

Products Installation instructions

Thank you for choosing our products!

Table of **CONTENTS**

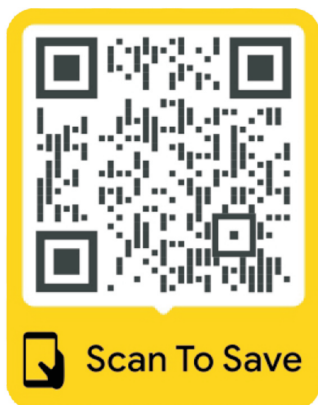

Instruction manual in English	----- 2-4
Instruction manual in German	----- 5-7
Instruction manual in French	----- 8-10
Instruction manual in Italy	----- 11-13
Instruction manual in Spain	----- 14-16

1.After receiving the package, please immediately confirm that the lamps and the package are in good condition.

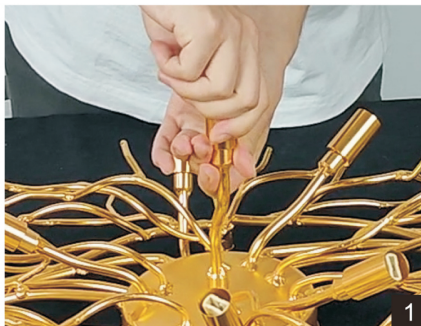

2.We recommend that the lamps are installed by a licensed electrician.

3.The viewing angle and light are different, and there may be normal chromatic aberration (under different lighting conditions, the color of the lamp body has different colors, such as orange, copper, etc. Natural light is golden).

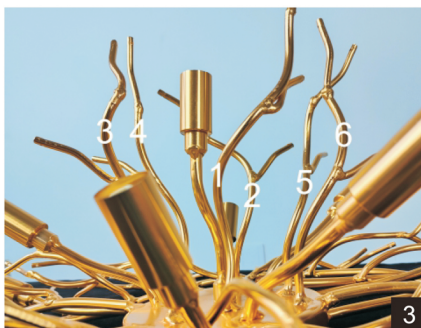

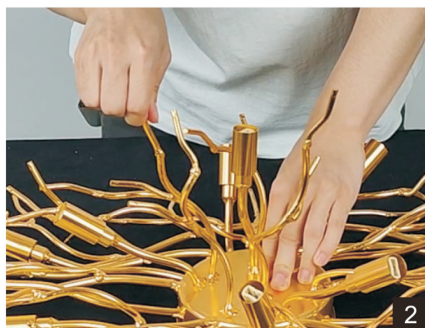

4.When you receive the package, please check the integrity of the accessories. If parts are damaged, please contact us and we will send you a new part. (The crystal rod is slightly damaged, please check the crystal rod first).

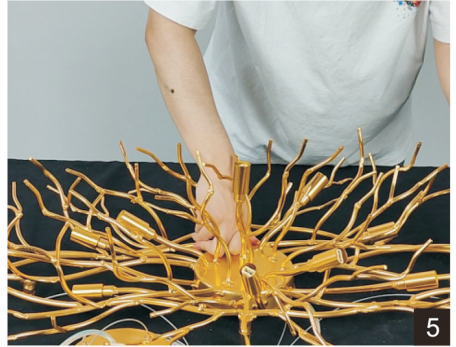

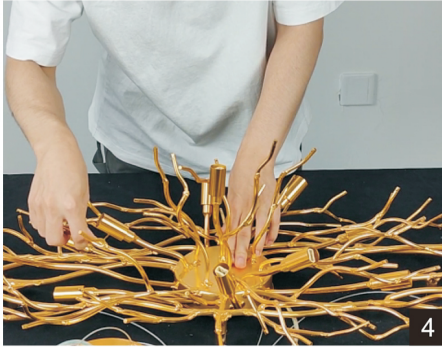

Installation steps:

Step 1:
Install the bulb base

Step 2:
It is recommended to place the "branches" in the middle vertically, which can enhance the three-dimensional sense of the lamp.

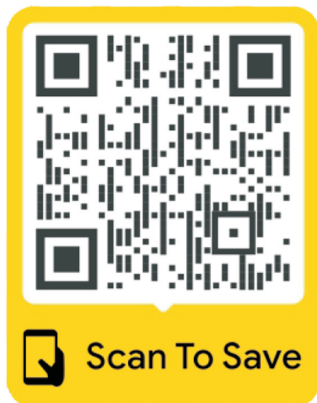

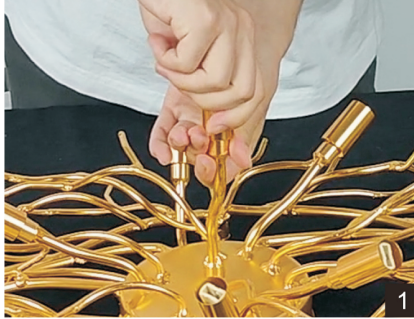

Step 3: Adjust the angle of the rest of the "branches" clockwise, you can choose the shape you like.

