TECHNOLOGICAL ADVANTAGE-in2design

EQUIPMENT

- **Panel Saw- Holzma** with in feed & out feed conveyor + Cut Right optimizing software=efficient handling of sheets & components
- **Edge Bender-Brandt top model with return conveyor and air transfer** (the most sophisticated that is perfect for veneered and delicate surface- high gloss) + the most updated **fine** scraping units with refined machining that provides **perfect glue joint for PVC & Solid wood**
- **Contour edge bender- Brandt** top of the line model + **Festool edge bender** for extra-large components
- **CNC Equipment 3 Weeke** that includes that is **Advantage CNC- 2** components machining at the same time + Nesting Machine with Aggregate that provides unique customization process. **Bar code Advantage** fast, efficient enables high volume capacity,
- **Two Vacuum lifters** for large work tops and components **Advantage handling fast efficient and safe**

PLANT AND EQUIPMENT LAY-OUT

- *Professionally designed for the most efficient and rapid processing flow of components, assembly- caucuses, packaging and shipping.*

TOOLING

- **Reputable supplier – Leuco**, + **custom diamond & insert tooling and hydro-grip Advantage hydraulic chuck-ETP** from Sweden that provides ultimate precision only thousands of millimeter tolerances in return this enables us to provide very tight joints & consistent & precision assembly of highest quality & strength & durability.

HARDWARE

- **Reputable supplier** such as **Hafele** (cams+ pins+ spread dowels), **Hettich** DRW Slides, leveler 500 lb. capacity, **Rampa** –spread dowels metal connectors, M6 screws, specialty wood screws. **Richelieu** decorative & specialty hardware. **Advantage** superb quality, durability

ROW MATERIAL

- **Reputable supplier** such as **Uniboard**, **Tafisa/Melamine -FSC boards**. **Advantage** meets or exceeds all the spec for environment, For **HPL Wilsonart**, **Formica**

Lumber -Upper Forest Canada-FAS grade (top quality) we create our custom grade based on selection of lumber taking in consideration grain direction, color and lumber zone in a log, we sort out board by board.

Veneer- Rainbow We create and select our own veneer grade and spec, grain direction and color. Veneer comes from the same log and flitch has all sequenced veneer leaves. **Advantage** refined and unique veneer selection that is esthetically distinguished and has superb value & quality that is consistent

Glass –Adriatic custom shapes and sizes

R&D

- **Over hundred projects have been successfully completed. Advantage extraordinary capacity to design & fabricate unique projects and complete them on time.**

HUMAN RESUORCES-STAFF

- **Extraordinary group of highly skilled plant technicians, engineers and professional people with very reach experience that are cross trained in every aspect of design, manufacturing and installation. Advantage extremely agile company that is suited for 21century.**

BIFMA

We have implemented Bifama processes and requirements since 2003
