We are proud to present this midnight finished outdoor post light. The product is made from premium materials, this Outdoor Post Light offers great function and value for your home. This fixture makes sure to check out other styles of fixtures to accessorize your room.

Lanterns, pendants, pocket lanterns, post heads, poles and other accessories provide lighting professionals with fresh new designs, including several series that are ENERGY STAR®-certified and Title 24-compliant. Most every series line has three sizes of lanterns, a hanging pendant and a post head. Built for beauty and years of maintenance-free use, our products are made of die-cast and sand-cast aluminum components that offer superior durability against the elements. The finishes are treated with a UV guard that impedes fading. Back plate designs make for easy installation, a feature contractors especially appreciate. Re-lamping is designed to be a snap, too.