Step 4: Hang the crystal on the chandelier "branch" (it is recommended to install the chandelier to the ceiling before hanging the crystal).

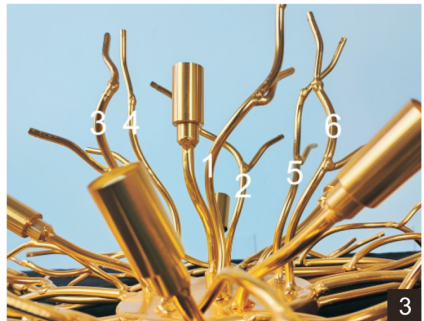

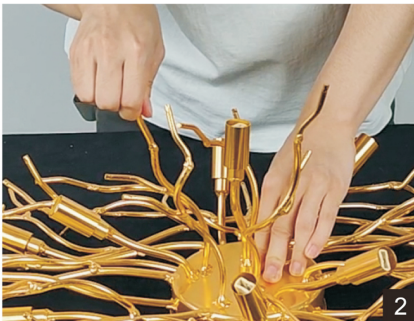

1. Bitte bestätigen Sie nach Erhalt des Pakets, dass die Lampen und die Verpackung sofort in gutem Zustand sind.
2. Wir empfehlen, die Leuchten von einem zugelassenen Elektriker installieren zu lassen.
3. Der Betrachtungswinkel und das Licht sind unterschiedlich, es kann zu normalen Farbunterschieden kommen (unter verschiedenen Lichtverhältnissen hat die Farbe des Lampenkörpers unterschiedliche Farben, z. B. Orange, Kupfer usw.) Das natürliche Licht ist golden.
4. Wenn Sie das Paket erhalten, überprüfen Sie bitte die Unversehrtheit des Zubehörs, wenn die Teile beschädigt sind, kontaktieren Sie uns bitte, wir senden Ihnen neue Teile. (Der Kristallstab ist leicht beschädigt, bitte überprüfen Sie zuerst den Kristallstab).

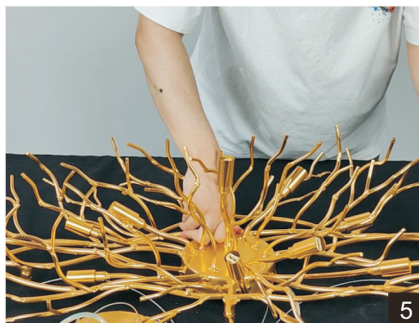

Schritt 1:

Installieren Sie den Lampensockel

Schritt 2:
Es wird empfohlen, die "Äste" vertikal in der Mitte zu platzieren, was den dreidimensionalen Sinn der Lampe verstärken kann.

Schritt 3:

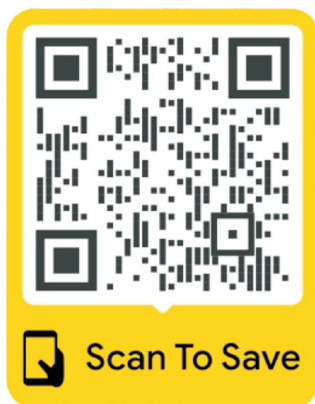

Stellen Sie den Winkel der restlichen "Zweige" im Uhrzeigersinn ein, Sie können Ihre Lieblingsform auswählen.

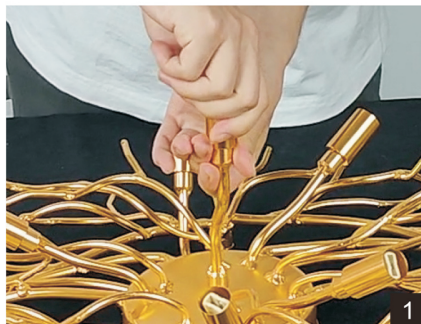

Schritt 4:

Hängen Sie den Kristall an den "Ast" des Kronleuchters. Es wird empfohlen, den Kronleuchter zuerst an der Decke zu installieren und dann den Kristall aufzuhängen.

