Tuya Smart App Setup Guide

Compatible with Android and iOS devices

Step 1: Add a New Device

Download the Tuya Smart App from the app store, or scan the QR code provided in the product manual;

Step 2: Log In

If you already have an account, log in directly;

If you do not have an account, tap "Log In" >

"Register" and follow the prompts to create one before logging into the app.

On your phone:

Enable Wi-Fi, Bluetooth, and Location Services;

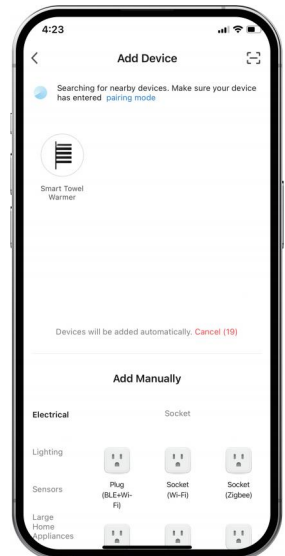

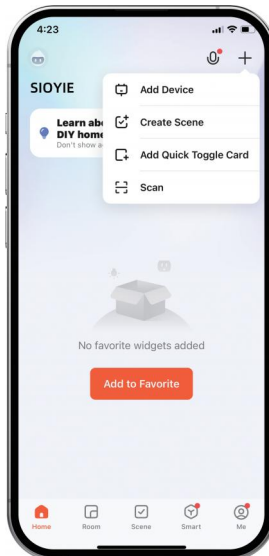

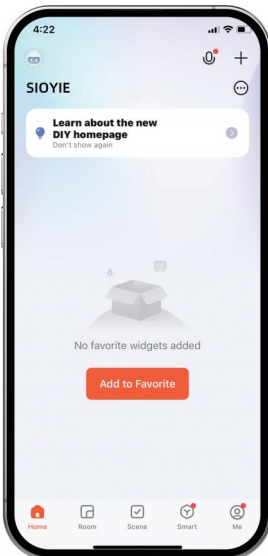

The app will automatically scan for nearby devices;

On the device:

Ensure the device is powered on;

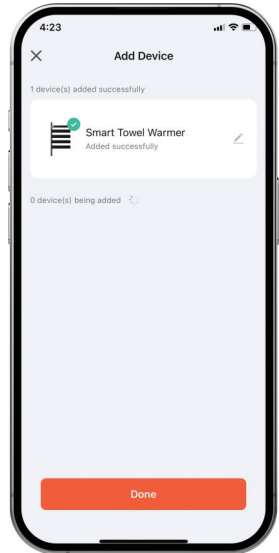

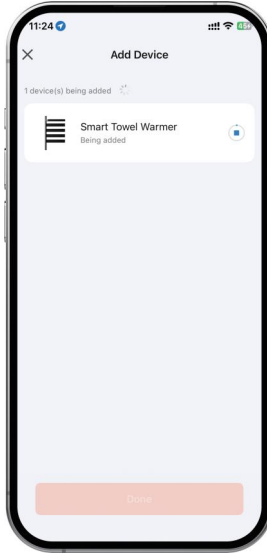

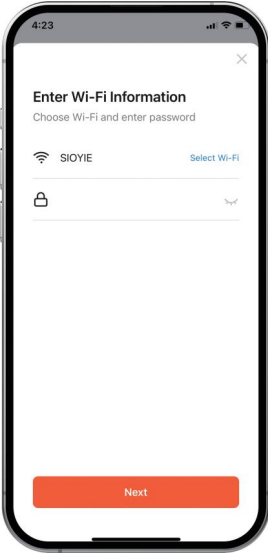

Step 3: Press and hold the power button for 5 seconds until the three indicator lights begin flashing and a white light flashes in the upper left corner of the display. The device is now in pairing mode;

Step 4: Add the Device in the App. Open the Tuya Smart App, go to the home page, and tap the "+" icon in the top right corner, then tap "Add Device." When your device is detected, tap to connect. If the device is not found, repeat the previous step to enter pairing mode again;

Step 5: Connect to Wi-Fi. Follow the instructions in the app to select your Wi-Fi network and enter the password. Make sure your wireless network is functioning properly (Note: This device only supports 2.4GHz Wi-Fi networks);

Step 6: Final Settings. Assign the device to a room and set a device name. Once pairing is complete, tap the device to enter the control interface and access all smart towel rack functions.

Smart Life App Setup Guide

Compatible with Android and iOS devices

Step 1: Add a New Device

Download the Smart Life App from the app store, or scan the QR code provided in the product manual;

Step 2: Log In

If you already have an account, log in directly;
If you do not have an account, tap “Log In” > “Register” and follow the prompts to create one before logging into the app.

