Assembly Instructions - Please keep for future reference

**X2**

## Dimensions

Width - 19.7inch

Depth - 15.7inch

Height - 23.8inch

**Important – Please read these instructions fully before starting assembly**

# Safety and Care Advice

**Important – Please read these instructions fully before starting assembly**

- Check you have all the components and tools listed on the following pages.
- Remove all fittings from the plastic bags and separate them into their groups.
- Keep children and animals away from the work area, small parts could choke if swallowed.
- Make sure you have enough space to layout the parts before starting.

- During assembly do not stand or put weight on the product, this could cause damage.
- Assemble the item as close to its final position (in the same room) as possible.
- Assemble on a soft level surface to avoid damaging the unit or your floor.
- Parts of the assembly will be easier with 2 people.

- To reduce the likelihood of damaging your product please ensure that your power drill is set on a low torque setting.

## Care and maintenance

- Only clean using a damp cloth and mild detergent, do not use bleach or abrasive cleaners.
- From time to time check that there are no loose screws on this unit.
- This product should not be discarded with household waste. Take to your local authority waste disposal centre.

## Handy Hints

- Assemble all parts and bolts loosely during assembly, only once the product is complete should you fully tighten the bolts
- Regularly check and ensure that all bolts and fittings are tightened properly.

# Components - Panels

Please check you have all the panels listed below

1 (525X399X15mm)X2

2 (525X399X15mm)X2

3 (468X70X15mm)X2

4 (468X70X15mm)X2

5(478X238X2.7mm)X2

6 (478X238X2.7mm)X2

7 (500X400X15mm)X2

8 (500X400X15mm)X2

9 (463X258X27mm)X4

10 (350X120X12mm)X4

11 (350X120X12mm)X4

12 (434X347X2.7mm)X4

13 (424X120X12mm)X4

# Components - Fittings

Please check you have all the panels listed below

**Note:** The quantitie below are the correcet amount to complete the assembly. In some cases more fittings may be supplied than are required.

<b>A</b>  Male Camlock x 40	<b>B</b>  Female Camlock x 40	<b>C</b>  Dowel x 16
<b>D</b>  4*30mm Screw x 16	<b>E</b>  5*45mm Screw x 8	<b>F</b>  Leg x 8
<b>G</b>  3*17mm Screw x 16	<b>H</b>  Plasticwedge x 16	<b>I</b>  Handle & Fixings x 2
<b>J</b>  3.5*14mm Screw x 4	<b>K</b>  Protective Feet x 16	<b>L</b>  4*45mm Screw x 16
<b>M</b>  Drawer slider 14" X 4	<b>N</b>  3.5*12mm Screw x 48	

Tools required

Phillips screwdriver  
(medium & large)

Ruler - Use this ruler to help correctly identify the screws

0 5 10 15 20 25 30 35 40 45 50 55 60 65 70 75 80 85 90 95 100 105 110 115 120 125 130 135 140 145 150 155 160 165 170

The screws length is measured from the head to the point (30mm screw shown).

# Using Camlocks

## Step 1

Connect the male camlock as directed in the assembly instructions using a screwdriver.

1

DO NOT OVER TIGHTEN.  
NE PAS SERRER EXCESSIVEMENT.

## Step 2

Push the male camlock into the entry hole.

2

## Step 3

Insert the female camlock as shown in the instruction.

Note: ensure that the arrow on the top of the camlock points towards the entry hole for the male camlock.

3

## Step 4

Turn the female camlock clockwise with a screwdriver.

You should feel a click when the camlock is locked in place.

The joint is now secure.

# Assembly Instructions

## Step 21

It is highly recommended that the unit is secured to the wall. You can skip to the next step first, then come back to this step once the dresser is secured to the wall.

1. Check Before Installing: Ensure the rails are secure and ball bearings are in place.
2. Prepare: Slide the ball bearings to the front of the rails before closing.

3. Align & Insert: Line up the drawer rails with the main slides and insert both sides at once.

4. Fit: Open and close the drawer slowly three times to align and seat the ball bearings.

# Assembly Instructions

## Step 22

### 5. To Remove the Drawer:

Fully extend the drawer.

Push the left release latch up and the right one down.

Pull the drawer out while supporting it.

If the drawer does not go in smoothly please take it out and repeat

**Assembly is complete.**

# A Guide to Wall Mounting & Fixings

## Important note:

If plastic wall plugs (rawl plugs) are supplied with your product, e.g.:

- these are only suitable for use in masonry walls.

If you are in any doubt about the correct wall plugs for your wall, seek professional advice.

Failure of the product due to using the incorrect fixings is the responsibility of the installer.

**Important:** when drilling into walls always check that there are no hidden wires or pipes etc.

Make sure that the screws and wall plugs being used are suitable for supporting your unit. Consult a qualified tradesperson if you are unsure.

Hints:

- 1: General rule:  always use a larger screw and wall plug if you are not sure.
- 2: Ensure you use the recommended drill bit to match the wall plug and hole size.
- 3: Ensure you drill the hole horizontally; do not force the drill or enlarge the hole.
- 4: Take extra care when drilling high walls, ceilings and ceramic tiles. Ensure wall plugs are inserted beyond the thickness of the ceramic tiles to avoid the tiles splitting or cracking.
- 5: Ensure wall plugs are well fitted and are a tight fit in the drilled hole.

## Types of walls

You can use one of the following types of wall plug if your walls are made of brick, breeze block, concrete, stone or wood.

No.1 "General Purpose" wall plug

Generally aerated blocks should not be used to support heavy loads, use a specialist fitting in this case. For light loads, general purpose wall plugs can be used.

No.3 "Cavity Fixing" wall plug

For use with plasterboard partitions or hollow wooden doors.

No.5 "Hammer Fixing" wall plug

For use with walls stuck with plasterboard. The hammer fixing allows it to be fixed to the wall rather than the plasterboard. Always check the fixing is secure to the retaining wall.

No.2 "Plasterboard" wall plug

For use when attaching light loads onto plasterboard partitions.

No.4 "Cavity Fixing - Heavy Duty" wall plug

For use when fitting or supporting heavy loads such as shelving, wall cabinets and coat racks.

No.6 "Shield Anchor" wall plug - heavy loads

For use with heavier loads such as TV and HiFi speakers and satellite dishes etc.
