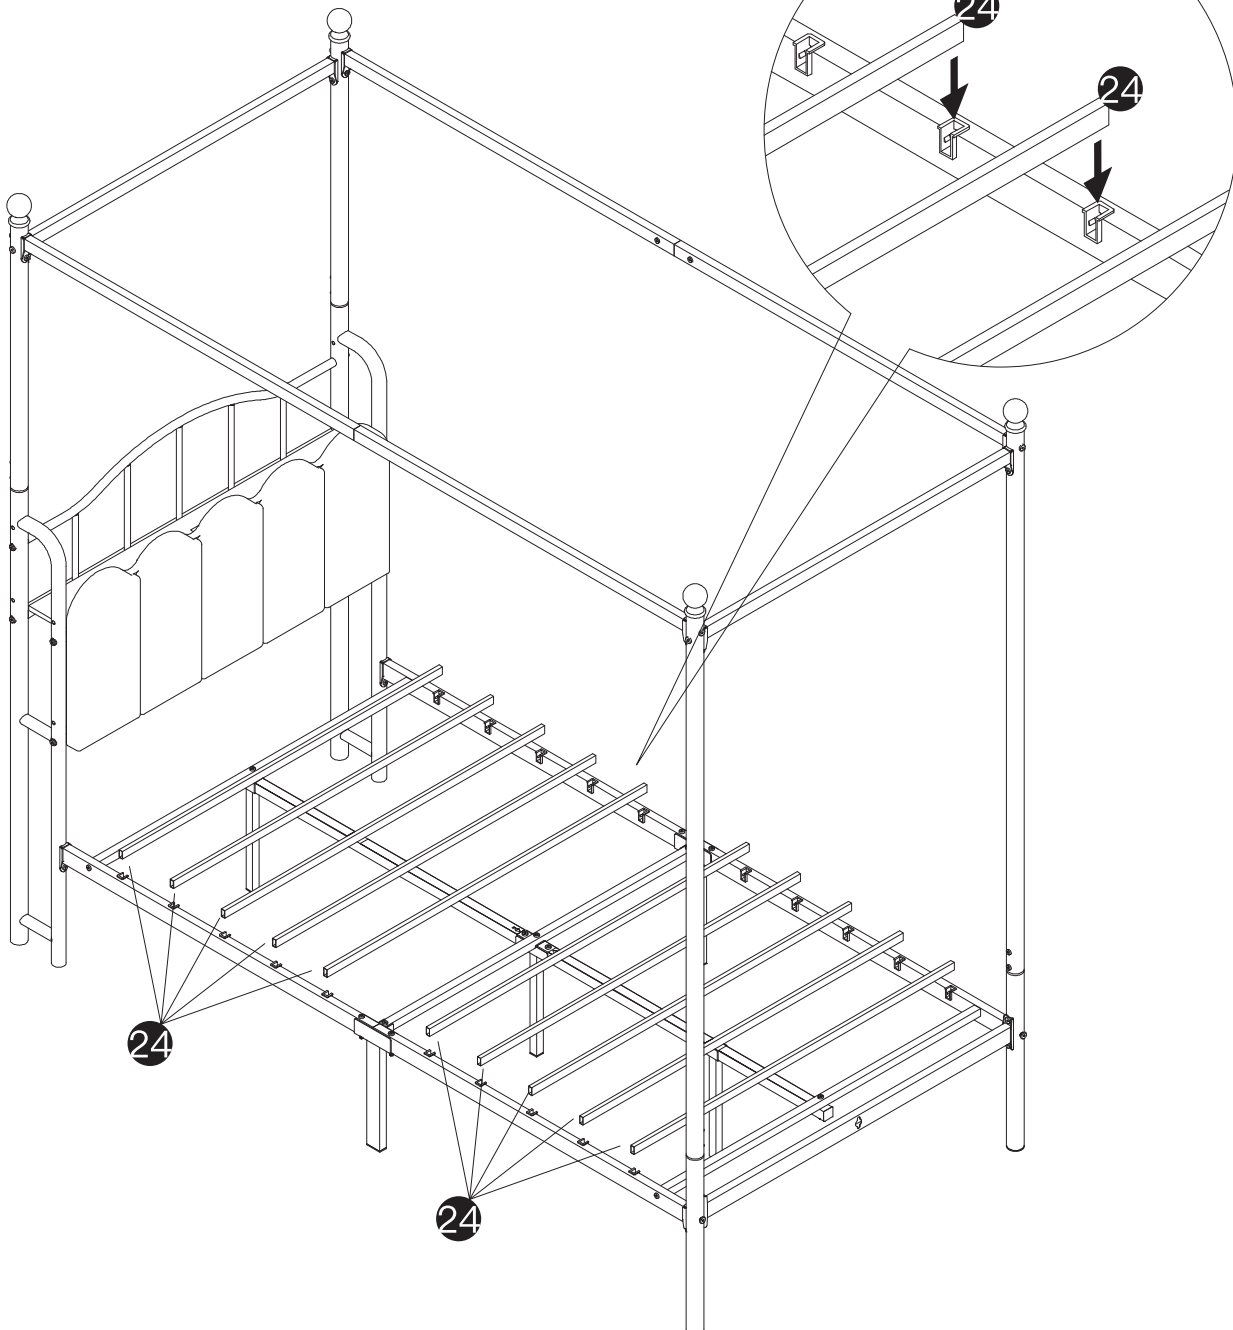

STEP 22

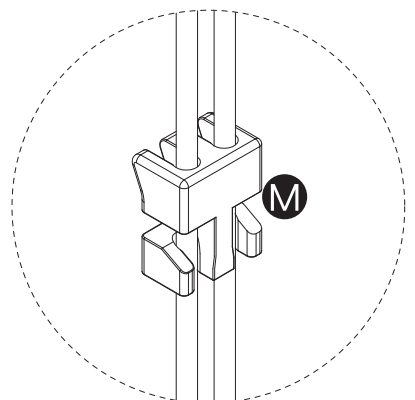

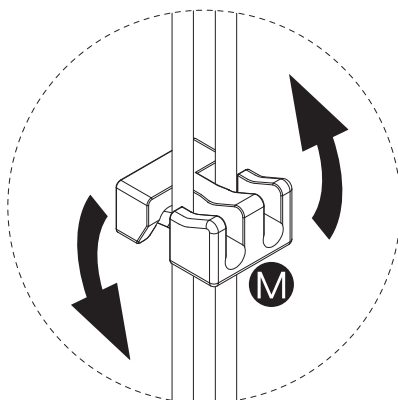

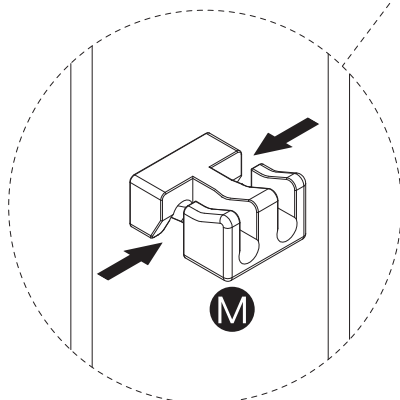

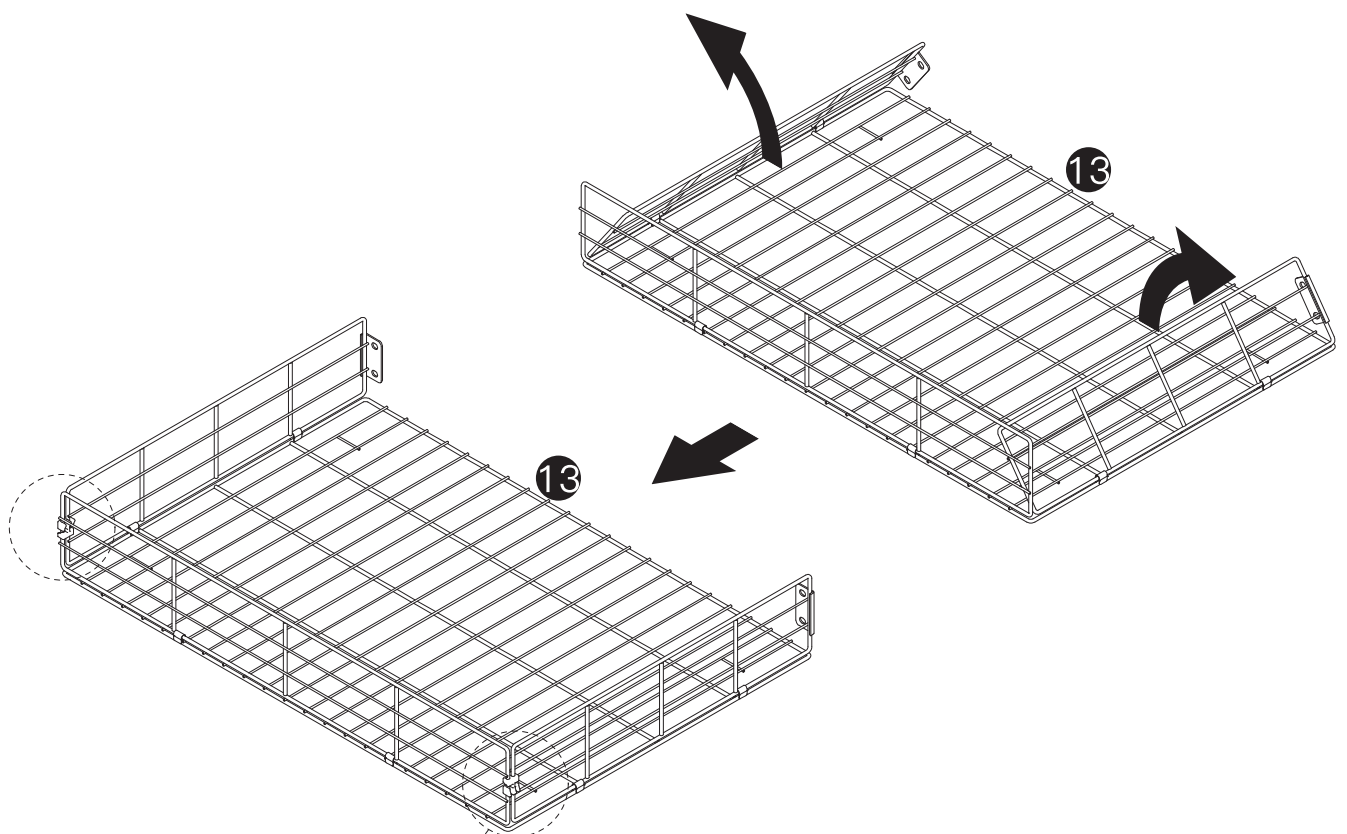

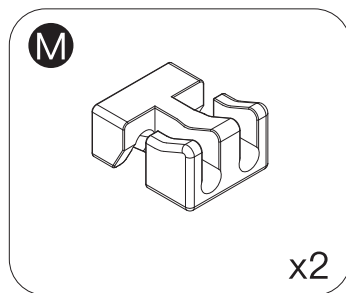

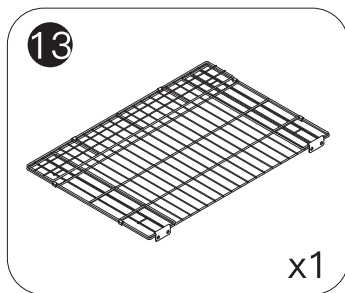

NOTICE:

(1) Please ensure that both ends of part 24 are fully secured.

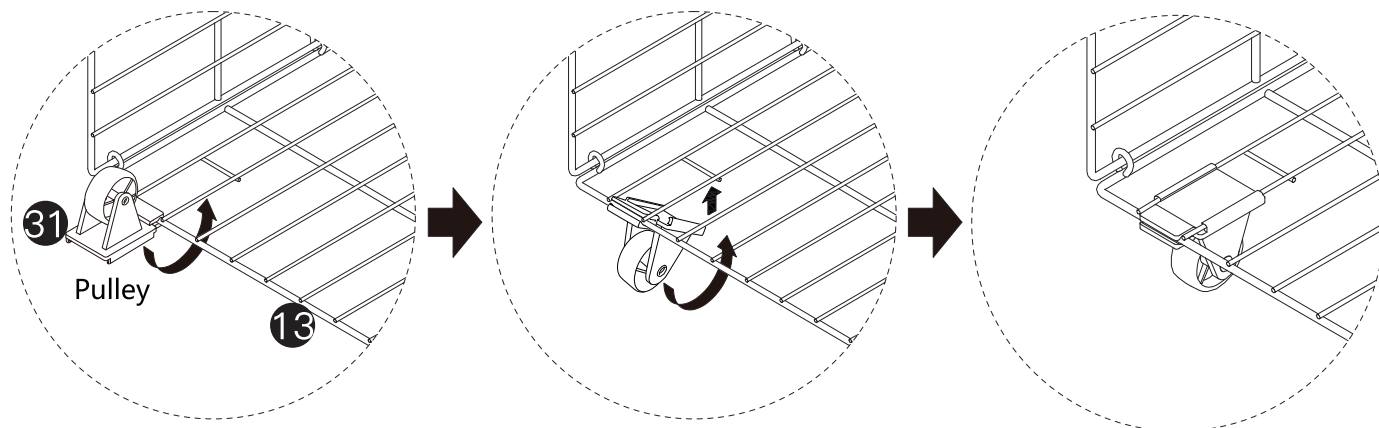

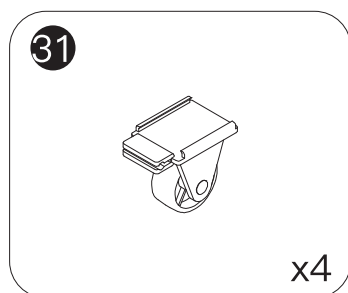