On your phone:

Enable Wi-Fi, Bluetooth, and Location Services;
The app will automatically scan for nearby devices;

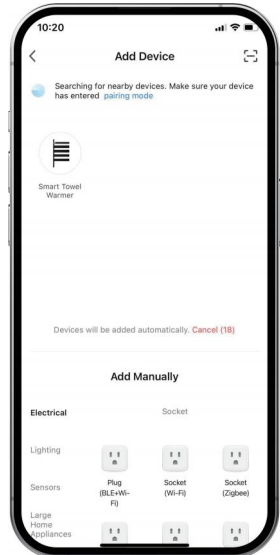

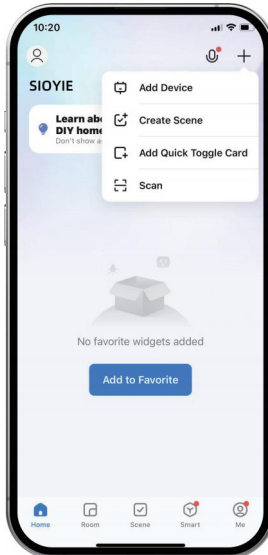

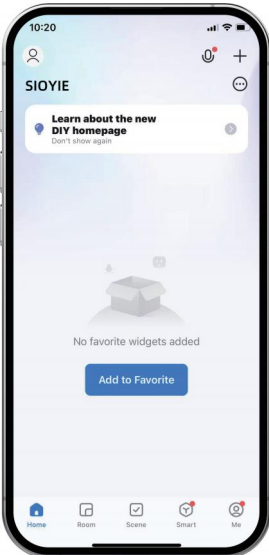

On the device:

Ensure the device is powered on;

Step 3: Press and hold the power button for 5 seconds until the three indicator lights begin flashing and a white light flashes in the upper left corner of the display. The device is now in pairing mode;

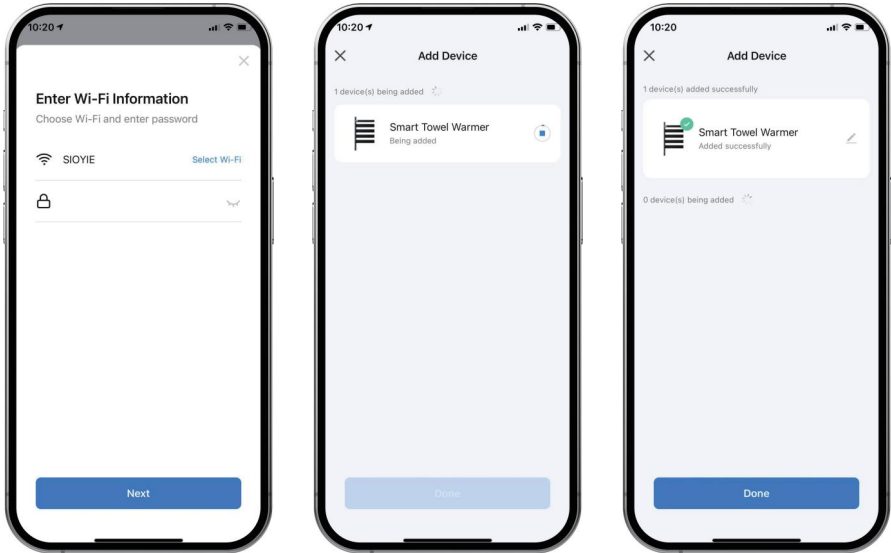

Step 4: Add the Device in the App; Open the Smart Life App, go to the home page, and tap the “+” icon in the top right corner, then tap "Add Device." When your device is detected, tap to connect.

If the device is not found, repeat the previous step to enter pairing mode again.

Step 5: Connect to Wi-Fi. Follow the instructions in the app to select your Wi-Fi network and enter the password. Make sure your wireless network is functioning properly (**Note: This device only supports 2.4GHz Wi-Fi networks**);

Step 6: Final Settings. Assign the device to a room and set a device name. Once pairing is complete, tap the device to enter the control interface and access all smart towel rack functions.

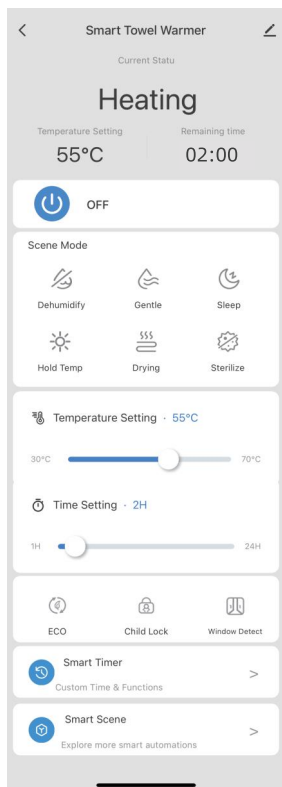

Function Overview

Temperature Control Range: 30-70°C (115-155°F)

Timer Range: 1-24H

Power Button: Tap to turn the device on or off.

