

Ovente Electric Kettle, 1.5L, 1100W, BPA-Free, Heat-Tempered Borosilicate Glass, Stainless Steel, Auto Shut-Off & Boil-Dry Protection, Blue LED Lights, Black (KG83B)

Key Features

COMBINING STYLE & FUNCTIONALITY – Taking the #1 spot from our best-selling products, the Ovente KG83 Kettle Series is loved by our customers across the USA for its aesthetics, durability, and functionality. It has a halo of blue LED lights that illuminate the pot when it's in use, and it's made with heat-tempered, stain-resistant borosilicate glass and stainless steel to last long!

ENERGY-EFFICIENT AND POWERFUL – This electric kettle operates on 1100W (120V) and boils a full 1.5L pot of water in 7 minutes or less! It is 50% more efficient than traditional stovetops in reducing your daily electricity use.

ECO-FRIENDLY – Save yourself from the health-associated risks of ingesting harmful chemicals that come from a kettle's loose BPA particles. This fast-heating cordless boiler is BPA-free, and its heating element is concealed. You'll be sure that what you'll get is a clean drinking water that's safe for you and your kids.

SAFE AND ADVANCED – This one is equipped with auto shut-off feature and boil-dry protection technology: It shuts off on its own when the pot has reached its boiling temperature and switches off the heating element when there is no water in the kettle.

LIMITED 1-YEAR WARRANTY – All Ovente products have a one (1) year warranty period from the date of purchase from an authorized retailer. This warranty only covers defects in workmanship and materials. To activate its 1-year warranty, register your product here: <https://ovente.com/register>. Please note that you have to provide proof of purchase to request for repair or replacement.
