ASSEMBLY AND INSTALLATION INSTRUCTIONS

WARNING: TO AVOID RISK OF ELECTRICAL SHOCK, BE SURE TO SHUT OFF POWER BEFORE INSTALLING OR SERVICING THIS FIXTURE.

Before You Begin:

- Ensure power is turned off at the circuit breaker before installation.
- Read all instructions carefully.
- Installation should be performed by a qualified electrician if you are unfamiliar with wiring.

Step-by-Step Installation:

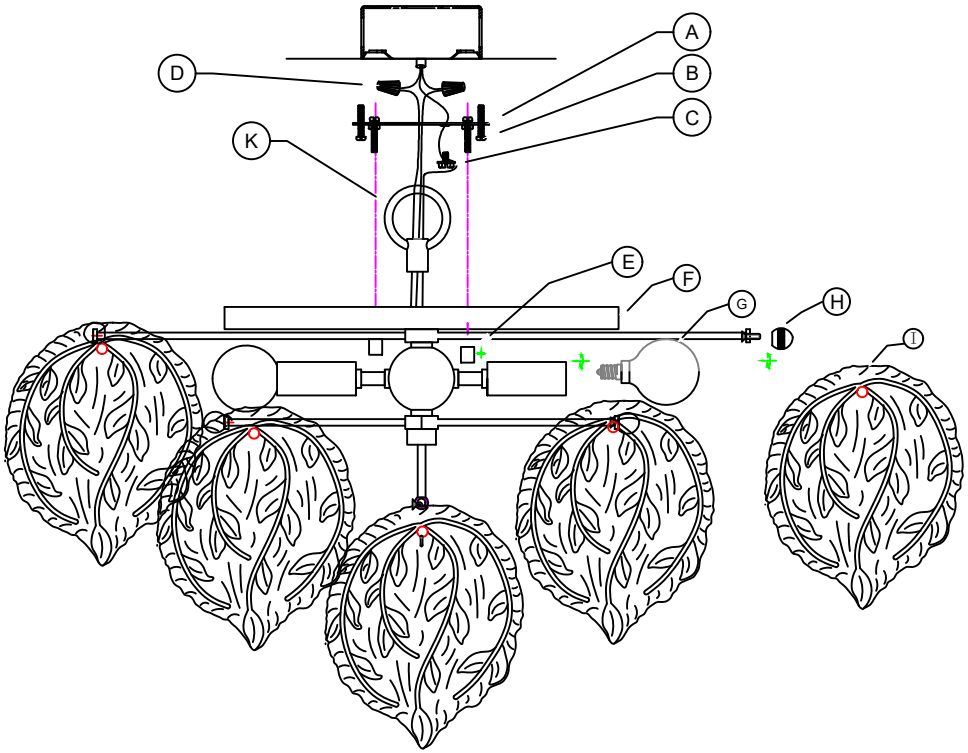

Installation Instructions（Pendant Light）
1.Secure the mounting plate (A) to the junction box using mounting screws (B).
2.Insert two screws (O) through the holes in the metal suspension plate, and tighten them with decorative nuts.
3.Screw the suspension ring (J) onto the metal plate.
4.Open the quick links (N) on both ends of the chain (I). Attach them to the suspension ring (J) on the metal patel and to the upper ring (F) on the canopy (H).
5.Thread the Main Wires
·Screw the threaded nipple (E) into the mounting plate (A).
·Thread the wires through the chain (I), threaded ring (G), canopy (H), suspension ring (F), threaded nipple (E), and mounting plate (A).
6.Cut excess wire, and strip insulation from the end of each conductor.
7.Connect the ground wire (silver) to the grounding terminal in the junction box or the grounding screw (C) on the mounting plate (A).
8.Wire Connections
·Use wire connectors (D) to connect the black (hot) wire to the black wire, the white (neutral) wire to the white wire, and the ground wire to the grounding terminal.
·Ensure no exposed conductors remain outside wire connectors or outside the junction box.
9.Tuck all wires into the junction box. Lift the canopy (H) to the ceiling and secure it by tightening the threaded ring (G).
10.Screw the bulbs (K) into the light holders. (Bulbs not included).
11.Unscrew the finial ball (L), and hang the glass panel (M) on the fixture body, and secure it by tightening the finial ball.
12.Restore power at the circuit breaker or fuse box.

Safety Instructions:

To avoid fire, shock, and serious personal injury, follow all instructions carefully.
1. Do not install or use the light fixture if any part is missing or damaged.
2. To avoid possible electrical shock be sure electricity is turned off at the main fuse or circuit breaker box before wiring.
3. Make certain no bare wires are exposed outside the wire connectors.
4. All wiring must conform to national and local electrical codes.
5. Follow the recommended instructions for the proper method of wiring your new light fixture. If you feel you do not have enough electrical wiring knowledge or experience, have your light fixture installed by a licensed electrician. Any electrical work not described in this manual should be performed by a licensed electrician.

ASSEMBLY AND INSTALLATION INSTRUCTIONS

WARNING: TO AVOID RISK OF ELECTRICAL SHOCK, BE SURE TO SHUT OFF POWER BEFORE INSTALLING OR SERVICING THIS FIXTURE.

Before You Begin:

- Ensure power is turned off at the circuit breaker before installation.
- Read all instructions carefully.
- Installation should be performed by a qualified electrician if you are unfamiliar with wiring.

Step-by-Step Installation:

Installation Instructions（Flush Mount Light）

1.Cut the wires (hot, neutral, ground wires) to the desired length (recommended 16 inches), and strip the insulation from the ends of the wires.
2.Remove the suspension ring (K) from the fixture body.
3.Secure the mounting plate (A) to the junction box using mounting screws (B).
4.Connect the ground wire (silver) to the grounding terminal in the junction box or the grounding screw (C) on the mounting plate (A).
5.Wire Connections
·Use wire connectors (D) to connect the black (hot) wire to the black wire, the white (neutral) wire to the white wire, and the ground wire to the grounding terminal.
·Ensure no exposed conductors remain outside wire connectors or outside the junction box.
6.Place the metal plate (F) over the mounting plate (A), and secure it with the decorative nuts (E).
7.Screw the bulbs (G) into the light holders. (Bulbs not included).
8.Unscrew the finial ball (H), and hang the glass panel (I) on the fixture body, and secure it by tightening the finial ball.
9.Restore power at the circuit breaker or fuse box.

Safety Instructions:
