Notice:

After opening the top of the package box, take out all the accessories, and then open the bottom of the box. You can even take apart the foam to find accessories. If the accessories are missing or there are any problems with the installation, please contact us as soon as possible. We will try our best to help you to solve it. Please believe us.

Warm Tips:

1. The floor lamp attaches with some little accessories, please be careful and don't use too much force while ensuring that the installation is stable.
2. The wires above each lampshade will naturally bend due to being folded and placed in the box for a period of time. This is a normal phenomenon and not a product defect. After installation, due to the gravity of the lampshade, the wire will straighten after a while.
3. When installing the lamp pole, please make sure that each section of the tube is tightened to prevent the lamp pole from loosening and tilting after finishing the installation.
3. Everyone has a different sensitivity to the light source. If you use the bulb you bought and find it too dazzling, you can choose a lower-wattage or a non-transparent bulb.
4. This floor lamp features an E26 screw base. You can choose to replace other E26 bulbs according to your needs. But the maximum wattage must not exceed 60W.
5. When you don't use the lamp, please switch off the power switch which will extend its lifetime.

Important Instructions:

To reduce the risk of fire, electric shock, exposure to excessive UV, radiation, or injury to a person. When using electrical appliances, basic safety precautions should always be followed.

1. Before installing, cleaning lamps, and replacing light bulbs, please cut off the power supply.
2. Do not look directly at the lighted bulb. Otherwise, it will be a bit dazzling in a short time.
3. Keep the lamp away from material that may burn.
4. Do not touch the bulb while it is lit or immediately after turning off the lamp.
5. Do not use outdoors, suggest indoor use only. It is non-waterproof.
6. Do not plug or unplug the power cord with wet hands.
7. Do not use this product in humid environments or at high temperatures.
8. Do not use it to exceed the voltage, the proper voltage for the US is AC110-120V,60Hz.
9. If you want to replace the light bulb, please note that the maximum accepted wattage is 60W.
10. Please stop using it if there are serious defective issues found in the product.

Warranty Cover:

This floor lamp is warranted to be free from defects in material and operation for one year. In the unlikely event that it is found to be defective within this period of time, we will replace it. When replacing the defective product please provide the order number.

Warranty Limitations:

Problems caused by abuse or by environmental conditions that are not in conformance with the recommended operations of the product.
