

## Installation Steps:

Thank you for using our products. Please read the operating instructions before installation. Please keep these instructions for reference. Installation by a professional electrician is recommended.

1. Fix the wood on the wall with screws.
2. Remove the black plastic ring on the lamp head, install the twine cover to the lamp head position and secure it firmly with the plastic ring you just removed.
3. Install the rechargeable bulb (the switch on the back of the bulb needs to be turned on before installation)

## Attention:

1. The input power of the lamp is AC 120V 50Hz.
2. Any behavior that violates residential fire protection regulations is prohibited.
3. Under no circumstances should the lamps be covered with heat insulation pads or wooden materials.
4. Before maintenance, make sure that the power supply of the lamp has been cut off and the light source has cooled down. Before powering on, make sure that the light source and the lamp holder are connected correctly.
5. Please wipe with a towel or flannel, and clean the lamp body with a non-corrosive detergent. Do not scrub directly, wipe with water or a damp cloth.
6. If you have any questions about this manual, please consult a qualified lighting installation engineer.
