INTRODUCTION

Thank you for your purchase. Please read these instructions carefully before assembly and retain this manual for future reference. If you require assistance, please contact our Customer Support team.

SAFETY INFORMATION

This package contains multiple components and hardware pieces. Please verify all items against the Parts List before beginning assembly.

WARNING: Choking hazard. This product contains small parts. Keep all hardware and components out of reach of small children during assembly.

To prevent scratches, assemble the unit on a soft, non-abrasive surface such as a carpet, blanket, or the flattened cardboard carton.

Some components are heavy. For your safety, two-person assembly is strongly recommended.

The unit may be unstable until fully assembled. Do not move the product until all assembly steps are complete.

For questions or replacement parts, please contact Customer Support.

NOTICE: Strictly follow the assembly steps in order. Failure to do so may result in product damage or void the warranty.

Tips

How to Use the Ratchet

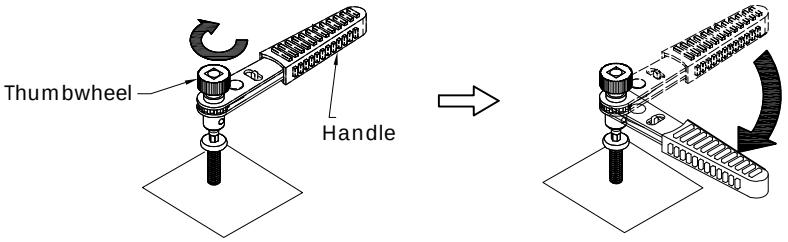

1. Set the ratchet direction before use.

2. Tightening or loosening bolts

- Tighten bolts: Turn the thumbwheel clockwise to quickly thread the bolt until hand-tight. Then, swing the handle clockwise to fully tighten the bolt.

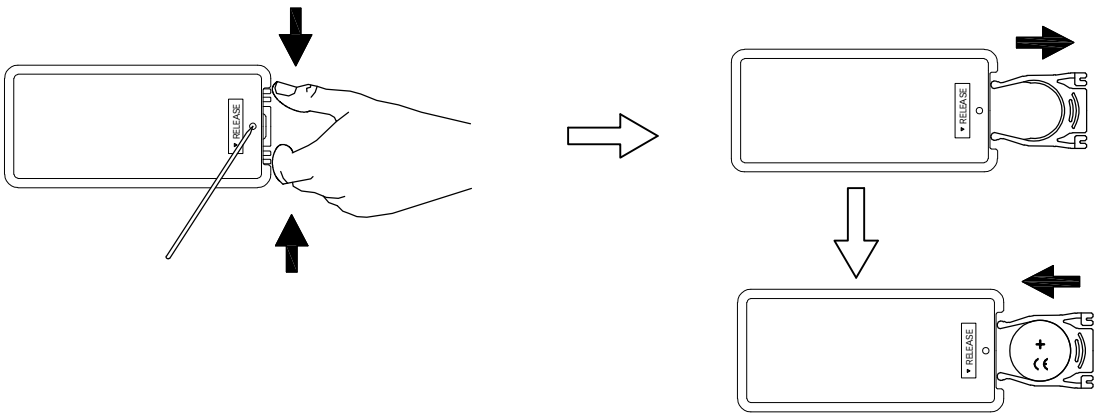

- Loosen bolts: Swing the handle counterclockwise to loosen the bolt. Then, turn the thumbwheel counterclockwise to quickly spin the bolt out.

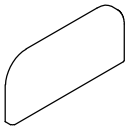

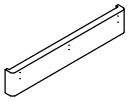

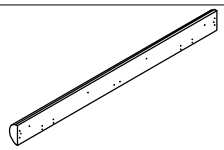

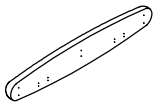

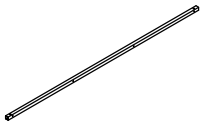

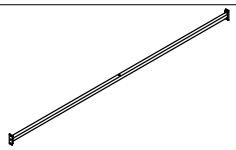

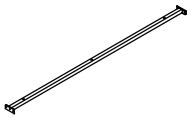

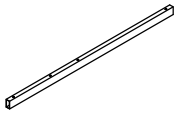

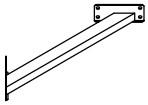

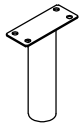

NOTICE: Do not fully tighten bolts during intermediate steps. Tighten them completely only when instructed in the specific step details.

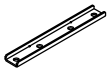

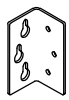

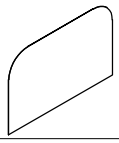

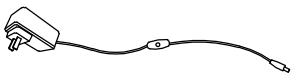

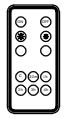

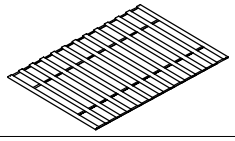

NOTICE: This bed with LED lighting, please refer to the insert that packed with the remote control, to know how to operate.

NOTICE: The remote control does not come with a battery. Please install a coin cell battery before using the remote control.

STEP 1

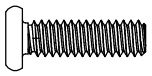

4 (x8)

Attach H (x2) to A & B as illustrated with 4 .

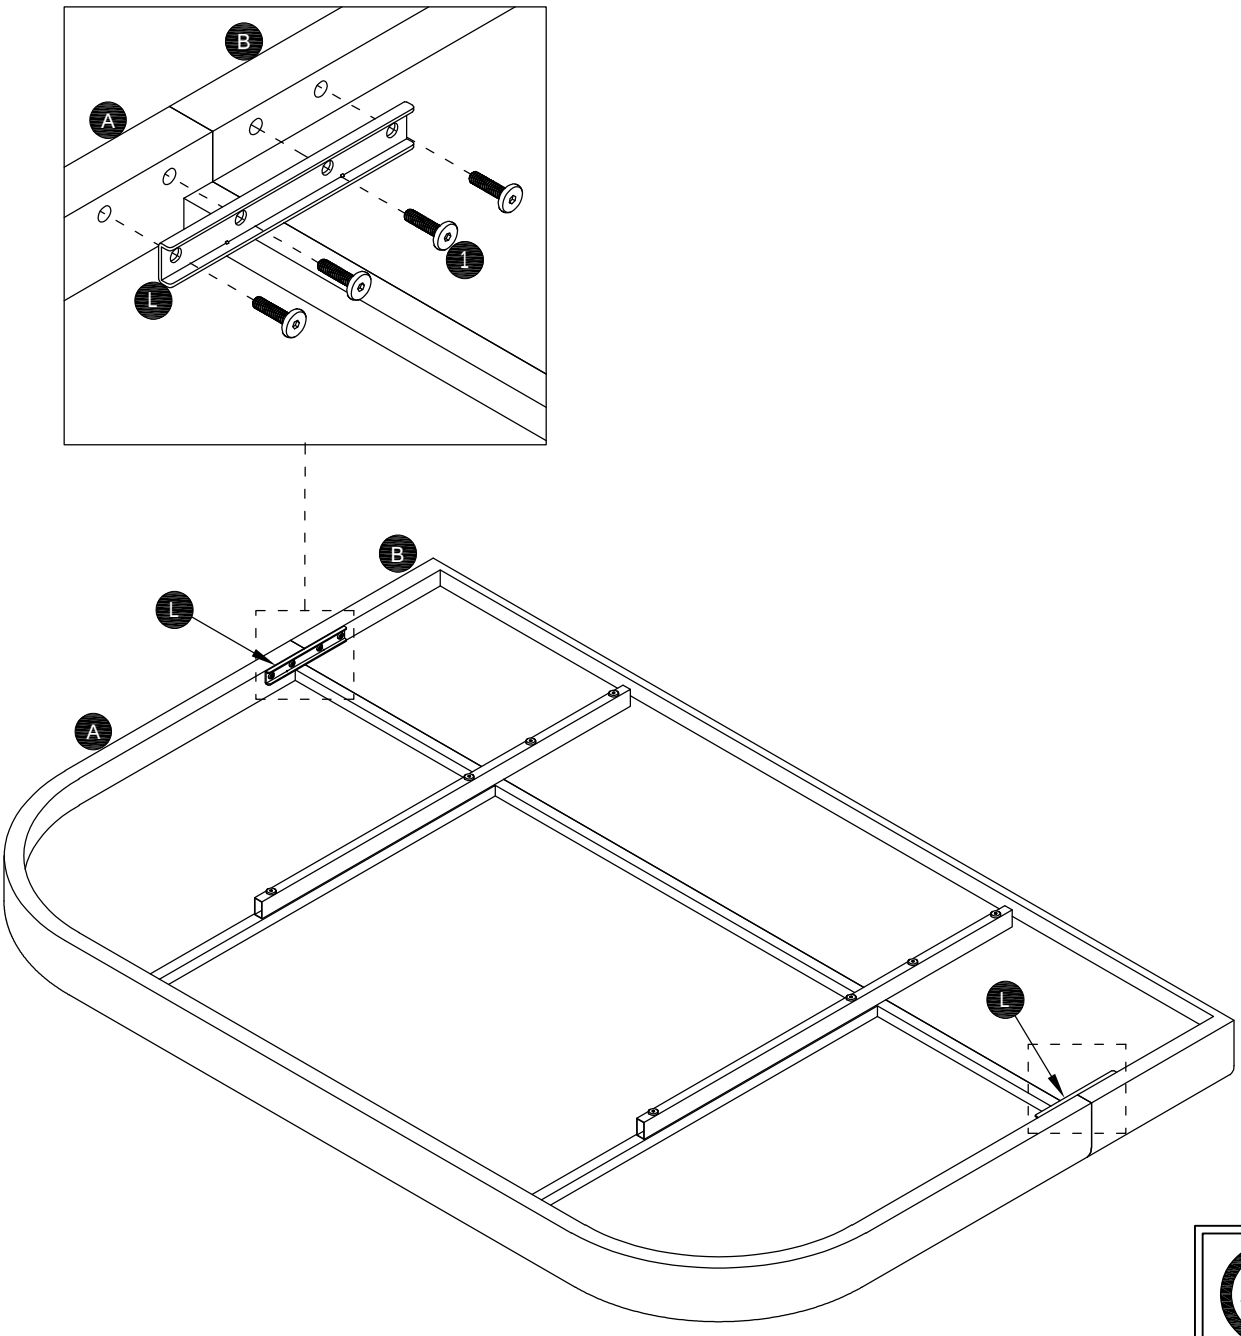

STEP 2

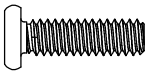

1 (x8)

Attach L (x2) to A & B as illustrated with 1 .

