Assembly Steps

Overview

FRONT FACING

This Table has multiple parts and may require up to 30 minutes to assemble. To give you an overview of the Table parts, the above picture is to help you put the various parts into perspective. Please read through the instructions below to familiarise yourself with the parts and steps before assembly.

Step 1

Place the Table Top(A) facedown on a clean non-marring surface.
Attach one Leg(B) to the Table Top(A) using Bolts(1), with the Allen Key(2)
as shown above.

Repeat the same process to install the remaining Leg(B).

Do not fully tighten the Bolts.

Step 2

Place the Table on a **LEVEL SURFACE** to check for wobbles.
If it wobbles, apply even steady pressure downwards on the Table.

This action should help align all parts.

Then proceed to tighten all Bolts at all joints

Do **NOT** fully tighten a Bolt in one go and then move on to the next one.

Rather, in a sequential manner, gradually tighten each Bolt until all Bolts
are

evenly secured.

This methodology will ensure maximum evenness once all Bolts are fully
tightened.

Your Table is ready for use.

This Table can only be used on a flat, level surface.
