Installation Notes

Install this product according to the installation instructions.

Measure your actual product for rough-in details.

The hot water supply should be 70% of the capacity of the bath or greater. Installations will vary.

Control amplifier fits 16" (406 mm) center studs.

Kit is required for under-mount installations (sold separately).

A second grounded outlet within the wall framing must be within 24" (610 mm) of the planned control amplifier.

Provide a third grounded outlet if connecting a powered wireless device or adapter.

If installing a rim-mount faucet, make sure there is no interference above or below the deck before drilling any holes.

IMPORTANT! Due to BLUETOOTH signal overlap, installations of multiple baths within 50 ft (15.2 m) of each other will require special order product. Please contact your