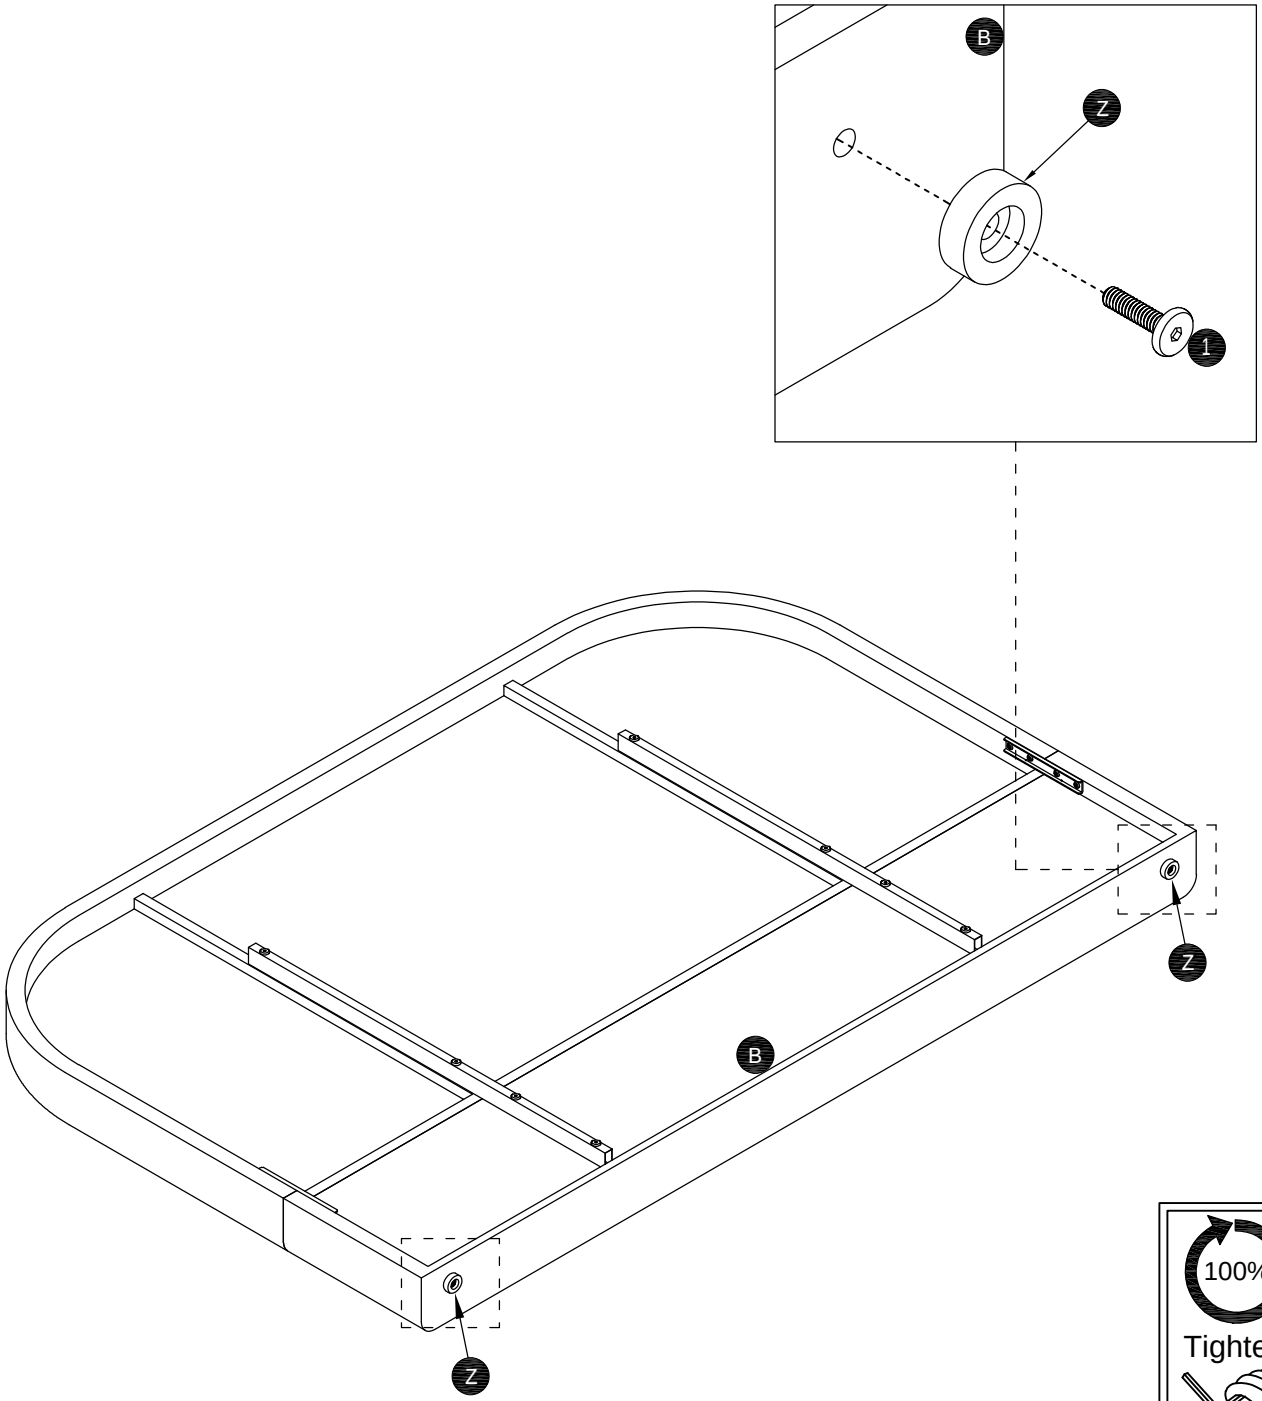

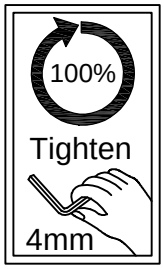

STEP 3

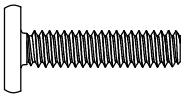

1 (x2)

Attach Z (x2) to B as illustrated with 1 .

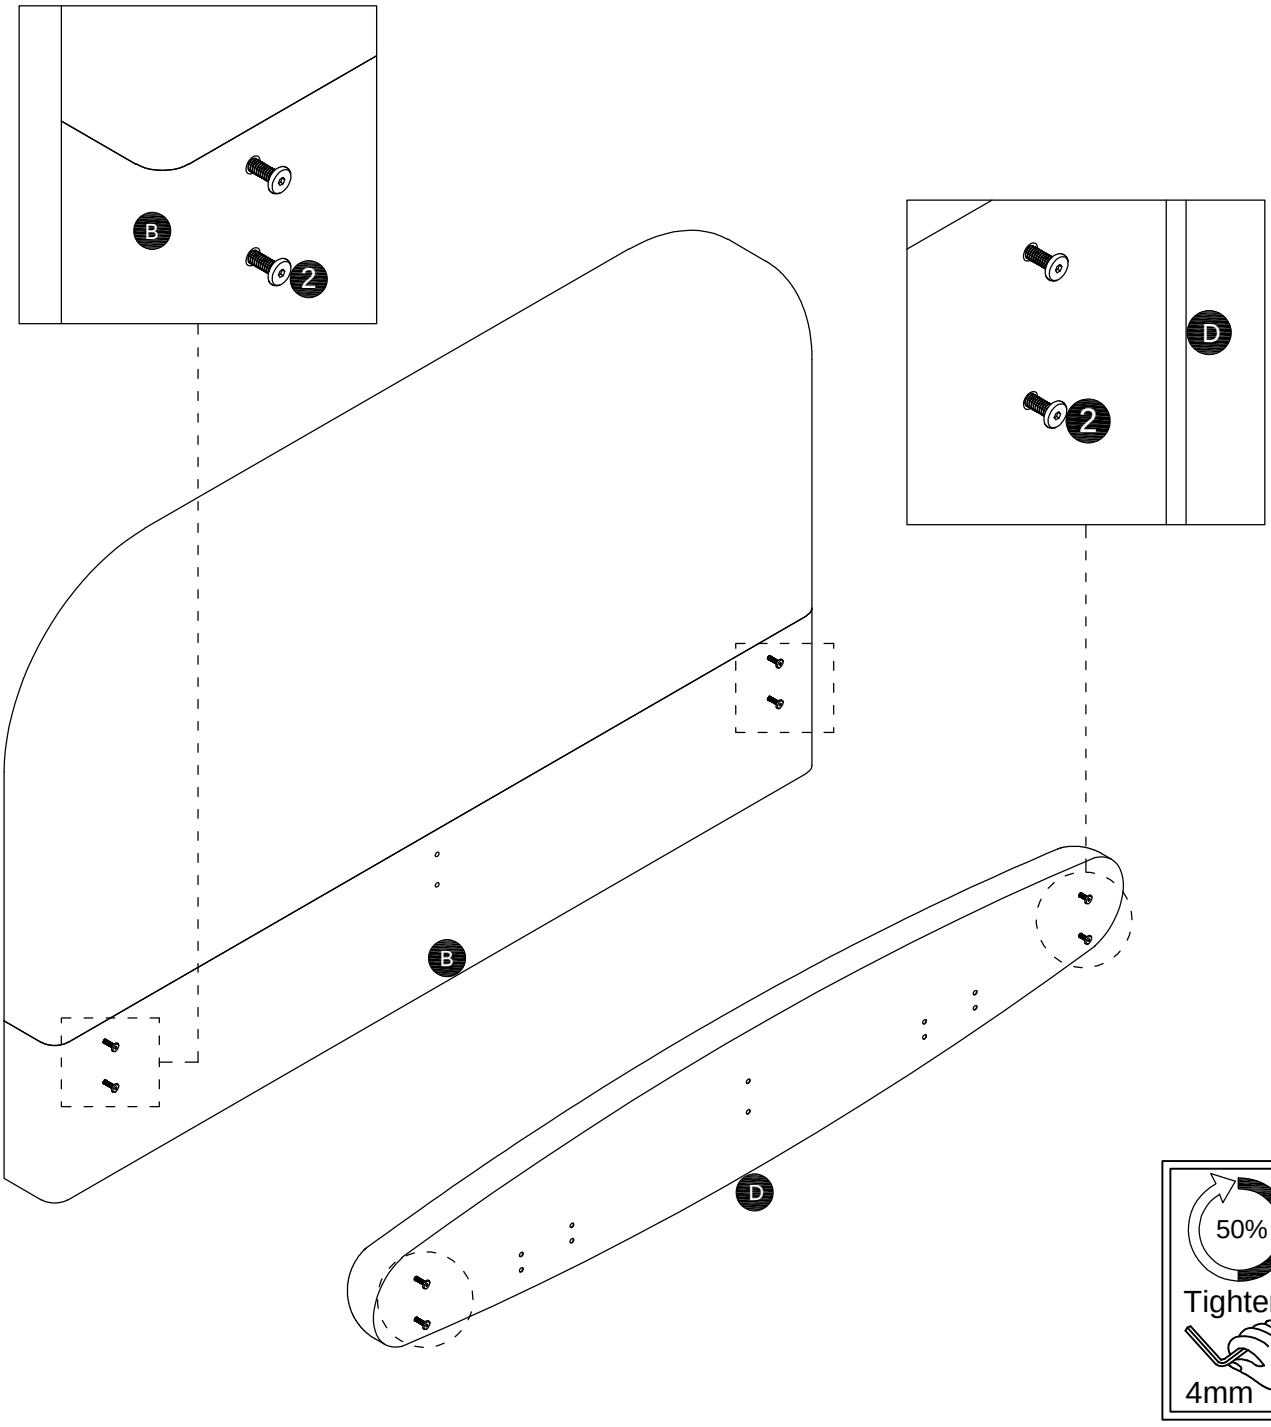

STEP 4

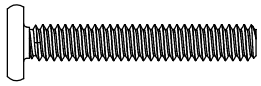

2 (x8)

Screw 2 into B and D with half of the threads exposed as illustrated.