On first use, the default temperature is set to 55°C (130°F) with a 2-hour timer. When turned off and back on again, the device will remember and restore all previous settings or modes.

Current Status Display:

Displays the current status of the smart towel rack.

Preset Modes:

Dehumidify Mode: 45°C (115°F), turns off after 3 hours;

Gentle Mode: 45°C (115°F), turns off after 5 hours;

Sleep Mode: 50°C (125°F), turns off after 6 hours;

Hold Temp Mode: 50°C (125°F), turns off after 24 hours;

Drying Mode: 55°C (130°F), turns off after 5 hours;

Sterilize Mode: 60°C (140°F), turns off after 5 hours.

Temperature Setting: Slide to set the temperature within a range of 30-70°C (115-155°F), adjustable in 5°C (5°F) increments.

Timer Off Setting: Slide to set the timer within a range of 1-24 hours, adjustable in 1-hour increments.

ECO Button: Tap to turn the energy-saving mode on or off. When enabled: maximum temperature is limited to 60°C (140°F); maximum timer duration is limited to 6 hours. When disabled: these limitations are removed.

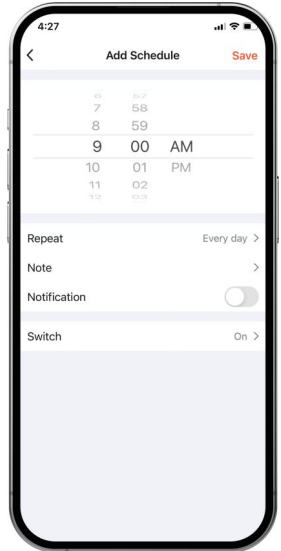

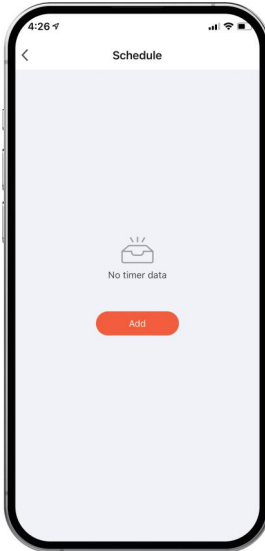

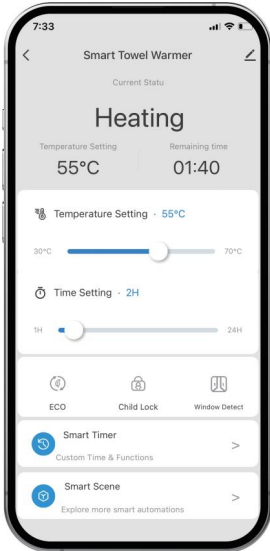

Child Lock Button: Tap to enable or disable the child lock function. When enabled: the touch panel is locked. When disabled: the restriction is lifted.

Window Detect Button: Tap to enable or disable the window detect function. When enabled: the product stops heating and automatically resumes operation after 30 minutes. This feature activates automatically if the ambient temperature drops by 5°C (40°F) within 5 minutes.

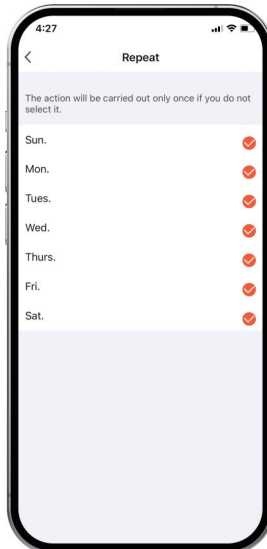

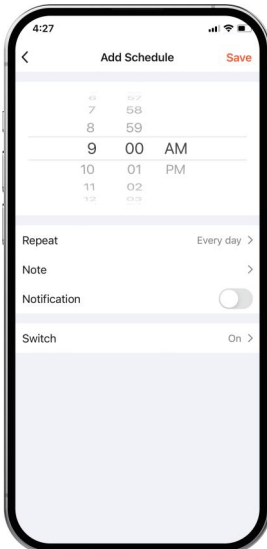

🕒 Smart Timer Settings:

You can set daily on/off times and working modes for each day of the week. The schedule will repeat weekly.

