

# Maxwell LED USB Table Lamp

## Instructions

### Please read and save these instructions:

1. Take the pieces out the box and lay them on a flat surface.
2. Remove the socket ring (A) from the cross metal beams at the bottom of the lampshade.
3. Set the shade (B) on the socket (C) and tighten the screw clockwise to secure the shade.
4. Screw in the included LED bulb into the base of the shade. (Do not tighten too tight or it can damage the screw base and/or the LED bulb.)
5. Plug the lamp in and enjoy your new Brightech Maxwell Desk Lamp.

### Maintenance:

This lamp requires the use of a maximum 13-watt CFL light bulb or a 60-watt maximum standard incandescent bulb. Wattages listed are maximums - lower wattages may be used.

USB Max: 5V-1A

### IMPORTANT SAFETY INSTRUCTIONS:

This portable lamp has a polarized plug (two different sized prongs) as a feature to reduce the risk of electric shock. This plug will fit only one way into a polarized outlet. If the plug does not fit fully in the outlet, turn the plug 180 degrees. If it still does not fit, contact a qualified electrician. NEVER use with an extension cord unless the plug can be fully inserted.

DO NOT ALTER THE PLUG IN ANY WAY.

Thank you for your purchase of the Maxwell LED USB Table Lamp. Please visit our website or contact us via email if you have any questions or comments about your new lamp.