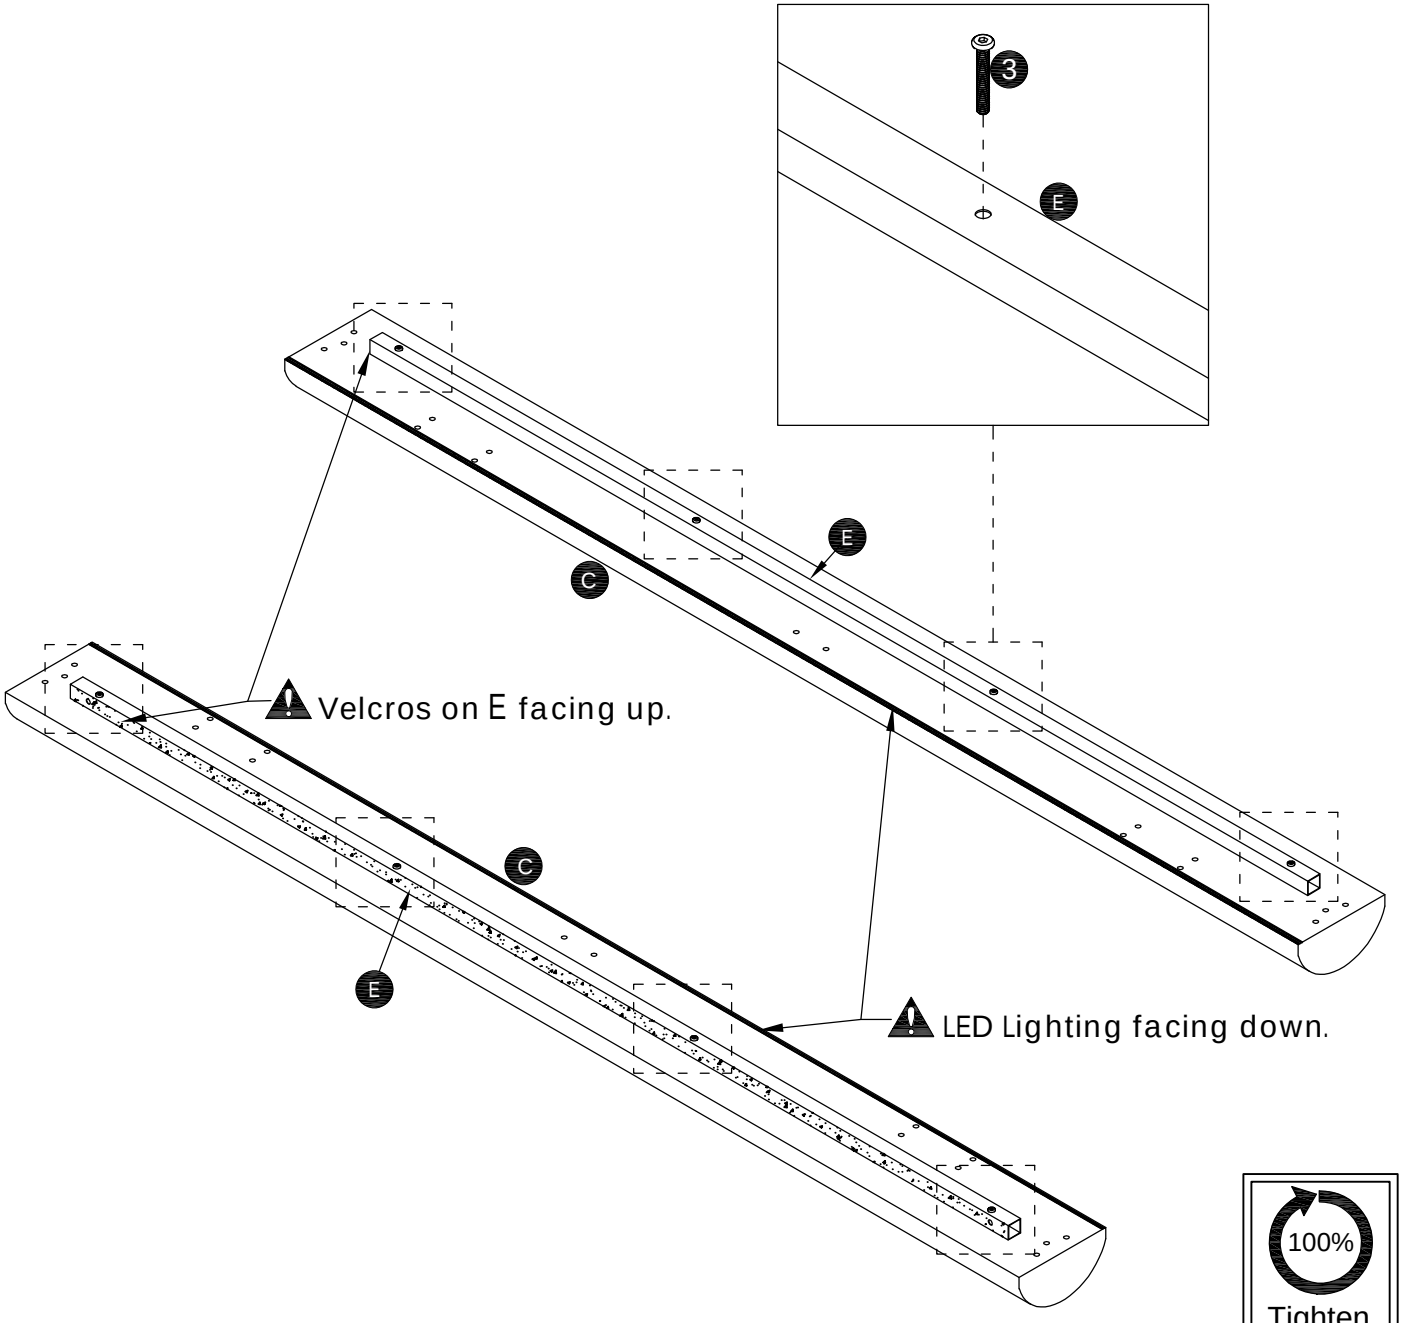

STEP 5

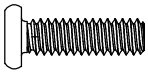

3 (x8)

Attach E (x2) to C (x2) as illustrated with 3 .

⚠ Please handle the pre-assembled LED light strips on C with care to prevent damage during assembly.

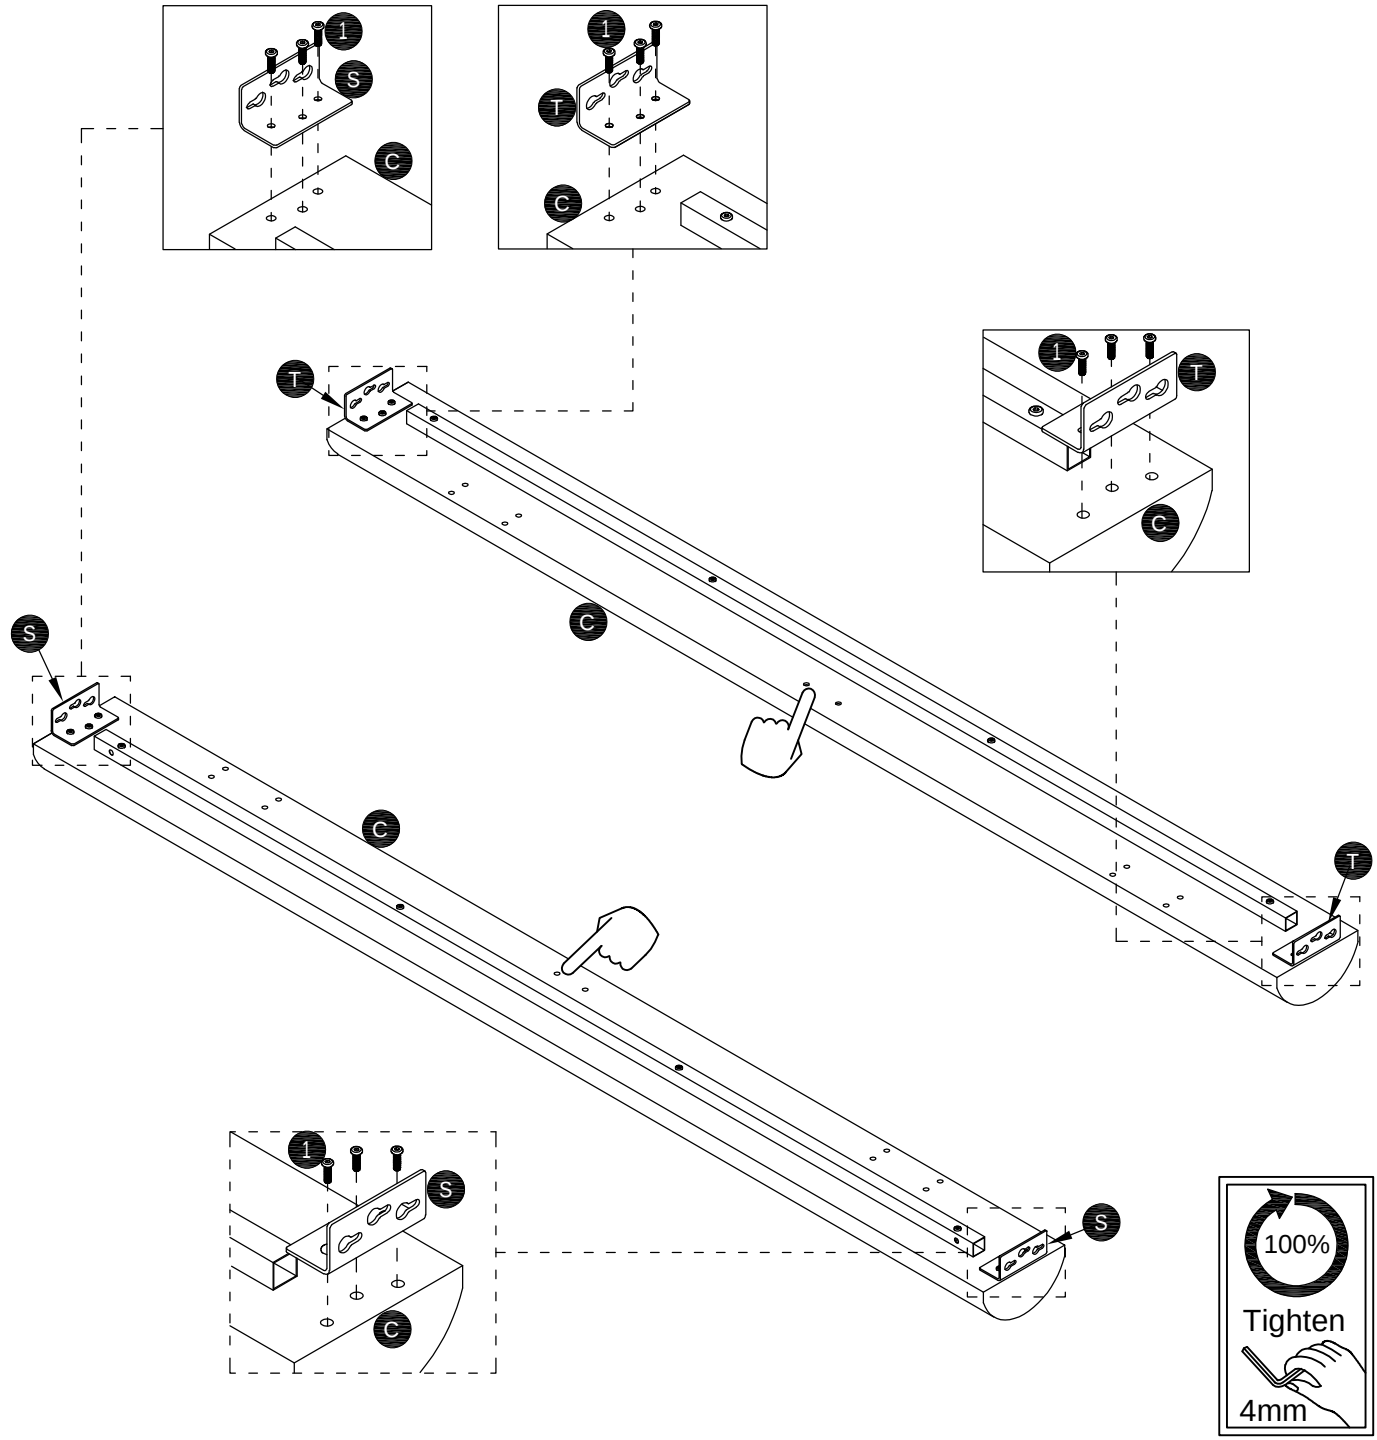

STEP 6

1 (x12)