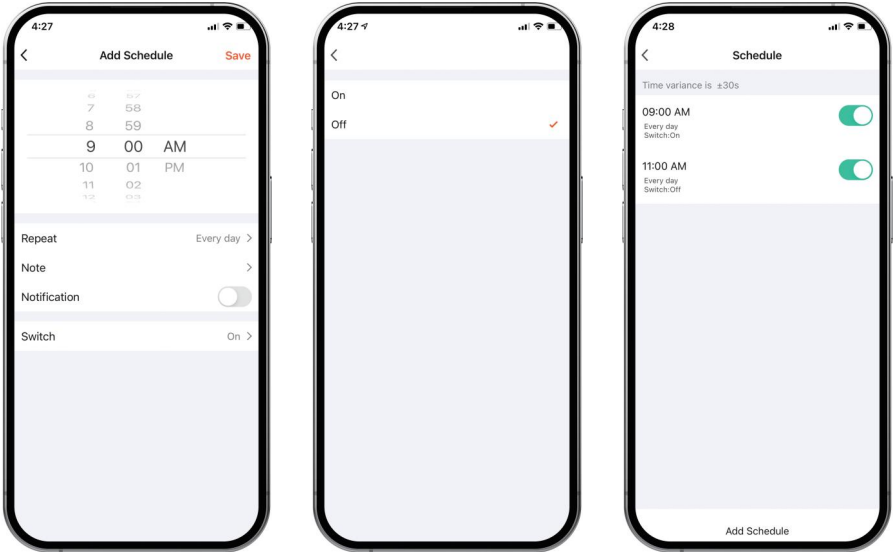

1. In the control interface, tap "Smart Timer" ;
2. Tap "Add" to create a new schedule;
3. Slide the time bar at the top to set the on or off time. Tap "Note" to name the schedule. Tap the "Notification" switch to enable or disable reminders. When enabled, you can monitor the working status of the smart towel rack in real time;

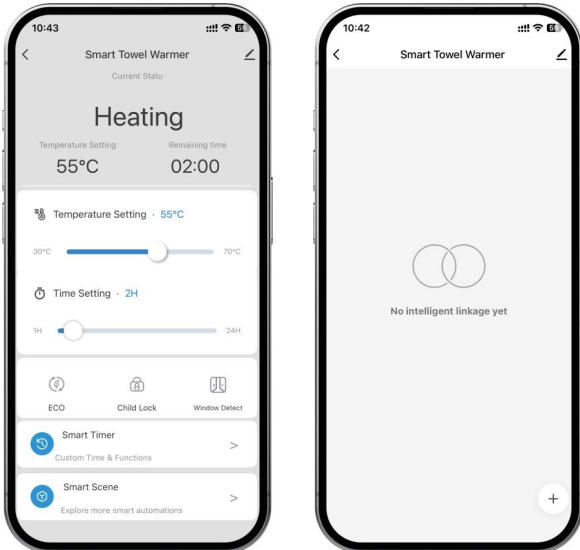

4. Tap "Repeat" to set the frequency and select which days of the week the schedule should repeat;

5. Tap “Switch” to set whether the towel rack should turn on or off at the selected time;
6. Each schedule can only perform one action—either turning the towel rack on or off. To set both an automatic on and off time, create two separate schedules.

 **Smart Scene Settings:** You can create custom automation and link the towel rack with other smart devices in your home; Tap “Smart Scene” to enter the automation setup page, where you can create personalized automation based on your household's smart device configuration.