(2) Please tighten all the bolts.

STEP 23

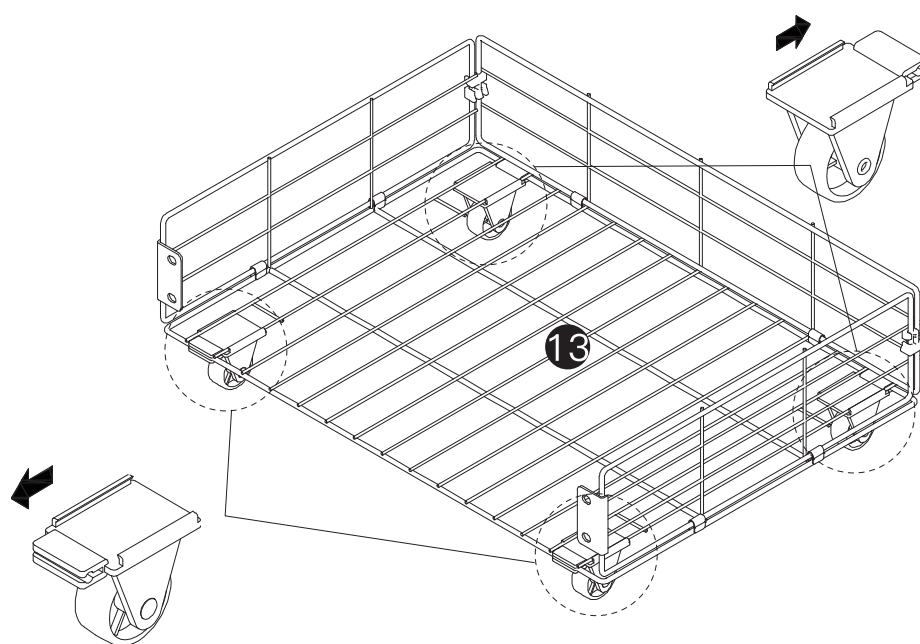

STEP 24

1. Please clip the wheels onto the large iron wire first, as shown in the figure.

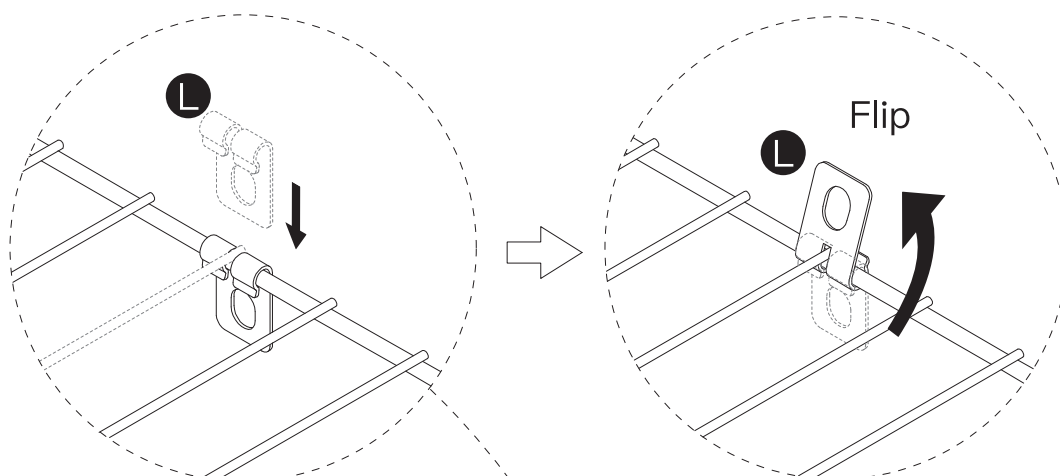

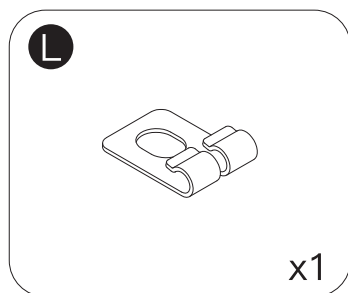

2. Please turn the wheel over, keep the plastic plate of the wheel between the two wires, and then press firmly so that the wires are inserted into the plastic plate. This requires some force.

