Assemply Instructions

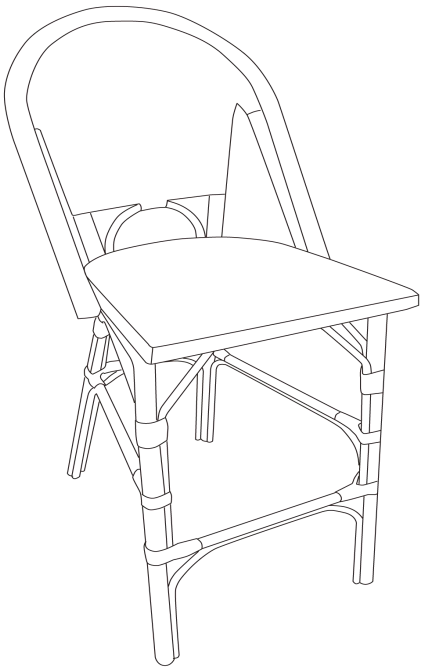

Caution : You must read this before you proceed

Care & Maintenance

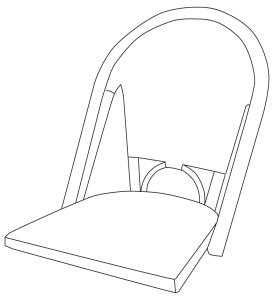

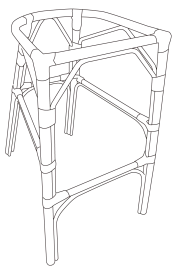

- ⊘  Not for commercial use. For residential use only.
- ⊘  Prolonged exposure to rain may cause rusting which can stain floors.
- ⊘  Do not put hot items directly on furniture surface.
- ⊘  Do not clean furniture with harsh cleansers or polish.
- ✓  To obtain the longest lifespan of your outdoor products, minimizing exposure to direct sunlight is recommended.
- ⊘  Children should not climb or jump on the furniture.
- ⊘  Do not write on furniture without a padded barrier to protect the surface.
- ✓  To obtain the longest lifespan of your outdoor products, avoid extended and lengthy exposure to rain, snow, and direct sunshine. Whenever possible cover the product and /or place under patio or awnings.
- ⊘  Stains may be removed with mild soap solution and damp cloth.
- ✓  Keep away from sources of ignition.

- ✓  Dust and pick-up spills using a clean, non-colored, lint-free cloth.

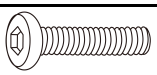

Chair

Parts List

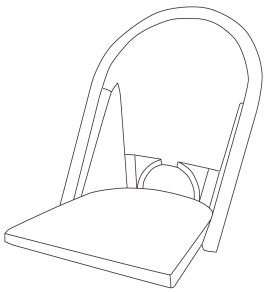

Label	Picture	Description	QTY
A		Backrest/Leg	1
B		Seat/Leg	1

Hardware

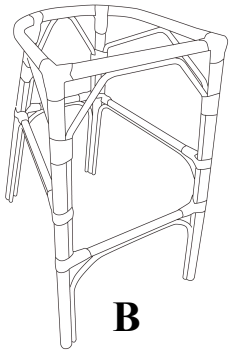

Label	Picture	Description	QTY
①		Washer	4
②		Bolt (M6*45mm)	4
③		Allen Key	1

Assembly Preparation

Before Beginning Assembly:

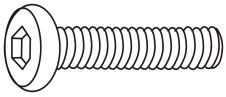

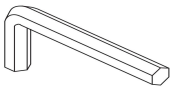

A

B

①x4 

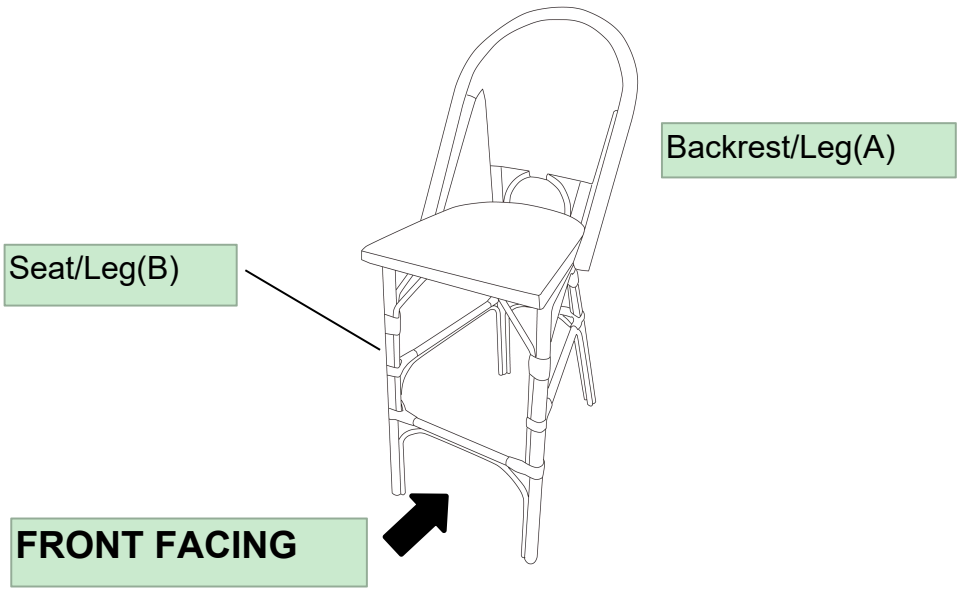

②x4 

③x1 

- Read instructions, cover to cover-
- Have 2 adults on hand for assembly-
- Do not assemble on flooring or carpet-
- Assemble on a clean non-marring surface (packing foam)-
- Save all packaging until finished-

