Dream Mist 1

D2469S49447-4026

Dream Mist 1 is an intriguing abstract dual-composition print that employs a radiograph-like technique resulting in a translucent effect. On the left side of the composition, three ovoid objects are outlined in rings of charcoal. The right side of the print slightly overlays on the left and features two abstract objects along with a utensil-like object. The transparent, simplified color palette in seafoam green and charcoal adds to the work's mystery.

A delicate and balanced composition on textured paper, Dream Mist 1 invites the viewer to engage with abstract objects at the visual level. Part of the carefully curated and exclusive ART by TA Collection, this original work of art is a beautiful companion to Dream Mist 2.
