All Accessories for Assembly

## **Notes**

1. The resolution of the video may look darker, but the actual effect is better than the video you see.
2. Using the product continuously for too long will affect the service life of the product. It is recommended that after a few hours of use, you turn the product off for 15 minutes.
3. Please keep the product away from children to avoid hurting their eyes.
4. It is normal to have a slight noise when the product is running.
5. Please read the manual completely before installation and use, and pay particular attention to the safety instructions included.
6. Please allow the slight color difference caused by the shooting light and 1-3cm error due to manual measurement, and make sure you do not mind before ordering.