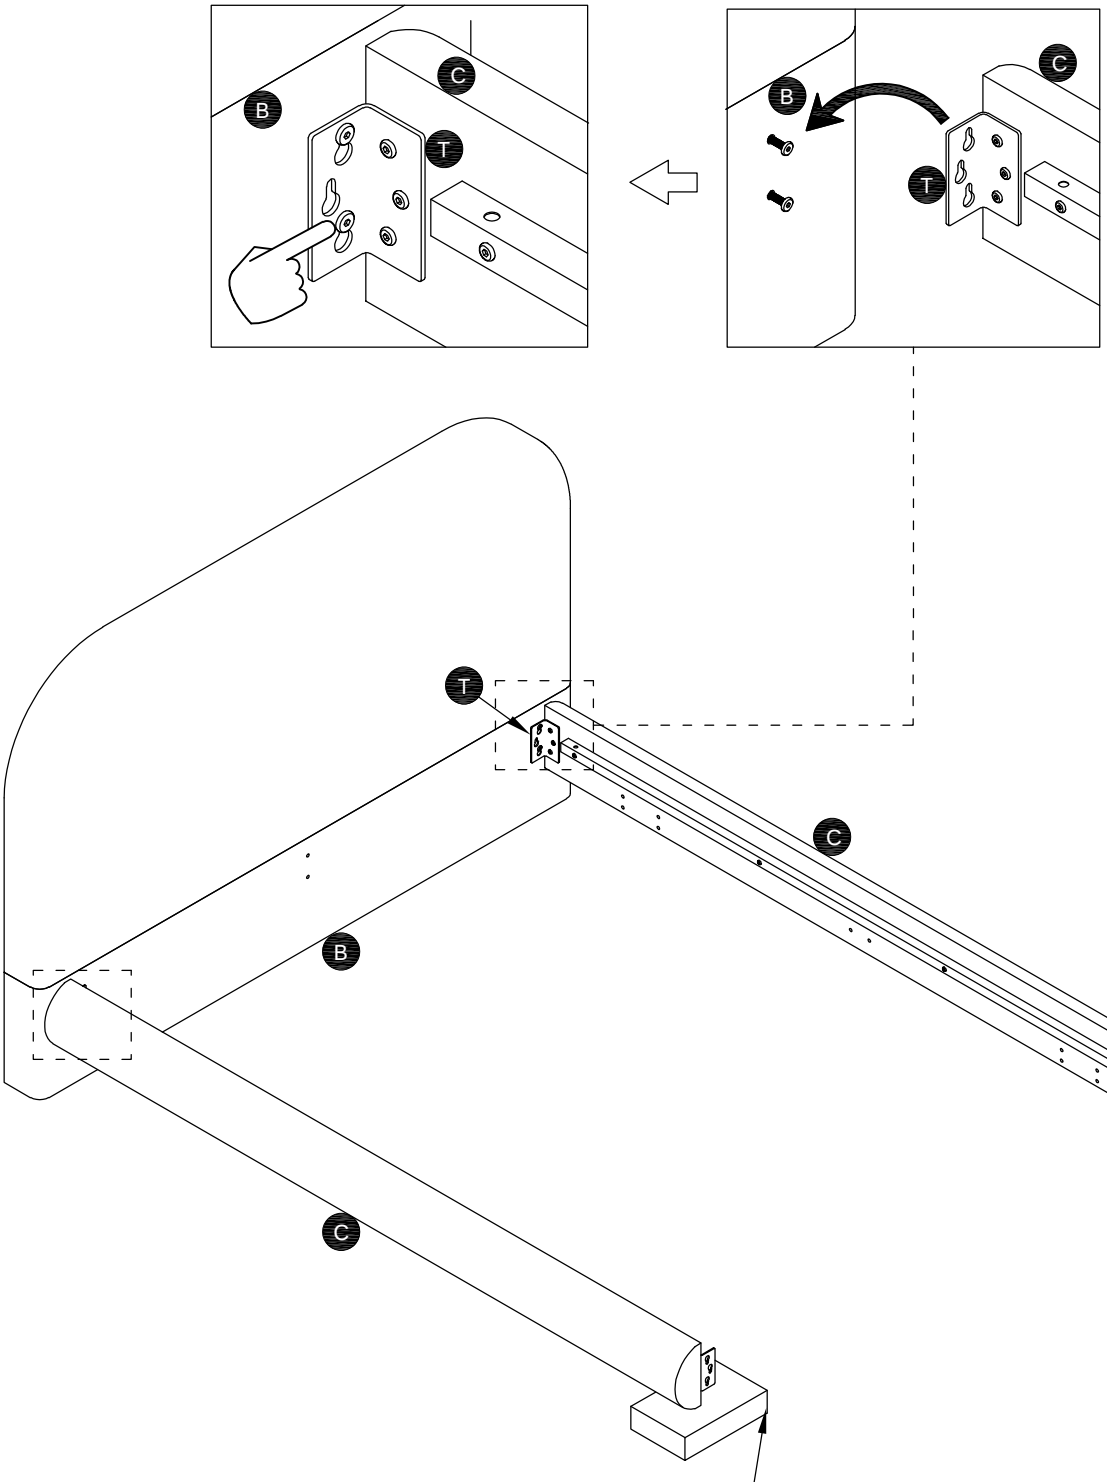

Attach T (x2) to one C as illustrated with 1 .
Attach S (x2) to the other C as illustrated with 1.

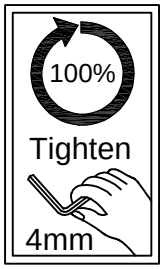

STEP 7

Hang C (x2) on B as illustrated, then tighten the screws.

⚠ The side of the metal bracket with small holes facing up .

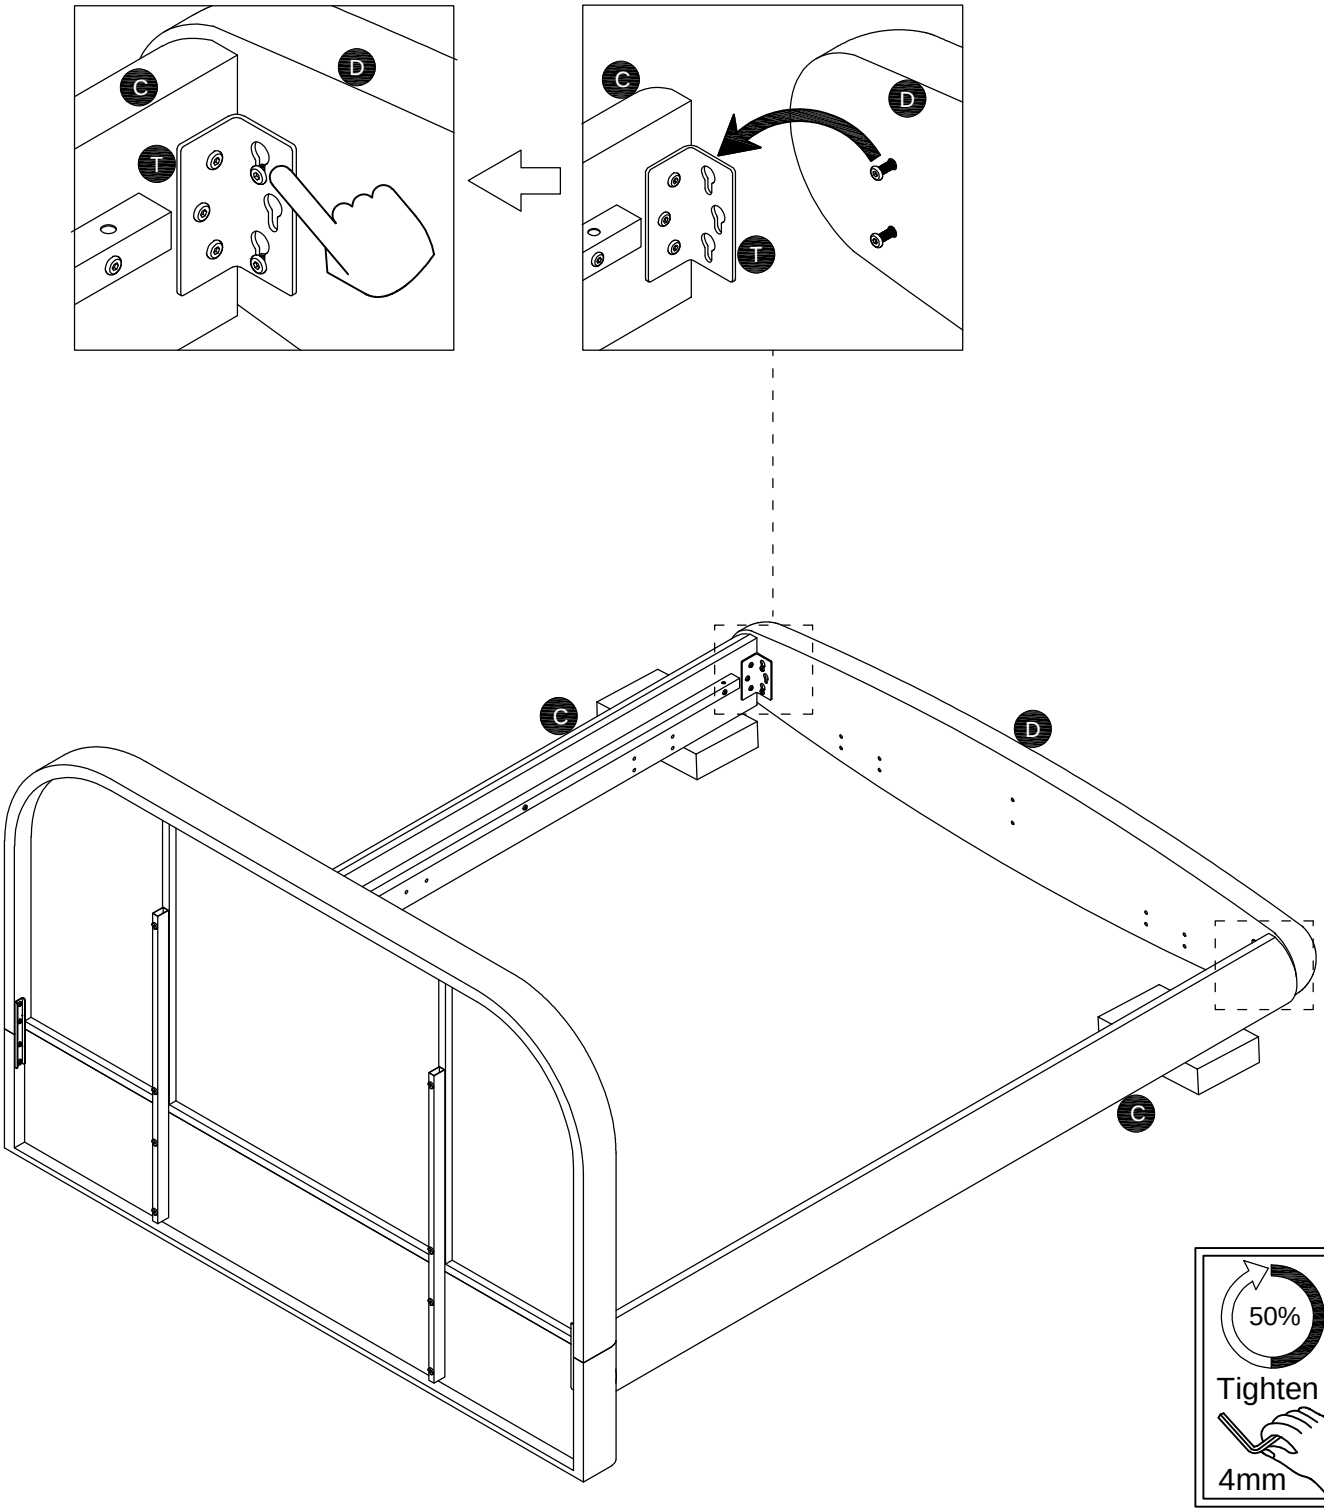

⚠ Raising the side panels with some accessories would be helpful for alignment.

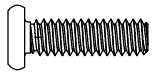

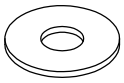

STEP 8

Hang D on C (x2) as illustrated.

⚠ Do not tighten the screws at this step until finishing Step 14 .