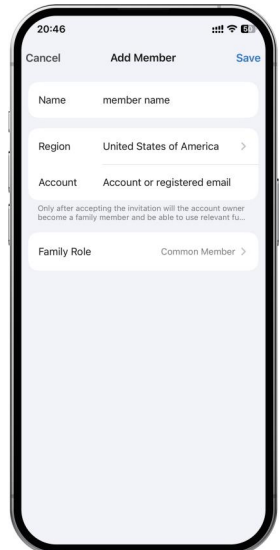

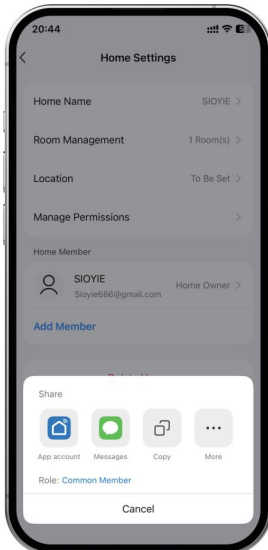

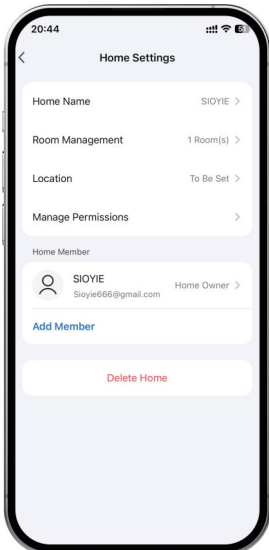

Device Sharing

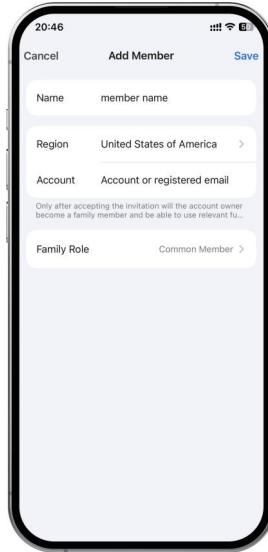

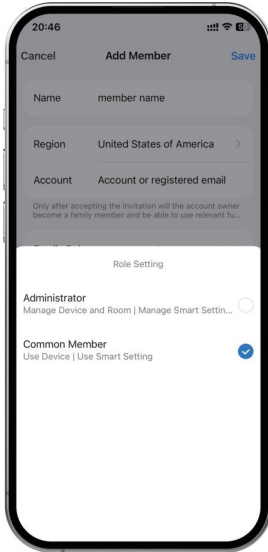

1. Open the Tuya Smart or Smart Life App. On the home page, tap the Home icon in the top left corner;
2. Tap “Home Management” ;
3. Select the home you want to share;

4. Tap “Add Member” to add the person you want to share the home with;
5. Tap “App account” to proceed;
6. Enter the member’s name, select their region, and input their Tuya Smart App or Smart Life App account. Then tap “Family Role” ;

7. Choose whether to assign the member as a Common Member or an Administrator;
8. After completing the information, tap “Save” to confirm;
9. Once the invited members agree to the invitation, they can jointly control the smart devices in the home.

Smart Speaker Connection Guide

The smart towel rack supports voice control through the following smart speakers. This manual provides connection guides for Google Assistant, Amazon Alexa, and Yandex Alice . For other smart speakers, please refer to these tutorials as a reference>(*Note: Smart speakers must be purchased separately).

Google Assistant Amazon Alexa Yandex Alice SmartThings GiGA Genie

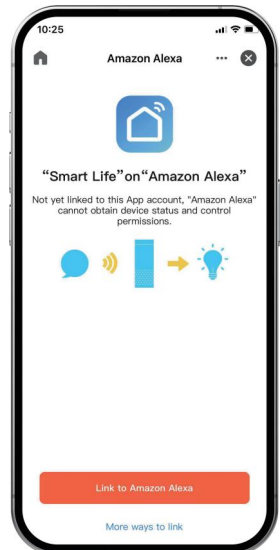

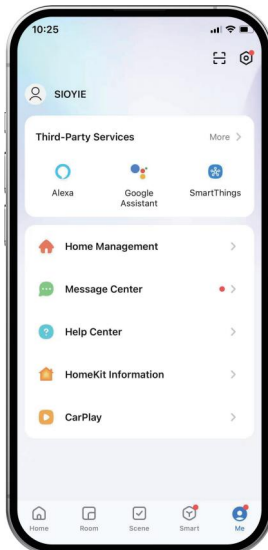

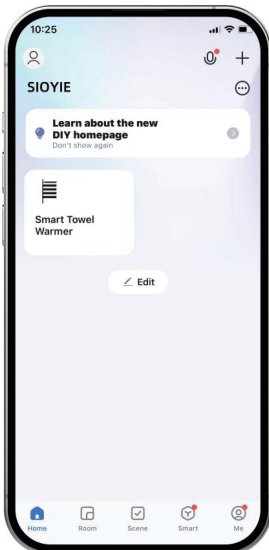

Amazon Alexa Connection Guide

Important Notes:

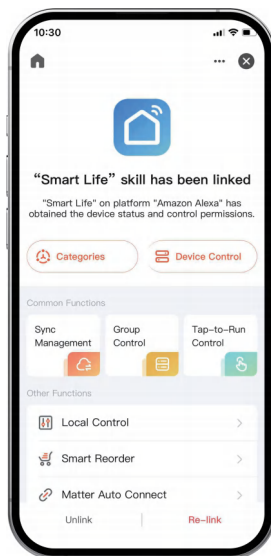

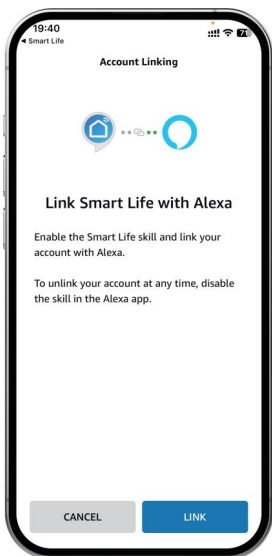

1. Before connecting, please ensure that you have downloaded the Amazon Alexa App and that your Alexa smart speaker is already connected (Alexa devices must be purchased separately);
2. Before connecting to Alexa, ensure the smart towel rack is already added in the Smart Life App or Tuya Smart App;

