No Tools or Hardware Required for Assembly.

Assembly Instructions:

1. Lay your pedestal frame pieces flat on the ground in the arrangement in which they will be assembled:

Your 2 longest pieces are your **Side Pieces**. One short piece will go at the **Foot** of the bed. The other short piece will go at the **Head** of the bed. The 3 **Center Support Pieces** are the smallest pieces and will go in the center of the pedestal frame. You should have a total of 3 **Center Support Pieces**: one **Center Support Piece** has two slits cut into it and two **Center Support Pieces** has one slit cut into the center of each.

2. Stand one **Side Piece** up on its side with the slit opening facing UP. Stand the **Head Piece** on its side with the slit opening facing DOWN. Align the two slits together and slip the **Head Piece** into the opening of the **Side Piece**. Ensure the two pieces are secured together by pushing the **Head Piece** all the way down.

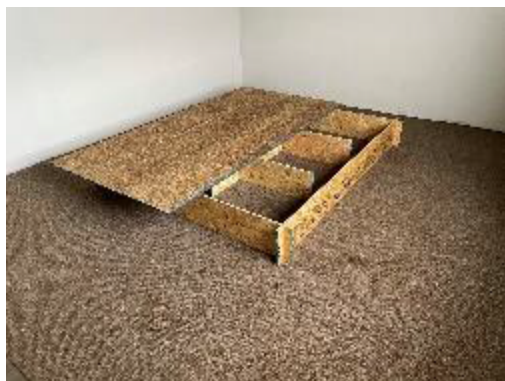

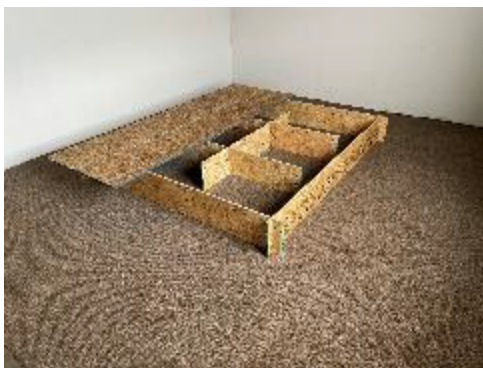

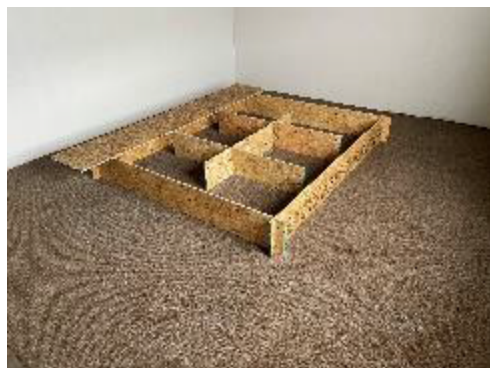

3. Stand the other **Side Piece** up on its side with the slit opening facing UP. Align the **Side Piece** with the other end of the **Head Piece** and slip the **Head Piece** into the opening of the **Side Piece**. Ensure the two pieces are secured together by pushing the **Head Piece** all the way down.
4. Stand the **Foot Piece** up on its side with the slit opening facing DOWN. Slip each end into the **Side Pieces** one at a time. Ensure the pieces are secured together by pushing the **Foot Piece** all the way down on each side.
5. Now that your Pedestal Frame is built, slip together your **Center Support Pieces** in the middle of the Pedestal Frame. The **Center Support Piece** with TWO Slits in it should be placed long ways with the slits facing UP in the center of the frame. The **Center Support Pieces** with ONE Slit in it should be placed long ways with slits facing DOWN over the piece with two slits. The slits should lock each piece in place.

6. Your **Pedestal** is now fully assembled.

7. *If your purchase included a **Support Deck***, lay down your **Wood Decking** pieces, one at a time, on top of the Pedestal. There will be an overhang on all sides.

Thank you for your purchase!
