Premium Sporting Goods

SPLASH HOOP® ELITE

Set Includes:

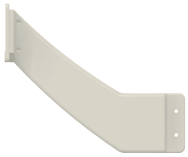

Backboard

Upright

Neck Piece

Base with Fill Cap

Rim & Net Assembly

Square Bolts with Nuts (4)

Wrench Tool

Allen Key

Basketballs (2)

Ball Pump with Needle

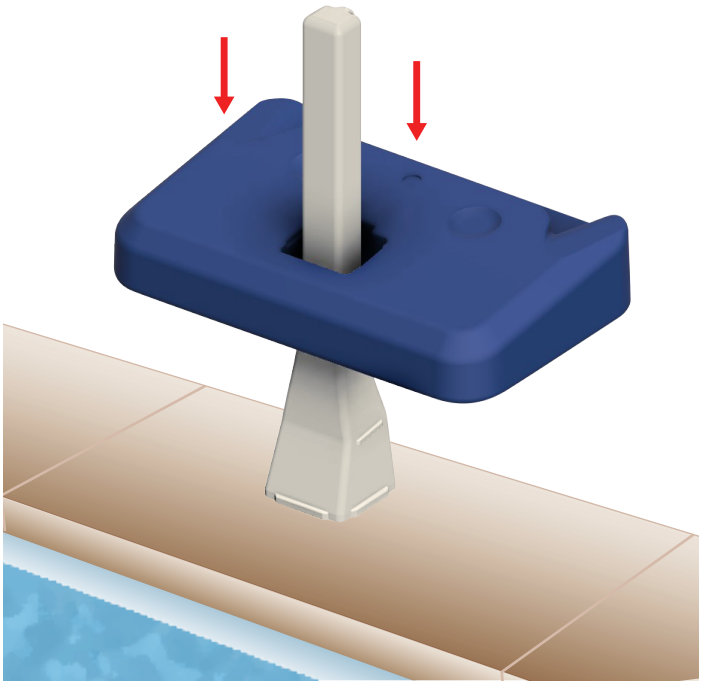

Assembly:

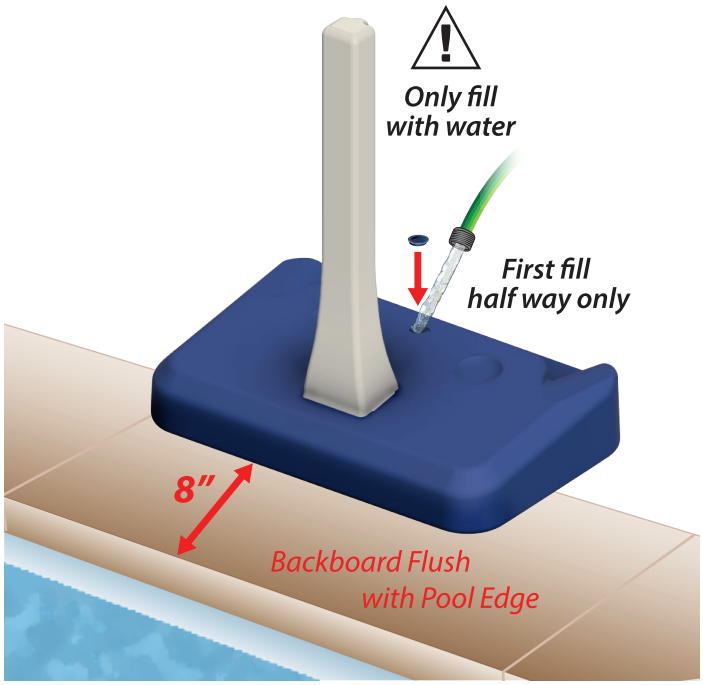

2 Person Adult Assembly Required

Assemble near the edge of your pool where the Splash Hoop® will ultimately be used. This is necessary to reduce heavy lifting as the fully assembled water-filled weight will be approximately 200lbs.

1. With 2 adults, lift the Base and firmly press it down over the Upright until both pieces snap into place. Inspect underneath the Base after to ensure the Upright is completely flush with the Base.