NOTICE:

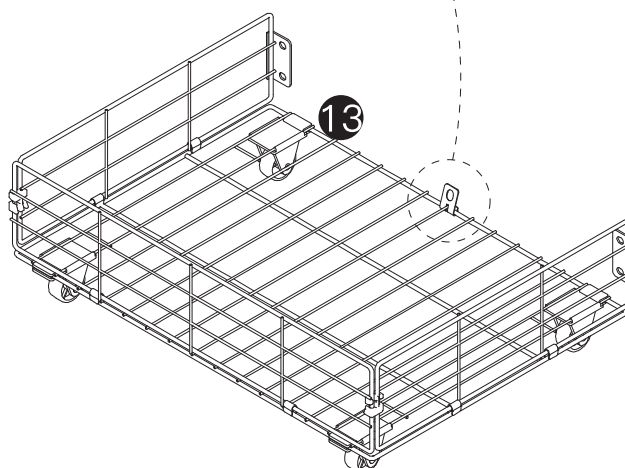

Place the drawer in the correct orientation as shown in the picture; this will help you assemble the drawer easily.

STEP 25

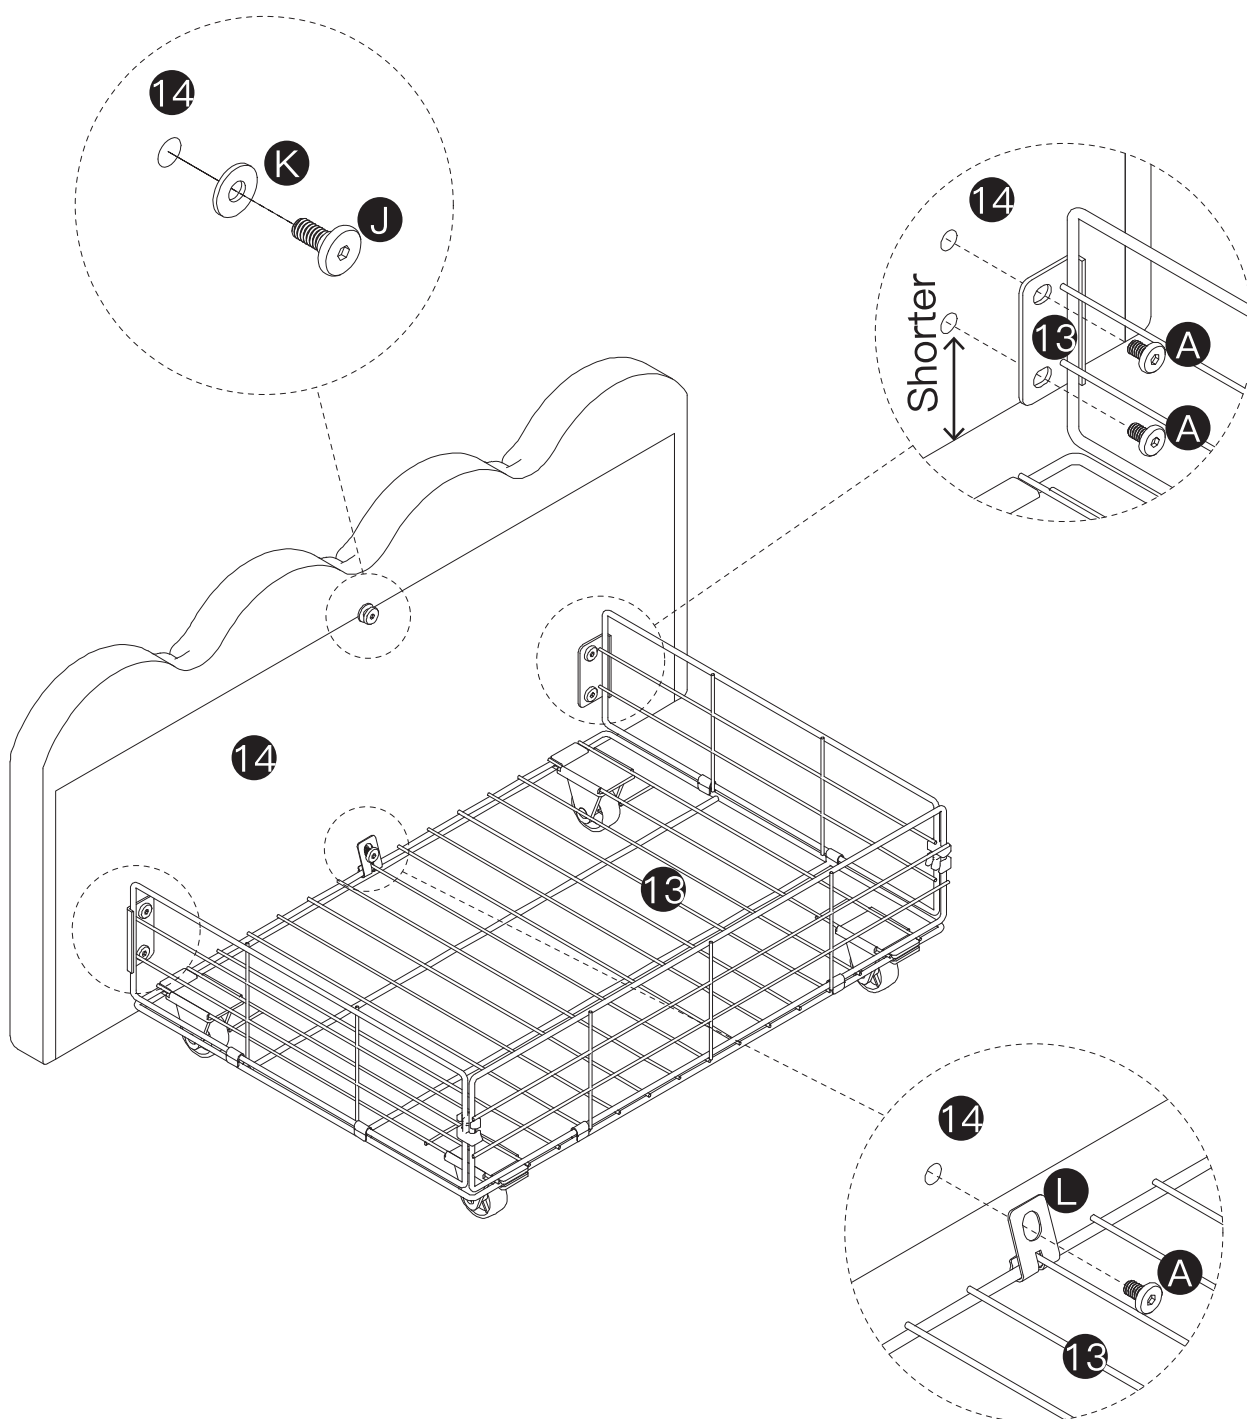

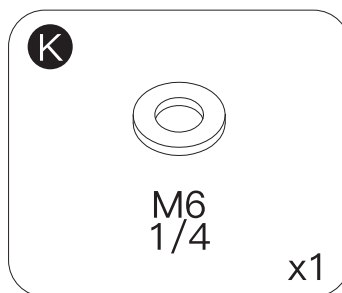

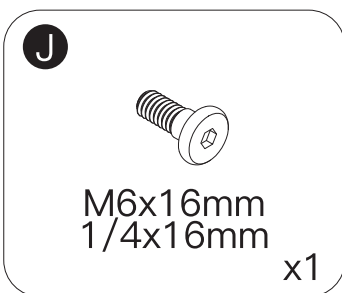

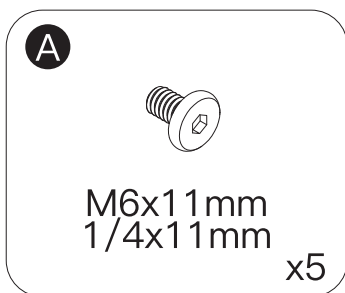

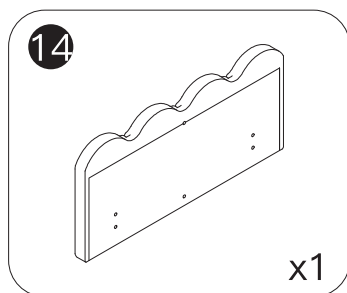

1: As shown in the picture, please clip the L-shaped part (marked **L**) in the middle of the iron mesh drawer.

