

JOSEPHINE LARGE CHANDELIER

DLS19

H: 32 IN

Dia: 44 IN

Evoking the rhythmic movement of a fringed skirt, the Josephine Large Chandelier weaves mother-of-pearl, wooden beads, and coconut shells into a layered cascade of texture and light. When illuminated, these natural elements catch and diffuse a soft glow, creating a sense of motion and visual radiance that animates the room. Suspended from antique brass-plated iron chains, this fixture brings a warm, sculptural presence to living spaces, bedrooms, or entryways—and can also be installed as a semi-flush mount for a tailored overhead statement.