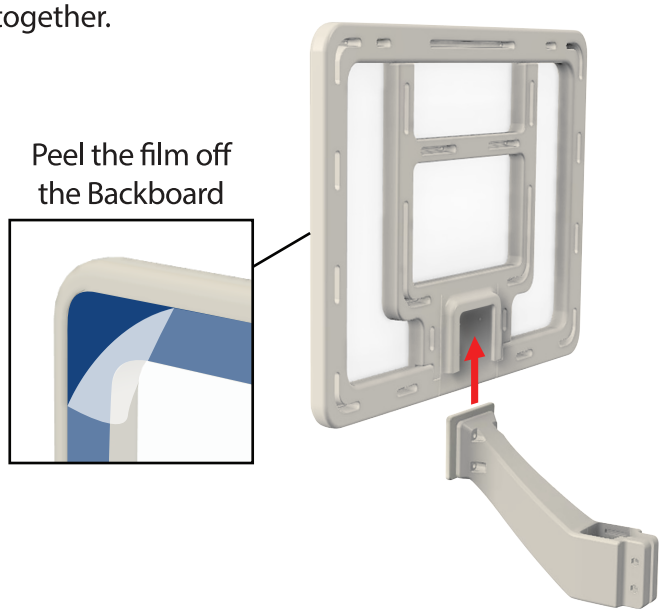

2. Before filling the Base with water half way, ensure it is in the desired playing area and that it is at least 8" from the edge of the pool. This placement will ensure the backboard is flush with the edge of the pool, and will also reduce the risk of tipping. Once the Base is filled half way, seal it with the Base Fill Cap.

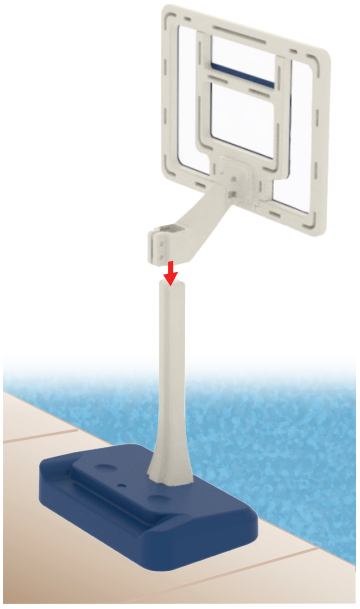

assembly continued on back ⟶

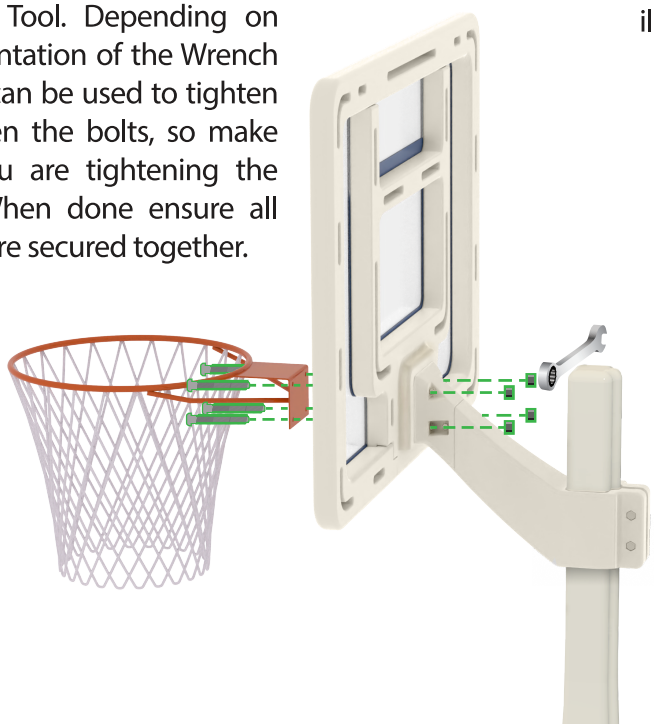

3. Now slide the Backboard onto the Neck Piece and firmly press down to ensure both pieces are joined together.

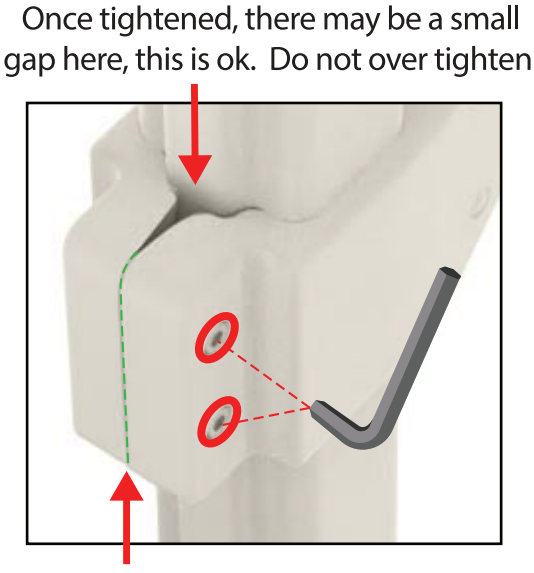

4. With 2 adults, carefully lift and slide the Backboard and Neck Piece Assembly onto the Upright. Ensure the half-filled base can support the Backboard and Neck Piece.

5. With the other pieces stabilized, have 2 adults use the 4 Square Bolts and Nuts to connect the Rim and Net through the Backboard and to the Neck Piece. Push on the bolts to keep them from popping out when you're screwing the Nuts from the other side using the Wrench Tool. Depending on the orientation of the Wrench Tool, it can be used to tighten or loosen the bolts, so make sure you are tightening the bolts. When done ensure all pieces are secured together.