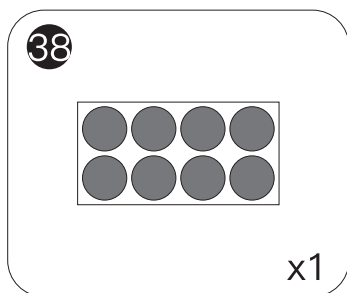

2: Flip it and turn it over.

STEP 26

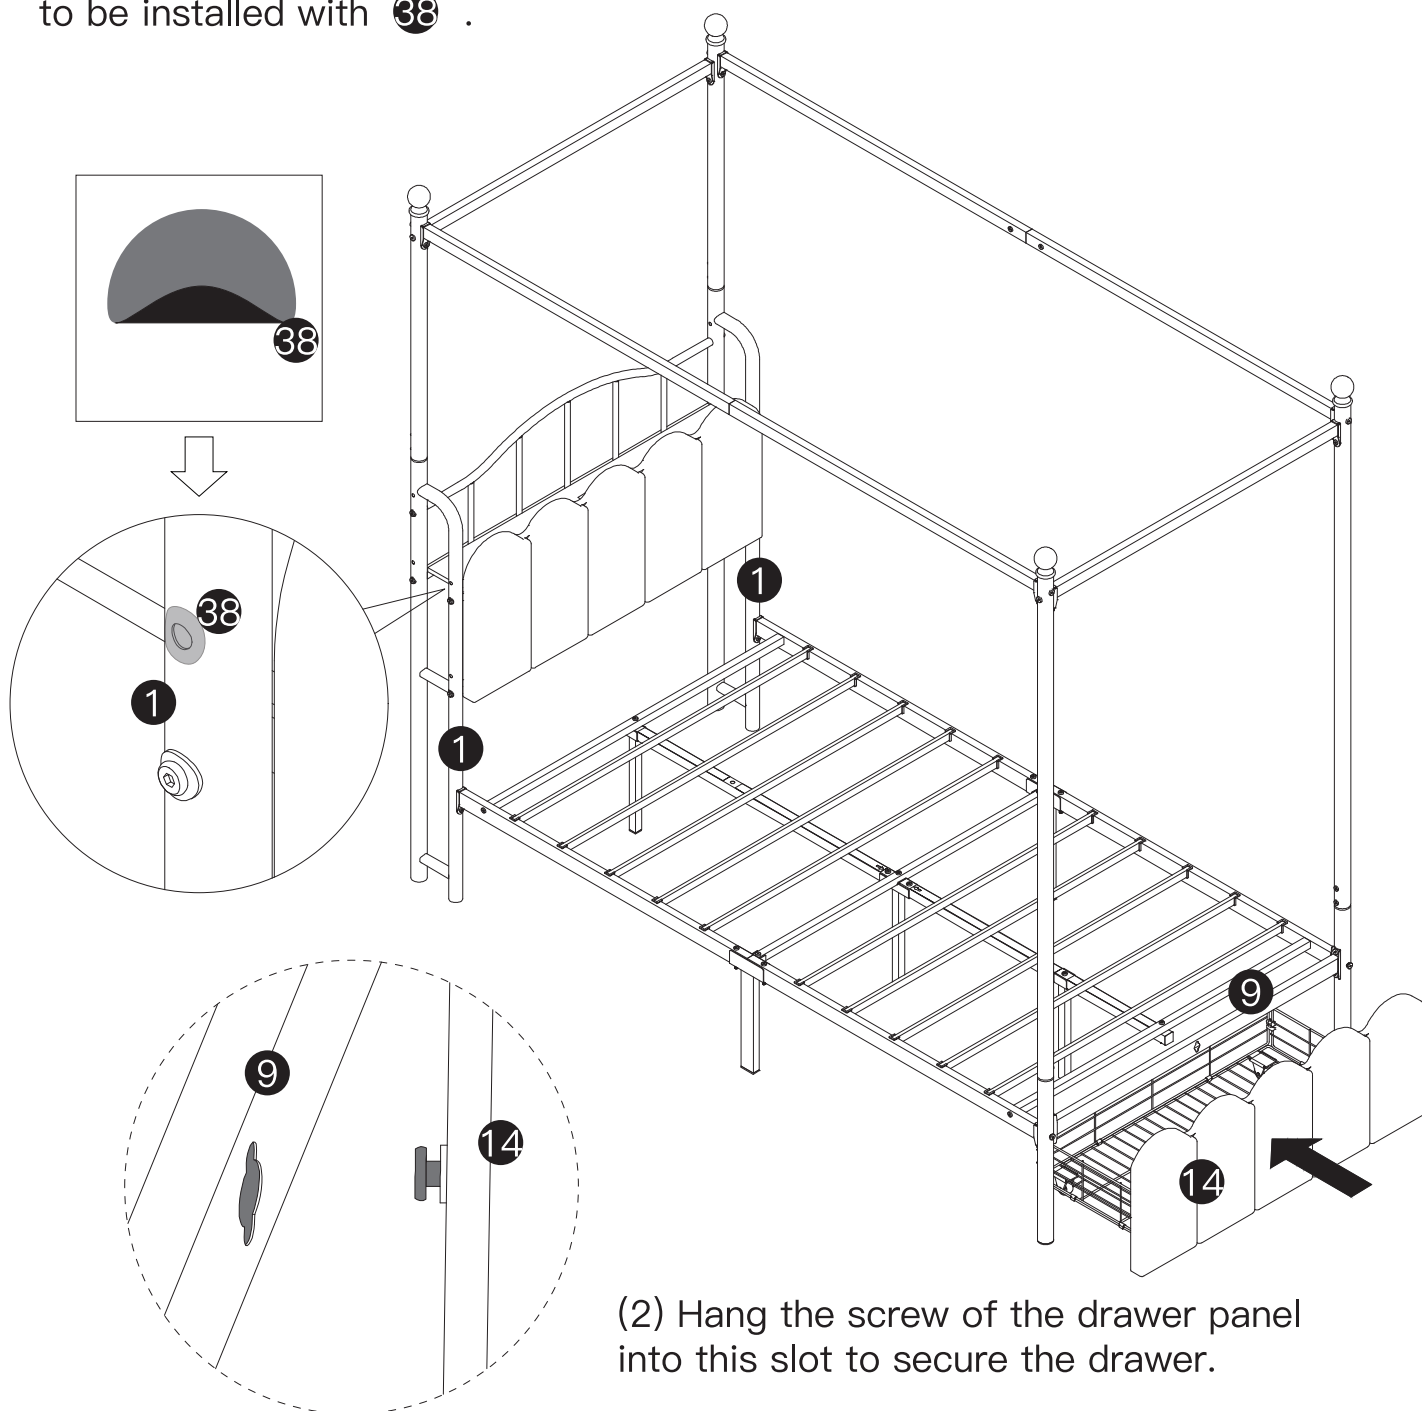

STEP 27

NOTICE:

