

### Product Description

Note: The heating tube cannot be dry burned. You need to add water in it, otherwise it will burn out.

### Product Description

Here we offer you this Electric Food Warmer, including 6 pots and lids. Made of stainless steel, it is durable, safe and easy to clean. Heavy gauge pans and lids with standard design for easy replacement. Constant temperature control keeps food inside warm as you wish. Adjustable temperature ranging from 30 to 85 centigrade. The outlet design makes it easy to release water inside the container.

A great kitchen appliance which is widely used in catering, cafeterias, and other places or events with great needs.
