CUSHION ASSEMBLY

Before beginning, make sure all cushions and covers are present. The differences between the standard cushions and the corner cushion is very subtle, so make sure you have identified the difference in size before pulling on the fabric covers.

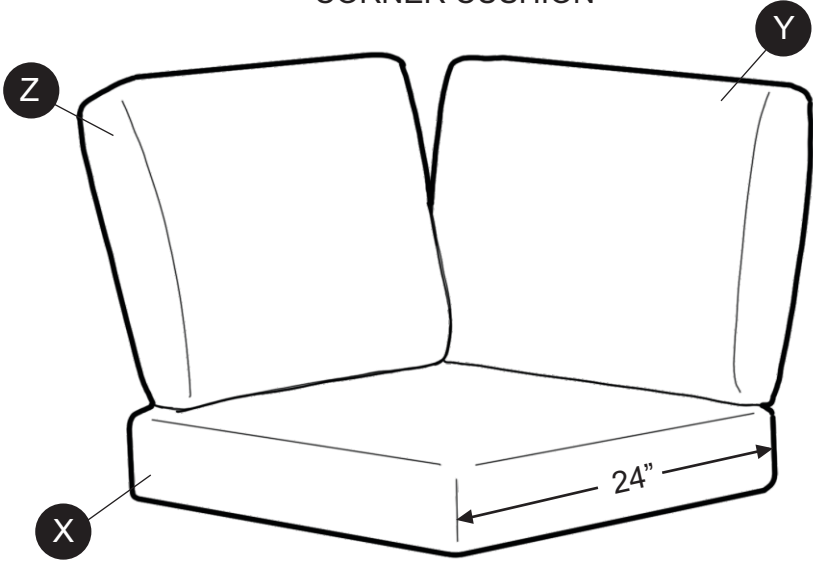

NOTE: Do not remove covers from plastic bags until you have paired them with the matching (V, W, X, Y, Z) cushion. Match the letters on the cushion with the same letters on the fabric bags.

STANDARD CUSHION

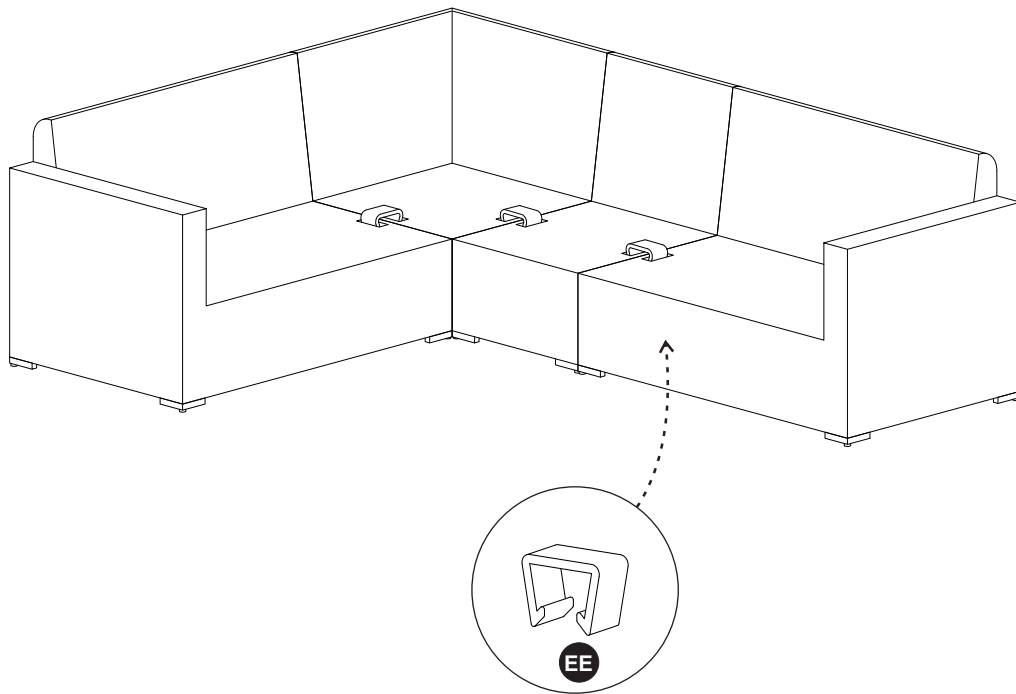

CORNER CUSHION

HELPFUL TIP: we call this the 'Taco Method'. Place the cushion between your knees and squeeze together to form a taco. This makes it much easier to pull on the cushion cover.

ASSEMBLY INSTRUCTIONS

1. Push all chair pieces together in your chosen configuration and add the three clips (EE) to the top of each chair gap.

2. With all the furniture secured with clips, now add your finished corner cushion (these are the cushion that are slightly different in size than the standard seat cushion)
