Number of Shelves: 0

Number of Drawers: 0

Number of Leaves: 0

Style: Traditional

Finish: Grays

Brand: Hooker Furniture

Product Description: With its charming shield-shaped back that contrasts a slate-colored linen blend fabric on the front with burlap on the back, the Beaumont Shield-Back Side Chair is an eclectic remix of old and new, chic and rustic. The shaped wood trim is finished in Shale, a soft grey color with natural wood undertones.

Collection Features: Beaumont is a curated group of one-of-a-kind pieces, inspired by American antiques and the concept of upcycling - the process of giving new life to vintage items with updates such as refinishing or repurposing them for new and unique uses. With roots in traditional design, the collection offers an exquisite and eclectic remix of old and new, combining the look of seasoned antiques and refurbished treasures with the conveniences of newly constructed furniture.

Additional Information: Beaumont Shield-Back Side Chair

Status: Active

Finish: Shale: a soft grey with natural wood undertones. Distressing includes rasping, gouging and worm holes.

Features: Bronze carpenter nails

Gimp welt on chair back

Fabric seat and back

Burlap fabric on back of back

Material: Fabric

Finish Construction: Hooker Furniture utilizes a multiple-step finish process of up to 16 finish steps. This results in an unsurpassed clarity, depth and color richness and durability to our finishes. Through hand-craftsmanship such as rubbing and padding, our finishes feel as good as they look, with a smoothness that is delightful to the touch.

Frame Construction: Hooker Furniture uses carefully chosen solid wood and select wood veneers over durable wood products in our furniture construction. Use of veneers enables more decorative looks unattainable with solid wood. Veneers are used over durable wood products such as medium density fiberboard (MDF) and particle board, made of renewable resources. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture.