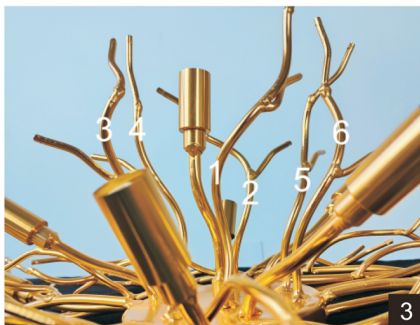

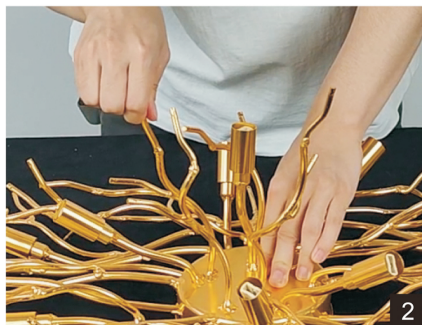

1. Dès réception du colis, vérifiez immédiatement les luminaires et l'emballage pour vous assurer qu'ils sont en bon état.
2. Nous recommandons que les lampes soient installées par un électricien agréé.
3. Une différence de couleur normale peut se produire en raison d'un angle de vue et d'un éclairage différents (dans des conditions d'éclairage différentes, la couleur du corps de la lampe sera différente, comme l'orange, le cuivre, etc. et la lumière naturelle est dorée).
4. Après réception du colis, veuillez vérifier si les accessoires sont complets. Si les accessoires sont endommagés, veuillez nous contacter et nous vous enverrons de nouveaux accessoires (la tige de verre est légèrement endommagée, veuillez d'abord vérifier la tige de verre).

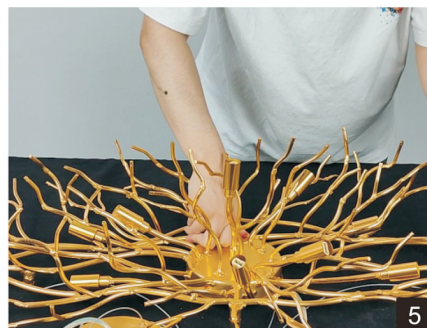

Étapes d'installation:

Étape 1:
Installation de la base de l'ampoule

Étape 2 :
Il est recommandé de placer les « branches » verticalement au milieu, ce qui peut améliorer le sens tridimensionnel de la lampe.

Étape 3 :

Ajustez l'angle des « branches » restantes dans le sens des aiguilles d'une montre, et vous pouvez choisir la forme que vous aimez.

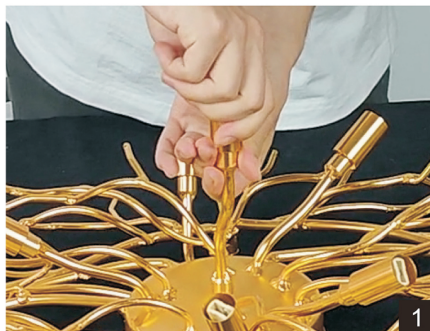

Étape 4 :

Accrochez le cristal sur la « branche » du lustre (il est recommandé d'installer le lustre au plafond avant de suspendre le cristal).

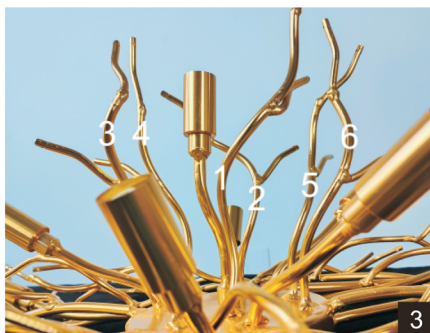

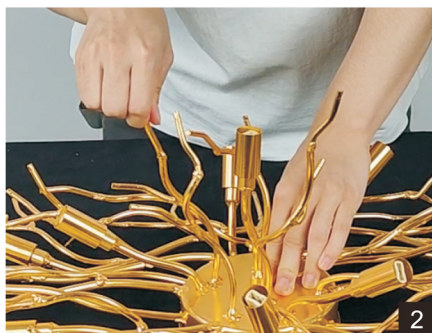

1. al ricevimento del pacco, si prega di verificare immediatamente che le lampade e l'imballaggio siano in buone condizioni.
2. si consiglia di far installare le lampade da un elettricista autorizzato.
3. l'angolo di visione e la luce sono diversi, e ci può essere normale aberrazione cromatica (in condizioni di illuminazione diverse, il colore del corpo della lampada ha colori diversi come l'arancio, rame, ecc) La luce naturale è d'oro.
4. quando si riceve il pacchetto, si prega di controllare l'integrità degli accessori. se le parti sono danneggiate, si prega di contattarci e vi invieremo una nuova parte. (L'asta di cristallo è leggermente danneggiata, si prega di controllare l'asta di cristallo prima).