Connection Steps:

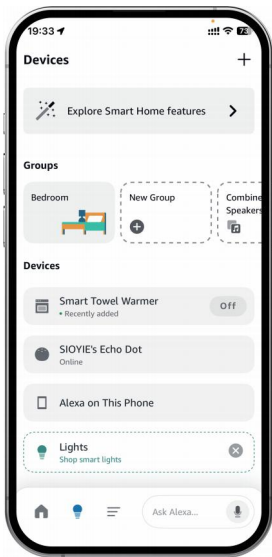

1. Open the Tuya Smart or Smart Life App. Tap “Me” on the bottom navigation bar to enter the personal center;
2. In the “Me” section, tap “Alexa” to begin the connection process;
3. On the Alexa connection screen, tap “Link to Amazon Alexa” ;

4. On the Account Linking confirmation screen, tap "LINK" to confirm;
5. When the confirmation screen appears, tap "Done" to complete the connection;
6. You will be redirected to a success page indicating the connection has been established;

7. Open the Amazon Alexa App. The smart towel rack should now be added under your devices. Tap the device icon at the bottom to view it. Connection is complete.

Amazon Alexa Voice Control Guide:

nce the Amazon Alexa smart speaker is successfully connected to the smart towel rack, you can control the device via voice commands. You can say:

- "Alexa, turn on/off Smart Towel Warmer."
- "set Smart Towel Warmer Time to (1-24)"
- "activate/cancel <Child lock/Window detect/ECO> for the Smart Towel Warmer"

Google Assistant Connection Guide

Important Notes:

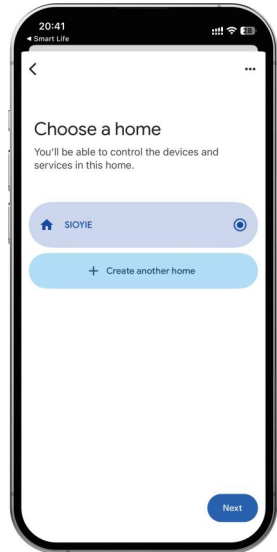

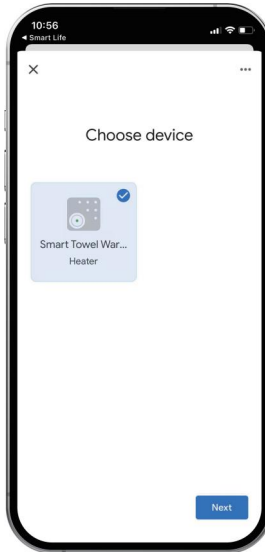

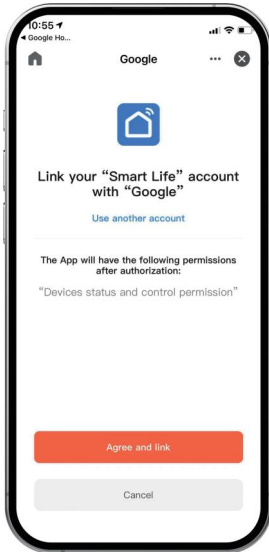

1. Before connecting, please ensure you have downloaded the Google Home App and your Google Assistant smart speaker is already connected (Google Assistant devices must be purchased separately);
2. Make sure the smart towel rack is already added to the Smart Life or Tuya Smart App before proceeding with the connection;

Connection Steps:

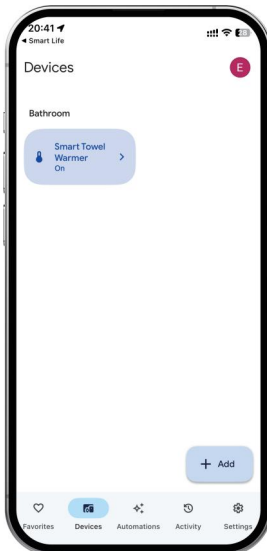

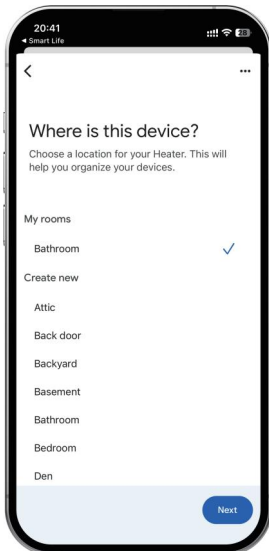

1. Open the Tuya Smart or Smart Life App. Tap “Me” on the bottom navigation bar to enter your profile;
2. In the “Me” section, tap “Google Assistant” to enter the connection setup;
3. On the Google Assistant connection screen, tap “Link to Google” to begin;

4. Tap "Agree and link" ;
5. Select the devices you want to control and tap "Next" to confirm;
6. Choose the home where the device belongs and tap "Next" to confirm;

7. Select the room for the device and tap "Next" to confirm;
8. Return to the Google Home App main screen. The device will be added automatically. Tap "Devices" at the bottom to view the connected device. The setup is complete.