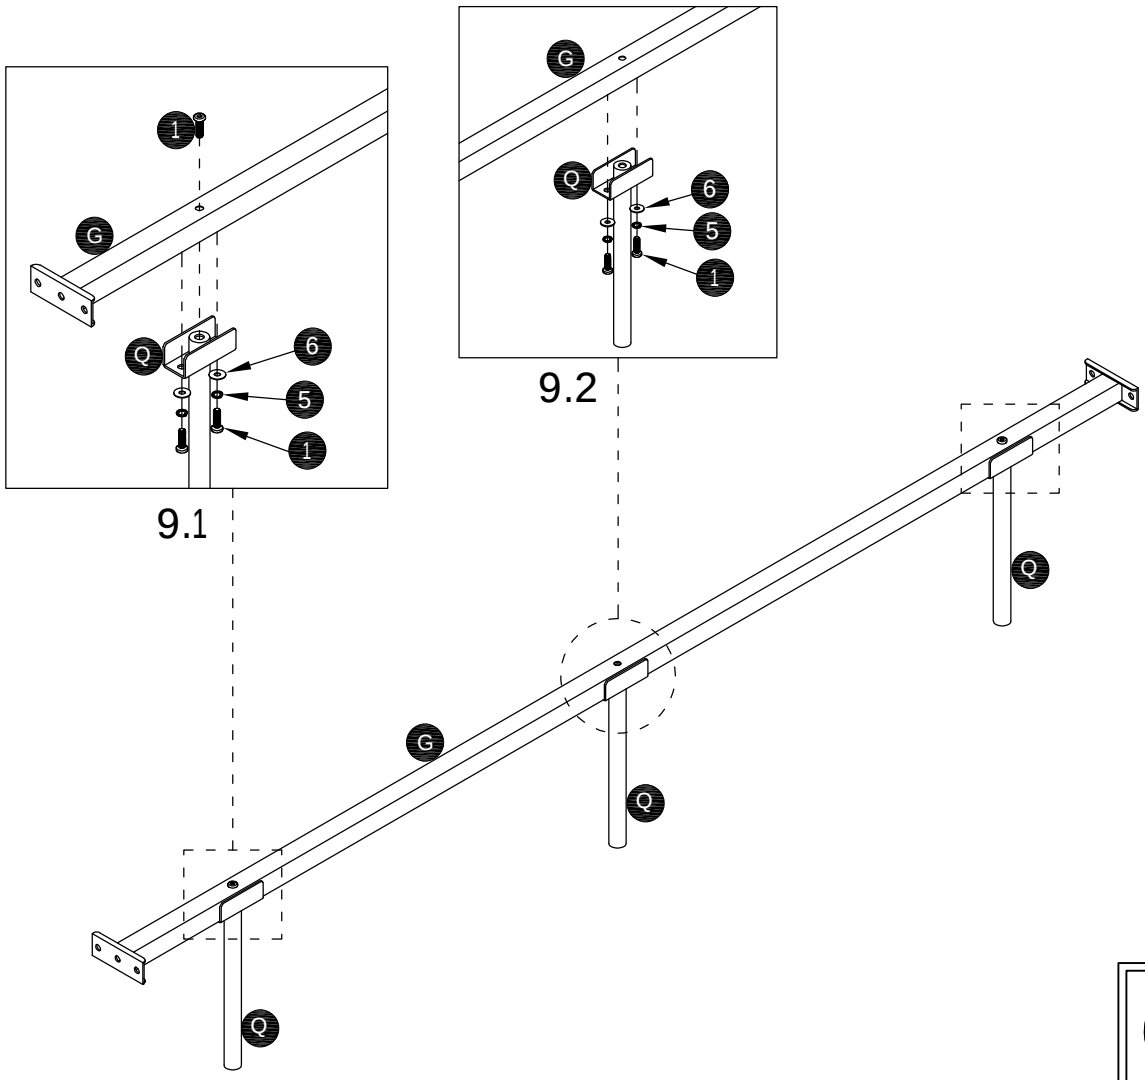

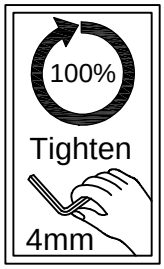

STEP 9

	1 (x8)
	5 (x6)
	6 (x6)

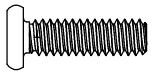

9.1 Attach Q (x2) to G as illustrated with 1 & 5 & 6.

9.2 Attach Q to G as illustrated with 1 & 5 & 6.

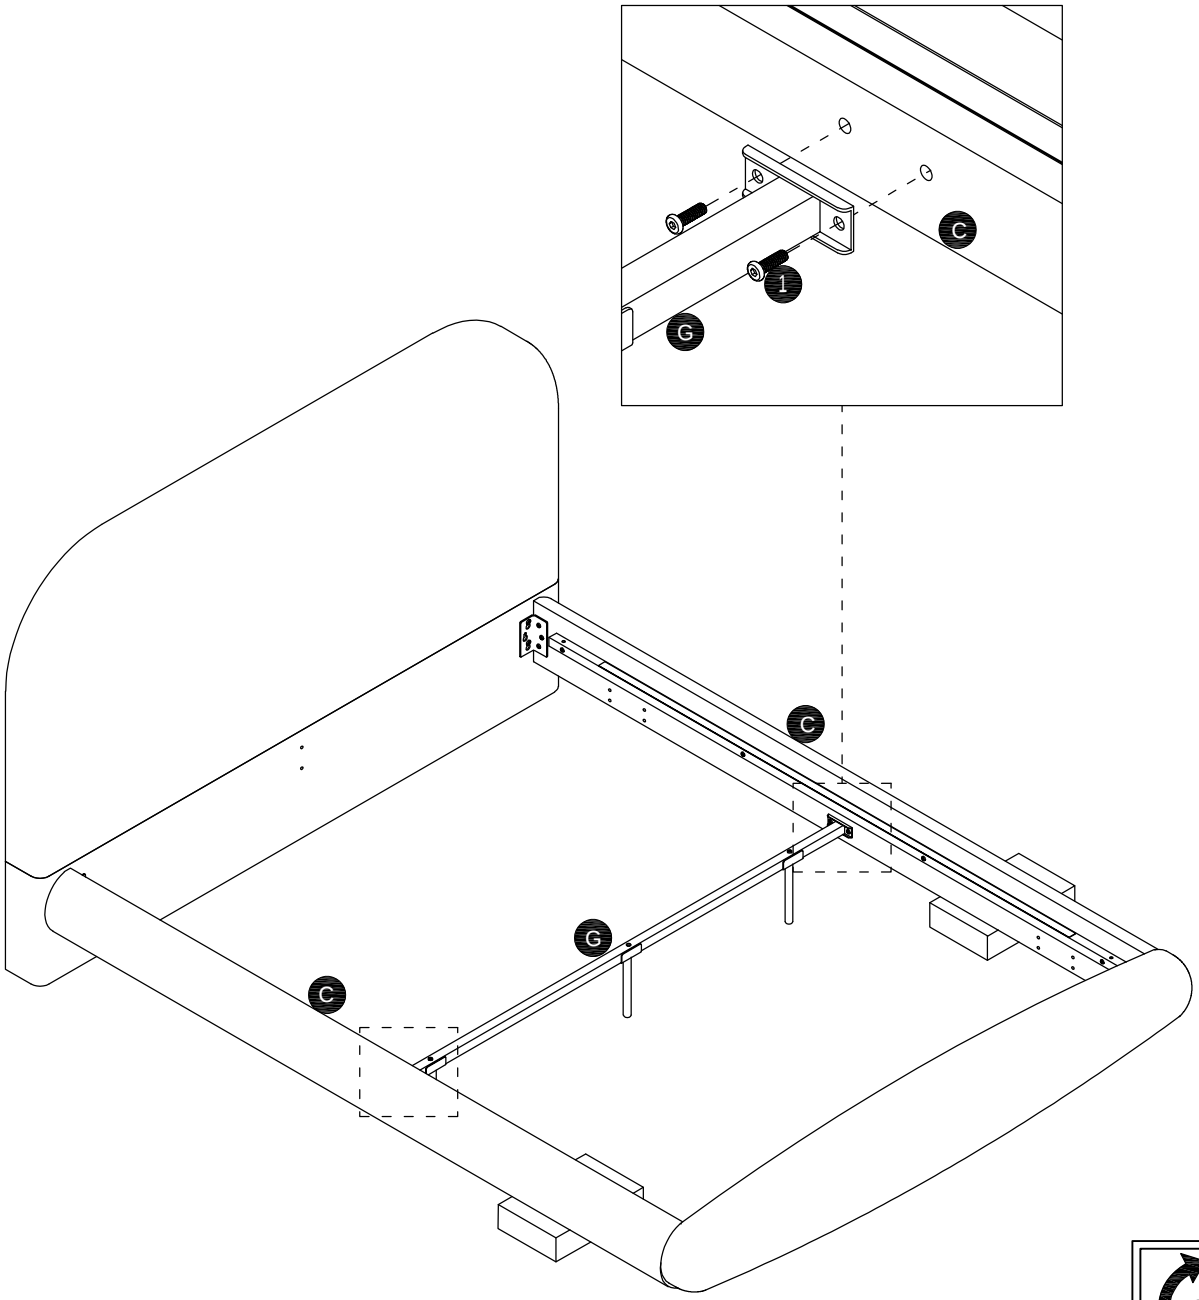

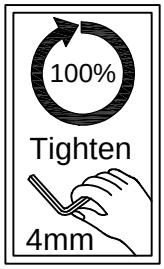

STEP 10

 1 (x4)

Attach G to C (x2) as illustrated with 1 .

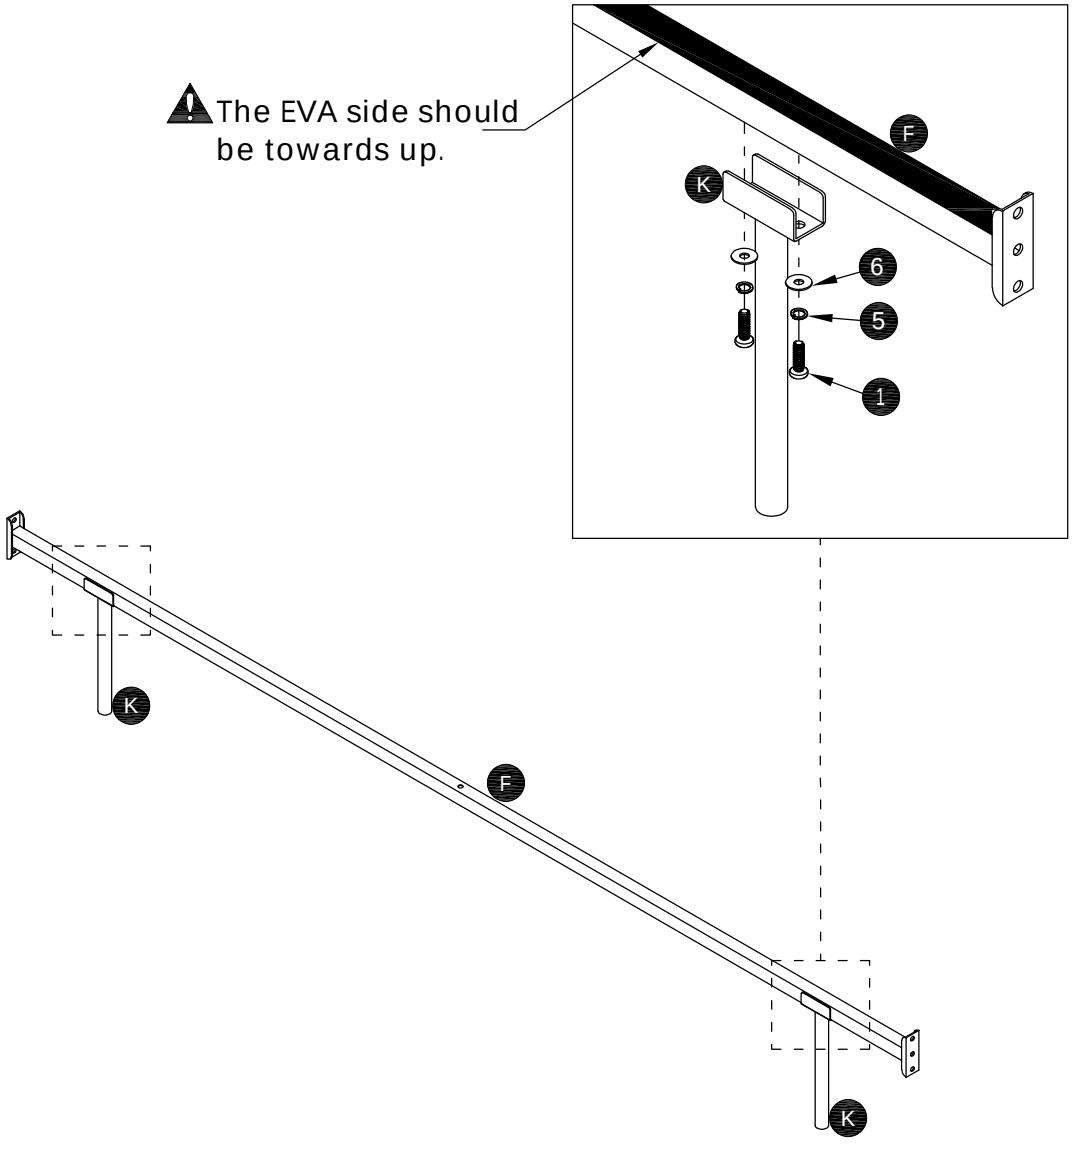

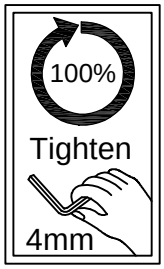

STEP 11

	1 (x4)
	5 (x4)
	6 (x4)

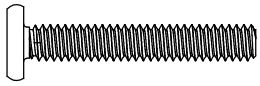

Attach K (x2) to F as illustrated with 1 & 5 & 6.