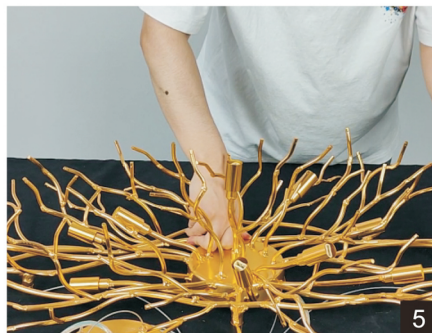

Fasi di installazione:

Passo 1:
Installare la base della lampadina

Passo 2:
Si consiglia di posizionare i "rami" verticalmente al centro,
il che aumenterà l'orientamento tridimensionale
dell'apparecchio.

Passo 3:

Regolare l'angolo del resto dei "rami" in senso orario; Puoi scegliere la forma che preferisci.

Passo 4:

Appendere il cristallo al "ramo" del lampadario ,
(consigliato) Il lampadario viene prima installato
nel soffitto e poi appeso Cristallo.

1. Tras recibir el paquete, compruebe inmediatamente que las lámparas y el embalaje están en buen estado.

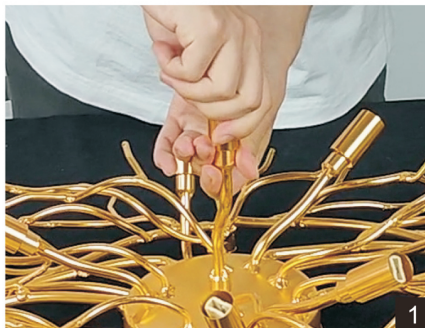

2. Recomendamos que las lámparas sean instaladas por un electricista autorizado.

3.El ángulo de visión y la luz son diferentes, y puede haber aberración cromática normal (bajo diferentes condiciones de iluminación, el color del cuerpo de la lámpara tiene diferentes colores, como el naranja, cobreetc.Naturallight es de oro).

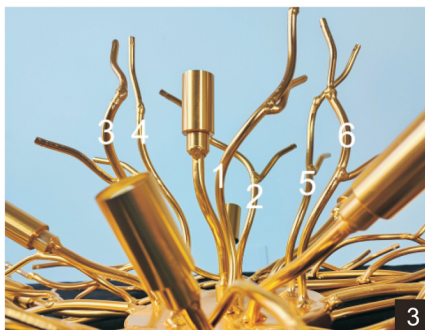

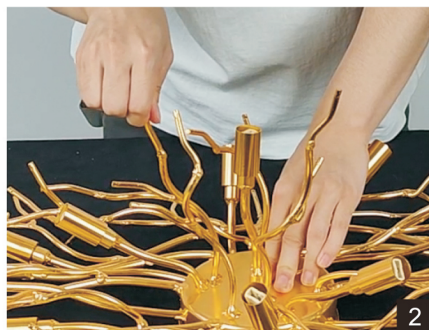

4. Cuando reciba el paquete, compruebe la integridad de los accesorios. Si las piezas están dañadas, póngase en contacto con nosotros y le enviaremos una pieza nueva (la varilla de cristal está ligeramente dañada, por favor, compruebe primero la varilla de cristal).

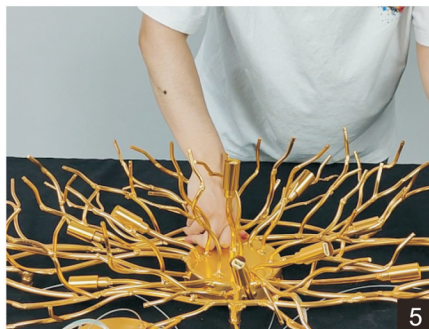

Pasos deinstalacion:

Paso 1:
Instale la base de la bombilla

Paso 2:
Coloca las "ramas" verticalmente en el centro para aumentar la sensación de tridimensionalidad de la lámpara.

Paso 3:

Ajuste el ángulo del resto de las "ramas" en el sentido de las agujas del reloj; Puedes elegir la forma que prefieras.

Paso 4:

Cuelgue el cristal en la "rama" del candelabro, (recomendado) El candelabro se instala primero en el techo y luego se cuelga en el cristal.
