

How to install sofa legs for item

What you need

4 Legs (included)

4 Metal Bars (Included)

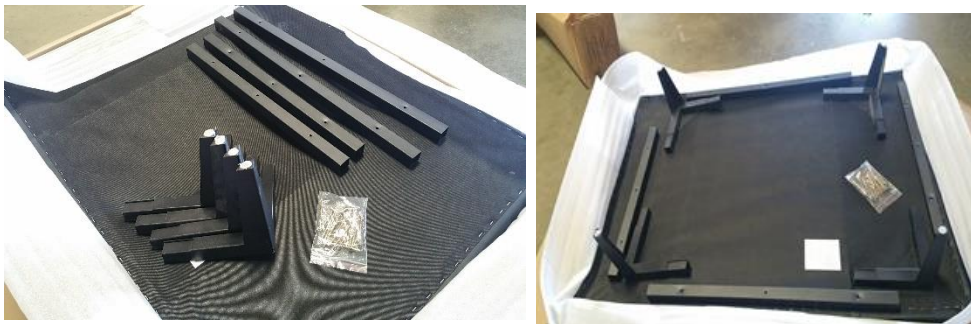

Couple of long Wood Screws (included) for metal bars.

Couple of Short Wood Screws (included) for legs.

Screw Driver (not included)

How to assemble:

Step 1. (Open carton box you should have 4 metal bars inside 4 legs. Turn your sofa over place bars on each side of the sofa and the legs on each corner. see pictures #2 for more details.)

Step 2. Insert metal bars with legs making one single square.

Step 3. Once everything is inserted use a screwdriver to tighten the screws on the sofa frame to hold the legs/frame in place.