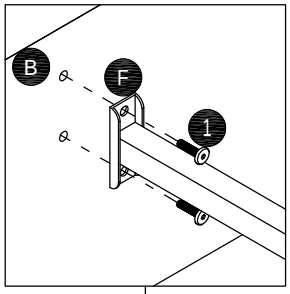

STEP 12

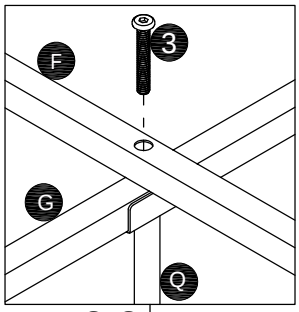

1 (x4)

3 (x1)

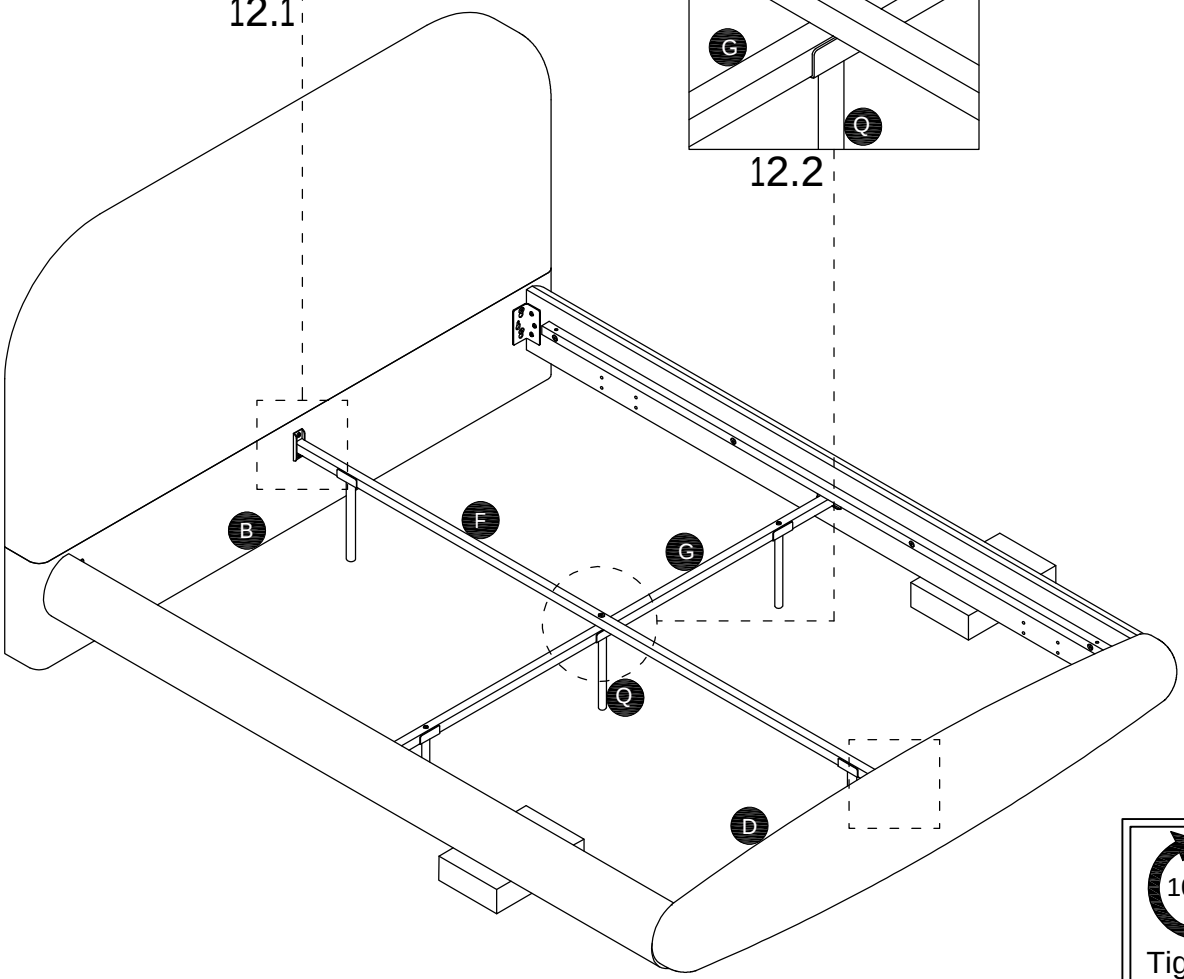

12.1 Attach F to B and D as illustrated with 1 .
12.2 Attach F to G and Q as illustrated with 3 .

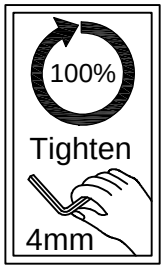

12.1

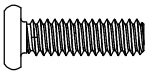

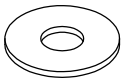

12.2

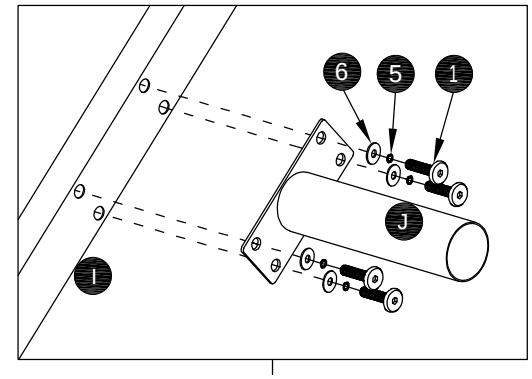

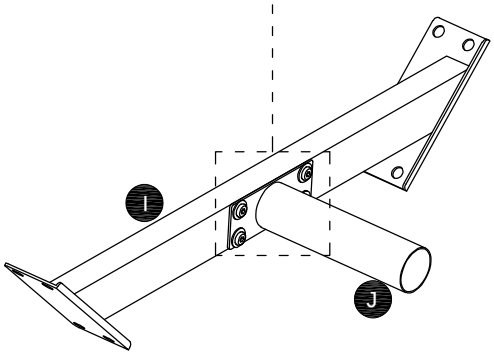

STEP 13

	1 (x8)
	5 (x8)
	6 (x8)

Attach J to I as illustrated with 1 & 5 & 6.

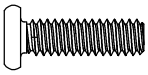

X2

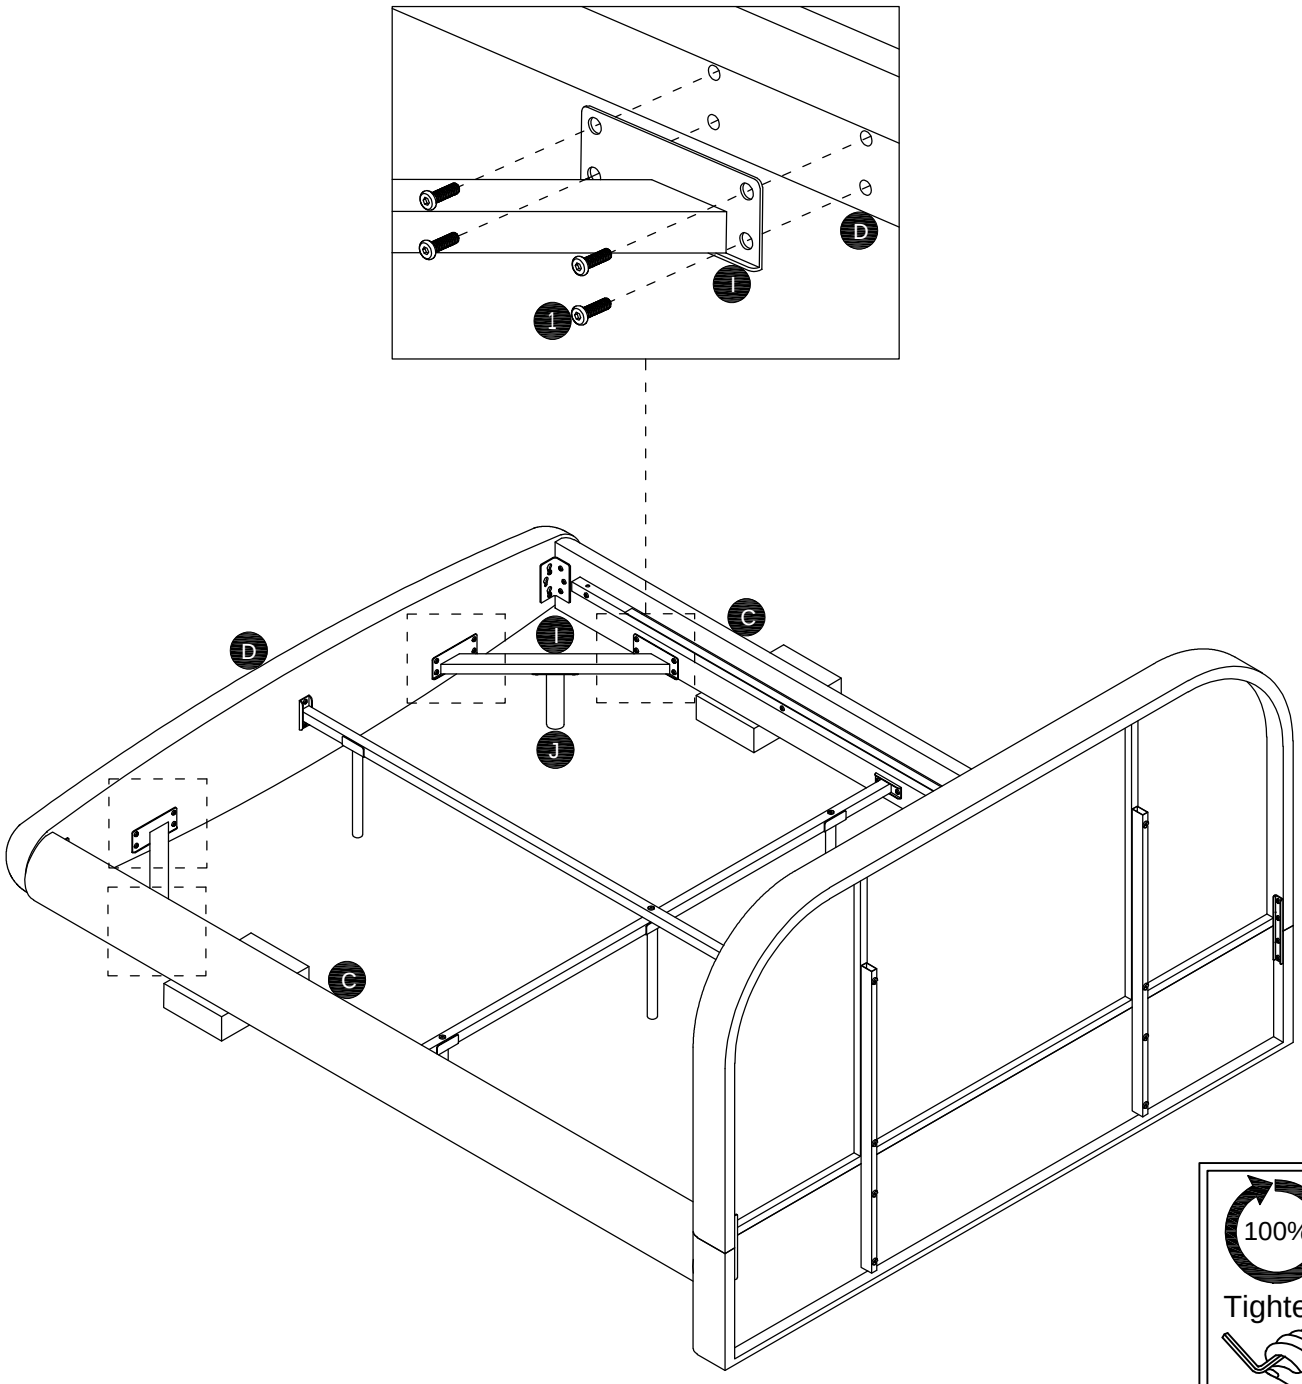

STEP 14

1 (x16)

Attach one set I and J assembled from previous step to C (x2) and D as illustrated with 1.

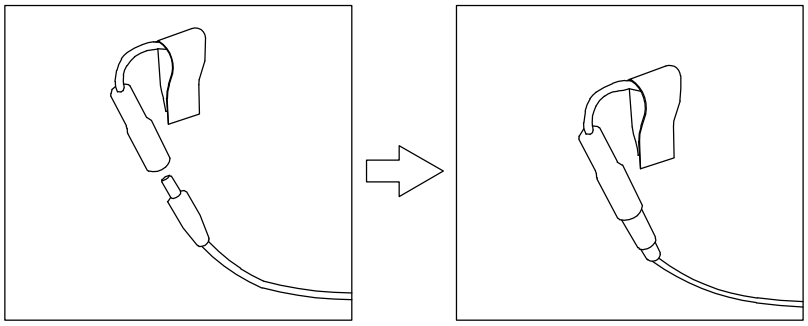

⚠ Fully tighten all bolts.

