Tools required for assembly: **Phillips screwdriver**

Drop lift wall rack

Assembly Instructions

Installation recommended on wall studs or solid – back wall surface.

1. Determine and mark wall bracket screw location according to your clamp dimensions. Use chart to determine the distance between your brackets.

Clamp Size	Distance	
18"	18 1/16"	45,9 cm
24"	24 1/16"	61,1 cm
30"	30 1/16"	76,4 cm
36"	36 1/16"	91,6 cm
42"	42 1/16"	106,8 cm

2. Screw left and right brackets into wall.
