Ultralight Beam 4

D2773S55455-4766

The Ultralight Beam series of works on canvas offers a strikingly bold exploration of magnified form, geometric shapes, and the interplay between light and dark rendered on a flat picture plane. Ultralight Beam 4 offers a juxtaposition of strong geometric shapes set off by an interplay of light and dark tones. Pronounced angles with an overlay of an elliptical form backed by a restrained color scheme highlight the intricate links and mutual reliance that form a cohesive whole. A study of bold, imaginative forms, this highly technical work on canvas is an alluring addition to ART by TA.