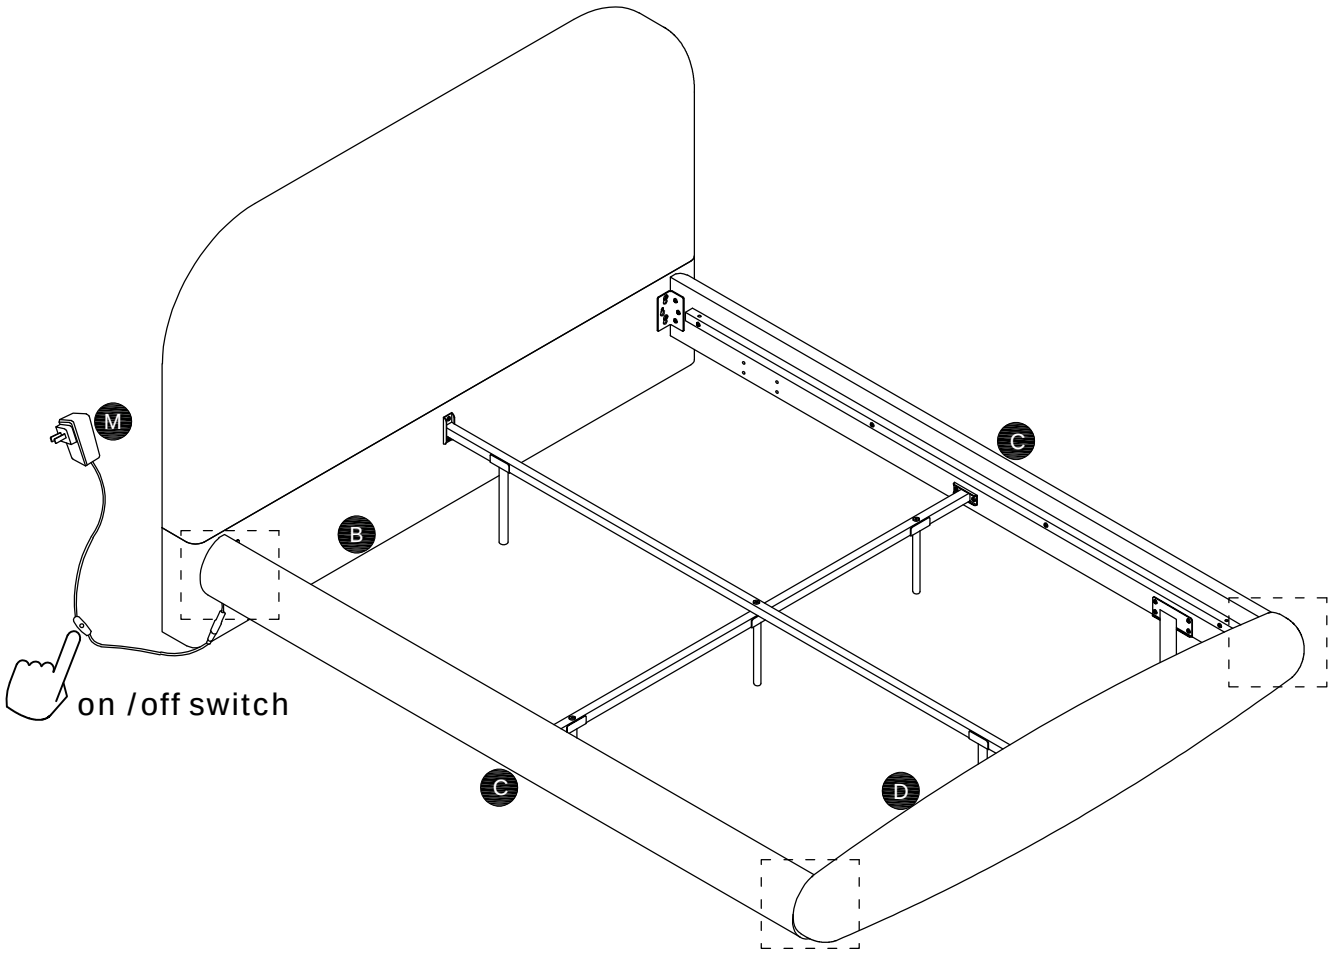

STEP 15

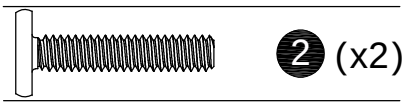

15.1 Connect the lighting connectors at the corners C (x2) and D .

15.2 Connect the connector of M to the end connector of one C . It depends on which side is closer to your wall outlet.

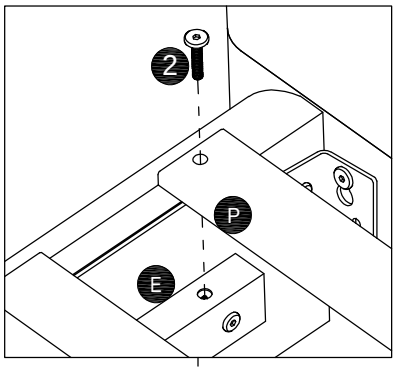

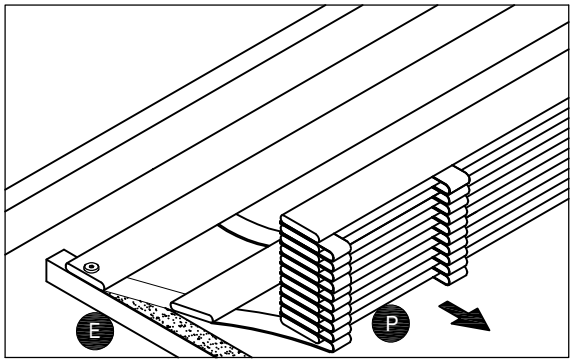

STEP 16

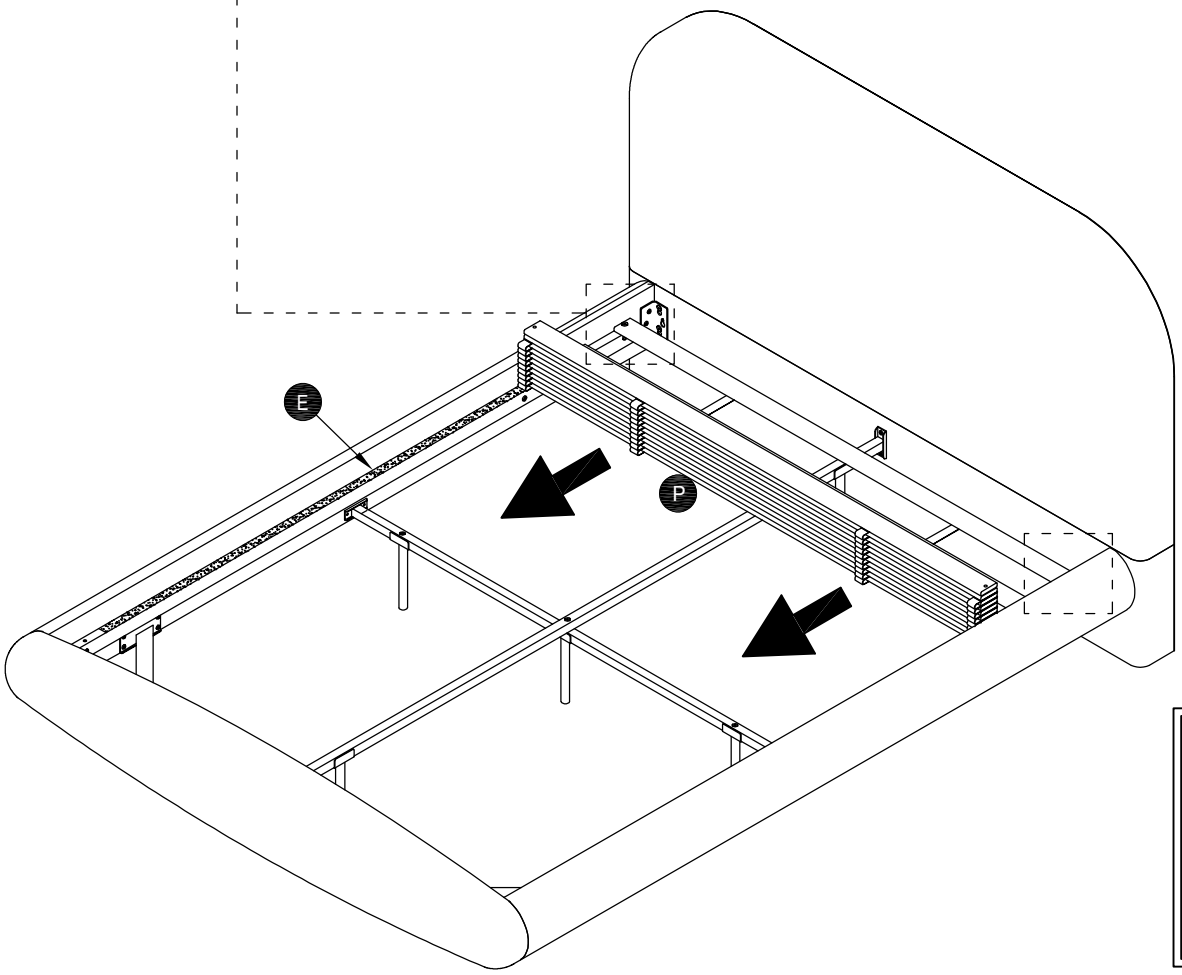

16.1 Fix the first slat of P to E (x2) as illustrated with 2 .
16.2 Spread the slats P along the bed with equal spacing, secure the Velcro on the slats to the matching Velcro on E.