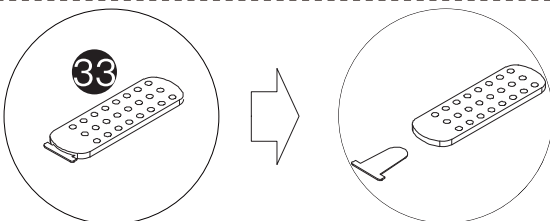

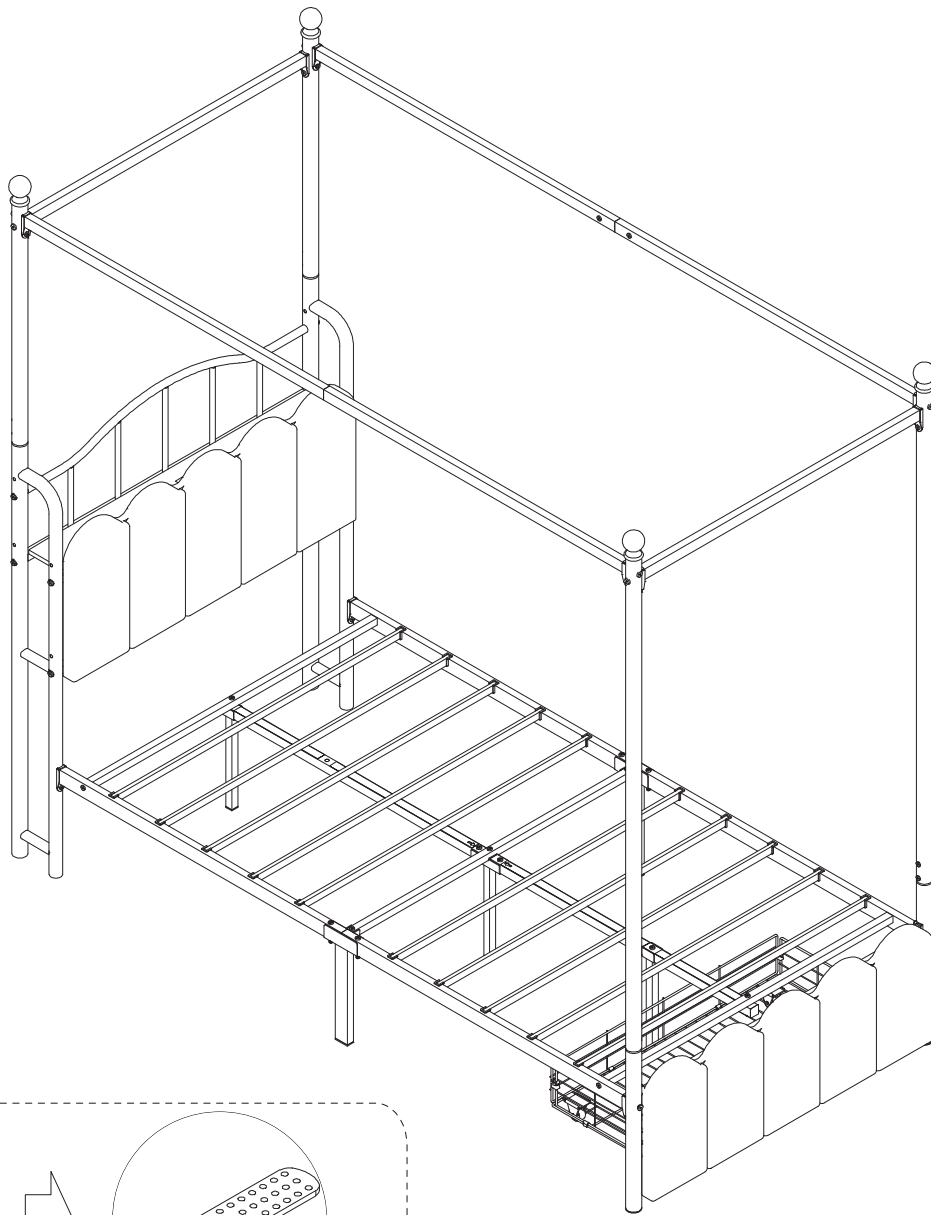

(1) You can cover the holes that don't need to be installed with 38 .

STEP 28

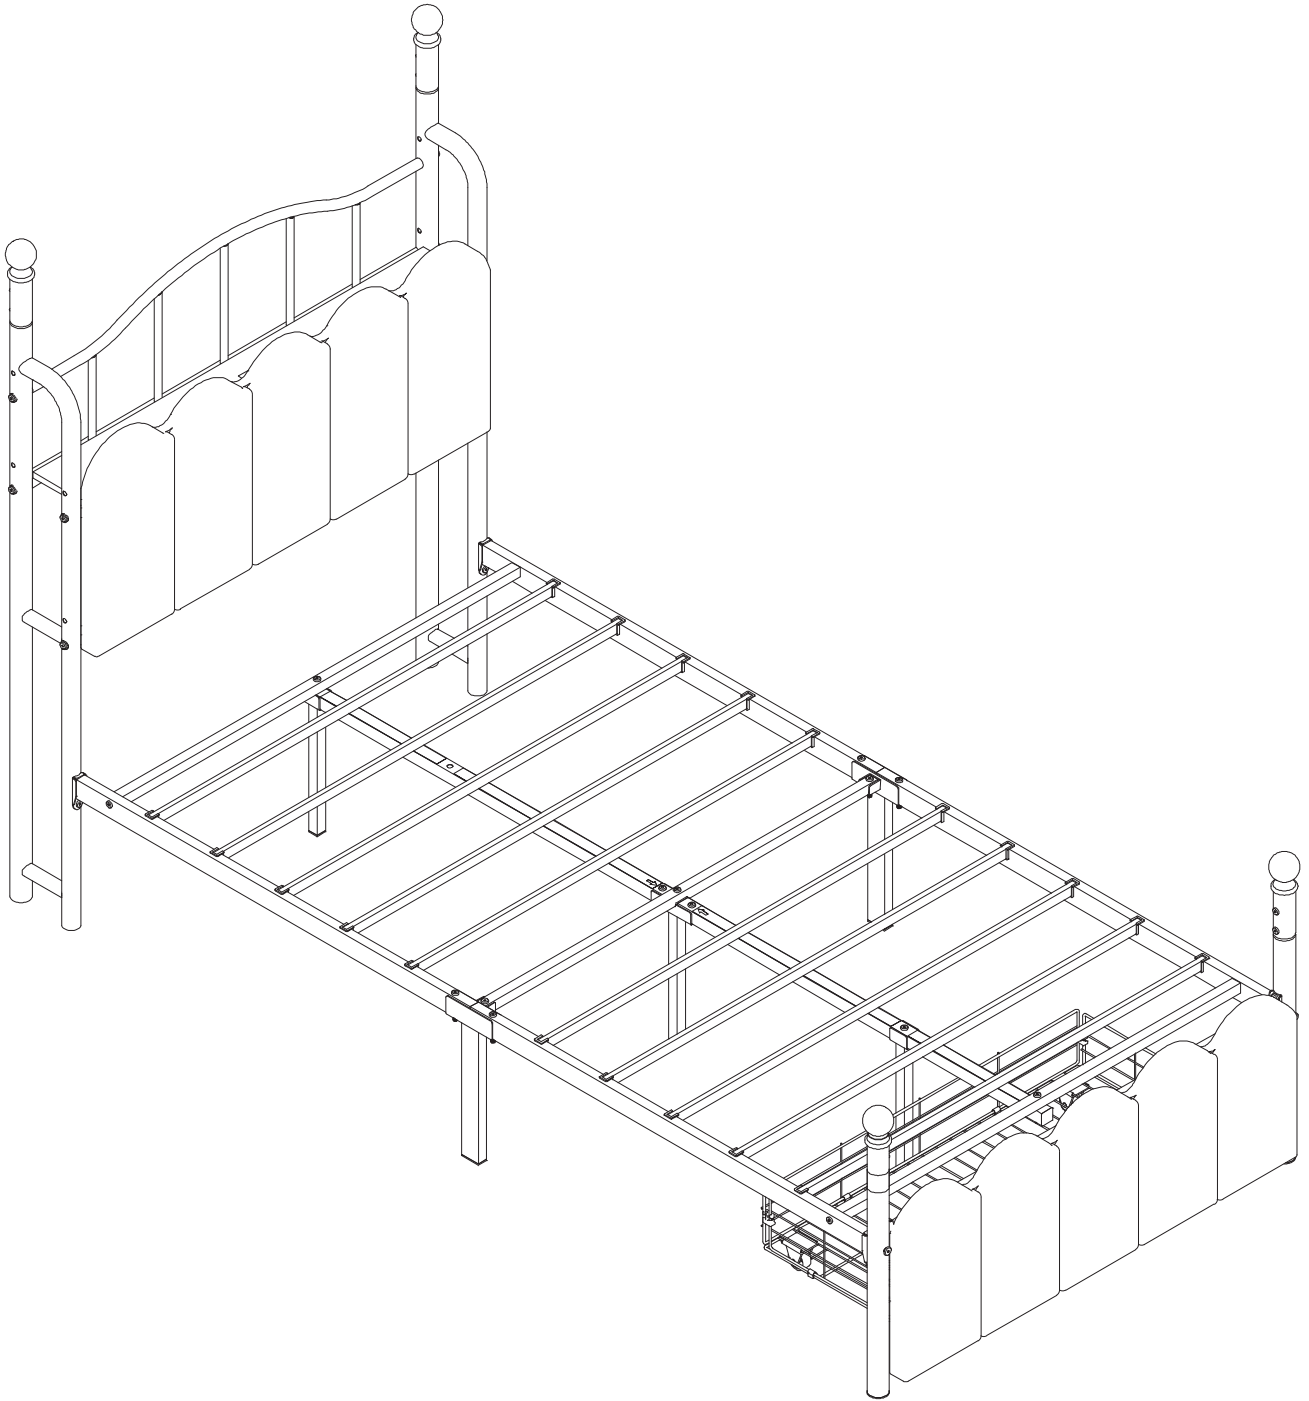

Warm Tips

- (1) Please place the assembled bed against the wall.
- (2) **Do not** jump or play on the bed.
- (3) For your safety, please **do not** crawl under the bed.
- (4) **Do not** hang or climb on the bed.