Google Assistant Voice Control Guide:

After successfully connecting the Google Assistant smart speaker to the smart towel rack, you can control the device via voice commands.

You can say:

"Google, turn on/off Smart Towel Warmer."

"set Smart Towel Warmer Time to (1-24)"

"activate/cancel <Child lock/Window detect/ECO> for the Smart Towel Warmer"

"set the Smart Towel Warmer to <Sleep mode>"

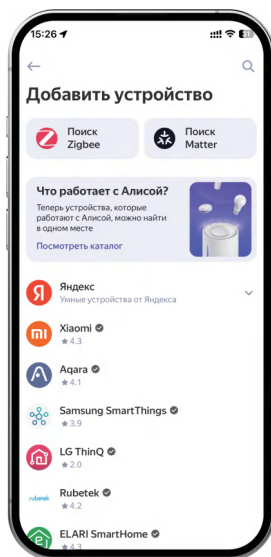

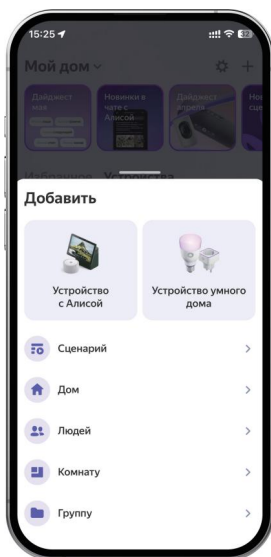

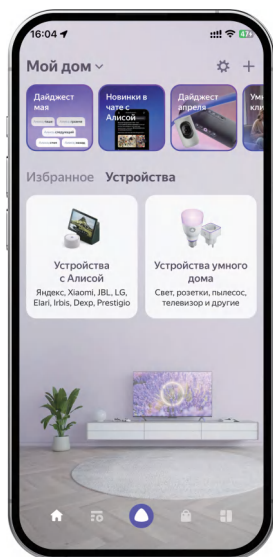

Yandex Alice Connection Guide

Important Notes:

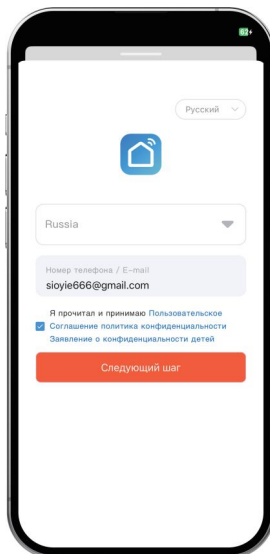

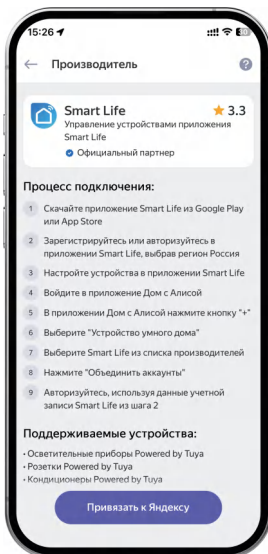

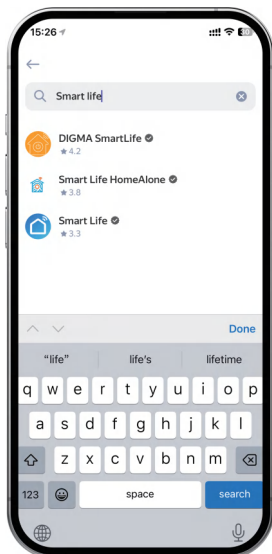

1. Before connecting, please ensure you have downloaded the Умный Дом (Smart Home) App and your Yandex Alice smart speaker is already connected (Yandex Alice devices must be purchased separately);
2. Make sure the smart towel rack is already added to the Smart Life or Tuya Smart App before proceeding;

Connection Steps:

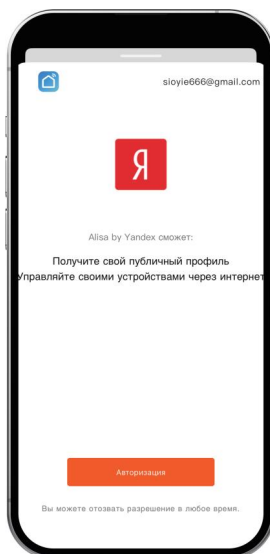

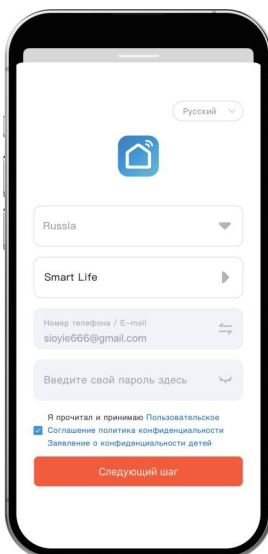

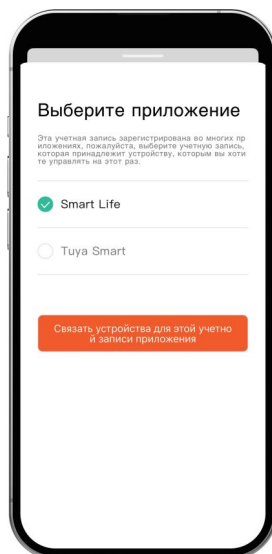

1. Open the Умный Дом (Smart Home) App and tap the “+” icon in the top right corner;
2. Tap “Устройство умного дома” (Smart Home Device);
3. Tap the search icon in the top right corner;

- Type "smart life" or "tuya smart", then select the corresponding app;
- On the next screen, tap "Привязать к Яндексу" (Link to Yandex);
- Enter your Smart Life or Tuya Smart login phone number or email, agree to the user agreement, and tap "Следующий шаг" (Next Step);

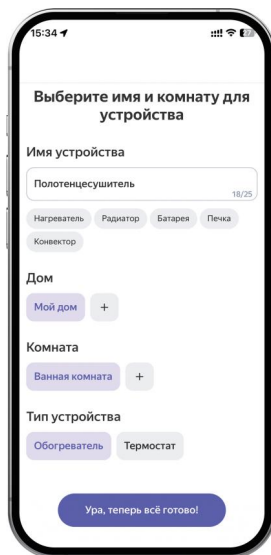

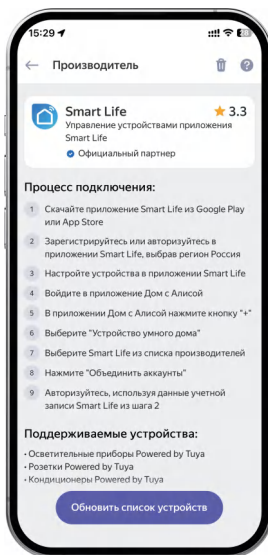

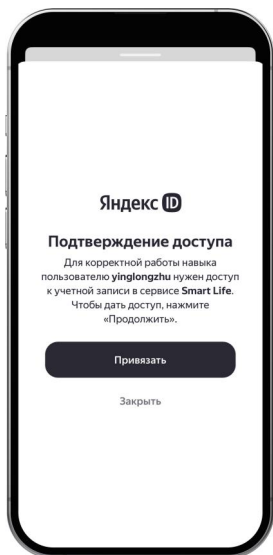

- Select the app to connect and tap "Связать устройства для этой учетной записи приложения" (Link devices for this app account);
- Enter your password, agree to the user agreement, and tap "Следующий шаг" (Next Step);
- Tap "Авторизация" (Authorization);

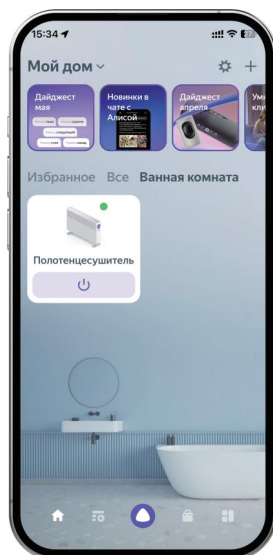

10. Tap “Привязать” (Bind);

11. Tap “Обновить список устройств” (Refresh device list);

12. Customize the device name, select the home and room for the device, choose any device type, then tap “Ура, теперь всё готово!” (Hooray, all done!);

13. Return to the home screen to see the connected device. Connection is complete.

Yandex Alice Voice Control Guide;

After successfully connecting Yandex Alice to the smart towel rack, you can control the device by voice.

You can say:

“Алиса, включи/выключи Полотенцесушитель”
(“Alice, turn on/off the Towel Warmer.”)