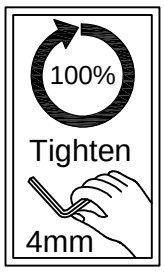

16.1

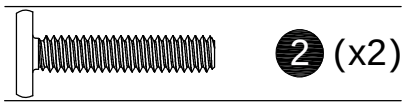

16.2

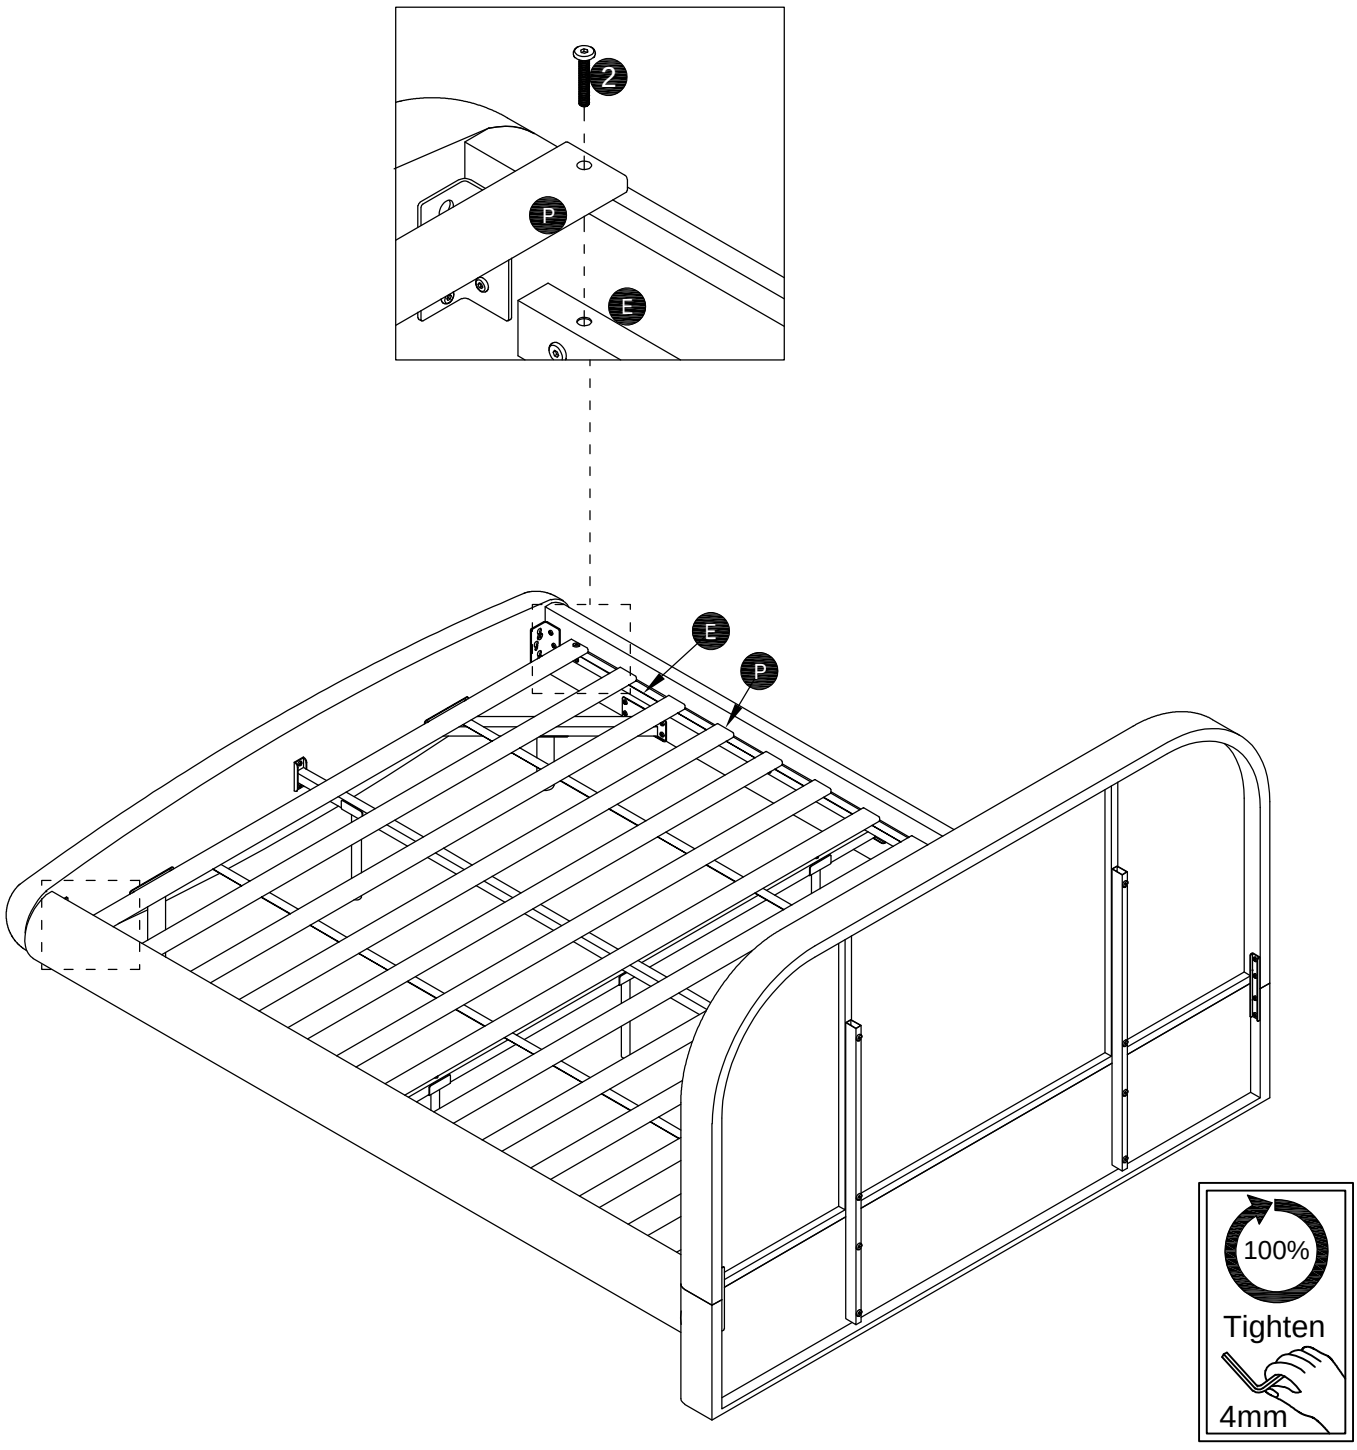

STEP 17

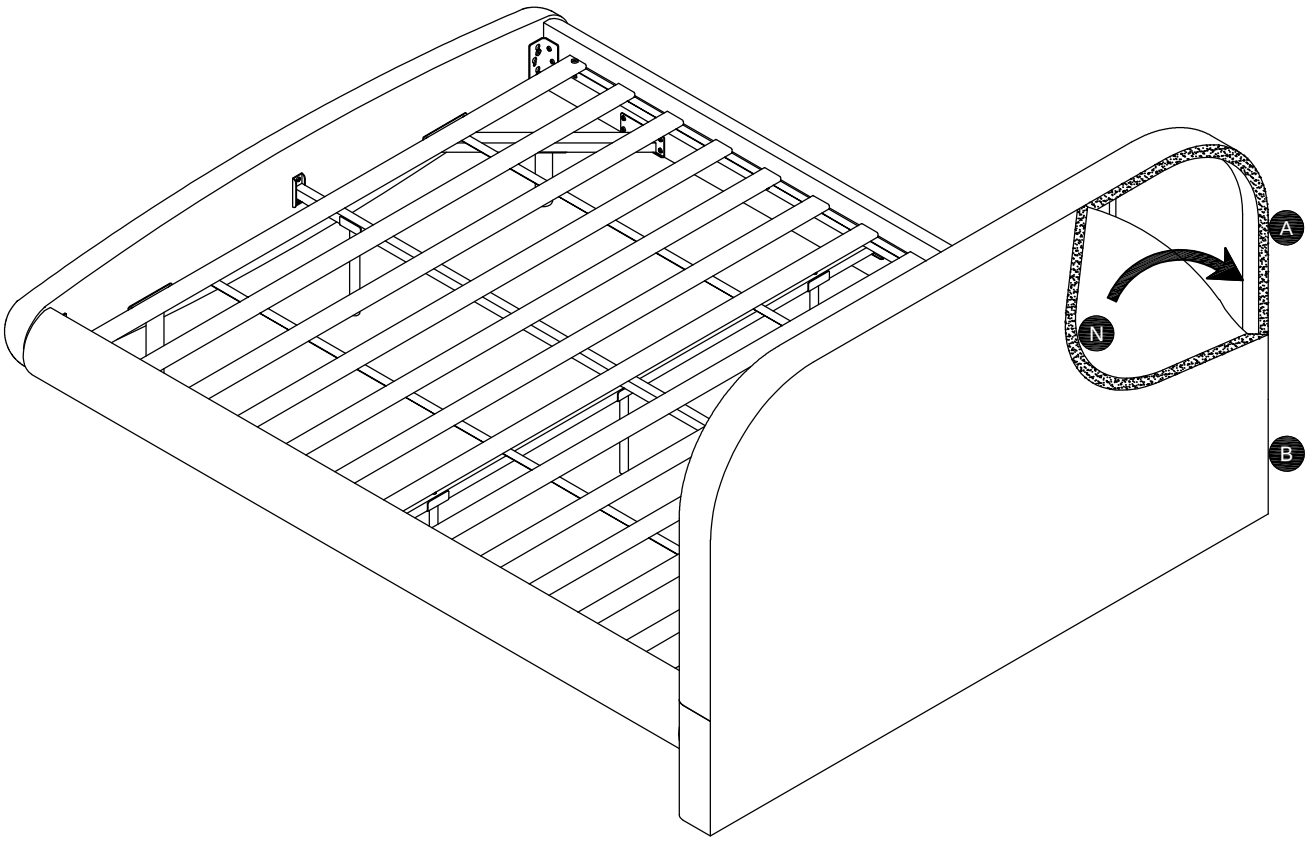

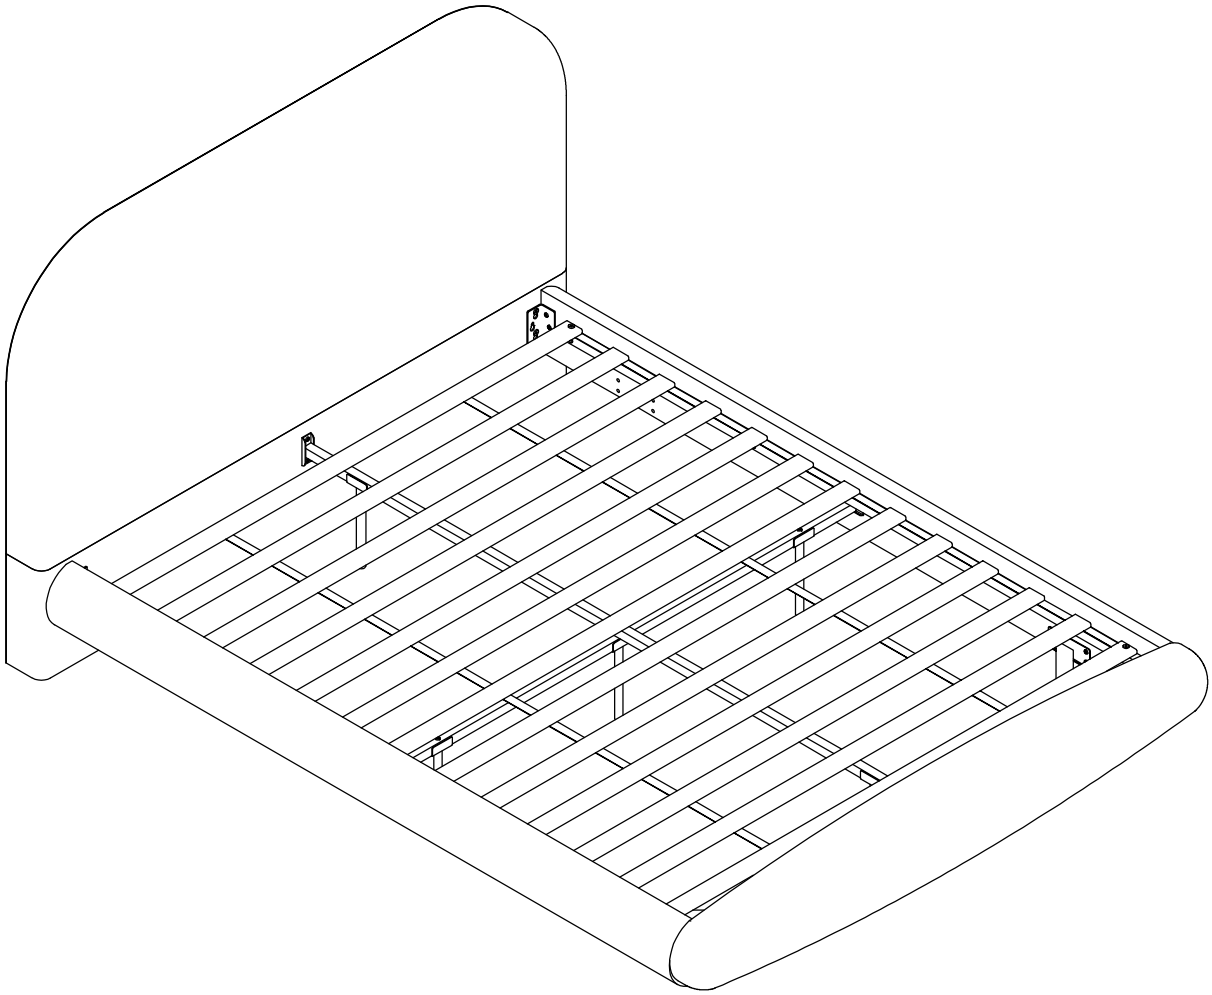

Fix the last slat of P to E (x2) as illustrated with 2 .

STEP 18

Stick N to the back of A and B with Velcro as illustrated.

⚠ Weight limit:

Bed: 1000LBS/454KG

Congratulations! Your bed assembly is complete!

CARE GUIDE

Chenille have a pile (directional nap) that reflects light uniquely, while bouclé features a looped, textured surface. These premium fabrics require gentle care to prevent pressure marks and pile flattening.

Restoring the Pile (Chenille): Due to the nature of the soft tufted yarns, Chenille may develop temporary shading or flat spots from regular sitting. Restore the luxurious volume and nap by gently brushing with a soft-bristled clothes brush or a clean brush in the direction of the pile.

Steaming Treatment: For stubborn wrinkles, seam compression, or deep pressure marks on Chenille, use a handheld fabric steamer on a low/medium setting. Keep the steamer at least 5 cm away from the fabric and never touch the fabric directly with the metal plate to avoid melting or scorching the delicate fibers.

Snagging & Thread Pulls: Chenille is woven from bulky core yarns, making it susceptible to snagging by pet claws, jewelry, or sharp hardware. If a thread is pulled, never cut it, as this can cause the fabric to unravel. Gently tuck the loose loop back into the weave using a dull needle or a crochet hook.
