Specifications

10 inch Ring Light

Net Weight: 380 g
 Color: Black
 Power Supply: USB Cord
 Material: ABS, Aluminum Alloy
 Number of Bulbs: 120-Piece Ring
 Size: 10 in. (26 cm) Diameter
 Possible Deviation: ± 0.4 in. (± 1 cm)
 Color Temperature: 2800–6500 K

Metal Tripod

Weight: 400 g
 Height: 12.6–21.7 in. (32–55 cm)
 Folded Height: c. 32 cm
 Tube Diameters: 0.7 & 0.9 in. (19 & 22 mm)
 Main Material: Aluminum Alloy
 Weight Capacity: 6.6 lb. (3 kg)

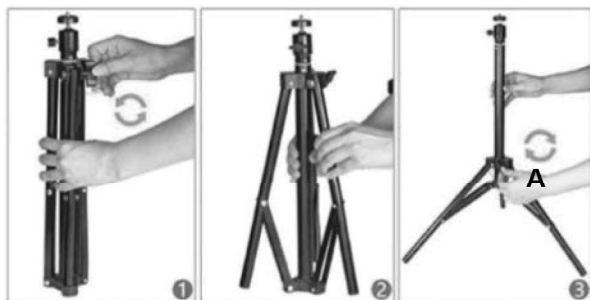

Package Contents

1 x LED Ring Light with USB
 1 x Cable Stretchable Universal
 1 x Phone Clip 360° Ball Joint
 1 x O-Clamp with Phone Clip
 1 x Metal Tripod
 1 x Installation Manual

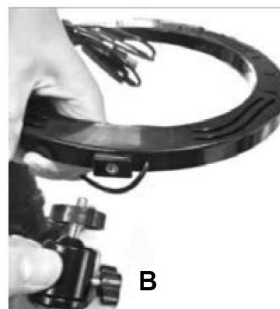

⚠ Notes:

1. The cell phone holder fits screens under 6.5 in. If your phone screen size is *exactly* 6.5 inches and doesn't fit, take off your phone case and try again.
2. This product cannot store electricity. You need to connect the USB cable to an active USB port for use.
3. This product is not waterproof. For best results, do not use in very humid environments such as bathrooms as it may cause a short circuit.
4. Do not use near flammable liquids.

Installation

Step 1

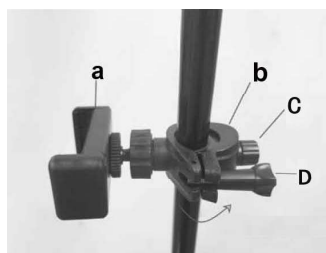

Step 3

1. Pull the tripod legs open and tighten into position with clamp A, the clamp at the top of their connection to the rod.
2. Remove the cap at the top of the rod. Screw on the ball joint to the exposed threading and tighten with clamp B, the clamp on the side of the ball joint.
3. Screw the ring light onto the top of the ball joint.
4. Adjust the clamps along the rod to put the ring light at your desired height.
5. Add either or both of the 2 phone holders.
 - 5a. One is used inside the ring light. Just screw it into the interior base of the ring light and bend its flexible shaft into position.
 - 5b. The other is used below the light. First screw the phone holder a into the O-clamp b. Then loosen clamp D until it can be swung open and filled onto the tripod's rod. Swing it shut and tighten at the desired height. Clamp C on the back of the O-clamp can be tightened for additional support.
6. Unfasten the power cord and plug it into any standard USB port. Your new glam tripod ring light is ready for action.

Step 5a

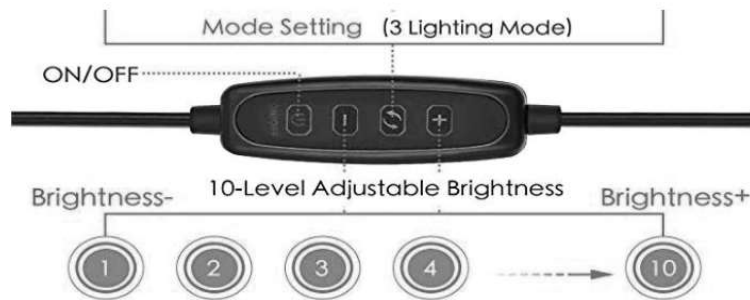

Step 5b

USB Charging

This device's USB cord works with all standard USB ports, including these on laptops, PCs, power banks, and more. Because the light does not store power, the cord must be plugged in to use it.

Light Modes & Brightness

The LED ring light has 3 light modes (Cool White / Warm White / Warm Yellow), and 10 levels of brightness for you choose from it to meet all your needs.

Use the  button to toggle the light modes and the + and - buttons to adjust the brightness of the LED light.
