Step 7

Place the Barstool on a **LEVEL SURFACE** to check for wobbles.
If it wobbles, adjust the Legs Pre-installed Levellers until the Barstool is level with the ground.
Adjust the levellers to the desired height to avoid wobbles.
When the Barstool is level proceed to tighten all Bolts at all joints.
When tightening the Bolts, tighten sequentially.
DO NOT tighten any Bolt fully and then move on to the next one.
This would cause the frame to warp.
If the Barstool is not stable it could lead to damage to the product.

Step 8

Add the Bolt Caps(I) on the eight Bolts(④) as shown in the picture above.
Your Barstool is ready for use.
This Barstool can only be used on a flat, level surface.
