

# Shade Assembly Instructions

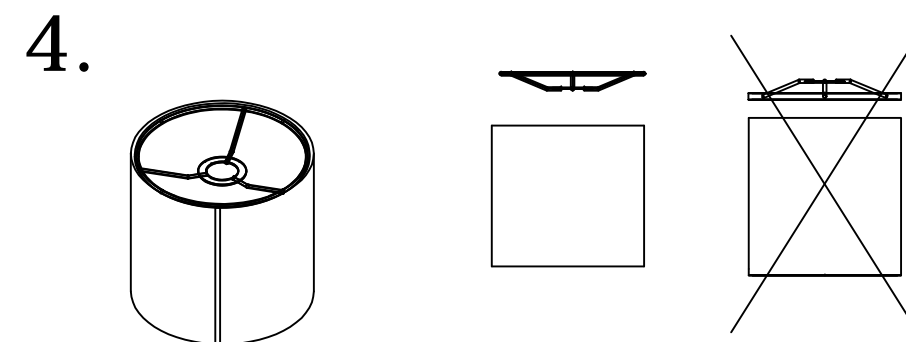

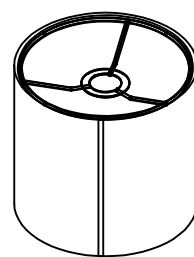

1-place the shade panel (a) on a flat surface  
Press the rings (b) and (c) into clips at the edge  
Ring (b) is placed on the shorter edge of the panel to create the top of the shade,  
ring (c) is placed on the longer edge of the panel to create the bottom of the shade.

2-Roll both rings along the horizontal edges of the panel, making sure the rings are seated into the clips along the edges.

**3.**

3-After all clips are seated on the ring, please align the magnet and metal plate to form a shade.

Please contact us via our website if you need any help with your new lamp.
