

MEDICINE CABINET CARE & CLEANING

Important Safety Guidelines

- Avoid using abrasive materials, sharp tools, or strong bleach to clean metal parts or glass.
- Periodically wipe with mild soapy water to maintain the freshness of the mirror and aluminum parts.
- Test any cleaning product on an inconspicuous area before use.
- For regular cleaning, use only mild detergents or warm soapy water. Use only non-abrasive cloths or sponges. Always rinse surfaces after cleaning. Before cleaning this product with any cleaning products, test a small, inconspicuous area first.

Caution:

The manufacturer does not recommend using cleaning products that contain the following chemicals. Using products containing these chemicals can cause discoloration and void the warranty:

- Naphtha
- Hydrogen peroxide solution (common household peroxide)
- Toluene
- Ethyl acetate
- Lye (common in drain cleaners)
- Acetone