6. Now move the Backboard to the desired height and secure it into place by clamping the Neck Piece shut. Use the Allen Key to firmly tighten the bolts in the Neck Piece until the first part of the plastic touches. It is normal if the inside edge is not touching (see illustration).

7. Finally fill the remainder of the Base with water and you're done!

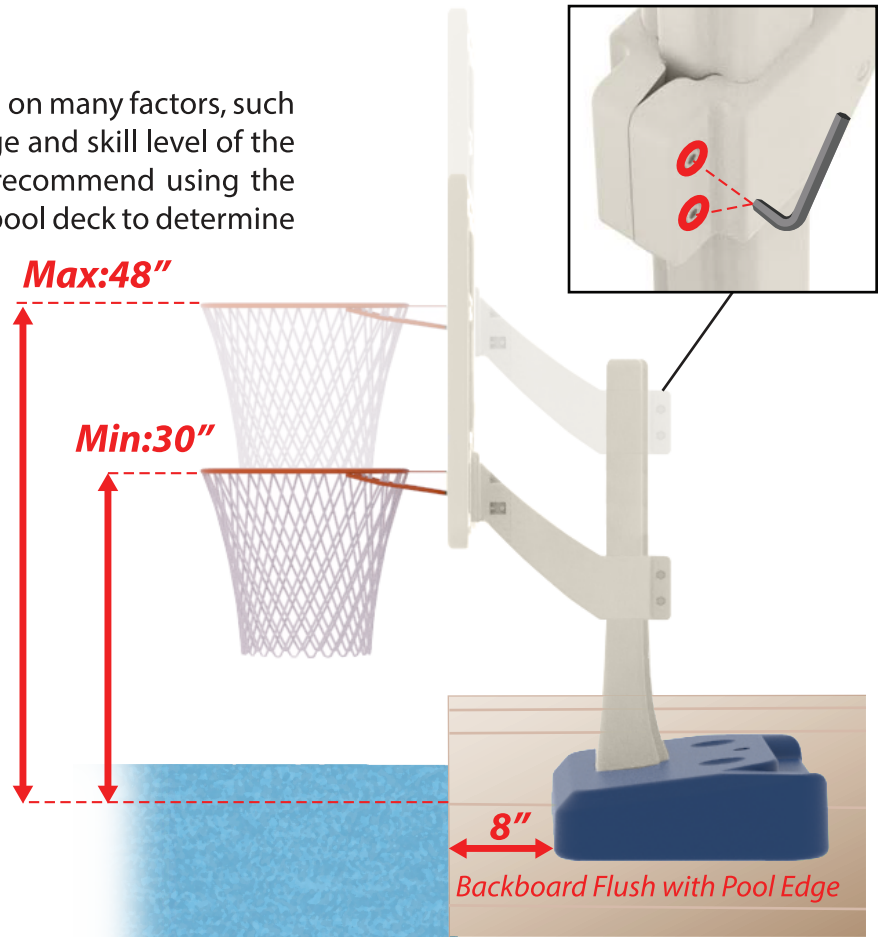

Height Adjustment:

2 Adults Required

The optimal Backboard height will depend on many factors, such as the water level of your pool, and the age and skill level of the players. As a general rule of thumb, we recommend using the distance from the rim to the edge of your pool deck to determine the best height for you. See illustration for min. and max. heights.

As a benefit of the design, the lower the height of the Backboard, the better it will resist impact from incoming basketballs and remain more stable.

To adjust the height of the Backboard, hold the Backboard up while loosening the bolts on the Neck Piece (see illustration). Once loosened, slide the Backboard up or down along the Upright to your desired height. Hold the Backboard at the desired height and secure it into place by re-tightening the bolts on the Neck Piece to clamp it shut.

Care Instructions:

- To prolong the products lifespan, we recommend storing the Splash Hoop® ELITE and all accessories indoors when not in use for long periods of time. Ensure the base is drained and all parts are dry before storing.
- Store the basketballs indoors when not in use, as leaving them in the water or sun will rapidly fade the colors.
- Exercise care not to scratch the rim's powder coating, otherwise it may become vulnerable to rust.

⚠ WARNING

No dunking, hanging or climbing on the rim, backboard or other parts. Although the base is weighted, pulling or hanging on the rim can cause the product to tip over causing severe injury or death.

Remove all jewelry (rings, necklaces, etc) before use as there is risk of catching on the rim potentially causing severe injury.

Adult supervision required at all times. Never leave children unattended or obstructed from view when in the water.

Customer Service:

If you have any questions or concerns regarding your GoSports® Splash Hoop® ELITE, please reach out to us at info@PlayGoSports.com and we will get back to you right away. We stand behind our products 100% and want to make sure you get the full enjoyment that you paid for.