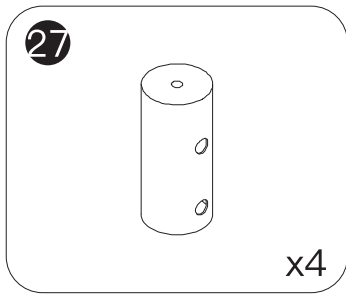

When you use the remote control board to control the color of the light, Please remove the clear plastic card.

TYPE-B INSTALLATION

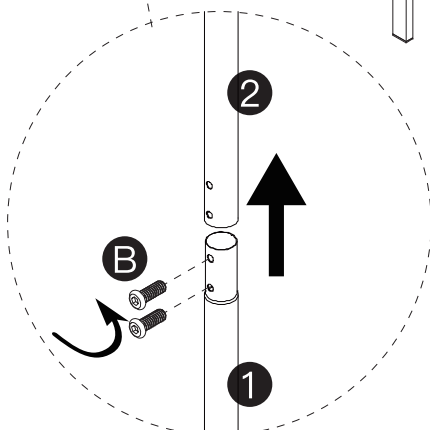

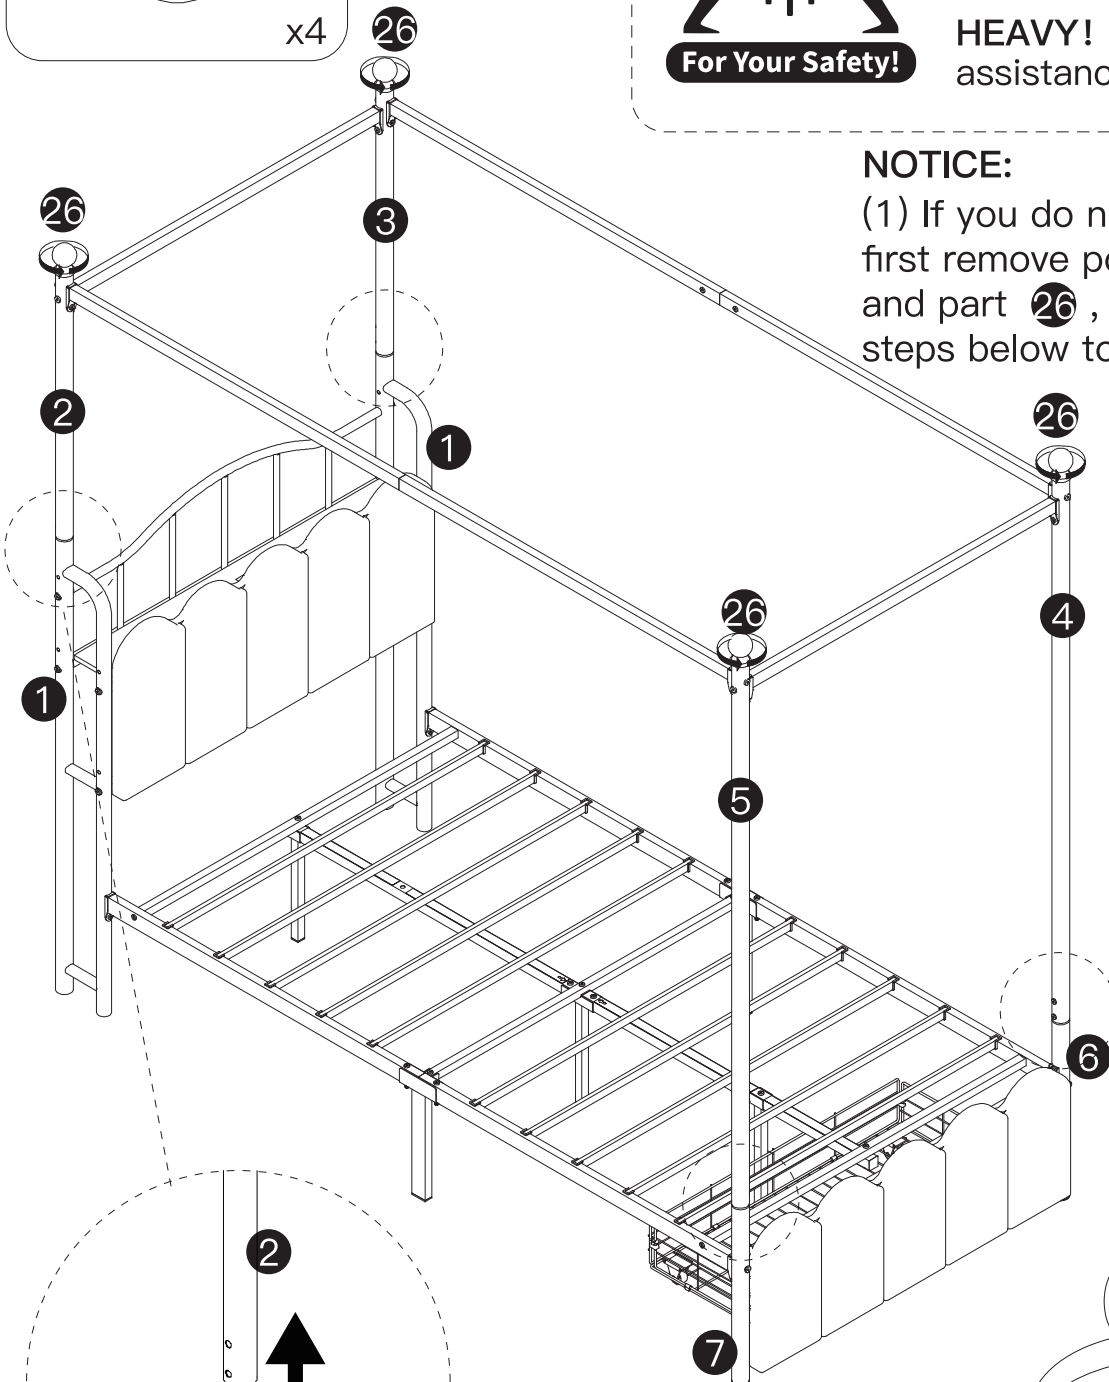

STEP 29

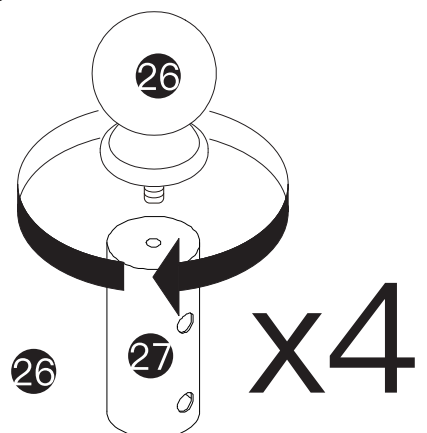

NOTICE:

(1) If you do not need the canopy, first remove posts 2, 3, 4, 5 and part 26, then follow the steps below to install.

Loosen the screws.