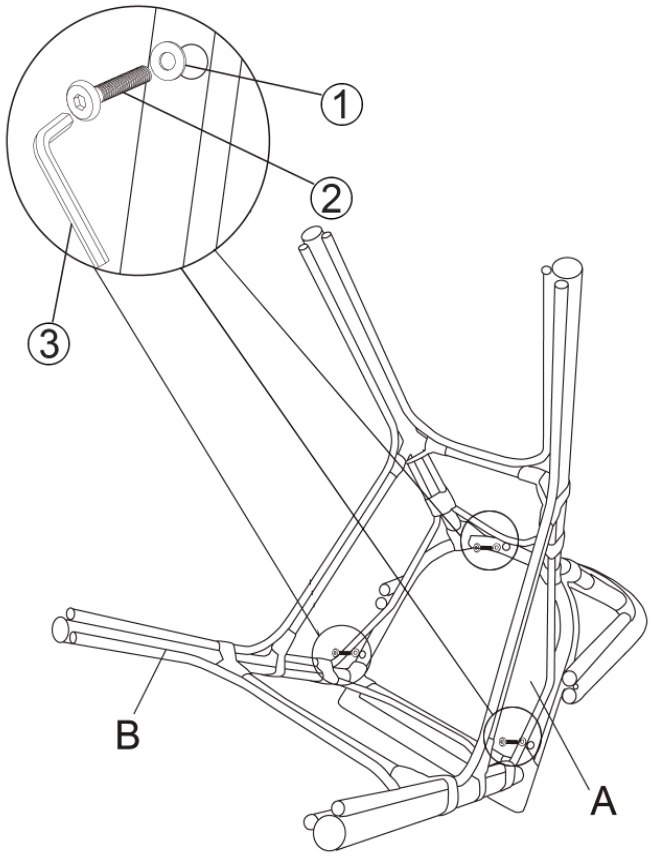

Assembly Steps

Overview

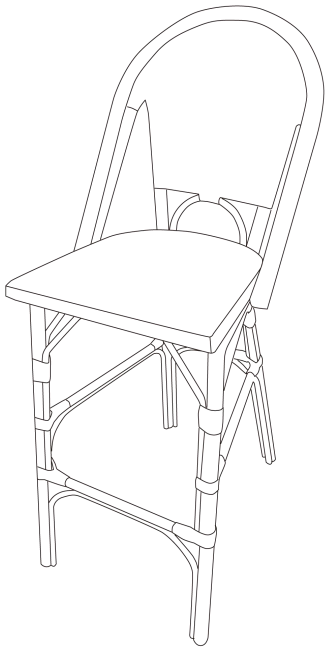

This Chair has multiple parts and may require up to 15 minutes to assemble.
To give you an overview of the Chair parts, the above picture is provided to help you put the various parts into perspective.
Please read through the instructions below to familiarise yourself with the parts and steps before assembly.

Step 1

Open the carton and place all the parts onto a clean, non-marring surface.
Attach the Seat/Leg(B) to the Backrest/Leg(A) with the Washers(①) and Bolts(②) using the Allen Wrench③) as shown above.
Do not fully tighten any Bolt at this time. Lock tightly at the end.

Step 2

Stand the Chair up.
Place the Chair on a **LEVEL SURFACE.**
Inspect it and make sure all parts are adequately connected.
Gently and carefully, sit on the Chair.
This will help align all parts at all joints.
Then get off the Chair, and in a sequential manner, proceed to tighten all Bolts.
When tightening the Bolts, tighten sequentially.
DO NOT tighten any Bolt fully and then move on to the next one. This may cause the frame to warp. If the chair wobbles after tightening, loosen the Bolts and execute the same process.
If the Chair is not stable it could lead to damage of the product.
Your Chair is ready for use.
This Chair can only be used on a flat and level surface.

Questions & Answers about Proposition 65

• What is Proposition 65?

Proposition 65 requires businesses to provide warnings to Californians about significant exposures to chemicals that cause cancer, birth defects or other reproductive harm. These chemicals can be in the products that Californians purchase, in their homes or workplaces, or that are released into the environment. By requiring that this information be provided, Proposition 65 enables Californians to make informed decisions about their exposures to these chemicals.

Proposition 65 also prohibits California businesses from knowingly discharging significant amounts of listed chemicals into sources of drinking water.

Proposition 65 requires California to publish a list of chemicals known to cause cancer, birth defects or other reproductive harm. This list, which must be updated at least once a year, has grown to include approximately 900 chemicals since it was first published in 1987.

• What types of chemicals are on the Proposition 65 list?

The list contains a wide range of naturally occurring and synthetic chemicals that include additives or ingredients in pesticides, common household products, food, drugs, dyes, or solvents. Listed chemicals may also be used in manufacturing and construction, or they may be byproducts of chemical processes, such as motor vehicle exhaust.

• What does a warning mean?

If a warning is placed on a product label or posted or distributed at a workplace, a business, or in rental housing, the business issuing the warning is aware or believes that it is exposing individuals to one or more listed chemicals.

By law, a warning must be given for listed chemicals unless the exposure is low enough to pose no significant risk of cancer or is significantly below levels observed to cause birth defects or other reproductive harm.

• Where can I get more information on Proposition 65?

If you have specific questions on the administration or implementation of Proposition 65, you can contact OEHHA's Proposition 65 program at P65.Questions@oehha.ca.gov, or by phone at (916) 445-6900.
