

ASSEMBLING & INSTALLATION INSTRUCTIONS

The drawing shown may not exactly match the product enclosed.
However, the installation instructions do apply to this product.

*****WARNING! SHUT POWER OFF AT FUSE OR CIRCUIT BREAKER.**

*****ATTENTION! COUPER LE COURANT AU FUSIBLE OU UN DISJONCTEUR.**

ASSEMBLING THE FIXTURE (Fig.1)

1. Shut off the power at the circuit breaker box. Remove old fixture and all hardware from Junction Box. Carefully unpack your new fixture and lay out all the parts on a clear area. Take care not to lose any small parts necessary for installation.
2. After wiring connections are complete, slip post fitter (A) over top of installed post (B) making sure all wire connections are tucked inside the pole. **installed post (B) is not included.**
3. When fixture is slipped over pole make sure no wires are being pinched between the top edge of the pole and the inside of the post fitter.
4. Follow wiring instructions carefully. (see fig.2)
5. Thread the 3 screws (C) into tapped holes in post fitter, Tighten screw (C) to secure fixture to post.
6. Install the light bulbs(not included) in accordance with the fixture's specifications. **NOTE: DO NOT EXCEED THE MAXIMUM WATTAGE RATING!**

CONNECTING THE WIRES (Fig.2)

1. Connect the electrical wires as follows. Connect the Black wire from the fixture to the black house (hot) Wire. Connect the white wire from the fixture to the white (neutral) house wire. Make sure all wire nuts are secured. You may wrap the connections with electrical tape. If your outlet box has a ground wires (green or bare copper) connect fixture's ground wire to it. Otherwise attach the bare copper fixture wire to the green ground screw on the mounting plate.
2. Tuck the wire connections neatly into inside the pole.

Your installation is now complete. Return power to the junction box and test the fixture.