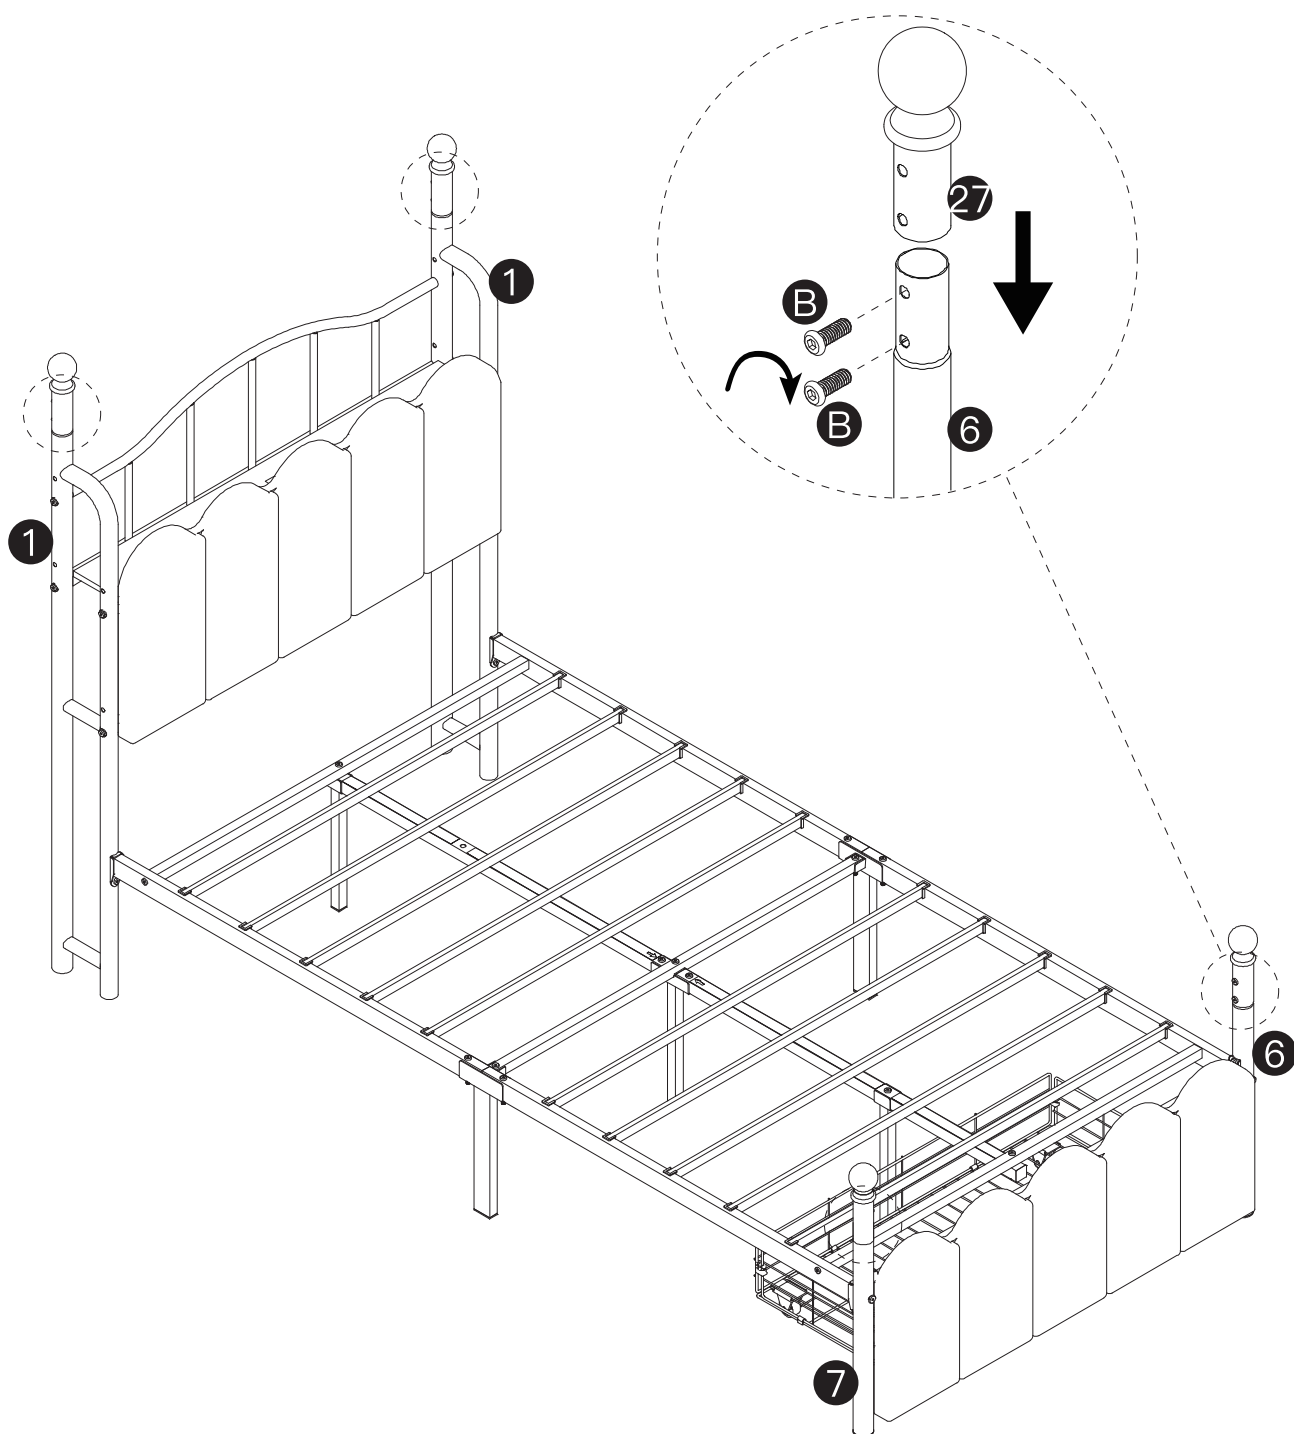

(2) Install the removed Part 26 onto Part 27.

STEP 30

NOTICE:

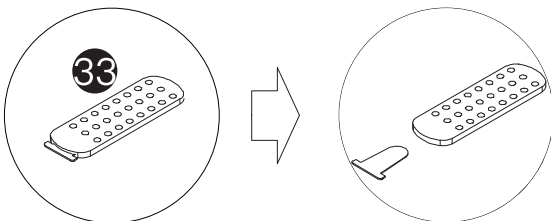

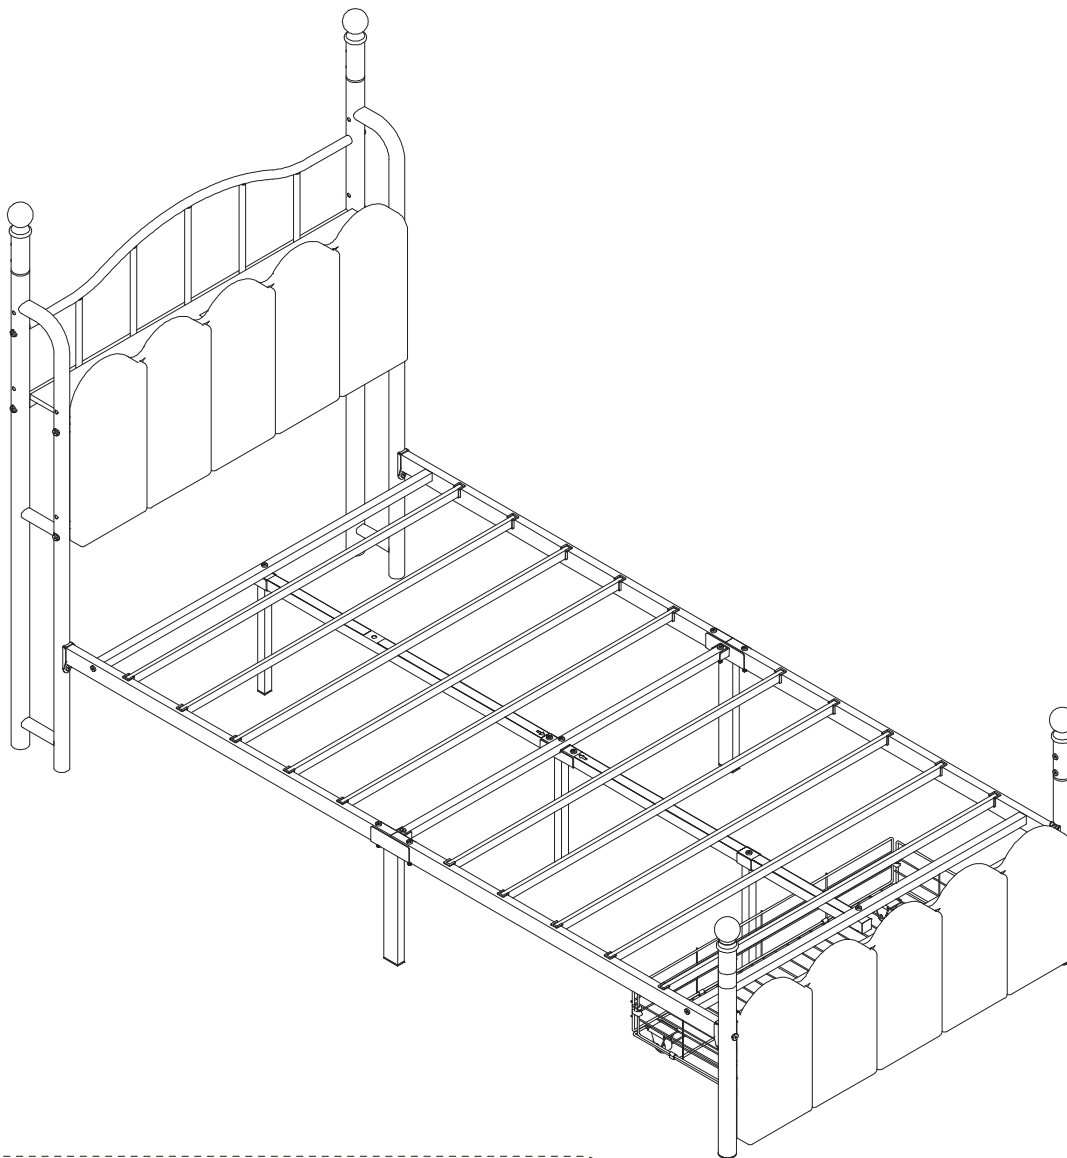

Use the screws **B** removed in the previous step to install Part **27**.

STEP 31

Warm Tips

- (1) Please place the assembled bed against the wall.
- (2) **Do not** jump or play on the bed.
- (3) For your safety, please **do not** crawl under the bed.

When you use the remote control board to control the color of the light, Please remove the clear plastic card.

Wheel Category

Instructions for Use

- Deodorization: It is normal for wheels to have a rubber smell, so there is no need to be nervous. Just place the wheels in a well-ventilated area to let the smell dissipate before installation.
- Usage Method: Install them at the bottom of compatible products, ensuring that the wheels can rotate flexibly, the braking function (if any) works properly, and push at a constant and stable speed. Avoid driving quickly on uneven ground to reduce wheel wear.

- Ensure the integrity of accessories: Prevent collisions and falls that may cause wheel deformation and bearing damage, as well as hard objects from scratching the wheel surface.
- **Load-bearing limit:** Strictly use within the rated load to avoid wheel damage and product tilting due to overloading.
- **Ground protection:** Avoid long-term use on sharp, uneven ground to prevent wheel surface wear and jamming.
- **Brake usage:** For wheels with a braking function, please brake and fix them in time when the product is not in use to prevent the product from sliding.
- For the safety of you and your family, it is recommended to install the **Anti-Tip Device Kit**.

Maintenance Methods

Cleaning method: Wipe the dust and debris on the wheel surface with a damp cloth, and clean the bearing parts with a dry soft brush. Regularly check the wear of the wheels, whether the bearings rotate smoothly, and whether the brakes are sensitive, and replace severely worn wheels in time.

Light strip

Preparation before Installation

Before installation, please carefully read the instructions for this type. Check whether the light strip, power adapter, controller (if any), and connecting wires are in good condition, without extrusion, cuts, or exposed wires.

Confirm that the output voltage (V), current (A), or power (W) of the power adapter fully matches the rated input parameters of the light strip. **Strictly prohibit use with overvoltage or overpower!**

Confirm that the type of the controller (RF remote control, WiFi, Bluetooth, DMX, etc.) is consistent with your needs and compatible with the light strip (in terms of voltage and signal protocol).

Instructions for Use

(1) Operate the on/off function, dimming, color adjustment, and mode switching according to the controller's instructions. Avoid prolonged full – power operation in extremely high – temperature environments (such as direct sunlight without heat – dissipation measures) or enclosed, poorly ventilated spaces.

(2) Unless necessary, **Do not** frequently turn the power on and off. Avoid pulling, squeezing, or folding the light strip, as this may cause circuit breaks and render the light source inoperable.

Notes

- **Stay away from all water sources:** Use the light strip away from water sources or humid environments.
- **Strictly prohibit live – line operation:** All installation, cutting, connection, and maintenance must be carried out when the power is off.
- **Power adapter:** Be sure to use the original or high – quality power adapter with strictly matching parameters.

- **Pay attention to temperature:** It is normal for the light strip to feel slightly warm when working. But if it feels scalding hot ($> 50^{\circ}\text{C}$), it indicates poor heat dissipation or overload. You must immediately cut off the power and check (installation environment, power matching, whether there is a local short circuit).
- **Professional installation:** For complex installations (such as long – distance, high – power, special environments) or if you lack electrical knowledge, it is recommended to seek the help of a professional electrician.
- **Child safety:** Keep children away from this component; Prevent children from biting, swallowing, or wrapping it around their bodies.

Maintenance Methods

(1) **Cleaning Method:** Before cleaning, be sure to disconnect the power supply and wait for the light strip to cool down. Use a dry or slightly damp soft cloth to gently wipe dust and stains on the surface of the light strip. The surface of the encapsulated glue is relatively easy to clean. It is strictly forbidden to use corrosive chemical cleaning agents (such as strong acids, strong alkalis, alcohol, gasoline, thinner, etc.), abrasives, steel wire balls and other hard objects for wiping, so as not to damage the surface finish, transparency of the encapsulated glue layer or cause aging and cracking. **Do not** soak the light strip in water for cleaning!

(2) **Inspection and Maintenance:** Regular inspection (recommended quarterly or semi – annually): Check whether the light strip has physical damage (such as cuts, indentations, colloid cracking, degumming). Check whether all connection points (joints, solder joints, power interfaces) are firm, free of rust, and free of water ingress marks. Check whether the waterproof measures (end caps, connector seals, sealant) are in good condition and not aged and ineffective. Check whether the fixing devices (back glue, buckles, cable ties) are loose or fallen off.

Power strip

Preparation before Installation

Ensure the rated voltage range marked on the power strip covers your local voltage. **Never use** it if they don't match!

Carefully check the maximum rated power (in Watts, W) or maximum current (in Amperes, A) marked on the power strip. This indicates the total load limit the strip can handle.

Instructions for Use

(1) Insert the power strip plug fully into the wall socket to ensure good contact.

(2) Plug appliances directly into the power strip's sockets. Never daisy-chain (cascade) another power strip onto this one, especially for high-power devices. This significantly increases the risk of overloading and circuit overheating.

Notes

- **Waterproof and moisture – proof:** Keep away from water sources. Do not cover the power strip (such as covering it with blankets, books, curtains). Ensure there is enough space around for heat dissipation. Stay away from heat sources and flammable materials. **Do not** let heavy objects press on the power cord or the power strip itself. **Do not** bend, pull, or step on the power cord. Do not use nails to fix the power cord.
- **Regular Touch Checks:** After using for a while (especially after using high-power devices), gently touch the power strip casing and power cord with the back of your hand. A slight warmth is normal (heat is generated when electricity passes through), but if it feels hot to the touch, stop using it immediately and unplug all devices!
- **Child Safety:** If there are children in the household, choose a power strip with safety shutters (to prevent foreign objects from being inserted into individual sockets) and educate children not to play with the power strip or power cord.

Maintenance Methods:

(1) **Regular Cleaning:** Be sure to first unplug all plugs and disconnect the power strip from the wall socket, then wipe dust off the casing and power cord with a dry, soft cloth, use a dry, soft brush to clean gaps, strictly prohibit using liquid cleaners like wet cloths, cleaning agents, alcohol, sprays, etc. as liquid seeping inside can cause short circuits and electric shock risks; if there's dust in the sockets, carefully clean them using a can of dry compressed air (keep a certain distance) or a dry, soft brush and never poke the sockets with metal objects such as paper clips or toothpicks!

(2) **Regular Inspection:** Conduct inspections once a month or once a quarter: check if the power cord has damage, hardening, cracks, indentations, or pet bite marks; check if the plug and sockets have signs of scorching, deformation, looseness, or poor contact; inspect the casing for cracks, deformation, or traces of abnormal heating; and smell for any unusual burning odor (even when not powered on, internal faults may leave residual odors). If any of the above issues are found, stop using it immediately and replace it!

(3) **Avoid Improper Operation:** Do not force mismatched plugs into the sockets; when plugging in or unplugging, hold the plug itself with your hand and **Do not** pull the power cord; **Do not** place the power strip in locations where it may be stepped on or cause people to trip.

After-Sale Support

Dear Customer,

Thank you for choosing to purchase our products! We attach great importance to your shopping experience and hope to ensure that you are satisfied with this purchase.

Should you have any questions, please contact us through the original purchase platform. We will reply your messages as soon as possible, please kindly wait for the response from our team.

Thank you again for your understanding and support! If you have any other questions, please feel free to contact us at any time.

Best Regards,
After sales service team
